RULES

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stair hall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) Prohibition. No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages—as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) Application. Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) Time Limit. Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon the expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) Conditions. The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) Revocation. Violation of any of the conditions specified in the permit in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

Notice of Public Hearing on Proposed Amendments to
the Rules for Arc and Gas Welding and Oxygen
Cutting.

PUBLIC HEARINGS

Tuesdays at 10 a.m. to 2 p.m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building,
Borough of Manhattan.

HOURS OF CONSULTATION

10. A. M. to 1 P. M.

Any person desiring to consult the chairman or the
engineers, pertaining to the work of the board, will be
seen only between the hours of ten in the morning and
one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection
with which court proceedings are pending or in progress,
unless exception is granted by the chairman, nor accepted
which is not filed within thirty days from the date of the
action of the Administrative Official.

Any communication purporting to be an appeal or appli-
cation shall be regarded as a mere notice of intention to seek
relief until it is filed on the form required by the rules of
this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his appeal
or application.

At the time of filing an appeal or application, the appel-
lant or applicant shall forward a signed notice of appeal
addressed to the administrative official either borough super-
intendent of buildings or fire commissioner and file with
this board a duplicate of said notice.

Appellant and applicants are advised that their plans must
indicate the points of the compass so as to establish the true
location and position of the property, the subject of the
appeal or application.

Appeals and applications will be simplified and disposition
of same expedited by conforming to these directions.

HARRIS H. MURDOCK, Chairman.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on May 23, 1939 this application (Vol. I) was granted by the Board on certain conditions under section 21 of the zoning resolution, to permit in a residence and business use district, for one year, the parking and storage of more than five motor vehicles of pleasure car type, of permanent guests of the Kew Gardens Inn, now occupied as Kew Gardens Hospital, for a term of one year; and

WHEREAS, on April 9, 1940 the term of variance was extended for a term of two years; and

WHEREAS, on March 16, 1948, March 1, 1949, March 21, 1950 and June 3, 1952 the Board amended resolution to permit extension of term of variance for a term of two years, and to permit space indicated to be occupied in connection with hospital for parking of doctors' and patients' cars; and

WHEREAS, the applicant requested reopening of this application and extension of the term of variance, which had expired by time limitation on June 3, 1954; and

WHEREAS, this application was reopened on March 8, 1955 and set for hearing on April 19, 1955 at 10 A.M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin, new plans; and

WHEREAS, a public hearing was held on this application on April 19, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated March 3, 1955 acting on Misc. Applic. 802-47, reads:

"1. Extension of time beyond that approved in Resolution under Cal. #913-38-BZ must first be submitted to the Board of Standards & Appeals."

and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 23, 1939, and as thereafter amended by resolution adopted through June 3, 1952, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * granted under Section 7, Subdivision h for a term of five years from the date of this amended resolution, to permit * * *; that other than as herein amended the resolution above cited shall be complied with in all respects and that a new Certificate of Occupancy shall be obtained; and as shown on plans filed with this application marked 'Received, March 4, 1955' (one sheet). (Misc. App. 802-47; decision of March 3, 1955)

404-54-BZ

APPLICANT—A. J. Daidone, for Department of Public Works, City of New York, owner.

SUBJECT—Application May 21, 1954 (decision of the borough superintendent), under section 19A(j) of the zoning resolution, to permit in a residence use district the erection and maintenance of a public health center and library, without the required loading berths.

PREMISES AFFECTED—2521-2527 Glebe avenue and 1525-1535 Overing street, northwest corner, Block 3786, Lots 34 to 39 inclusive, and lot 41, Borough of The Bronx.

APPEARANCES—

For Applicant: S. H. Greenhill.

For Opposition: None.

MINUTES

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 19, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Glebe avenue and Overing street are in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent dated May 14, 1954 acting on N.B. Applic. 932-51, reads:

"17. Objection repeated. Provide loading space as per Sec. 19A(a) & (c) zoning resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, presently vacant; that it is proposed to erect a public health center and library; and

WHEREAS, the applicant further states that plans for the structure to be known as the Westchester Square Health Center and Library were approved on September 11, 1951 but that budgetary limitations precluded the Board of Estimate authorization to commence construction until 1953-54; that as the department of housing and buildings approval had expired in the interim, it became necessary to request an extension of the 1951 approval; that the borough superintendent denied the extension of approval on the ground that section 19 had been amended to include section 19-A defining the requirements for loading berths; that this amendment became effective on June 30, 1952 and was therefore not applicable to this project, the approval of which, dated September 11, 1951 was still in force; and

WHEREAS, the applicant contends that a variation would not violate the spirit of the zoning resolution in view of the fact that beyond the initial delivery of equipment and supplies, the requirements of this type of building would cause no more than infrequent and negligible loading or unloading activity from vehicular transportation; that to be compelled to provide loading berths, which would be of little practical use and rarely utilized, would be to deprive the building of much needed interior working space by reducing its dimensions; that in addition, the Board's attention is invited to note the seclusion of both Glebe avenue and Overing street, bounding the building, neither of which streets are main thoroughfares or important highways for vehicular traffic; that the Board is requested to grant a variation from section 19A so that ample space, necessary for efficient operations within this health center and library building, may be conducted in the interest of public service; and

WHEREAS, in the opinion of the Board there is no need for a loading berth in this type of occupancy and that an exception in the law was probably not considered; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 19A, Subdivision j of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 19A, subdivision j, to permit the omission of a loading berth, as proposed and as indicated on plans filed with this application, marked "Received May 21, 1954", 6 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that this variance is granted only so long as the building is occupied as a public health center and public library; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

554-54-BZ

APPLICANT—Ervin Palmer, for Frank W. Lahey, owner.
SUBJECT—Application June 30, 1954 (decision of the borough superintendent), under sections 7c, 7i and 7A of the zoning resolution, to permit in the business use portion of a lot located in a residence and business use district, the reconstruction and extension in area of accessory building on existing gasoline service station and motor vehicle repair shop, with show windows and entrances nearer the residence use district than is permitted, and to permit the parking of motor vehicles on unbuilt upon portion of plot.

PREMISES AFFECTED—6201-6211 Avenue U and 2067-2083 Mill avenue, northeast corner, Block 8405, Lot 44, Borough of Brooklyn.

APPEARANCES—

For Applicant: Ervin Palmer.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and John J. Saunder, Bd. of Education.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 15, 1955 after due notice by publication in the Bulletin; laid over to April 19, 1955, for inspection and decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Mill avenue are in residence and business use, A and D area, class 1 height districts; Avenue U is in business and unrestricted use, A and D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated June 25, 1954 acting on Alt. Applic. 3831-53, reads:

"1. Proposed enlarging area of gasoline service station & reconstructing bldgs. on a plot located partly within a residential & partly within a business use district is contrary to Art. 2 Sect. 3 & Art. 2 Sect. 4a-46 of the zone resolution.

2. Proposed show window & entrance to accessory bldgs. located within 75 ft. of a residential district violates Art. 2 Sect. 7A of the zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 140 ft. in depth, on which is located an existing gasoline service station, a parking space for more than 5 motor vehicles, sales room for auto accessories, greasing pits and lifts on it; that it is so occupied and used since its original installation on the entire property; that there are four 550 gallon gas tanks under the surface and four pumps at the front; that the use zone in 1929 was undetermined and the change to business and residence zone was made on December 12, 1930; that records show that construction was started on October 3, 1929 but the work was not fully completed until June 9, 1932, whereupon certificate of occupancy No. 67656 was issued; that it is proposed to rebuild the station; and

WHEREAS, the applicant contends that the station is antiquated and it is in need of modernization in order to take care of modern cars and present equipment; that it is proposed to enclose greasing lifts so that cars can be attended to in inclement weather; that no part of the proposed building will extend into the residence zone; and

WHEREAS, the applicant further contends that except for the fact that Avenue U became a traffic artery, the properties in this neighborhood have improved little since the erection of the subject station; that most of the homes existed at the time this station was erected; that the vacant properties still number more frontage than the built in lots; that the south side of Avenue U is unrestricted and is occupied by factories, a greenhouse and the mill basin occupies a long frontage on Avenue U; that the school property is in the next block

MINUTES

with a street intervening; that the distance from the closest curb cut to the school entrance is just over 200 ft.; that some of the adjacent streets are still unpaved and Mill avenue was only paved last month; that it is not intended to use more space for parking, since the entire space was so used for all these years, nor is it intended to increase the space used for other purposes; that it is planned only to arrange the building for more useful purposes, to enclose the amount of space used for pits or lifts and to give the entire station a more pleasing and modern appearance; and

WHEREAS, the applicant states that the present owner has held title to the property since June 1, 1929; that the assessed valuation of land is \$12,000 and of the building \$2,000 making a total of \$14,000; that the building was erected 1929; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions c, i and A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the reconstruction and rearrangement of the lawfully existing gasoline service station, substantially as proposed and as indicated on plans filed with this application, marked "Received June 30, 1954", 5 sheets, and "March 2, 1955", 2 sheets, *on condition* that all buildings and uses shall be removed from the premises and the premises shall be reconstructed and rearranged as indicated on such revised plans; that the accessory building shall be arranged and located substantially where proposed and shall be faced throughout the exterior with face brick; that the greasing pit for trucks may be installed in the position shown on such revised plans; that pumps shall be of a low approved type, erected not nearer than 15 feet to either street building line; that the portion in the rear may be occupied in connection with the gasoline station for the parking and storage of motor vehicles; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; that under Section 7A the curb cuts may be located as herein permitted, namely two to Mill avenue and two to Avenue U of the width shown and with no portion of any curb cut nearer than 5 feet to a lot line as prolonged; that inside the intersection there shall be erected a block of concrete not less than 5 feet along either building line, which shall be not less than 12 inches in height; that the number of gasoline storage tanks shall not exceed ten 550 gallon tanks; that there shall be no cellar under the accessory building and it shall otherwise comply with the requirements of the Building Code; that the premises where not occupied by accessory building and tanks shall be paved with concrete or asphaltic paving; that along the lot lines where walls of accessory building do not occur there shall be erected a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height erected on a masonry base; that the sidewalks and curbing abutting the premises shall be reconstructed or restored to the satisfaction of the Borough President; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection within the building line at the intersection of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than 4 feet; that under section 7i there may be minor repairs for adjustments only with hand tools maintained solely within the accessory building; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

583-54-BZ

APPLICANT—Leonard F. Rothkrug, for Tessie and John Vernola, owners.

SUBJECT—Application July 13, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a residence use, D area district, the maintenance of existing one story, one family dwelling, of class 4 construction, at rear of lot, within the required rear yard.

PREMISES AFFECTED—990 East 56th street, west side, 355 ft. south of Avenue H, Block 7759, Lot 64, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 22, 1955 after due notice by publication in the Bulletin; laid over to April 19, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, East 56th street and Avenue H are in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated June 14, 1954 acting on Alt. Applic. 3585-54, reads:

"1. The one story Class 4 (wood frame) structure occupied as a one family dwelling located at the rear of premises within the required rear yard in a residence 'D' district area district is contrary to Art. 4 Sect. 17a of the Zone Resolution.

Note this dep't has no record of the structure as shown, except for the 18' x 48' wood frame structure shown on Alt. 2766/39."

and

WHEREAS, the applicant states that the premises consist of a plot, 60 ft. frontage by 100 ft. in depth, on which is located two frame, one story dwellings; that the plot which is now designated as lot 64 formerly was designated as lots 64 and 65; that in 1930 lot 65 is shown as being vacant and unimproved whereas lot 64, which must have been a lot 20 ft. front by 100 ft. in depth at the northerly third of the site, had a frame building approximately 20 ft. in width by 22 ft. in depth; that certificate of occupancy No. 62172 issued October 31, 1930 after completion of work under Alt. No. 2269/27 provides for a one family dwelling; that all other extensions and additions to the building, according to the records of the department of housing and buildings have been built after 1930; that Alt. No. 2766/39 approved July 24, 1939 affecting the former lot 64 describes the building as being 18 ft. front by 48 ft. in depth; that by survey dated December 16, 1953 there is presently existing a one story concrete and stucco building, being 22 ft. 4½ in. front by 48 ft. in depth, irregular, with a one story extension at the southerly side being 13 ft. 8½ in. front by 15 ft. 2¼ in. in depth; and a one story concrete and stucco building at the southwesterly part of the plot being approximately 22 ft. front by 32 ft. in depth, irregular, extending to within 3 ft. 1½ in. to the rear lot line; and

WHEREAS, the applicant contends that the neighborhood is a sparsely developed countrified community in which the present owners have lived since they emigrated to this country; that the site is a lot 60 ft. by 100 ft. and the existing buildings occupy less area than is presently allowed in the area district in which the premises are located; that the owners could therefore have erected extensions which would have been within the limitations of the zoning resolution equal in area to the existing extensions, had they been aware that there were restrictions; that the owners of the premises increased the building by adding a room at a time, as the size of their family dictated; that the site which formerly consisted of two lots and on which there are two buildings would now be entitled to a certain number of one car garages within

MINUTES

the required rear yards; that the lot directly abutting the premises has a one car garage along the rear lot line at the point where one of the extensions to the subject building encroaches into the required rear yard; that the buildings are one story in height and are each occupied by only one family and it is not proposed to increase the building in either height or area; and

WHEREAS, the applicant states that the present owner has held title to the property since July 7, 1948; that the assessed valuation of land is \$3,500 and of the buildings \$3,900 making a total of \$7,400; that the building was erected 1930; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, this residence has been altered from a building previously used as a shed, without a permit for such alteration; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21, to permit the continuance of the second residential building on the plot, substantially as proposed and as indicated on plans filed with this application, marked "Received July 13, 1954", 9 sheets, *on condition* that the building shall not be increased in height or area and shall be used only for residential purposes and in all other respects shall comply with all laws, rules and regulations applicable thereto; that in the event the grade of East 56th street is changed, there shall be no claim for damages made as to this building; that such claim for damages, if any, shall be solely in connection with the one-story frame building as duly approved; and that all permits and a certificate of occupancy for all building on the plot shall be obtained and all work completed within six months from the date of this resolution.

613-54-BZ

APPLICANT—Burke, Green and Groh, for Francine's Tavern, Inc., owner.

SUBJECT—Application July 23, 1954 (decision of the borough superintendent), under section 7h of the zoning resolution, to permit in a residence use district the parking and storage of motor vehicles for patrons only—no fee to be charged.

PREMISES AFFECTED—111-04 41st avenue, southeast corner of 111th street, Block 2014, Lot 5, Corona, Borough of Queens.

APPEARANCES—

For Applicant: Robert T. Groh.

For Opposition: James Degnan and E. Des Champs.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 15, 1955 after due notice by publication in the Bulletin; laid over to April 19, 1955, for inspection and decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 41st avenue and 111th street are in a residence use, D area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated June 25, 1954 acting on Alt. Applic. 1125-54, reads:

"1. Parking & storage of motor vehicles in a residence use district is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 96 ft. frontage by 100 ft. in depth, irregular, presently vacant; that the property referred to is presently zoned as a residence district, a class 1 height district and an E area district; that the use designation has not been changed since July 25, 1916; that as of July 25, 1916 the property referred to was zoned as a one and one quarter height district and a C area district; that on May 1, 1936 the property in question was changed to its present height and area designations; that no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant further states that the site is levelled substantially to the grade of both streets and enclosed on all sides with a 4 ft. high woven wire fence; that the site will be surfaced with clean steam cinders, rolled and treated with a binder; that the present 12 ft. curb cut and opening in the fence along 41st avenue will be continued; and

WHEREAS, the applicant contends that this plot has been a dump for garbage and refuse for many years; that the plot was below grade until the present owner purchased the same on January 29, 1953 at which time he filled, graded, cleaned and cindered this lot and enclosed the same in woven wire fence; that the owner did not put gates on the fence and subsequently many residents of the neighborhood parked their cars on the lot; that as a result of this action, the owner received a summons on March 22, 1954 on charges of conducting a parking lot without authority in a residence district, and fines of \$25 and \$50 were imposed for violation of the parking ordinance; that this plot is the nearest location to the restaurant; that there is a small parking area in back of the restaurant at the present time, but only 18 cars can be parked therein and this is entirely insufficient for the banquets, weddings, etc. that are held weekly at this restaurant; that as of now these cars park on either side of 111th street, which is a heavily trafficked artery leading into Roosevelt avenue; that there are also bus stops and a subway station located at Roosevelt avenue and 111th street, which further complicates the parking problem; that this parking area is for patrons only and no fees will be charged; and

WHEREAS, the applicant states that the present owner has held title to the property since January 29, 1953 and that the assessed valuation of land is \$10,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and consideration has been given to the proposed use and the committee recommended that the application should not be granted; and

WHEREAS, the Board deemed that the use as proposed should not be permitted in the residence use district to the great detriment of the neighbors; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under section 7, subdivision h of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 1125/54, Objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

664-54-BZ

APPLICANT—M. Martin Elkind, for 154 Realty Corp., owner.

SUBJECT—Application September 7, 1954 (decision of the borough superintendent), under sections 7e and 21 of the zoning resolution, to permit in a residence use, D area district, the erection and maintenance of a business building (store) using more than the area permitted and without the required rear yard.

PREMISES AFFECTED—213 Madison street, north side, 156.6 ft. west of Jefferson street, Block 271, Lot 40, Borough of Manhattan.

APPEARANCES—

For Applicant: M. Martin Elkind.

For Opposition: None.

MINUTES

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 15, 1955 after due notice by publication in the Bulletin; laid over to April 19, 1955, for inspection and decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Jefferson street are in a residence use, D area, class 1½ height district; Madison street is in residence and local retail use, D area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated August 23, 1954 acting on N.B. Applic. 88-54, reads:

"1. Proposal to erect a store in a residence use district is contrary to Art. II Sect. 3 of the Zoning Resol.

2. Proposal to erect a structure on an interior lot in a D area district occupying in excess of 55% of the area of the lot at the curb level is contrary to Art. IV Sect. 14(c) of the Zoning Resol.

3. Proposal to erect subject structure in a D district located in a residence district requires a minimum depth of rear yard at its lowest level of 25 feet. Art. IV Sect. 14(a) of the Zoning Resol."

and

WHEREAS, the applicant states that the premises consist of a plot, 26.1 ft. frontage by 100.2 ft. in depth, presently vacant; that the property referred to is presently zoned as a residence district, class 1 height district and a D area district; that as of July 25, 1916 the property was zoned as a business district, a B district and 1½ times height district; that on March 1, 1939 the zoning was changed to retail D and class 1 districts and on March 17, 1953 the present residence designation became effective; that no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant states that it is proposed to erect a one story and cellar structure of masonry walls, wood floor and roof beam construction and plate glass story type construction at front with brick parapet walls and jambs; and

WHEREAS, the applicant contends that although the proposed store building use is contrary to the provisions for a residence district, the presence of this type of structure among the 5 and 6 story old law multiple dwellings now existing on adjoining properties, cannot be considered detrimental to the standards or character of such adjoining property; that the subject property being a vacant lot can only become, in this neighborhood, the residue of refuse of all kinds and will develop in time to become an unsightly and unsanitary plot on this street; that there is no possible conforming use with which this property can be practically improved; that there is ample provision against the possibility of future change in the character of this side of the street on which the subject premises is located, by reason of the term of years which would be applied to an approval should the Board grant this variance; that there is at present a store existing at No. 207 Madison street, which is an eyesore; that the proposed construction will therefore not be a unique condition on this street and will be an attractive adjunct to the appearance of the street; that although the proposed building exceeds the area limitations for this district, the bulk of the building is far less than a building of conforming area and the same heights as the adjoining buildings; that these adjoining properties benefit by reason of the low height of the proposed structure to a far greater degree than they suffer any detrimental effect by reason of the excess area; that although the required yard depth is not proposed in this case, no useful purpose can be served in limiting this construction to required maintenance of the legal yard depth; that the proposed yard depth would be no less than that of the adjoining 5-story buildings on each side and it would be of no benefit to require a

single lot in this block to maintain a deeper yard than that prevailing, particularly since the proposed structure would be but one story in height; and

WHEREAS, the applicant states that it is proposed that the use be restricted to that permitted in a retail district; and

WHEREAS, the applicant states that the present owner has held title to the property since March 31, 1949 and that the assessed valuation of land is \$6,200; and

WHEREAS, the premises and the surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board finds that business uses exist all along Madison street in this block and that the use proposed here would not be detrimental to the housing development opposite; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the zoning resolution, as to use, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore entitled to relief, as to area, on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of fifteen years as to use and under section 21 as to extension of area, to permit the construction of the one-story store building, substantially as proposed and as indicated on plans filed with this application, marked "Received September 7, 1954", 4 sheets, *on condition* that the building shall not be higher than proposed; that a yard of the depth shown shall be maintained at the rear; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the use of such building and the cellar shall be as permitted in a local retail district; that suitable fences shall be maintained along the lot lines at the rear and either side beyond the building; that signs shall be restricted to such signs as would be permitted in a local retail district; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

851-54-BZ

APPLICANT—Andrew DiCamillo, for Jennie Birnbaum, owner.

SUBJECT—Application November 8, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a retail use, C area district, a one story extension using more than the area permitted and without the required rear yard.

PREMISES AFFECTED—434 86th street, south side, 237 ft. 13½ in. east of 4th avenue, Block 6045, Lot 19, Borough of Brooklyn.

APPEARANCES—

For Applicant: Andrew DiCamillo.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 19, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 86th street and 4th avenue are in a retail use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated October 28, 1954 acting on Alt. Applic. 3948-54, reads:

MINUTES

"1. Proposed extension exceeds area for a 'C' area district & violates Art. 4 Sect. 13b & 19e of the zone resolution.

2. Proposed extension encroaches upon required rear yard & violates Art. 4 Sect. 17a of the zone resolution." and

WHEREAS, the applicant states that the premises consist of a plot, 20 ft. frontage by 100 ft. in depth, on which is located a two story brick building on the front of the lot 20 ft. wide and 55 ft. deep; that the building is occupied by a store on the 1st floor and by a dentist and one apartment on the 2nd floor; that it is proposed to construct an extension on the 1st floor in order to increase the area of the store; that this extension will occupy the balance of plot 20 ft. wide and 45 ft. deep; that section 13b permits an extension up to 60% the balance of plot or 540 sq. ft.; that the proposed extension will occupy 900 sq. ft. or an excess of 360 sq. ft.; and

WHEREAS, the applicant contends that the owner is at present doing business at 446 86th street and his premises occupy the full plot; that his business consists of hardware, household appliances, radio, television and electrical appliances; that the owner purchased the subject premises on October 15, 1947 with the thought of future expansion; that this 20 ft. by 100 ft. plot is assessed at \$26,000 for the land and \$11,000 for present building making a total of \$37,000; that the present 1st floor is too small for the land value and economically unsound; that the adjoining lot 20 to the east is fully occupied on the 1st floor and contributes no yard on the 1st floor; that the adjoining building on lot 17 to the west is built to within 10 ft. of the rear lot but is 2 stories high for full depth; that in block 6045, the following lots are fully built upon the 1st floor—20, 23, 25, 29, 30, 33, 39, 51, 56 and 58; that in addition, lots 46 and 66, while not fully built upon, are built up to the rear lot line and none of these lots contribute a rear yard on the 1st floor; that all plots directly to the rear of the subject premises are built right to their rear lot lines; that the building was erected in 1921; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Regulation, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21, to permit the one story extension of the existing store building, substantially as proposed and as indicated on plans filed with this application, marked "Received November 8, 1954", 2 sheets, and "February 23, 1955", 2 sheets, *on condition* that the proposed extension shall not be increased in height or area beyond what is now shown and proposed; that there shall be no windows opening in the side and rear lot line walls to adjoining premises; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

865-54-BZ

APPLICANT—Ingram S. Carner, for Shell Oil Company, owner.

SUBJECT—Application November 16, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a business use district the extension to accessory building on existing gasoline service station, to include the existing uses of lubritorium, car washing (non-automatic), storage and sale of home and auto accessories, and the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—71-02 to 71-20 Northern boulevard, 33-02 to 33-12 72nd street, southwest corner, and 33-01 to 33-09 71st street, Block 1244, Lot 1, Jackson Heights, Borough of Queens.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Opposition: Walter V. Bouquet, Gustav A. Havemeyer, A. Lanes, Ida Havemeyer, Anna J. Clune, Harry Kavros, Mrs. L. Eckert, Mrs. S. Muggeo, Emil Eckert, Palmo Prete, Anna Valeska, Mary C. Mills, Mrs. Joseph M. Cordonat and Coleman L. Flynn.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition. THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinfert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 19, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Northern boulevard are in a business use, B area, class 1½ height district; 71st street and 72nd street are in residence and business use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated October 19, 1954 acting on Alt. Applic. 2178-54, reads:

"1. The proposed extension of a gas station, lubritorium, home & car accessories and parking for more than 5 cars to a gas station, lubritorium, car washing (non-automatic), home & auto accessories and parking of more than 5 cars in a business zone is contrary to Art. II Sec. 4 (46, 15 & 52) of the Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 ft. frontage by 100 ft. in depth; that the property referred to is presently zoned as a business district, a class 1½ height district and a B area district; that as of July 25, 1916 the property in question was in an unrestricted district and the present use designation became effective on July 31, 1947; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; that the premises in question were erected under N.B. 283-44 for which certificate of occupancy No. Q62991 was issued for gas station, lubritorium, home and car accessories and parking of more than 5 cars; that it is proposed to construct an addition 15 ft. 6 in. by 32 ft. to existing accessory building; and

WHEREAS, the applicant contends that the area is largely devoted to existing non-conforming uses and there are many gas stations along this main artery of travel; that as shown on plan of existing conditions there is an outside wash bay which is now proposed to be enclosed; that this new bay will be approximately 15 ft. 6 in. by 32 ft. and will match the existing building; that when this bay is added to the present building it will still be approximately 73 ft. from the building line of 72nd street and the rear and front line will be in line with the present building; and

WHEREAS, the applicant states that the present owner has held title to the property since November 1, 1944; that the assessed valuation of land is \$7,000 and of the building \$1,000 making a total of \$8,000; that the building was erected 1944; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the lawfully existing gasoline service station to be extended as proposed and as indicated on plans filed with this application, marked "Received November 16, 1954", 4 sheets, so as to provide an additional bay approximately 13 feet in width by 30 feet in depth as shown on such plans, for use for car washing of the non-automatic type, *on condition* that in all other respects the building and occupancy shall

MINUTES

comply with all laws, rules and regulations applicable thereto, in accordance with the requirements of Certificate of Occupancy #Q62991 and to the satisfaction of the borough superintendent and the fire department; that the premises and use shall not be further extended; that all permits, including a new certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

992-54-BZ

APPLICANT—Samuel Rosenblum, for R and K Corp. and 1050 Sixth Avenue Corp., owners.

SUBJECT—Application December 27, 1954 (decision of the borough superintendent), under sections 21 and 19A(j) of the zoning resolution, to permit in a retail use, B area, class 2 height district, the erection and maintenance of an extension to existing twenty-three story structure (lot 1) on adjoining portion of plot (lot 91), without the required setbacks and without the required off-street loading berths.

PREMISES AFFECTED—59-65 West 39th street and 1040-1052 Avenue of the Americas, northeast corner, Block 841, Lots 1 and 91, Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 12, 1955 after due notice by publication in the Bulletin; laid over to April 19, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, West 39th street and Avenue of the Americas are in a retail use, B area, class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated December 17, 1954 acting on amendment to Alt. Applic. 1463-54, reads:

"1. Proposed street wall setbacks of new extension to existing building should comply with Sec. 8 Article III Zoning Resolution.

2. Provide off-street loading berths for extended portion of existing building as per Sec. 19A Article IV Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 137 ft. 10¼ in. in depth, on which is located a 23-story class 1 offices and showroom and manufacturing building covering 100 ft. on West 39th street and 98 ft. 8¼ in. on Sixth avenue; that to the north are two small buildings, one 4-story and the other 5-story, covering a frontage of 39 ft. 2 in. on Sixth avenue; that it is proposed to demolish these two small buildings and extend the present 23-story structure to cover the plottage 39 ft. 2 in. to the north; that both portions are under the same ownership, although different corporate names for accountancy efficiency; and

WHEREAS, the applicant contends that the 23-story portion was erected in 1925 under N. B. Applic. 208-25 for which certificate of occupancy No. 10234 was issued; that in 1932 the cellar was altered to permit a restaurant and superseding certificate of occupancy No. 18389 was issued; that at the time of the erection of the building the premises were in a 2 times height zone and the building was erected in accordance therewith and the existing setbacks provided; that the zoning today is in a class 2 height district which provides for 1½ times width of the street; that to carry out this change in classifica-

tion would provide an irregular series of setbacks and present a distorted front; that it is desired to have a homogeneous elevation so that the new section can be made to match the old part and present an artistic design for the entire front; that the present setbacks start at the 17th floor and it is desired to dovetail the new portions floor by floor with the old part; that as the building is only 23 stories this would make the upper six stories match the existing structure; that as to the loading berth, the proposed addition is but slightly in excess of the initial requirement for the loading berth; that it is intended to limit the occupancy to office type use wherein there would be no necessity for trucks to drive up and constantly load and unload; that actually the entire additional gross floor area provided is under 85,000 sq. ft. and there would be no loading berth required for this section, per se, for 75,000 sq. ft.; that taking cognizance of space taken up by toilets, hallways, etc., the usable space is slightly more than the 75,000 sq. ft. requirement; that if the building were erected as a separate unit there would be no requirement for a loading berth; that the proposed addition will eliminate two small structures and provide a homogeneous unified building harmonizing structurally with the existing setbacks; and

WHEREAS, the applicant states that the present owner has held title to lot 1 since May 1, 1953 and to lot 91 since December 1, 1954; that the assessed valuation of land is \$730,000 and of the building \$1,265,000 making a total of \$1,995,000; that the building was erected 1925; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which noted the relatively small size of the proposed addition to the existing building and the absence of a loading space in the building to be extended and recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution, and is therefore entitled to relief as to area and height on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area and height district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21 as to height, to permit the setbacks similar to those now existing for the existing building to which this is an addition and under Section 19A, paragraph j, to permit the omission of the loading berth, all as shown on plans filed with this application, marked "Received December 27, 1954", 7 sheets, and "March 1, 1955", 1 sheet, *on condition* that all deliveries to or from the building shall be made after hours; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 2:30 P.M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, APRIL 19, 1955, 2 P. M.

Present: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly.

262-36-A—Vol. III

APPLICANT—Joseph A. Marck, for Rosemarie Millford, owner.

SUBJECT—Application reopened November 9, 1954 as Vol. III—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—154-34 Riverside drive, south side, 60 ft. east of Riverside drive, 3rd floor, Block 4543, Lots 5 and 7, Beechhurst, Borough of Queens.

MINUTES

APPEARANCES—

For Applicant: Joseph A. Marek.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and Joseph A. Sweeney, Dep't of Hospitals.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Keating and Deputy Chief Connolly 3

Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated October 18, 1954, on Alt. App. 233-54, reads:

"1. Proposed arrangement and inclusion of kitchen on third floor is contrary to approval of Board of Standards and Appeals case. 262-36-A."

and

WHEREAS, the applicant states the building is 3 stories in height, 40 by 50 feet in area, of Class 4 construction erected in 1902 on a lot 180 ft. front by 100 ft. in depth, in a residence use, G1 area, Class 1 height district, used and occupied since 1936: Cellar—ordinary; 1st floor—nursing home, 9 persons; 2nd floor—owner's livingroom and nursing home, 8 persons; 3rd floor—owner's quarters; now proposed to be used: Cellar—ordinary use; 1st floor—nursing home, 11 persons; 2nd floor—nursing home, 12 persons; 3rd floor—owner's quarters. The building is provided with one 3 ft. wide wood stairs, enclosed with plaster partitions and one fire stair on the rear; and

WHEREAS, Certificate of Occupancy #Q86050 was issued December 22, 1952, upon completion of alt. App. 930/52 so as to permit the following use and occupancy: Cellar—storage; 1st floor—nursing home, 9 persons; 2nd floor—nursing home, 8 persons; 3rd floor—attendant in direct charge, number of persons unstated, and this certificate expires July 17, 1956; and

WHEREAS, the applicant states that in order to make the living quarters for the owner a little more comfortable, it is proposed to rearrange the rooms on the 3rd floor to better meet their requirements; that no additions are to be made; that proposed changes are for existing rooms only; that it is proposed to change the locations of bathroom, livingroom and kitchen, as indicated on plans filed with this appeal; that at present the owner uses a room on the 2nd floor as a livingroom; it is proposed to use this space as a bedroom for 2 or 3 patients and in the rearrangement of the 3rd floor a new living room will be provided for the owner's occupancy; and

WHEREAS, on September 29, 1936, under Vol. I of this appeal, the Board modified a decision issued by the Borough Superintendent August 21, 1936 (No. 2133) so as to permit the use of the building for a term of five years as a nursing home on condition that the number of persons shall not exceed seven, and all patients be housed on the first floor of the building; and that if the owner desired to use the 2nd floor for the same purpose, it may be so used, provided the number of occupants thereof does not exceed seven; and an exterior fire escape is erected, providing direct access from the 2nd floor without passing through any bedroom; and

WHEREAS, on March 17, 1942, this appeal was reopened and resolution amended so as to extend the term of variance for an additional term of five years, on condition that the number of persons not exceed 9 on the 1st floor and 8 on the 2nd floor; and

WHEREAS, on April 8, 1947, the appeal was again reopened and the term of variance extended for five years, and again reopened and amended on July 17, 1951, to extend the term of the variance for an additional term of five years; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on September 29, 1936, and as amended by extension of term on July 17, 1951, expiring on July 17, 1956, to permit the proposed rearrangement

of the premises as indicated on plans filed with this request for amendment marked, "Received, October 19, 1954" (8 sheets) and revised plans marked, "Received, March 14, 1955" (3 sheets) to permit the main kitchen to be located in the cellar where shown and also to permit the attic floor to be used as an apartment for the operator, with a room as kitchen, as indicated on plans marked, "Received, October 16, 1954"; that the number of patients may be increased to eleven on the first floor and ten on the second floor on condition that only ambulatory patients shall be permitted to be housed on the second floor; that no blind patient or amputee shall be maintained above the first floor; that there shall be a wet sprinkler system constructed and maintained throughout the building complying with the requirements therefor, and an automatic fire alarm system shall be maintained in accordance with the requirements therefor.

145-49-A

APPLICANT—Rev. Peter D. Duhart, owner.

SUBJECT—Application for consideration—reopening as to extension of term of variance—re Appeal from decision of the borough superintendent; previously granted on condition for a term of years.

PREMISES AFFECTED—535 West 159th street, north side, 300 ft. west of Amsterdam avenue, Block 2118, Lot 52, Borough of Manhattan.

APPEARANCES—

For Applicant: Rev. Peter D. Duhart.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on June 7, 1949, on certain conditions; and

WHEREAS, the term of variance was extended on April 24, 1951 and May 12, 1953; and

WHEREAS, the applicant requested a further extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on June 7, 1949, as thereafter amended by resolutions adopted through May 12, 1953, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * granted for a term of two years from the date of this amended resolution, to permit * * *;

that other than as herein amended the resolutions above cited shall be complied with in all respects and that a new Certificate of Occupancy shall be obtained. (Alt. App. 91/49)

731-51-A—Vol. II

APPLICANT—Fred Weinstock, for Lorrain Woodworking Company, owner.

SUBJECT—Application for consideration—for amendment as to extension of use and new decision of the Borough Superintendent.

PREMISES AFFECTED—9902 Avenue D, southeast corner of East 99th street, Block 8132, Lot 36, Borough of Brooklyn.

APPEARANCES—

For Applicant: Fred Weinstock.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened, restored to the calendar and resolution amended.

THE VOTE TO AMEND RESOLUTION—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated February 16, 1955, on amendment to Alt. App. 2980/50 reads:

"25. Proposed extension is not in accordance with Bd. of Standards and Appeals approved and you are referred back to the Board of Standards and Appeals.

Note: premises were subject of B.S.A. variance under Cal. #686-50-A and #731-51-A."

and

WHEREAS, the applicant states the building is 1 story in height, 106 ft. front by 129 ft. in depth, erected in 1925 of Class 3 construction, on a lot 241.16 ft. by 187.1 ft. deep in an unrestricted use, A area, Class 1 height district; used and occupied since 1925 as a lumber yard and for storage of millwork on the 1st floor and for office on the mezzanine. The building is proposed to be increased to 241.16 ft. front by 166 ft. 10 in. in depth, in Class 3 construction and used as a lumber yard and for storage and millwork; and

WHEREAS, the applicant states that the new construction proposed will not encroach on the bed of a mapped street; that it is proposed to remove the remaining wood buildings on site which have become obsolete and replace them with a sprinklered Class 3 constructed building, as indicated on plans filed with this appeal; and

WHEREAS, the applicant contends that the proposed extension of the building is required so that all materials and operation can be carried on within one building without going outdoors, thus resulting in an improved and more efficient working operation; and

WHEREAS, this appeal was dismissed because there was no appearance for the applicant; and

WHEREAS, the appeal has been reopened and restored to the calendar.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted by the Board on February 26, 1952, by adding thereto:

"that the proposed addition may be permitted, as indicated on revised plans marked 'Received February 16, 1955' (2 sheets), and as passed on by the Borough Superintendent on amendment to Alt. App. 2986/50, objection dated February 16, 1955, on condition that such new construction shall not encroach further on the bed of a mapped street; and that in all other respects the building shall comply with all laws, rules and regulations applicable thereto."

290-52-A—Vol. II

APPLICANT—Leonard F. Rothkrug, for Toby Appel-
man, owner.

SUBJECT—Application reopened July 7, 1954 as Vol. II—
re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—76-78 Willoughby street, south
side, 62 ft. 5 in. west of Bridge street, Block 152, Lot 31,
Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Administration: Samuel F. Becker, Dep't of Housing
and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert
and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the additional decision issued by the Borough
Superintendent June 17, 1954, on Alt. App. 2831/51, reads:

"8. Provide two means of egress from all floors
complying with Sec. 270 of the Labor Law.

9. Floor used for factory purposes to be good for a
liveload of 120 lbs. per sq. ft. 7.3.2.3.

10. Wall thickness for commercial building 5 stories
high to be 16" at first story. 8.4.2.4."

and

WHEREAS, the applicant states the building is 5 stories, 55
feet in height, 45 ft. front by 51 ft. 2 in. deep, Class 3 con-
struction, erected in 1920 on a lot 45 ft. front by 100 ft. deep,
in an unrestricted use, B area, Class 2 height district; used
and occupied since February 7, 1953: Cellar—boilerroom and
ordinary storage; 1st floor—two retail stores; 2nd floor—
offices and optical shop, 13 persons; 3rd floor—offices and
dental laboratory, 8 persons; 4th floor—dwelling, 1 family;
5th floor—offices and shop, 11 persons. Now proposed to be
used and occupied without change. The building is provided
with one 3 ft. 8 in. wide steel stairs, masonry enclosed,
equipped with fireproof, self-closing doors and leading from
roof bulkhead direct to street and one fire escape at rear
extending to street by stair and to yard by stair with egress
from its lowest termination through rear yard of adjacent
building to the street; window and door openings on course
thereof are fireproof, self-closing; and

WHEREAS, on March 3, 1953, under Cal. No. 290-52-A,
Vol. I the Board modified a decision of the Borough Super-
intendent dated December 7, 1951, and redated April 15, 1952,
relating to the change of use in a Class 3, five story building
exceeding 50 ft. in height so as to permit the use of the
building, substantially as then proposed, on condition that
the use be as then proposed and the building not be increased
in height or area and in all other respects the building shall
comply with all laws, rules and regulations applicable there-
to; and

WHEREAS, at the time of the action by the Board under
Vol. I of this calendar number there was no factory occu-
pancy proposed in the building; and

WHEREAS, the applicant now states that the new objections
issued by the Borough Superintendent June 17, 1954, arise
from the change in the specific designations of the spaces
on each of the 2nd, 3rd and 4th floors to shop instead of
offices as previously shown; and

WHEREAS, the applicant states it is now proposed to obtain
a certificate of occupancy permitting the following uses and
occupancies:

Cellar—boiler room and storage

1st Floor—6 persons—2 stores

2nd Floor—9 persons—4 offices; 4 persons—4 optical
shop

3rd Floor—6 persons—4 offices; 1 person—Dental Labo-
ratory; 1 person—Scientific Instruments

4th Floor—5 persons—1 Family and Offices

5th Floor—7 persons—3 Offices; 4 persons—Shop (Shoe
Bows)

and

WHEREAS, the applicant contends that these small shops
which have a maximum of 4 persons occupying them, work-
ing with hand tools, do precision work of a highly skilled
nature; that the materials used are light in weight and will
never exceed the floor capacity of 60 lbs. per square foot;
that the maximum liveload capacity of 60 pounds per square
foot will be indicated on a small scale floor plan which will
also indicate the nature of the specific areas used for shops
as noted on plans filed with this appeal and will be posted in
the public hall on each floor; and

WHEREAS, the applicant contends as to Objections 9 and
10, that a variance should be granted as to these objections
because the building is soundly constructed with no visible
evidence of any past distress of the floors or masonry; that
the floors are entirely level and the masonry walls show no
cracks of any kind; that the proposed loads will at no time

MINUTES

impose any stresses in the structural material which will be in excess of those allowed by the building code; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 2831-51, Obj. No. 8, and that the appeal be and it hereby is *granted, on condition* that the premises shall be maintained as proposed and as indicated on plans filed with this appeal marked, "Received, June 23, 1954" (11 sheets) to permit such spaces as are now being used for factory work, namely: second floor—optical shop; third floor—dental laboratory and scientific instrument shop; and fifth floor—shoe bow factory; that the building shall not be increased in height or area; that no additional spaces shall be maintained or used for manufacturing purposes, other than the spaces cited above; that such fire fighting equipment shall be maintained as the Fire Commissioner shall direct; that the fourth floor may be continued as proposed for residential occupancy provided the means of exit are maintained as proposed including the stairway to the roof in connection with the rear fire escape to the yard; as to Objection No. 9, that such spaces used for factory purposes as cited above shall have a floor loading not less than sixty pounds per superficial foot and shall be so posted; that as to Objection No. 10, that the existing condition as to the wall may be continued if upon inspection by the Borough Superintendent such walls are found to be in good structural condition and sufficient for the loading; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

613-52-A—Vol. II

APPLICANT—Lucien David-Schoen and Hennessy, for Valentina Gowns, Inc., owner.

SUBJECT—Application reopened February 1, 1955 as Vol. II—re Appeal from a decision of the Borough of superintendent.

PREMISES AFFECTED—21 East 67th street, north side, 50 ft. west of Madison avenue, Block 1382, Lot 15, Borough of Manhattan.

APPEARANCES—

For Applicant: Lee Schoen.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Kaeting and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated December 9, 1954 on amendment filed December 8, 1954, to Alt. App. 155/52, showing the proposed construction of an elevator shaft, a new metal stair and stair enclosure in lieu of fire-retarding the existing stairhall, reads:

"Exits now proposed are not in accordance with plans approved by B.S. & A. Resol. 613-52-A."

and

WHEREAS, the applicant states that a modification of the resolution adopted under Vol. I of this calendar number for purpose of considering an improved exit condition is requested so as to accept a new 3 ft. wide steel stairs, enclosed in a fireproof partition, equipped with fireproof, self-closing doors to replace the approved wooden stairs in a fire-retarded enclosure to replace a completely wooden stairs that serves only two floors with an elevator in a fireproof enclosure; and

WHEREAS, the applicant contends that the existing open stairs is not a required stairway; that the building will retain two existing independent means of egress, consisting of the new steel enclosed stair and the fire escape with the fire-retarded passage; that the cellar will have egress by the

new stair and an engineer's ladder as approved; that the proposed steel stair will provide increased protection as it will run continuously within one enclosure from cellar to roof and enclosure will be of steel and masonry rather than fire-retarded wood and plaster; that the removal of the open decorative accommodation stairway, connecting the ground, 2nd floor and 3rd floors and its replacement with an elevator within a legal 3-hour enclosed shaft equipped with fireproof, self-closing doors will eliminate any open connection between the floors; and

WHEREAS, the applicant states that all other conditions of the resolution adopted by the Board will be complied with; that the rear fire escape and fire-retarded passageway will be maintained; that there will be no change in the approved cellar exits and the approved use, occupancy, height and extension of the building will be retained as originally permitted by the Board; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 16, 1953, under Volume I by adding thereto: that in the event the owner desires to construct a new steel stairs and elevator, as now proposed and as indicated on plans filed with this request for amendment marked, "Received, January 3, 1955" (4 sheets), such stairs may be in substitution of the stairs previously proposed under the resolution cited above provided that in all other respects the resolution cited above shall be complied with.

460-53-A

APPLICANT—Joseph Levy, Jr., for Sullivan Greenwich Corp., owner.

SUBJECT—Application reopened December 15, 1953, as Vol. II—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—214-218 Sullivan street, west side, 175 ft. 2½ in. north of Bleecker street, Block 540, Lot 30, Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph Levy, Jr.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated September 14, 1954, on amendment to Alt. App. 788 of 1953, reads:

"1. Proposed use of the existing rear fire escape as a means of egress in a factory building over (5) five stories in height is contrary to Section 271 of the Labor Law. Fire escape has no proper terminal."

and

WHEREAS, the applicant states the building is six stories, 75 ft. 9 in. in height, 34 ft. 9½ in. in depth, at street level, 84 ft. 9½ in. front by 90 ft. in depth at typical floor level, of Class 3 construction, erected 1899, located in a residence use, C area, Class 1¼ height district, and used and occupied since 1900: Cellar—storage and boiler room, five persons; first to sixth floors—factory, 56 persons per floor; the building is provided with an approved two-source sprinkler system, and approved interior fire alarm system, and regular monthly fire drills are maintained, there is one 3 ft. 8 in. wide interior wood stairs enclosed in partitions of wood stud, metal lath and cement plaster equipped with fireproof self-closing doors and extending from roof bulkhead direct to street and one fire escape on the rear extending to roof by stair with egress from its lower termination by counter-balanced stairs through yard and building at 116 MacDougal street; and

MINUTES

WHEREAS, the applicant states that the sprinkler system is supplied by a 10,000 gallon gravity tank and a 7,500 gallon pressure tank located on the roof; that the rear fire escape consists of 4 ft. wide balconies with 2 ft. wide, 45 degree connecting stairs from second floor to roof, that balconies and stairs on the fire escape are provided with 5 ft. high guard rails on the outside and 3 ft. high rails on the inside of the stairways, windows and doors on the course of the fire escape are fireproof wide glassed automatic self-closing and iron steps have been provided to sill level, that window and door openings in the north and south lot line walls are equipped with steel shutters, that all windows in the rear wall, except those along the course of the fire escape, are equipped with steel shutters, that there are three elevators in the building enclosed in fireproof shafts equipped with fireproof self-closing doors, that the first and second floors have been designed for 250 lbs. live load and the upper floors for 200 lbs. live load, that the number of occupants is limited to the primary means of exit with allowance for the sprinkler system; and

WHEREAS, the applicant states that Alt. App. 1276 of 1916 was approved to enclose the present interior stair with fire resisting partitions and to replace the fire escape at the rear with new iron stairway from yard of adjoining building to roof, and approved by the Labor Department April 15, 1916 as a secondary means of egress, that at the time the building was used as a paper box factory, that the sprinkler system was installed under Alt. App. 2839 of 1916; and

WHEREAS, the applicant states that it is now proposed to install an additional stairway from the cellar to the first floor hall enclosed in fireproof partitions at cellar equipped with fireproof self-closing door in addition to the present fireproof enclosed stairs on the south side of the building and the present stairway at the rear of the building; that the cellar will be used for storage in conjunction with the first-floor by one tenant; that the upper floors will be occupied by individual tenants for manufacturing and the entire building has been modernized in all respects; and

WHEREAS, under Cal. No. 460-53-A, Vol. I, appeal from the decision of the Borough Superintendent dated May 26, 1953, on Alt. App. 788 of 1953, as to the use of the rear fire escape as a means of egress in a building over five (5) stories in height was denied by the Board without prejudice to a request for a rehearing based on reconstruction of the interior stair and other improvements; and

WHEREAS, this appeal was reopened by a vote of the Board December 15, 1953; to consider a new proposal; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on amendment to Alt. App. 788 of 1953, Objection No. 1 and that the appeal be and it hereby is *granted*, to permit the two means of exit, as proposed, consisting of a primary means of exit leading to the street, properly enclosed, and a rear fire escape with an exit through adjoining premises as proposed and as indicated on plans filed with this appeal marked, "Received, November 20, 1953" (2 sheets) and "September 16, 1954" (10 sheets), *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area; that the sprinkler system and fire alarm system and fire drills shall be maintained in accordance with the requirements therefor and to the satisfaction of the Fire Commissioner; that exits from the cellar shall be as proposed, properly enclosed; that all windows along the course of the fire escape shall be equipped with fireproof windows or steel shutters except for the door as shown as an entrance to such fire escape; that such means of exit to adjoining property shall be subject to the easement, as filed, from the adjoining owner referred to as agreement made July 23, 1953; that this variance as to the exit of the rear fire escape shall continue only so long as the terms of the easement are in effect; that the occupancy

per floor shall be limited to the number of persons permitted for the primary means of exit.

174-54-A

APPLICANT—Lama, Proskauer and Prober, for 351 Jay Realty Corp., owner.

SUBJECT—Application for consideration—reopening as to amendment—re Appeal from a decision of the borough superintendent; previously granted on condition.

PREMISES AFFECTED—351 Jay street, east side, 150 ft. south of Myrtle avenue, Block 147, Lot 9, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on December 14, 1954, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 14, 1954, by adding thereto:

"that the fire-retarded partition next to the main stair within the fire-retarded stair enclosure from the 1st to the 7th floors may be omitted; and that one of the two windows facing fire escape B from the 1st to the 7th floors may be bricked up, provided the other window is maintained in condition so as to be available for access to the fire escape, as now indicated on revised plans marked Received March 24, 1955, (7 sheets), and as passed on by the Borough Superintendent under Alt. App. 4790/53, Objection 2, dated March 18, 1955."

564-54-A

APPLICANT—Daniel Laitin, for 14 Warren Street Corp., owner (Haber and Fink, Inc., lessee).

SUBJECT—Application for consideration—reopening as to amendment to sprinkler system—re Appeal from a decision of the borough superintendent, previously granted on condition.

PREMISES AFFECTED—12-14 Warren street, north side, 190 ft. west of Broadway, Block 135, Lot 5, Borough of Manhattan.

APPEARANCES—

For Applicant: Daniel Laitin.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on March 1, 1955, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 1, 1955 by adding thereto: that the existing dry sprinkler system, equipped with sprinkler heads, with siamese at the

MINUTES

building line, and with fire alarm connected to an approved central station, may be permitted to remain in lieu of the above requirement for installing of one-source sprinkler system as now indicated on revised plans marked, "received, March 29, 1955" (one sheet) *on condition* that in all other respects the requirements of the resolution above cited shall be complied with. (Alt. 418/50)

643-54-A

APPLICANT—Harry A. Yarish, for Stanley Yarish, owner.
SUBJECT—Application August 6, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—96 Warren street and 283-289 Greenwich street, northeast corner, Block 137, Lot 14; 4th floor, Borough of Manhattan.

APPEARANCES—

For Applicant: Harry A. Yarish.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated July 23, 1954, acting on Alt. App. 575/53, reads:

"6. Provide two lawful means of egress from each floor area, including cellar, as per Sec. 270 of the Labor Law.

Note—Fire escape not accepted as lawful means of egress under Sec. 270 of the Labor Law.

"7. Show floor construction in factory areas adequate for 120 lbs. per sq. ft. liveload as per 7.3.2.3 B.C."

and

WHEREAS, the applicant states the building is 4 stories, 40 feet in height, 50 ft. by 75 ft. irregular in area, of Class 3 construction, erected prior to 1892 in an unrestricted use, A area, Class 2 height district; used and occupied since January 15, 1954, as follows: Cellar—sale and storage of hardware, 4 persons; 1st floor—stores, 16 persons; 2nd floor—offices, 10 persons; 3d floor—offices, 12 persons; 4th floor—factory and offices, 12 persons; no change in use or occupancy is proposed except to increase the number of persons on the 4th floor to 20 persons. The building is provided with one 3 ft. wide metal stairs, enclosed in brick and stud partitions; stairhall leads to roof bulkhead and direct to street. There are no door on stairhall openings; and

WHEREAS, it is proposed to erect one fire escape at rear with egress to street from lowest termination through a passageway of one-hour construction; and

WHEREAS, Violation #3677/54 was issued June 8, 1954, for occupying the 4th floor as factory contrary to Alt. 575/53 which permitted office use; and

WHEREAS, the applicant states the cellar was formerly in use for the manufacture of phonograph records prior to 1954 and up to 1953; that it is now used for the storage and sale of hardware; that the manufacturing on the 4th floor consists of the assembly of electric fans from finished parts; and the number of employees varies from 2 to a maximum of 20, due to the fact the work is seasonal; that the building is equipped with one interior metal stairway with marble treads enclosed with brick walls on two sides and with studs covered with sheetrock on the third side and open on the fourth side; and that the present stair enclosure will be enclosed by covering existing studs and new stud partitions on both sides with Firecode 60, as approved by the Board under Cal. No. 171-52-SM; that it is proposed to replace existing fire escape at rear with a new fire escape in accordance with Section 273 of the Labor Law; that it is further proposed to provide a passage leading to the fire escape on each floor and an additional passage from the termination of fire escape at 1st floor leading to street; all passageways will be constructed of wood studs with Firecode #60 on both sides; that fire steps will be provided where partitions extend at

right angles to floor beams; that ceilings of passageways will be covered with Firecode 60; that a good portion of the cellar is in use as boilerroom and a motor room and elevator shaft; that the cellar has two stairways, one under main stairs leading to Warren street and the other on Greenwich street covered with a sidewalk metal door easily openable on the underside; that a small portion of cellar remains for commercial use; and

WHEREAS, the applicant contends as to Objection 7, that the floor loads vary from 70 lbs. to 120 lbs. per superficial foot, as indicated on plans filed with this appeal; that where the floor is designed for 70 lbs. this portion will be restricted to offices only; and

WHEREAS, the applicant suggests that since the building was erected prior to 1913 with factory use in the basement and is provided with one open stairway and one proposed labor law fire escape, such conditions as proposed be accepted as in substantial compliance with the requirements of the Board and the labor law; that the factory area is small and the number of persons small; that the conditions as proposed would provide reasonably safe exit from the premises; that to be required to comply with Objections 6 and 7 would impose unnecessary hardship as the tenants would be disturbed to a degree where it would be necessary for them to vacate the premises and the expense involved would be so exorbitant as to cause the owner to withdraw the application and lose the building to the mortgagees; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 575/53, Objections No. 6 and 7 and that the appeal be and it hereby is granted, as to Objection 6 to permit the means of exit as proposed and as indicated on plans filed with this appeal marked, "Received, February 21, 1955" (11 sheets) and "March 3, 1955" (one sheet) such exits consist of primary means of exit leading direct to the street and a fire escape on the easterly side with a balcony and exit as shown leading into the hall of the primary means of exit, *on condition* that the number of persons per floor shall not exceed that permitted by the primary means of exit; that the passage to the fire escape at the second and third floors shall be constructed as shown with fireproof self-closing doors at the rear wall but omitting the door from the public hall to such passage; that all partitions to the primary means of exit shall be as approved for one hour fireproof construction; as to Objection No. 7: that the floor construction shall be not less than 120 pounds per superficial foot except in one portion restricted for office use only where the floor load shall be not less than 70 pounds per superficial foot; that the building shall not be increased in height or area; that the building shall in all other respects comply with all laws, rules and regulations applicable thereto; and that such portable fire-fighting equipment shall be maintained as the Fire Commissioner shall direct.

829-54-A

APPLICANT—Nathaniel C. Saxe, for Consolidated Fur Dressing and Dyeing Corp., owner (Standard Cellulose and Novelty Co., Inc., lessee).

SUBJECT—Application November 2, 1954—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—145-41 to 145-87 227th street, 227-02 to 227-18 145th road, south side, from 227th to 228th streets and 145-44 to 144-94 228th street, Block 13475, Lot 14, Rosedale, Borough of Queens.

APPEARANCES—

For Applicant: Nathaniel C. Saxe.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated October 18, 1954, on amendment to Alt. App. 1285 of 1953, reads:

"1. Provide two enclosed exits to second floor as per Sec. 270 L. L."

and

WHEREAS, the applicant states the building is two stories, 23 ft. in height, 500.83 ft. front by 188 ft. in depth at street level, 30 ft. front by 74 ft. in depth at second floor level, of class 3 construction erected in 1923, located within unrestricted use, C area, class one height district, as used and occupied since 1952 as follows: cellar—vacant; 1st floor—factory, 170 persons; 2nd floor—vacant; the first floor occupancy consists of ornamental iron works, 25 persons, woodworking, 50 persons, manufacturing TV antennas and Christmas decorations, 50 persons, manufacturing plastic products, 10 persons, manufacturing ornamental iron, 10 persons; and manufacturing plastic curtains, 25 persons; no change in use or occupancy is now proposed on the first floor; the second story will be used and occupied for storage of office supplies and as employees rest rooms; the building is provided with an approved one-source sprinkler system throughout; there are two 3 ft. 4 in. wide steel and concrete stairs fireproof enclosed equipped with fireproof self-closing doors; stairs do not lead to roof, a ladder and scuttle to roof is provided; stairs do not lead to street; and

WHEREAS, a temporary certificate of occupancy was issued September 22, 1954, upon completion of work under Alt. App. 1285 of 1953 permitting the following use and occupancy: 1st floor, factory, 170 persons; 2nd floor—unoccupied; and

WHEREAS, the applicant states the building was constructed in 1923 that there is no complete record existing plans or certificate of occupancy in the Department of Housing and Buildings for the original building; that the entire building was occupied by the Consolidated Fur Dressing and Dyeing Corp. until 1952, and since then has been leased to various tenants; that one of the tenants, Standard Cellulose and Novelty Co., Inc., occupies that portion of the premises known as 145-68 228th Street for the manufacture of cellophane molded products and Christmas decorations; that in this portion of the building there is a second story 30 ft. in width and 74 ft. in length which has two enclosed fireproof stairways leading to the first floor of the building but not directly to the street; that it is not proposed to use this second floor for factory purposes; the use will be for the storage of non-inflammable materials and for toilet facilities and ladies restrooms; and

WHEREAS, the applicant contends that the rear stairway from the second floor exits approximately 25 ft. from a direct exit to the street; that the entire building is sprinklered and no hazard will be created by permitting the existing stairs to remain, and the Board is therefore requested to modify the Labor Law as to the proposed use on the second floor, and to permit the existing stairways to remain.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on amendment to Alt. App. 1285 of 53, Objection No. 1 and that the appeal be and it hereby is *granted, on condition* that the second floor, approximately 30 feet by 70 feet, shall be occupied only for non-inflammable storage and as rest rooms and toilets for the women employees of the factory, as proposed and as indicated on plans filed with this appeal marked "Received, November 2, 1954" (4 sheets) and "March 30, 1955" (3 sheets): that the two enclosed stairs leading to the first floor may be accepted as exits from such second story provided no factory work is maintained on the second story; that in all other respects the building and occupancy shall comply with all laws, rules and regula-

tions applicable thereto; and that the approved one source wet sprinkler system throughout the building, including the second story, shall be maintained.

854-54-A

APPLICANT—Lama, Proskauer and Prober, for Simon Winograd and Mitchel Klaymen, owners.

SUBJECT—Application November 9, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1721 Avenue J, northwest corner of East 18th street, Block 6710, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated February 14, 1955 on Alt. App. 3095 of 1954, reads:

"1. Proposed Synagogue and school within a frame bldg. violates Sect. 2-1-3-5 & 4-2-1 of the Bldg. Code.

2. Two families within a frame Bldg. more than 2 stories in height violates Sect. 2-1-3-5, 4.2.1 & 8.7.2.1 of the Bldg. Code."

and

WHEREAS, the applicant states that the building is two and one half stories, 31 ft. in height, 34 ft. 5 ins. by 57 ft. 8 in. irreg. in area at first floor, 26 ft. 5 in. by 44 ft. in area at second floor, of Class 4 construction, erected in 1908, located on a lot 50 ft. front by 100 ft. in depth in a residence use, E area, Class 1¼ height district, and used and occupied since 1950; Cellar—social room, boiler room, kitchen and toilet, 15 persons; first floor, Synagogue and Class rooms, 100 persons; 2nd floor dwelling, one family; attic—dwelling, one family, for which no Certificate of Occupancy has been issued, the building is proposed to be increased in area to 36 ft. 3 in. by 63 ft. 2 ins. at the first floor and cellar in Class 3 construction, and to be used and occupied upon completion of the alteration as follows, Cellar—social room, boiler room, kitchen and toilet, 20 persons; first floor—Synagogue and Class rooms 190 persons; 2nd floor, dwelling, one family; 3rd floor, dwelling, one family; and

WHEREAS, the applicant states the building is provided with one 3 ft. 4 in. wide interior wood stairs, enclosed at the cellar with fireproof partitions at the first and second attic floors in partitions of metal lath and plaster on the hall side equipped with wood and fireproof self closing doors and one fire escape at the rear extending to yard by ladder with egress to street through rear yard, window and door openings on the course of the fire escape are fireproof self-closing; and

WHEREAS, the applicant states the building was erected under N.B. App. 3259 of 1908 as a one family dwelling and a two car garage erected in 1912 under NB. App. 1991, that no certificate of occupancy was ever issued for either building; and

WHEREAS, the applicant states that it is proposed to maintain the existing uses and to enlarge the first and cellar story; and

WHEREAS, the applicant contends as to Objection 1 issued by the Borough Superintendent that as the use is permitted in a Class 3 building it is proposed to enclose the entire first floor where the Synagogue and Class Rooms are located with masonry exterior walls to meet class 3 construction requirements and keep the second floor and attic housing the two families in class 4 construction; that the building as proposed will be classified as a Class 4 constructed building but for all intents and purposes that part of the building housing the Synagogue and classrooms will

MINUTES

be enclosed with masonry walls and all new floor beams installed in the extensions will be 3 in. thick which will also meet the requirements of Class 3 construction; and

WHEREAS, the applicant contends that as to Objection 2 issued by the Borough Superintendent that as the building is only two stories and attic in height it is proposed to fireproof retard the stair hall walls and ceiling with metal lath and plaster on the stair hall side from the attic to the first floor and to provide a second means of egress by way of an approved type multiple dwelling fire escape on the rear where direct exit can be had to the street from the termination of the fire escape; that it is proposed also to install a fire retarded ceiling in the cellar; the boiler room will be relocated to the rear of the building and fully enclosed in masonry walls equipped with fireproof self closing doors and such portable fire-fighting apparatus will be installed as may be directed by the Fire Commissioner; and

WHEREAS, the Board is in receipt of a certificate issued by the Borough Superintendent pursuant to Section 668 subdivision c of the Charter that a stay in the proceedings in this appeal would in his opinion cause imminent peril to life, and stating that violation #488/52 has been issued and the Magistrates Court summons issued returnable November 22, 1954; and

WHEREAS, the Borough Superintendent states that the building has a lawful occupancy restricted to a private dwelling; that Alt. App. 12714 of 1934 was filed indicating the use of the building by two families; that the building is now being used as a social room in the cellar for 15 persons and as a Synagogue and Class rooms for 100 persons on the first floor and one family on each of the second and attic floors; that the unauthorized public use in a frame structure constitutes an imminent fire hazard; that the single exit to the street is inadequate to accommodate the large number of persons on the first floor and presents an imminent danger to life and limb; that the first floor cannot safely sustain a minimum live load of 100 lbs. per sq. ft.; that there is a single unprotected interior stair for the use of the families on the second and attic stories and that such a stair without a fire escape constitutes an undue hazard in case of fire; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 3095/54, Objection No. 1 and 2 be and it hereby is *modified*, and that the appeal be and it hereby is *granted*, to permit the use of the frame building, as indicated on plans marked, "Received, November 9, 1954" (13 sheets) to be occupied as a Synagogue and residence for two families *on condition* that the building shall have an exterior masonry wall as required for a class three building, with structural columns and beams for supporting the building up to the second floor, as proposed and as indicated on revised plans marked, "Received, April 11, 1955" (13 sheets); that the building shall not be increased in height or area; that in all other respects the building shall comply with all laws, rules and regulations applicable to class three buildings; that the residential occupancy shall be only on the second and third floors as proposed; that such apartments shall be separated from each other in accordance with the requirements of the Building Code; and that a certificate of occupancy shall be obtained.

19-55-A

APPLICANT—Bruno Koepfel, for William Pollack, owner.
SUBJECT—Application filed January 17, 1955—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—610-612 Neptune avenue (608 displayed), south side, 42 ft. ¾ in. west of West 6th street, Block 7270, Lot 34, Borough of Brooklyn.

APPEARANCES—

For Applicant: Bruno Koepfel.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated November 29, 1954, on BN App. 1632 of 1954, reads:

"1. Application for replacement of burnt out rafters and other items destroyed by fire of an existing 2 family wood frame dwelling within the fire limits and damage to an extent greater than 50% of its value above its foundation Violate Sec. C26-251.0 of the Administrative Code."

and

WHEREAS, the applicant states the building is one story, and basement, 22 ft. in height, 34 ft. 6 in. by 30 ft. in depth, Class 4 construction, on a lot 42 ft. 10⅞ ins. front by 34 ft. and 38 ft. 6½ in. in depth, in a business use, A area, Class One height district, used and occupied as a boiler room and one-family dwelling in the basement and as a one-family dwelling on the first floor, no change in use or occupancy is now proposed, and

WHEREAS, in the matter of the prosecution of Elizabeth Pollack for failure to comply with an order of the Commissioner of Housing and Buildings, in the Court of Special Sessions, of the County of Kings, on the date of December 20, 1954, an adjournment was granted for all purposes to February 15th, 1955, and

WHEREAS, the applicant states that the adjournment in the Court of Special Sessions was pending decision of the Board; and

WHEREAS, the applicant states that a portion of the building was damaged by fire and the applicant was requested to inspect the premises to determine the extent of replacement or modernization that should take place; that at the initial inspection it was impossible to determine the extent of damage until the debris was removed; that an inspection was also made by the Borough Superintendent and a violation placed; that shortly thereafter the owner became ill and was hospitalized; that later the owner arranged to have the debris removed and protective repairs made to the roof and windows, to prevent further damage by weather or vandalism; that an inspection was again made by the Borough Superintendent and another violation issued for having started work without a permit; that the owners attorney requested a survey on the basis that less than 50% of the premises was damaged; the request for a survey was denied on the ground that the inspector's report indicated damage in excess of 50% and the fact that the owner has proceeded to make repairs without first securing a permit and that these repairs prevented an accurate determination of the extent of damage caused by the fire; and

WHEREAS, the applicant contends that the repairs which were made namely, the replacement of windows, and burnt out rafters, roofing and some partitions have not been completed in that they are still exposed and it is possible by inspection to determine the extent of damages which in the opinion of the applicant is less than 25% of the value of the building above the foundation; that BN App. 1632 of 1954 was filed for replacement of burnt out rafters; that the owner is entitled to a survey in accordance with Laws as prescribed by section C26-251.0 of the Administrative Code; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions; upon inspection it was clear that there had been some work done since the fire but in the opinion of the Committee the damage to the building did not exceed fifty per cent of the total value of the building above foundation; and

WHEREAS, a letter filed by applicant under date of July 9, 1954 indicates that the Borough Superintendent denied his request for a survey because of the fact that a certain amount of repair work had been done since the fire and the

MINUTES

applicant has chosen to appeal to the Board as provided by law; and

WHEREAS, in the opinion of the Board the owner was entitled to have a survey as provided in the Code.

Resolved, that the decision of the Borough Superintendent, acting on BN App. 1632 of 1954, Objection No. 1 be and it hereby is *modified*, and that the appeal be and it hereby is *granted*, to permit the restoration of the building to its former condition *on condition* that the building shall not be increased in height or area; and that the building shall comply with all laws, rules and regulations applicable thereto.

WHEREAS, this application was granted by the Board as Vol. II, on December 12, 1950, on certain conditions; and

WHEREAS, the resolution was amended and the term of variance was extended on February 14, 1951; and

WHEREAS, time to obtain permits and complete the work was extended from time to time and last extended on April 27, 1954; and

WHEREAS, the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 12, 1950, as thereafter *amended* by resolutions adopted through April 27, 1954, only so far as it has reference to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that the foundations of the building have been constructed and the outer structure will proceed shortly, that all permits required shall be obtained and all work completed within the requirements of Sections 22A of the Zoning Resolution from the date of this *amended* resolution." (N.B. 7458/50)

172-33-BZ—Vol. II

APPLICANT—Charles M. Spindler, Frank J. Ciano, owner.

SUBJECT—Application for consideration—reopening as to amendment to additional tanks—re Application (decision of the borough superintendent), previously granted on condition, under section 7f of the zoning resolution, permitting in a business use district, the reconstruction and extension of an existing gasoline selling station and motor vehicle repair shop, to include auto washing, lubrication and sale of accessories and office.

PREMISES AFFECTED—46-22 to 46-30 Kissena boulevard, west side, 25 ft. north of Kalmina avenue, Block 5149, Lots 37 and 39, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Robert W. Artus.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on April 10, 1951, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on May 6, 1952; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 10, 1951, by adding thereto:

"that the number of approved 550 gallon gasoline storage tanks shall be limited to eight such tanks, located as indicated on revised plan marked 'Received March 29, 1955 (1 sheet)', as passed on by the Borough Superintendent under Misc. App. 254/55, objection dated March 25, 1955; and that in all other respects the resolution above cited shall be complied with.

227-53-BZ

APPLICANT—Herman Kron, for Banner Service Station, Inc., owner.

SUBJECT—Application for consideration—reopening as to amendment to additional tanks—re Application (decision of the borough superintendent), previously granted on condition, under section 7c of the zoning resolution, permitting in a business and unrestricted use district, the reconstruction and extension of existing gasoline service station, lubritorium, auto laundry, motor vehicle repair shop and office.

PREMISES AFFECTED—2501 Bruckner boulevard, northwest corner of Brush avenue, Block 5293, Lot 175, Borough of the Bronx.

APPEARANCES—

For Applicant: Herman Kron.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on July 7, 1953, on certain conditions; and

WHEREAS, working drawings, submitted as being in substantial compliance with the Board's requirements, were approved on February 24, 1954; and

WHEREAS, the resolution was amended on October 13, 1954; and

WHEREAS, time to obtain permits and complete the work was extended on March 1, 1955; and

WHEREAS, the applicant requested a further amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 7, 1953, as thereafter *amended* by resolutions adopted through March 1, 1955, by adding thereto:

"that the number of approved 550 gallon gasoline storage tanks shall not exceed a total of twelve such tanks, located as indicated on revised plan marked 'Received March 29, 1955' (1 sheet), and as passed on by the Borough Superintendent under Misc. App. 1214/53, objection dated March 28, 1955 and that in all other respects the resolutions above cited shall be complied with."

252-36-BZ—Vol. II

APPLICANT—Allan Crane & Hoist Corp., for Electric Hoist & Motor Co., Inc., owner (Allan Crane and Hoist Corporation, lessee).

SUBJECT—Application for consideration—reopening as Vol. II to consider a new proposal subject to regular procedure—re Application (decision of the borough superintendent), previously denied, under section 21 of the building zone resolution, to permit in a business use district, the conversion of occupancy of an existing building to a garage for more than five motor vehicles.

PREMISES AFFECTED—60 Bayard street, south side, 100 ft. each of Lorimer street, Block 2722, Lot 8, Borough of Brooklyn.

MINUTES

APPEARANCES—

For Applicant: Rose A. Caputo.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. II, subject to the regular procedure, to consider a new proposal.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

751-39-BZ—Vol. II

APPLICANT—Henry C. Brockman, for Gulf Oil Corporation, owner.

SUBJECT—Application for consideration—reopening as Vol. II as to additional use, subject to regular procedure—re Application (decision of the borough superintendent), previously granted on condition, under section 7c of the building zone resolution, permitting partly in a business

use district and partly in an unrestricted use district, the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—925 Hunts Point avenue, south side of Southern and Bruckner boulevards, being entire block front between Southern and Bruckner boulevards, Block 2735, Lot 20, Borough of the Bronx.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. II, subject to the regular procedure, to consider additional use.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE RULES FOR ARC AND GAS WELDING AND OXYGEN CUTTING, COVERING THE SPECIFICATIONS FOR DESIGN, FABRICATION AND INSPECTION OF ARC AND GAS WELDED STRUCTURES AND THE QUALIFICATIONS OF WELDERS AND SUPERVISORS (CAL. NO. 1-38-SR—VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday morning, May 20, 1955, at 10 A. M. in Room 1013, Municipal Building, Manhattan, on the following Proposed amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, Covering the Specifications for Design, Fabrication and Inspection of Arc and Gas Welded Structures and the Qualifications of Welders and Supervisors.*

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS FEBRUARY 25, 1938.

EFFECTIVE MARCH 21, 1938. AMENDED MAY 17, 1940, EFFECTIVE JUNE 10, 1940; AND SEPTEMBER 17, 1954, EFFECTIVE OCTOBER 18, 1954.

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, of the Charter of the City of New York and C26-514.0 of the Administrative Code (8.6.2.2).

These Proposed Amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, as printed herein in *italics*, are as suggested by the Allied Building Metal Industries as to welding of light structural steel such as fire-escapes, railings, gratings, door-bucks, etc., which are generally shop welded.

Old matter, in brackets [], to be deleted; new matter, in *italics*, to be substituted therefor.

Rule 1. Application for Permits.

1.2 [The commencement of any structural welding work is forbidden until an application for a permit to perform such work is filed with and approved by the

Borough Superintendent. The Borough Superintendent shall be notified in writing at least 48 hours prior to the date when the structural welding work is to commence.]

Structural welding work shall be performed only by approved contractors employing certified welders.

Rule 9. Supervision and Inspection.

9.1 [Any welding to be done on a structure or any part thereof shall be performed under the supervision of a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect or licensed engineer. Such agency shall be acceptable to the Borough Superintendent.]

Any welding to be done on a structure or any part thereof, in the field, excluding bar joists, shall be performed under the supervision of a representative of the Department of Housing and Buildings, or a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect, or licensed engineer. Such agency shall be acceptable to the Borough Superintendent. Shop welding on structural steel performed by approved contractors shall be the responsibility of the approved contractor, and shall not require supervision or inspection.

Rule 11. Metal Chimneys, Tanks, Stairs and Fire-Escapes.

11.1 [Stairs and fire-escapes shall be considered as light structural steel and where shop welded, shall have attached thereto a tag or label, affixed by the standard Testing Agency, to the effect that these Rules have been complied with.]

Stairs, fire-escapes, railings, gratings, door-bucks and other miscellaneous and ornamental metal, ferrous and non-ferrous work, shall not be considered as structural steel and therefore when welded need not be inspected by a standard testing agency.

RULES

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stair hall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) Prohibition. No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages—as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) Application. Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) Time Limit. Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon the expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) Conditions. The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) Revocation. Violation of any of the conditions specified in the permit in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

PETITIONS AND CERTIORARI ORDERS SERVED ON THE BOARD OF STANDARDS AND APPEALS

On April 21, 1955, Copy of Petition and Order of Certiorari was served on the Board by Mr. Eugene Gibilaro, attorney for petitioners, C. Arena, Et Al, objecting property owners, seeking a review of the Board's determination on March 22, 1955, granting a variance under Section 7, subdivision c, of the Zoning Resolution, to permit in a business use district the change of occupancy from auto glazing and lock repairs on first floor to motor vehicle repairs, acetylene welding, spot spraying, body and fender work, with light manufacturing on second floor; Cal. No. 797-53-BZ; premises 8140-8146 New Utrecht Avenue, 1728-1732—82nd Street, southwest corner, and 8129-8133 Bay 16th Street, Borough of Brooklyn.

* * *

On April 22, 1955, Copy of Petition and Order of Certiorari was served on the Board by Furey, Wolin & Byrne, attorneys for Jacob Nathanson, petitioner, owner, who is seeking a review of the Board's determination on March 15, 1955, denying application under Sections 7i, 7e, 7i and 7A of the Zoning Resolution, to permit in a residence and retail use district, for a term of twenty-one years, the erection and maintenance of more than one building on a lot—a super market and a gasoline service station, lubricatorium, car wash, motor vehicle repairs, storage and sale of accessories and an office, with an entrance, show window and sign nearer the residence use district than is permitted; Cal. No. 614-54-BZ; Premises 1101-1111—63rd Street and 6209-6223—11th Avenue, northeast corner, Borough of Brooklyn.

* * *

COURT DECISION

Matter of Houston Theatre Corporation vs. Board of Standards and Appeals—On June 9, 1953, the Board denied, in part, an application for a garage and gasoline service station and accessories uses, in a business use district, under Section 21A of the Zoning Resolution, on the ground that the entrance to a park on the easterly side of Chrystie Street, at the building line, gave the Board no basis for permitting the uses proposed, in view of the entrances being within 200 feet; Cal. No. 394-51-BZ, Vol. II; premises 111-117 East Houston Street, and 229 Chrystie Street, southwest corner, Borough of Manhattan.

Upon court review, Mr. Justice Rabin at Special Term, annulled the decision of the Board and referred the matter back for further consideration, stating, in part:

“* * *. Petitioner sought a variance to permit it to erect a gas station. This was denied on the ground that the proposed structure would be within 200 feet of the entrance to the public park at Chrystie and East Houston Streets (section 21A of the Zoning Resolution). In computing the distance it is conceded that the respondent considers the entrance to the park to be at the curb line as it physically exists at the corner of East Houston and Chrystie streets. This position is asserted because the sidewalk used by pedestrians to travel between Chrystie and Forsyth Streets on the south side of Houston Street was taken in condemnation for park purposes. Although condemned for park purposes such sidewalk is not used as a park. At the edge of the paved sidewalk furthest from the Houston street curb a fence encloses the park proper. The entrance to the park about halfway along the length of this fence, is concededly more than 200 feet from the petitioner's property. The words and figures ‘within 200 feet from the nearest exit from or entrance to’ a park are given their usual meaning. Entrance or exit means an opening permitting entrance or egress and not a sidewalk passing by such entrance or exit. * * *” (N. Y. L. J. March 26, 1954, page 8.)

NOTE: There is no public sidewalk beyond the building line on East Houston Street. The passage across the north end of the park, enclosed by fences on both sides, is on park property but in the absence of the standard sidewalk this passageway could be used to go from Chrystie Street to Forsyth Street; to enter the park, it is necessary to enter this fenced passageway either from Chrystie or Forsyth Streets and pass through an opening which leads by way of stairs to the main portion of the park.

Upon further review, the Appellate Division, First Department, unanimously confirmed the decision at Special Term (N. Y. L. J. February 2, 1955, page 6).

After that, leave to appeal was denied by the Court of Appeals (285 App. Div., 877) (N. Y. L. J. March 11, 1955).

APPLICANT—Ira Hanig, for Bon Ami Holding Corp., owner.

SUBJECT—Application November 19, 1954—re (decision of the borough superintendent) under sections 7e, 7f, 7i and 7A of the zoning resolution, to permit in the business use district portion of a plot located in a residence and business use district for a term of fifteen years, the erection and maintenance of a gasoline service station, auto laundry, lubritorium, motor vehicle repairs, storage and sale of accessories and office, with an entrance (curb cut) nearer the residence use district than is permitted, and to permit the parking of cars waiting to be serviced.

PREMISES AFFECTED—218-10 Northern boulevard, south side, from Springfield boulevard to 218th street, 45-02 to 45-12 Springfield boulevard and 45-01 to 45-09 218th street, Block 7338, Lot 10, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Joseph V. McKee and G. Lazerus.

For Opposition: Herman Reich, Frank De Carmine, Celia Goldstein, Sam Baum, M. Smoley, Oscar Dale, E. Zsigalor, Mrs. C. Krause, Rosalind Leonard, Hazel Braiard, E. Hofkerr, Mary Miceli, Edith Priloff, Rose Simms, Al Garr and Gussie Kapetnski.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 3, 1955, at 10 A. M. for applicant to file revised plans; hearing previously closed.

887-54-BZ

APPLICANT—Lama, Proskauer and Prober, for Ben Gameski and Herbert F. Saul, owners.

SUBJECT—Applicaition November 23, 1954—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in the business use district portion of a plot located in a residence and business use district for a term of fifteen years the erection and maintenance of a gasoline service station, auto showroom and service building, lubritorium, motor vehicle repairs, car washing, brake testing, wheel alignment, painting and spraying, welding, storage and sale of accessories and office, and to permit on the unbuilt upon portion of plot the sale of and display of new and used cars and the parking and storage of motor vehicles.

PREMISES AFFECTED—218-01 to 218-19 Northern boulevard, north side, from 218th to 219th streets, 43-31 to 43-39 218th street and 43-32 to 43-40 219th street, Block 6321, Lots 21 and 25—formerly Lot 21, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama and R. S. Hardy.

For Opposition: Frank De Carmine, Rosalind Leonard, Mary Miceli, Celia Goldstein and Edith Prigoff, Herman Rotch, Alice Tertzakian, E. Hofkerr, Walter Furman, Sol Shriebman, Al Garr, Ernest Kolverman, S. Young, Goldstein, V. Tertzakian and L. De Carmine.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 3, 1955, at 10 A. M. for applicant to file revised plans; hearing previously closed.

895-54-BZ

APPLICANT—Kitzler and Nurick, for Hilddun Corp., owner.

SUBJECT—Application November 15, 1954—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence and business use district, the change in occupancy from storage and blending of perfumes, office and showroom to manufacturing on first and second floors, using more than the percentage of floor area than is permitted.

PREMISES AFFECTED—157-159 Atlantic avenue, north side, 91 ft. 6 in. west of Clinton street, Block 275, Lot 5, Borough of Brooklyn.

APPEARANCES—

For Applicant: Sidney H. Kitzler and Robert I. Greenberg.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 24, 1955, at 10 A. M. for inspection and decision; hearing closed.

896-54-A

APPLICANT—Kitzler and Nurick, for Hilddun Corp., owner.

SUBJECT—Application November 15, 1954—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—157-159 Atlantic avenue, north side, 91 ft. 6 in. west of Clinton street, Block 275, Lot 5, Borough of Brooklyn.

APPEARANCES—

For Applicant: Sidney H. Kitzler and Robert I. Greenberg.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 24, 1955, at 10 A. M. for inspection and decision in conjunction with Cal. 895-54-BZ; hearing closed.

908-54-BZ

APPLICANT—Robert Gottlieb, for Vincenzo Paladino and Dorothy Brezcia, owners.

MINUTES

SUBJECT—Application December 1, 1954—(decision of the borough superintendent) under section 7c of the zoning resolution, to permit in the business use district portion of plot the parking of motor vehicles to be used as a reservoir for cars waiting to be washed or serviced, on existing gasoline service station, lubritorium, auto laundry, motor vehicle repairs and office, located in unrestricted use district portion of plot.

PREMISES AFFECTED—606-616 Nercid avenue, south side, from Bronx boulevard to Carpenter avenue and 4386 Bronx boulevard, Block 5036, Lots 29 and 33, Borough of The Bronx.

APPEARANCES—

For Applicant: Robert Gottlieb.

For Opposition: Fred W. Eggert, Jr., Rev. Roger Geffen, Agnes Lanzke, Andrew F. Lillys, Margaret McGuire, Adele Ciliotta, Catherine Morrissey, Katie Schuckert, Lucy Piedmonte, Matilda DiNoia, Mary Capozzi and Eugene De Pierris.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 10, 1955, at 10 A. M. for inspection and decision; hearing closed.

2-55-BZ

APPLICANT—Benjamin R. Leinhardt, for William Welge and Jacob Leinhardt, owners (U. S. Government, Post Office Department, lessee).

SUBJECT—Application January 4, 1955—(decision of the borough superintendent) under sections 7a, 7c and 21 of the zoning resolution, to permit in a residence use, C area district, the extension of existing U. S. Post Office building without the required rear yard, to be used for loading vestibule, and loading and unloading platform.

PREMISES AFFECTED—1234 St. Johns place, south side, 160 ft. west of Troy avenue, Block 1382, Lot 31, Borough of Brooklyn.

APPEARANCES—

For Applicant: Benjamin R. Leinhardt and Frank J. Viola, U. S. Post Office.

For Opposition: Goldie Lipetz, Henry E. Ashcroft, Elizabeth Cartlin, Robert Ready, Francisco Berrios and Samuel Lipetz.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 24, 1955, at 10 A.M. for inspection and decision; hearing closed.

155-54-BZ

APPLICANT—Leonard F. Rothkrug, for Tony Nappo, owner.

SUBJECT—Application March 5, 1954—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a business use, C area district, the erection and maintenance of a structure using more than the area permitted.

PREMISES AFFECTED—173 Bayard street, north side, 194 ft. 6 7/8 in. east of Graham avenue (Block 2720, Lot 43), Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly

Negative

Absent Commissioner Keating

714-28-BZ—Vol. II

APPLICANT—John F. Fitzsimons, for Queens-Union Realty Co. Inc., owner, Kemwol Realty Corp., lessee.

SUBJECT—Application November 24, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a residence and business use district the change in occupancy from retail stores (previously granted by the Board), to mortuary, storage, lounge, funeral parlor and chapel, with a two car garage.

PREMISES AFFECTED—119-51 to 119-59 Union turnpike, north side, 75 ft. east of Kew Forest lane, Block 3347, Lot 44, formerly Lot 45, Forest Hills, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons, Perry P. Kemp and Jerome W. Perlstein.

For Opposition: George J. Gross and Dr. James L. Dixon.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative

Negative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 11, 1955 subject to regular procedure, to consider change of use; and

WHEREAS, a public hearing was held on this application on March 29, 1955 after due notice by publication in the Bulletin; laid over to April 26, 1955, for inspection and decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Union turnpike are in residence and business use, D area, class 1 height districts; Kew Forest lane is in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated November 9, 1954 acting on Alt. Applic. 2663-54, reads:

"1. The use of the premises as a mortuary, storage, lounge, funeral parlor, chapel and two car garage in a Residence Use District is contrary to Art. II Sec. 3 of the Zoning Resolution.

2. The proposed change in occupancy from retail stores to mortuary, storage, lounge, funeral parlor, chapel is contrary to the Board of Standards and Appeals Resolution #714-28-BZ printed in Bulletin #3 Vol. #15 and is referred back to the Board for reconsideration."

and

WHEREAS, the applicant states that the premises consist of a plot, 110 ft. frontage by 77.82 ft. in depth, on which is located a one story, class 2 building, 105 ft. front by 77.82 ft. in depth, used as retail stores, as per Board grant on January 22, 1929; that it is proposed to change the use to mortuary, lounge, funeral parlor, chapel and two car garage; and

WHEREAS, the applicant further states that since the adoption of the resolution, Queens boulevard has been widened and the easterly 3 ft. of the premises is now in a business use district; that at some time prior to 1947 the area zoning was changed from C to D; and

WHEREAS, the applicant contends that subsequent to the construction of the building in accordance with the variation granted by the Board, there have been many and radical changes in the neighborhood; that the construction of the vehicular passageway on Union turnpike under Queens boulevard has eliminated any crossover from either side of Union turnpike to the other; that a protective retaining wall in the roadway in front of the premises is another result of this construction; that since the wall was built it has been very difficult to rent the store space and some of the stores have been vacant for 4 years; that the building is off the main thoroughfare and trade on the street is practically nothing, yet because of the bus and subway facilities along Queens boulevard, the building is satisfactory for a funeral home; that there are no residences along the street frontage to be adversely affected; that the southeasterly side of Union turnpike, opposite the property, is occupied by the Kew Gardens hospital and a six story apartment house, which can in no wise be affected by the proposed conversion; and

MINUTES

WHEREAS, the applicant states that the present owner has held title to the property since March 2, 1949; that the assessed valuation of land is \$38,000 and of the building \$21,000 making a total of \$59,000; that the building was erected 1930; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that the street conditions were not suitable for the use proposed; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision e of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 2663-54, Objection No. 1 and 2 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

319-32-BZ—Vol. III

APPLICANT—Goldwater and Flynn, for Robert P. Marshall, owner.

SUBJECT—Application February 7, 1955 (decision of the borough superintendent), under section 7f of the zoning resolution, to permit in a retail use district the erection and maintenance of a gasoline service station, lubritorium, car wash (non-automatic), and to permit the parking and storage of motor vehicles on unbuilt upon portion of plot (previously granted by the Board—but not built).

PREMISES AFFECTED—East Tremont avenue and Dewey avenue, northwest corner, Block 5561, Lot 95, Borough of the Bronx.

APPEARANCES—

For Applicant: Monroe Goldwater and Samuel Rosenblum.
For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and John J. Saunders, B'd of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on February 23, 1955 subject to regular procedure, to consider revised proposal for a gasoline station, previously granted but which expired by limitation; and

WHEREAS, a public hearing was held on this application on April 26, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East Tremont avenue are in a retail use, D area, class 1 height district; East 177th street is in residence and retail use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated January 27, 1955 acting on N.B. Applic. 139-55, reads:

"1. In a retail district the proposed 'Gasoline selling station, car washing and lubritorium with storage and parking of more than 5 motor vehicles contrary to Section #4-A of the Zoning Resolution.'"

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 92.74 ft. in depth, irregular, presently vacant; and

WHEREAS, the applicant further states that in connection with the appeal heretofore approved for the erection of a gas station, circumstances have prevented the carrying out of the erection of this gas station in accordance with plans originally approved; that shortly after the adoption of the resolution herein, the owner immediately proceeded with plans for construction but critical materials were not easily obtainable at that time due to the war in Korea; that the owner was subject to call for active military duty and therefore the project in question had to be postponed; that since the original pro-

posed lessee had, by reason of the lapse of time, withdrawn from its arrangement, the owner recently entered into negotiations with The Texas Company which culminated in a lease with said company for the purpose of erecting a gas station as authorized under the original resolution adopted by the Board; that this lease is conditioned upon the approval of the Board for the owner to immediately commence construction of the gas station; and

WHEREAS, the applicant states that the present owner has held title to the property since February, 1950; and

WHEREAS, the applicant states that from present indications no portion of the premises will be required for roadway from proposed bridge; and

WHEREAS, the premises and surrounding area were previously inspected by a committee of the Board; and

WHEREAS, a gasoline service station was permitted under resolution adopted by the Board under Cal. 319-32-BZ, Vol. I on November 4, 1932, which was never constructed; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years, to permit the use of the plot as a gasoline service station, previously permitted by the Board under resolution adopted July 25, 1950, for which approved plans were filed and approved by the Board on July 15, 1952, so as to rearrange the proposed station substantially as now proposed and as indicated on plans filed with this application, marked "Received February 7, 1955", 4 sheets, *on condition* that the requirements of the resolution above cited and approved plans filed in connection therewith shall generally be followed as to requirements where not inconsistent with the revised drawings and that revised working drawings shall be submitted for further consideration by the Board and for imposition of additional conditions within two months and that after approval thereof, all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the zoning resolution.

162-38-BZ—Vol. II

APPLICANT—John J. Tricarico, for Paul Nicolopoulos, owner.

SUBJECT—Application November 15, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in the business use portion of a plot located in a residence and business use, C area district, the erection of an extension to existing structure using more than the area permitted (previously granted by the Board an extension and to omit required rear yard).

PREMISES AFFECTED—781-787 East 31st street, east side, 40 ft. north of Avenue H, Block 7559, Lot 8, Borough of Brooklyn.

APPEARANCES—

For Applicant: John J. Tricarico.

For Opposition: Mrs. L. F. Hollenbach.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on December 7, 1954 subject to regular procedure and restored to docket to consider extension in area of proposed addition; and

WHEREAS, a public hearing was held on this application on March 22, 1955 after due notice by publication in the Bul-

MINUTES

letin; laid over to March 29, 1955, for further hearing, for appearance of the applicant and for inspection; then to April 26, 1955, for inspection and decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 31st street are in residence and business use, C area, class 1½ height districts; Avenue H is in a business use, C area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated October 29, 1954 acting on Alt. Applic. 3487-54, reads:

"1. Proposed extension exceeds area for a 'C' district & is contrary to Art. 4 Sect. 13b & 19c of the zone resolution, note these premises were subject to a variation granted by Bd. of Standards & Appeals under 162-38-BZ & 169-41-A."

and

WHEREAS, the applicant states that the premises consist of a plot, 67 ft. 6 in. frontage by 100 ft. in depth, on which is located a one-story brick building, which was granted under Cal. 162-38-BZ and 169-41-A; that the plot is in business and residential use, C area districts; that the use district boundary line between the business use and residence use districts parallels, at a distance of 100 ft., both Flatbush avenue and Avenue H and that this line leaves a small area at the northeast corner of the subject plot in the residence district, that this area, for a distance of 6 ft. 7 in. along the rear lot line and for 28 ft. along the north lot line is equal to about 185 sq. ft. and will be kept vacant; and

WHEREAS, the applicant contends that the adjoining property bordering on the south has 100% coverage; that there has been no material change in the community since the original approval by the Board; that the owner has operated the premises continually as a restaurant since the date of purchase in June 1944; that a grant of this application will not adversely affect light or ventilation of any adjoining building and that it is mandatory for the owner to enlarge the building in order to operate his business as an efficient and profitable enterprise; and

WHEREAS, the applicant states that the present owner has held title to the property since June 18, 1944; that the assessed valuation of land is \$27,000 and of the building \$52,000 making a total of \$79,000; that the building was erected in 1941; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 as to extension of area to permit the extension of the building substantially as proposed and as indicated on plans filed with this application marked "Received, November 15, 1954" (5 sheets) *on condition* that the extension shall not be increased beyond the height and areas as therein proposed; that there shall be no windows on the rear or side lines; that there shall be no openings to the adjoining portion of the premises proposed to be unbuilt upon; that such open portion shall be maintained and paved and drained; that suitable fences shall be maintained thereon against such open space on the side lot line and on the rear lot line and that there shall be no skylight in the roof of the proposed extension; that ventilation shall be by mechanical means with equipment venting toward the street; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

1012-39-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Abraham J. Stern, owner, Socony Vacuum Oil Company, Inc., lessee.

SUBJECT—Application November 26, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a residence use district the reconstruction and extension of an existing gasoline service station to include lubritorium, car wash, motor vehicle repairs, storage and sale of accessories and office; and to permit the parking and storage of motor vehicles on unbuilt upon portion of plot (previously granted by the Board—never reconstructed).

PREMISES AFFECTED—4902-4910 Kings highway and 1161-1163 East 49th street southeast corner and 4901-4909 Avenue H, Block 7733, Lots 7 and 8, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 11, 1955 subject to regular procedure, to consider extension and rearrangement; and

WHEREAS, a public hearing was held on this application on March 29, 1955 after due notice by publication in the Bulletin; laid over to April 26, 1955, for inspection and decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, C area, class 1 height district; Kings highway, East 49th street and Avenue H are in residence and business use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated October 29, 1954 acting on N.B. Applic. 1221-54, reads:

"1. Proposed reconstruction and extension of an existing gasoline station in a residence zone to gasoline service station, lubritorium, car washing, minor auto repairs, store, utility room and parking and storage of motor vehicles is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 85 ft. 1¼ in. frontage by 36 ft. 1¾ in. in depth, irregular; that the use district maps show that the premises are located in a residence use, class 1 height, C area district; that as of July 25, 1916 the premises were in an unrestricted district and received its present use designation on June 16, 1922; that as of July 25, 1916 the premises were in a class D area district and received its present area designation March 27, 1925; and

WHEREAS, the applicant further states that the premises are presently developed with a gas station consisting of two open grease pits, one open lift, four 550 gallon gas tanks, five dispensing pumps and a one story building of class 3 construction, having a frontage of 20 ft. 6 in., a depth of 13 ft. and being used as an office for the gas station; that in 1921 permit No. 9640 of 1921 was issued for a gas station and certificate of occupancy No. 11127 was issued on December 19, 1921 for said use of gas selling station on a plot having a frontage of 50 ft. on Avenue H, 69 ft. on East 49th street, 100 ft. on the easterly lot line and 59 ft. on the northerly lot line; that in 1925 permit No. 1542 of 1925 was issued to relocate two existing gas tanks due to the widening of Kings highway; that in 1931 permit No. 10582 of 1931 was issued for two grease pits and certificate of occupancy No. 67282 was issued on April 25, 1932 for use as gas station and two grease pits; that in 1940 under Cal. No. 1012-39-BZ the Board granted a variance to rebuild and extend this station, but no work was ever done under this grant; and

MINUTES

WHEREAS, the applicant states that it is proposed to extend the existing gas station to a frontage of 85 ft. 1¼ in. on Kings highway, 36 ft. 13⁄8 in. on East 49th street, 75 ft. on Avenue H, 100 ft. on the easterly lot line and 18 ft. 9½ in. on the northerly lot line; that it is also proposed to install six additional gas tanks, making a total of 10, relocate and reduce the number of dispensing pumps to 4, demolish the present building, remove the pits and lifts and erect a new accessory building one story in height, of class 3 construction, having a frontage of 44 ft. and a depth of 27 ft. 8 in., to contain the conjunctive uses of lubritorium, car wash, minor auto repairs, store and utility room; that part of the open area will be used for parking of cars awaiting service; that a 5 ft. high woven wire fence on a 6 in. high concrete curb is proposed on the unbuilt portion of the easterly lot line and on the northerly lot line; that it is also proposed to have one 40 ft. curb cut on Kings highway, one 35 ft. cut on Avenue H and one 25 ft. cut on East 49th street; and

WHEREAS, the applicant contends that inasmuch as Kings highway is a heavily trafficked auto lane leading across Brooklyn the proposal is entirely within keeping at this point as is also proven by the continuous operation of the gas station since 1921; that the removal of the present building, open pits and the erection of a new building of modern design will greatly enhance the appearance of this station; that all the services will be performed inside of the new building; that owing to the irregular shape of the plot and with the small frontages on all three streets the curb cuts as proposed will provide better ingress and egress to the station and help to reduce pedestrian hazards; that the following non-conforming uses within the affected area also render the proposed re-building entirely in keeping at this point; that block 7732, lot 8 contains a gas station and block 7733, lots 21 and 53 contain a garage and gas station; that a portion of East 49th street north of Kings highway is in an unrestricted zone and has developed with unrestricted zone uses; that it would be a hardship to devote the site to residence purposes, due to its location on Kings highway with the attendant noise and gas fumes and with the many non-conforming uses in the affected area; and

WHEREAS, the applicant states that the present owner has held title to the property since August 11, 1927; that the assessed valuation of land is \$11,500 and of the building \$2,500 making a total of \$14,000; that the building was erected 1921; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the extension and reconstruction and rearrangement of the lawfully existing gasoline service station substantially as proposed and as indicated on plans filed with this application marked "received, November 26, 1954" (5 sheets) *on condition* that such construction and uses on the premises as not proposed to be retained shall be removed and the premises shall be levelled substantially to the grade of the abutting streets and shall be developed and constructed and arranged as indicated on such plans; that the accessory building shall be faced with face brick on all sides; that there shall be no cellar under such accessory building; that pumps shall be of a low approved type and erected not nearer than fifteen feet to the street building line; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved storage tanks; that on the lot lines to the east and north there shall be erected a masonry wall not less than five feet six inches in height, such wall may be reduced towards Kings Highway to a height not less than four feet six inches within ten feet of the building line; that sidewalks and curbing around the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that curb cuts shall be limited

to one curb cut to Avenue H not over 35 feet in width and one curb cut to East 49th Street not over 25 feet in width and one curb cut to Kings Highway not over 35 feet in width; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection within the building line of Kings Highway towards the north on one post standard for supporting the sign, which may be illuminated and which may extend beyond the building line for a distance of not more than four feet advertising the brand of gasoline on sale only; that parking of cars waiting to be serviced may also be permitted on the premises, so located as not to interfere with the servicing of the station; that under Section 7i there may be minor repairs maintained only in the accessory building with hand tools only for adjustments; that all permits shall be obtained and work completed within the requirements of Section 22A of the Zoning Resolution.

831-41-BZ—Vol. III

APPLICANT—Max Horn, for Den-Robert Realty Co. Inc., owner.

SUBJECT—Application September 15, 1954 (decision of the borough superintendent), under section 7h of the zoning resolution, to permit in the residence use portion of the plot, the parking and storage of motor vehicles (previously granted by the Board for Lot 7 accessory to both buildings, later granted, for the rearrangement from hand ball courts to kiddie rides and parking, extended—expires 1956).

PREMISES AFFECTED—95 Beach 34th street and 34-05 Sprayview avenue, southwest corner and 76 Beach 35th street, Block 306, Lots 7 and 13, Edgemere, Borough of Queens.

APPEARANCES—

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on November 3, 1954 subject to regular procedure, to consider extension of area and use; and

WHEREAS, a public hearing was held on this application on April 26, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Beach 35th street and Beach 34th street are in residence and business use, D area, class 1 height districts; Sprayview avenue is in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated August 26, 1954 acting on Alt. Applic. 1869-54, reads:

"1. The use of the premises for parking and storage of motor vehicles in the residence portion of a lot partly in a residence and partly in a business use district is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 125 ft. frontage by 292 ft. in depth, irregular; that it is proposed to use vacant portion for parking and storage of motor vehicles; and

WHEREAS, the applicant further states that the plot under appeal has a frontage of 125 ft. on Sprayview avenue, 292.07 ft. on Beach 34th street, 250 ft. on the Boardwalk and 126.56 ft. on Beach 35th street; that it is zoned business D for a depth of 100 ft. from the Boardwalk and residence D for the

MINUTES

balance of the plot to Sprayview avenue, in block 306, lots 7 and 13; that the zone was changed from business D to residence D on December 28, 1939; that on the Boardwalk frontage from Beach 34th to Beach 35th street, is a block of one story stores; that about half of the balance the plot was built up with a group of frame bathing lockers which were destroyed by fire and the owner has decided not to rebuild these dressing lockers but to use the area indicated for parking in conjunction with adjoining parking space where parking was permitted by the Board, because of the tremendous demand for parking space in this section; that the ground has already been cleared of the remains of the fire; that the stores were not affected by the fire and are intact; that the portion of the plot on Sprayview avenue (lot 7) was used for parking for bathing locker patrons and the 70 by 150 cemented area on Beach 35th street was originally used as a hand ball court, but for a number of years before the fire, was used for patrons' parking; that there is an existing ramp from this portion of the lot to Beach 35th street because the grade at Beach 35th street is about 30 in. higher than at the corner of Beach 34th street and Sprayview avenue; and

WHEREAS, the applicant requests a variance for a period of five years for this parking lot, for pleasure cars during the summer season, because of the great need for parking space, especially on week ends and holidays; that on these days, the streets are completely lined with cars, where permitted, long before noon, as is also the city parking field a few blocks away and the other parking lots in the area; that this parking lot, with an area of 39,500 sq. ft., will materially help the critical parking situation here; and

WHEREAS, the applicant states that the present owner has held title to the property since June 10, 1951; that the assessed valuation of land is \$68,500 and of the buildings \$60,000 making a total of \$128,500; and

WHEREAS, the premises and surrounding area were previously inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on February 6, 1951, as thereafter amended by resolution adopted through January 5, 1954, by adding thereto: that in the event the owner desires to include a portion of the premises formerly occupied by baths, which have been removed, such space so occupied may be included as addition to the present permitted parking area on condition that the requirements of the resolution adopted February 6, 1951, as above cited, shall be complied with and that paving and fencing as therein required for the other portions of the plot shall apply to this portion of the plot; that this variance is granted for a term under Section 7h to expire January 5, 1956 and as indicated on plans filed with this application marked, "Received, February 9, 1955" (3 sheets); that all permits shall be obtained, including a new certificate of occupancy and work completed within six (6) months from the date of this amended resolution.

596-42-BZ—Vol. IV

APPLICANT—Irrving P. Marks, for Roberts Numbering Machine Company, owner.

SUBJECT—Application October 25, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a residence and business use district the maintenance of existing extension to one story brick factory (previously granted by the Board under Cal. No. 306-42-BZ), to be used as an enclosed loading shed.

PREMISES AFFECTED—692-710 Jamaica avenue, south side, 54 ft. 2 in. west of Richmond street, Block 4102, Lots 19 and 35, Borough of Brooklyn.

APPEARANCES—

For Applicant: Irrving P. Marks.

For Opposition: Mrs. Anna Baltrusaitis.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. IV on November 23, 1954 subject to regular procedure, to consider extension of use; and

WHEREAS, a public hearing was held on this application on March 29, 1955 after due notice by publication in the Bulletin; laid over to April 26, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Richmond street and Jamaica avenue are in residence and business use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated October 13, 1954 acting on Alt. Applic. 1071-54, reads:

"1. Extending business use in a Residential use district, is contrary to Art. II sect. 3 of Zone Resolution. Refer to B.S. & A. Appl. #306-42-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 186 ft. 1 in. frontage by 226 ft. 5½ in. in depth, irregular, on which are located a one and two story factory building, certificate of occupancy No. 112704, used for the manufacture of numbering machines, also two frame buildings (dwellings) on the Richmond street front of the plot, also a one story building, certificate of occupancy No. 113678, for garage, also a one story factory building, certificate of occupancy No. 106067, to which the extension in question was added and which was the subject of a variance by the Board under Cal. No. 306-42-BZ, with the occupancy established as follows: cellar, boiler room; 1st floor—factory, 35 persons; that the extension built on the southeasterly side of the factory is 13 ft. 5 in. wide, 49 ft. 11 in. long and has an average height of 10 ft. from grade; that it is constructed of cinder block around three sides approximately 4 ft. in height and has lally columns supporting a girder, which in turn supports the roof; that the floor is constructed of concrete on earth; that the space above the cinder block walls to the underside of the girder and between the lally columns is to be enclosed with steel windows on the southerly and easterly sides and the northerly side is to have a sliding door; that the purpose of this extension is solely to be used as an enclosed loading shed; and

WHEREAS, the applicant contends that the owner is the manufacturer of precision parts for the United States Navy on a reasonably large contract; that when shipments are ready to be made, it was ascertained that adequate loading facilities were not available, especially in bad weather, and the Navy representatives suggested that the owner erect a suitable weather-protected loading platform; that the owner immediately set about complying with same, but upon notice that a violation existed, which occurred after the main structure had been erected, they stopped further construction; that the loading platform is entirely within the residential portion of the property but does not extend beyond the factory building already granted by the Board, and occupies space that was used for open loading space; that the portion of the residential property in back of the existing factory building and also in back of the loading platform has always been and will continue to be maintained as a garden area of 3,750 sq. ft. and has suitable landscaping surrounding the area and also is beautifully landscaped; that a concrete curbing separates this garden area from driveways, loading area and factory; that the garden area is directly in back of and between adjoining residential properties and has not been changed by the erection of the loading platform; that the entire property, including the driveways and loading areas, has always been kept in tip-top shape and the owners have always tried to keep the residential character of the rear portion of the property by adequate landscaping of the business areas with a great deal of expense and inconvenience; and

MINUTES

WHEREAS, the applicant states that the present owner has held title to the property since April 29, 1910; that the assessed valuation of land is \$33,200 and of the buildings \$65,800 making a total of \$99,000; that the buildings were erected 1922; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 20, 1942, as amended by resolution adopted by the Board on June 26, 1945, and November 23, 1954 by adding thereto: that the extension already constructed and proposed to be maintained as indicated on plans filed with this application marked, "Received, February 16, 1955" (5 sheets) may be continued as thereon proposed and for the use as shown *on condition* that in all other respects the resolutions above cited, and this resolution, shall be complied with; and that all permits shall be obtained and all work completed within six months from the date of this amended resolution; that such extension shall be for a loading shed as proposed.

857-48-BZ—Vol. II

APPLICANT—Jerome N. Perlstein, for Big Six Realty, owner, Balsam Farms, lessee.

SUBJECT—Application October 5, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a residence use district the demolition of two story frame structure and the erection in its place of a one story, class 2 structure, to be used as an office and storage in conjunction with adjoining dairy farm.

PREMISES AFFECTED—87-10 Pitkin avenue, south side, 52 ft. west of 88th street, Block 11367, Lot 22, Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Jerome W. Perlstein.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on October 19, 1954 subject to regular procedure, to consider extension of use; and

WHEREAS, a public hearing was held on this application on March 29, 1955 after due notice by publication in the Bulletin; laid over to April 26, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Pitkin avenue and 88th street are in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated September 20, 1954 acting on Alt. Applic. 2237-54, reads:

"1. The construction of a building within a Residence Use District for use as an office and storage building is contrary to Art. II, Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 91 ft. frontage by 324.8 ft. in depth, irregular; that this lot is bounded on the west side adjoining the Right of Way by lot 1, both lots being owned by the same owner and both properties are used conjunctively as a dairy farm; that the plot is now occupied by a two story frame building 35 ft. by 45 ft. formerly used for office space and storage (not in use now), an adjoining one story brick building 15 ft. by 30 ft. used as a storage barn and a one story concrete block building 30 ft. by 50 ft. used as a storage garage; that it is proposed to demolish the two story frame building at the northerly end of the plot and to construct in its place a new one story masonry building 35 ft. by 65 ft.,

of class 2 construction, to be used for offices and storage of new glass bottles; that these premises together with adjoining lots to the west, consisting of approximately two acres, are in a residence use district, although it has been occupied as a dairy farm and milk processing plant under the same ownership for over 50 years; that the use zone for 100 ft. deep from both Pitkin avenue and Dumont avenue was changed from business to residence on May 15, 1941; and

WHEREAS, the applicant contends that due to inadequate facilities and Health Department requirements for construction of additional facilities on lot 1, the owners filed with the Board under Cal. Nos. 857-48-BZ and 1065-48-A for permission to build a new extension to comply with the requirements of the department of health; that the Board granted a variation to permit in a residence use district the extension of existing buildings used for milk pasteurizing, bottling and distributing, loading and offices affecting block 11367, lot 1; that this extension is now under construction and since its original approval the proposed plan and layout are inadequate for present day machinery layout demands and thus is insufficient space for the proposed offices; that it was then necessary to locate offices in the immediate vicinity of the entrance to the new extension now under construction so as to afford efficiency and control in management; that it was therefore decided to demolish the present two story frame building that was used infrequently as office space before its condition made it undesirable for such use, as this location was best suited for office requirements; that it is proposed to construct the new walls of concrete block and brick veneer with a concrete slab roof; that since this dairy farm was in existence long before most of the adjoining owners acquired their property and the proposed building will not in any way interfere with or cause disturbance to any surrounding properties but will improve the appearance of the plot, at the same time eliminating a fire hazard, and since it is deemed essential to maintain sufficient office space for the proper management of the business, and that this proposed construction is to be used conjunctively with the building now under construction, it is requested that this application be granted; and

WHEREAS, the applicant states that the present owner has held title to the property since February 8, 1925; that the assessed valuation of land is \$6,800 and of the building \$2,700 making a total of \$9,500; that the building was erected 1925; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, and the committee recommends that the application should be granted on condition.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 22, 1949 by adding thereto: that the existing two story frame building shall be removed and there may be erected a one story building replacing it substantially as proposed and as indicated on plans filed with this application marked, "Received, October 5, 1954" (4 sheets), and "February 9, 1955" (one sheet). *on condition* that in all other respects the building and occupancy shall comply with all the requirements of law therefor; that this variance shall continue only so long as the premises are used as proposed and in conjunction with the existing milk plant; and that all permits shall be obtained and work completed within the requirements of Section 22A of the Zoning Resolution.

144-50-BZ—Vol. III

APPLICANT—Burke, Green and Groh, for Habco Estates, Inc., owner.

SUBJECT—Application September 28, 1954 (decision of the borough superintendent), under sections 7e, 7h, and 21 of the zoning resolution, to permit in a residence, local retail and retail use district, the change of occupancy from roller skating rink, office and parking of motor vehicles (previously granted by the Board for ten years), to shop-

MINUTES

ping center and the extension of existing parking of owners' and clients' motor vehicles.

PREMISES AFFECTED—130-35 Merrick boulevard, north side, 100 ft. west of Farmers boulevard, 127-06 to 127-32 Farmers boulevard and 178-22 to 178-30 Eveleth road, Block 12493, Lots 73, 85, 86, 87 and 88; Block 12494, Lot 8, Springfield Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Robert T. Groh and Aaron L. Solomon.
For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Keinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on October 19, 1954 subject to regular procedure, to consider change of use and additional use; and

WHEREAS, a public hearing was held on this application on January 11, 1955 after due notice by publication in the Bulletin; laid over to February 15, 1955, for inspection and decision; hearing closed; applicant to submit more complete plans of proposed use; then laid over, date to be set, Board to inspect similar uses; hearing previously closed; then set for April 26, 1955; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in residence, local retail and retail use, D area, class 1 height districts; Farmers boulevard is in local retail and manufacturing use, D area, class 1 height districts; Merrick boulevard is in local retail and retail use, D area, class 1 height districts; Eveleth road is in residence and retail use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated September 23, 1954 acting on Alt. Applic. 1714-54, reads:

"1. The proposed use of shopping center & parking for more than 5 employees' & patrons' motor vehicles, on a plot partially in a retail use dist., partially in a local ret. use dist., & partially in a res. use dist. is contrary to Art. 2, Sec. 3 or the Zone Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 31.88 ft. frontage by 359 ft. in depth, irregular, approximately 60,000 sq. ft. in area, fronting on three streets; that on this area, in accordance with the Board's ruling, there is constructed a modern one story fireproof building used as a roller skating rink; that 85% of this building is constructed within the retail and local retail area and only a small portion of the rear, approximately 26 ft. by 104 ft., or 15% of the building area, is in a residential district; that the entrance and entrance lobby front solely on Merrick boulevard in the retail use district; that it is proposed to change the use of said building from a roller skating rink to a shopping center; that this use will include space concessions for the sale of merchandise within the confines of the leased premises; and

WHEREAS, the applicant contends that under the terms of the original grant a small parking area directly west of the building was permitted by the Board; that it is now requested that the Board extend such parking area so as to accommodate cars; that it is proposed to develop this parking area by surfacing the same with steamed cinders treated as a binder; that there will be a 6 ft. by 10 ft. portable frame watchman's booth located at the sole entrance to the parking lot from Farmers boulevard; that shrubbery and hedges will be provided to the north and south, to protect the residential homes adjacent thereto; that the roller rink has not met with the expected success of the owners at the time of the proposal of same and they have been themselves forced to desert this building as a roller skating rink and to convert it to a use that will bring them a return on the investment placed in this building; and

WHEREAS, the applicant states that the property referred to is presently zoned as a class ½ height district; that the portion of the property within 100 ft. of Farmers boulevard is zoned as a local retail district, the portion more than 100 ft. from Farmers boulevard and within 100 ft. of Merrick road is zoned as a retail district and the remainder is in a residence district; that the Farmers boulevard and Merrick road frontages for a depth of 100 ft. are in a D district and the remainder is zoned as a D-1 district; that as of July 25, 1916 the entire property was zoned as an unrestricted use, one times height, D area district; that on January 21, 1947 the present use zoning became effective and on June 30, 1952 the present height and area designations went into effect; that no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant states the present owner has held title to Lot 8 since October 15, 1946 and to other lots since August 21, 1949; that the assessed valuation of land is \$21,000 and of the building \$185,000 making a total of \$206,000; that the building was erected in 1951; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and other similar uses in New York City and Garden City and Hempstead, Long Island were also inspected; and

WHEREAS, it is stated that a parking area for which permit has been issued is directly across Farmers boulevard for additional parking.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 26, 1950, as thereafter amended by resolutions adopted through September 18, 1951, by adding thereto:

"that the use of the building previously permitted under resolutions above cited may be changed to an occupancy of salesroom under the name "Merrick Mart", as indicated on plans filed with this application, marked "Received September 28, 1954", 3 sheets, as amended by plans filed marked "Received February 11, 1955", 4 sheets, "February 23, 1955" 1 sheet and "March 23, 1955", 1 sheet, *on condition* that the building shall not be increased in height or area and shall be used for the purposes proposed and indicated on such plans and arranged specifically as to spaces as indicated on plan marked "Received March 23, 1955" but excluding auctioneering; that in all respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto, including signs but not above roof, and to permit space for parking previously permitted to be extended to Sidway place as proposed and indicated on revised plan marked "Received February 11, 1955", 2 sheets, *on condition* that such space shall be surfaced with clean gravel or steam cinders, treated with a binder and properly rolled for the entire area, including entrance passageway on Farmers boulevard; that around such parking lot there shall be maintained a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height; with exit to Sidway place; that planting shall be maintained against such fence on the westerly side, as indicated on plans; that a similar fence shall be erected along the building line of Sidway place with one entrance as above permitted and with curb cut opposite not more than 20 feet in width; that such entrance shall be fitted with gates of similar construction and kept closed except when the parking lot is being used in connection with the store building; that such fire-fighting appliances shall be maintained as the fire commissioner shall direct; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

794-52-BZ—Vol. II

APPLICANT—Goldwater and Flynn, for Samuel Katz, owner.

SUBJECT—Application December 27, 1954 (decision of the borough superintendent), under sections 7f, 7i and 21 of the zoning resolution, to permit in a business use, D area

MINUTES

district the erection and maintenance of a one story and mezzanine structure to be used as an automobile showroom, sales and service agency (for a franchised automobile dealer), storage garage, motor vehicle repair shop, parts department and office, using more than the area permitted (previously denied, a gasoline service station and motor vehicle repair shop).

PREMISES AFFECTED—215-35 Northern boulevard, north side, from 215th place to 216th street, Block 6309, Lot 23, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Monroe Goldwater and Samuel Rosenblum.

For Opposition: Herman Mueller.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleiner and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 18, 1955 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on April 19, 1955 after due notice by publication in the Bulletin; laid over to April 26, 1955, hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Northern boulevard are in a business use, D area, class 1 height district; 215th place and 216th street are in residence and business use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated December 13, 1954 acting on N.B. Applic. 4218-54 and superseded by N.B. Applic. 4218-54 dated February 24, 1955, reads:

"1. Proposed use of premises in a business use district for an auto-showroom, motor vehicle repair shop, auto-washing, lubrication, brake testing and relining, wheel alignment, general servicing and adjustment, sale of used cars, storage and offices is contrary to Art. II, Sec. 4a (29) of the Zoning Resolution.

2. Area under ramp is considered occupied area and this occupied area is in excess of permissible coverage in a D area district as per Art. IV, Sec. 14 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 ft. frontage by 100 ft. in depth, presently vacant; that it is proposed to erect a structure 160 ft. front by 90 ft. 6 in. in depth, one story and mezzanine, 20 ft. in height, of class 3 construction, to be used by a franchised automobile dealer as showroom, sales and service agency, storage garage, motor vehicle repair shop, parts department and office; and

WHEREAS, the applicant contends that upon the filing of plans a new objection, having items 1 and 2, was obtained; that item 1 is essentially the same as previously noted; that because all entrances have been omitted from the side streets, the previous item 2 no longer prevails; that the new objection, item 2, refers to the ramp from Northern boulevard to the 1st story and the Department of Housing and Buildings considers it area coverage and it states that the area coverage is in excess of that permissible in a D area district; that actually, the coverage by the building itself is not in excess of that legally permitted; that the total area of the lot is 19,888 sq. ft. and the area of coverage is 12,435 sq. ft. and since this property is in a D area, the permitted coverage is 12,438.4 sq. ft.; that adding the area of the ramp to the 1st floor, having a coverage of 690 sq. ft., to the area of the building aforesaid of 12,435 sq. ft., a total covered area of 13,125 sq. ft. is obtained, or an excess of 686.6 sq. ft., due entirely to the area covered by the ramp; that these premises will be operated under an established franchise for sales agency and servicing of Buick cars; that such servicing requires the repairing of cars, supplying of parts, painting and

such other details customary to the operation of an automobile agency, and for this purpose one gas pump and two tanks are to be installed; that the pump is to be located inside the building solely for the use of cars inside the building; that Northern boulevard is in a business district and as such it can be used for factories with use area permitted to equal the area of the lot; that such factories could of course use machinery; that warehousing and storage are also permissible; that the proposed showroom is a permissible use, but because the repairing of cars is required for servicing which is a necessary part of an automobile agency, objection No. 1 has been issued; that the parking of cars is also a permissible use; that since most of the uses proposed are permissible and such uses are much more desirable than factory, warehouse or storage buildings, and since high standards are to be maintained to conform to the franchise requirements of a Buick agency, it is felt that the proposed structure merits the consideration of the Board for a variance along the lines indicated; and

WHEREAS, the applicant states that the present owner has held title to the property since February 5, 1952 and that the assessed valuation of land is \$29,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution; and

WHEREAS, the Board deems that the space covered by ramp below curb grade should not be considered in computing building coverage.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of twenty years to permit the construction and use of the plot as indicated on plans filed with this application marked, "Received, December 27, 1954" (2 sheets), "February 18, 1955" (4 sheets), "March 16, 1955" (one sheet) and "April 21, 1955" (3 sheets) *on condition* that all buildings and uses on the premises shall be constructed and maintained for the use proposed, substantially as indicated on such revised plans; that the portion along 215th Street shall be reduced so that there is a space of 44 feet by 25 feet left unexcavated and unbuilt upon; that the proposed cellar under the entire building shall be properly ventilated and sprinklered with a wet source sprinkler system of at least one source; that the building shall be used mainly as proposed as an agency for Buick motor vehicles, occupied by Bay Buick, Inc., or its successors in the same line of business including sale of used cars; that motor vehicle repairing may be permitted as proposed in connection with the cars dealt in by the agency; that the space proposed to be left open shall be properly paved with concrete or asphaltic pavement; that the ramps as proposed shall start not less than 25 feet from the street building line; that such additional portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that the repairing work shall not include heavy chassis or collision work; that no anvil shall be maintained on the premises; that any acetylene welding or spraying shall be subject to licenses issued by the Fire Commissioner; that the sidewalks around the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that curb cuts shall be restricted to the curb cuts as shown, namely, two thirty feet in width and one 13 feet in width to Northern Boulevard only, and no openings to 216th Street or 215th Place; that signs shall be restricted to a permanent sign attached to the facade of the building, excluding all roof signs and pylon signs above the roof and all temporary signs; that there may be one gasoline pump and two 550 gallon approved gasoline storage tanks for servicing of cars being dealt in but not for general sale to the public and there shall be no sign advertising the presence or sale of gasoline; that the pump shall be located within the building at the point as shown on such plans; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that

MINUTES

all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

815-53-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Menashe Shekerdige, owner.

SUBJECT—Application November 23, 1954 (decision of the borough superintendent), under sections 7f, 7i and 7h of the zoning resolution, to permit for a term of twenty years in a business use district the erection and maintenance of an auto showroom, gasoline service station, lubricatorium, car wash, motor vehicle repairs, storage and sale of accessories and office, and to permit the parking and storage of motor vehicles (previously denied by the Board).

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: D. Fogel, Paul Kahn and Abraham Cohen.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioners Kleinert and Keating and Deputy Chief Connolly 3

Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 4, 1955 subject to regular procedure, based on alleged new facts; and

WHEREAS, a public hearing was held on this application on March 15, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, at request of the applicant, objector concurring; no further requests for adjournment to be considered; then to April 26, 1955, for inspection if necessary and for decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 8th avenue are in a business use, D area, class 1½ height district; West 116th street is in residence and business use, D area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated October 28, 1954 acting on N.B. Applic. 112-54, reads:

"1. Proposed auto showroom, gasoline service station, lubricatorium, car washing, minor auto repairs, office and sales, storage and parking and storage of motor vehicles uses are contrary to Sec. 4 (46 and 29) of Z.R. since same are located in a business use district."

and

WHEREAS, the applicant states that the premises consist of a plot, 80 ft. 11 in. frontage by 90 ft. in depth and presently developed with four story brick stores and tenements; that the two buildings on lot 29 were erected under N.B. 1727 of 1885 and the two buildings on lots 30 and 31 were erected under N.B. 1728 of 1885; that no certificate of occupancy has been issued; that the use district maps accompanying the building zone resolution show that the premises are in a business use B area, class 1½ height district and that there has been no change since 1916; that it is proposed to demolish all the present buildings and secure a variance for the period of twenty years in order to erect a modern auto showroom and gasoline service station consisting of twelve 550 gallon gasoline tanks and six dispensing pumps; that the proposed auto showroom and accessory building will have a frontage of 80 ft. 11 in. and a depth of 42 ft., one story in height, of class 3 construction and will contain the conjunctive uses of lubricatorium, car wash, minor auto repairs, office and sales and storage; that the northerly portion of the open site will be used for the parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the proposed auto

showroom and accessory building will be highly modern in design and will tend to improve the appearance of the entire affected area and be in keeping with any future development that may take place within said area; that the area to be provided on the site for the parking and storage of motor vehicles will help alleviate the parking situation at this point; that the erection of this one story building to replace the present five story building will go far towards providing better ventilation for the entire block; that 8th avenue is a highly trafficked auto lane leading north and south across Manhattan and as such the proposal is entirely in keeping at this point; that there are no other gas stations within the affected area; that the four upper floors of the present buildings have been vacant for years due to the obsolete rooms, toilet facilities, light and ventilation; that it would be prohibitive in any case to rehabilitate these buildings and it would not be feasible in this neighborhood; that the land is extremely high in assessed value and it is mandatory that the site be developed as proposed so that the owner may now receive an equitable return on his investment and to continue to pay taxes; that the affected area now has sufficient stores for public requirements; and

WHEREAS, the applicant states that the present owner has held title to the property since June 14, 1945; that the assessed valuation of land is \$57,000 and of the buildings \$5,000 making a total of \$62,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7f, for a term of fifteen years to permit the premises to be occupied substantially as proposed as a gasoline service station and accessory uses as indicated on plans filed with this application marked, "Received, November 23, 1954" (4 sheets) on condition that the existing multiple dwelling shall be removed and that the premises shall be levelled substantially to the grade of the abutting streets; that complete working drawings shall be submitted for consideration by the Board and for imposition of conditions before plans are filed with the borough superintendent; that such plans shall be filed within 30 days after approval; and that all permits shall be obtained, including a certificate of occupancy and work completed within the requirements of Section 22A of the Zoning Resolution.

655-54-BZ

APPLICANT—Michael Schimenti, for Joseph Bard and Alex Levinsoln, owners.

SUBJECT—Application August 24, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a business and unrestricted use district the extension of existing structure, using more than the area permitted.

PREMISES AFFECTED—1003 Flatbush avenue, east side, 81 ft. north of Tilden avenue, Block 5126, Lot 5, Borough of Brooklyn.

APPEARANCES—

For Applicant: Michael Schimenti and Nathan Silverman.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 26, 1955 after due notice by publication in the Bulletin; and

MINUTES

WHEREAS, the district maps accompanying the zoning resolution show that the site and Tilden avenue are in business and unrestricted use, C area, class 1¼ height districts; Flatbush avenue is in a business use, C area, Class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated July 28, 1954 acting on Alt. Applic. 2741-54, reads:

"1. Proposed extension together with existing bldg. occupying 100% of lot area violates Art. 4 Sect. 13b of the zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 18 ft. 8 in. frontage by 100 ft. 8¾ in. in depth, irregular, on which is located a three story brick building 55 ft. in depth, occupied as follows: cellar—storage, boiler room; 1st floor—store; 2nd floor—6 rooms, 1 apartment; 3rd floor—6 rooms, 1 apartment; that the building was erected in 1906 and is substantially the same with little alterations, consisting of store fronts; that the present owner has held title since March 1, 1937; that the property is zoned business for 100 ft. in depth and 8 ft. ¾ in. on triangle is zoned unrestricted; that it is in a C area, 1¼ height district; that the existing building covers 55% of the lot with a permitted extension of 60% of the unoccupied area equal to 27 ft. in depth, totaling 82 ft. in depth; that it is proposed to extend the existing building on the 1st floor; and

WHEREAS, the applicant contends that the existing store is too small for a tenant to rent on a fair lease; that the property backs an unrestricted district which is used for Macy's department store, covering an "L" shaped building; that the adjoining building on the north side has a one story extension to approximately 7 ft. from the rear lot line and all other buildings north are also extended; that this property is assessed for \$44,900; that since the income of this property is limited to the 1st floor only, the owner is having difficulty to economically carry the building with its limited rentable area; that the 2nd and 3rd floors have a dwelling occupancy but are now vacant; that the 799 sq. ft. one story extension in the rear that is in question, if granted by the Board, would make this property substantially economical; that a grant of this application will do substantial justice in that it will allow the owner to utilize the premises without adversely affecting anyone while a denial will cause great hardship without benefitting anyone; and

WHEREAS, the applicant states that the present owner has held title to the property since March 1, 1937; that the assessed valuation of land is \$34,900 and of the building \$10,000 making a total of \$44,900; that the building was erected in 1906; and

WHEREAS, the Board is familiar with the area and noted that the adjoining building is built over the rear yard with a one story extension such as is here proposed and to the north the R. H. Macy building has blocked them in so that this open yard would be of no benefit to anyone; and

WHEREAS, the Board found that the applicant has substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 to permit the construction of a one story extension of the existing building as proposed and as indicated on plans filed with this application marked, "Received, August 24, 1954" (5 sheets) and "March 11, 1955" (one sheet), *on condition* that the building shall not be increased beyond what is now proposed and shown and that in all other respects shall comply with all laws, rules and regulations applicable thereto; that there shall be no windows on the lot line opening to the adjoining premises to the south; that all permits shall be obtained and work completed within the requirements of Section 22A of the Zoning Resolution.

807-54-BZ

APPLICANT—Rubin Shapiro, for Parkwood Construction Corp., owner.

SUBJECT—Application October 25, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a residence use, G area district, the erection and maintenance of a class A multiple dwelling.

PREMISES AFFECTED—115-76 Park Lane south, northeast corner of Mayfair road, Block 3319, Lot 1, Kew Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Bernard Segal, Rubin Shapiro and Harold Schneider.

For Opposition: George Gross and Edward Hoffman for Park Dept.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioners Kleinert and Keating and Deputy Chief Connolly 3

Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 29, 1955 after due notice by publication in the Bulletin; laid over to April 26, 1955, for inspection by a committee of the Board and for decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, G area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated April 4, 1955 acting on N.B. Applic. No. 3411-54, reads:

"1M. Proposed erection of a multiple dwelling in a 'G' area 'Residence' use district is contrary to Article II Section 3 (1) and Article IV, Sec. 16-B (a) Zoning Resolution.

(b) In a G district no portion of any building shall be erected nearer than 20 feet to the street line of the street on which it fronts.

(c) In a G district no portion of any building shall be erected nearer than 10 feet to either side line of the lot except that a one story building or extension used exclusively for a garage may extend to within 5 feet of one side provided that such building shall be at least 70 feet from the street line of the street.

(e) In a G district no building shall occupy at the curb level more than 30 per cent of the area of the lot exclusive of accessory garages.

(f) Except as otherwise provided in this section, no building in a G district shall be erected which does not comply with the provisions in force in an F district."

and

WHEREAS, the applicant states that the premises consist of a plot, 176.13 ft. frontage by 158.22 ft. in depth, on which is located a one family dwelling; that it is proposed to erect a multiple dwelling 176.13 ft. front by 153.22 ft. in depth, irregular, six stories, 62 ft. 1 in. in height, of class 3 construction, to include doctor's office and 68-car garage; and

WHEREAS, the applicant further states that at the time of purchase, the property was in a D use area and the corporation purchased it solely for the purpose of constructing a multiple dwelling class A apartment house; that the contract for the purchase of the property was entered into on October 27, 1953, and a letter dated the same day was received by the City Planning commission from a representative of property owners within the area affected, requesting a change of zoning from a D area to G area; that it had no knowledge of this letter or the application requesting change of zoning; that the first knowledge of any pending change of zone was on the 18th of December, 1953 when a notice appeared in the City Record; that in the interim

MINUTES

the corporate owner took title to the site, ignorant of any possible impending change of zoning, and paid \$70,000; that the proposed amendment was subject to a public hearing by the City Planning commission on December 23, 1953 and the rezoning matter was further considered at a meeting of the City Planning commission on January 6, 1954 at which time the chairman of the City Planning commission transmitted to the Secretary of the Board of Estimate the resolution adopting the proposed zoning change from a D to a G area district and this was approved on January 28, 1954; that the rezoning included the subject site, thus changing it from a D to a G district which permits the construction of only single family dwellings; and

WHEREAS, the applicant contends that an invasion of its proprietary rights has been sustained by the rezoning of its land from a D to a G district, particularly when an examination is made of the area which was affected by the rezoning; that there were no conditions existing at the time of such rezoning which required or justified the limitations and restrictions placed upon the subject site; that the rezoning placed restrictions on the land which made it a liability and worthless for development; and

WHEREAS, the applicant further contends that within the rezoned area are a great many buildings between 40 and 50 years old and that such buildings are in direct violation with the requirements of a G district; that the D district had been established in 1916 and most of the structures contained within this district were erected to conform with the requirements of such district and they cannot now claim that they would be prejudiced by permitting a variance in view of the fact that they have heretofore owned or built the structure under the requirements of D district; that section 14 of the area district map had only two G districts in it and these were located in Jamaica estates and the Cord-Meyer section of Forest Hills; that the balance of section 14 is predominantly D or E districts; that the construction of an apartment house at the subject site could not possibly affect private dwelling owners or any of the two family or apartment house owners within the rezoned area; that the owners of 26% of the total affected area rezoned had filed objections with the City Planning commission; that the amendment to the area district map was illegally adopted by the City Planning commission in that the change was initiated by letter of a representative of adjoining owners on October 27, 1953; that the Report of The Charter Revision Commission clearly states that adjoining property owners may petition the City Planning commission for a requested change only in the month of April of any given year, whereas this request was made in the month of October which is in contradiction to the provision of law controlling; that the petition of such owners is therefore defective and the City Planning commission did not have the power or authority to use the defective petition of adjoining owners to initiate its own change of zone; and

WHEREAS, the applicant states that the present owner has held title to the property since December 7, 1953; that the assessed valuation of land is \$31,000 and of the building \$11,000 making a total of \$42,000; and

WHEREAS, the zoning of the area including this lot was changed from D area district to G area district, based on a report of the City Planning Commission dated January 6, 1954, CP-10431; in the report reference is made to one objector who desired to raze an existing private dwelling and erect a six-story apartment house; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area district regulations of the zoning resolution as to Objection 1M and that the application be and it hereby is *granted* under Section 21 to permit the erection of a Class A multiple dwelling with-

in a "G" district, formerly a "D" district, substantially as proposed and as indicated on plans filed with this application marked, "Received, October 25, 1954" (five sheets) and "December 9, 1954" (3 sheets) on condition that the building shall comply with the requirements of the Zoning Resolution for a "D" district as formerly zoned and shall comply with the requirements of the Multiple Dwelling Law and all other requirements applicable to the construction and occupancy thereof; that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

931-54-BZ

APPLICANT—Paul Friedman, for Reineking Family Co. Inc., owner, Harry Klein, lessee.

SUBJECT—Application December 8, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit for a term of fifteen years, in a residence use district the change in occupancy from public garage for over five cars and motor vehicle repair shop, 43 one-car garages, one family dwelling and private garage and stores and one family dwelling, to gasoline service station, motor vehicle repair shop, including body and fender work, welding and paint spraying, lubritorium, auto wash (non-automatic), storage and sale of auto accessories and office, and the parking of cars waiting to be serviced.

PREMISES AFFECTED—3513-3527 Atlantic avenue and 308-316 Grant avenue, northwest corner, Block 4151, Lot 54, Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: Peter Deutsch, Martha B. Balfour, William D. Rudland, Rose Falco, Stella Ackerina, Edna Rusyn, Walter Mackerer, Charles S. McEntee, Samuel Lesson and Austin J. Irum.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 8, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, for inspection by a committee of the Board and for decision without further argument; hearing closed; then to April 12, 1955, for inspection and decision; no further argument; then to April 26, 1955, for further consideration by the Board before action; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Atlantic avenue are in a residence use, C area, class 1 height district; Grant avenue is in residence and business use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated November 10, 1954 acting on Alt. Applic. 3989-54, reads:

"1. The proposed change in occupancy from public garage for over 5 cars and motor vehicle repair shop, 43 one-car garages, one family dwelling and private garage, and stores and one-family dwelling to gasoline service station, motor vehicle repair shop (including incidental body and fender work, welding and paint spraying), lubritorium, non-automatic auto washing, storage and sale of auto accessories, office and parking of cars waiting to be serviced, on a lot located in a Residence Use District is contrary to Article II, Section 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 152 ft. 5 3/8 in. and 115 ft. 5 in. frontage by 125 ft. in depth, irregular; that as of July 25, 1916 the portion of the property within 100 ft. of Atlantic avenue was in an unre-

MINUTES

stricted use district and the remainder was in a residence use district; that on April 22, 1926 the unrestricted portion was rezoned to business use and on May 15, 1941 the present residence use district designation became effective; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending; and

WHEREAS, the applicant further states that building No. 1 contains two 1-story buildings erected in an unrestricted use district under N.B. permit No. 6636-1921 for which certificate of occupancy No. 18018 was issued March 7, 1923 for the following use—one building public garage for over 5 cars and repair shop, 2 buildings 4 cars each, 7 buildings 5 cars each, 10 buildings in all; that fire department records show that on April 28, 1922 application was filed under N.B. 471-1922 for a storage garage in an unrestricted use district; that this application was approved on May 29, 1922 and on April 17, 1923 fire department permit No. 89492 for garage, motor repair shop and one 550 gallon tank was issued to expire August 15, 1923; that subsequently permits were issued by the fire department for garage, oil selling station and motor vehicle repair shop until 1952 when the storage of gasoline was discontinued; that the actual existing use of these buildings is motor vehicle repair shop, including body and fender work, welding and spraying, office and 43 one-car garages; that building No. 2 is a one story building erected in a residence district under N.B. 12577-1921 for which certificate of occupancy No. 16424 was issued November 22, 1922 for a private garage; that the actual existing use is 4-car garage; that building No. 3 is a one story building erected in a residence district under N.B. 12859-1921 for which certificate of occupancy No. 16834 was issued November 28, 1922 for a one family dwelling, and is presently occupied as a one family dwelling; that building No. 4 is a one story building erected in an unrestricted use under N.B. 3548-1923 for which certificate of occupancy No. 20954 was issued October 10, 1923 for stores and one family; that the actual existing use is store and offices; and

WHEREAS, the applicant states that it is proposed to change the heretofore approved occupancy to gas station, motor vehicle repair shop, including incidental body and fender work, welding and paint spraying, lubritorium, non-automatic auto wash, storage and sale of auto accessories, office and parking of cars awaiting service; that it is further proposed to remove the three buildings described as building Nos. 2, 3 and 4; that it is also proposed to remove the one-car garages comprising parts of building No. 1 and to construct an addition to the remaining portion of the building to be used for a term of 15 years as a gas station, lubritorium, non-automatic auto wash, storage and sale of accessories; that a portion of the unbuilt area, at the front of the remaining portion of building No. 1, will be used for parking of cars awaiting service; that the remaining portion of building No. 1 is proposed to be altered and changed in occupancy as follows: that all doors now opening on Grant avenue will be closed with masonry construction; the Grant avenue facade will be surfaced with permastone; the existing northerly masonry wall will be given a new stucco finish; existing partitions will be removed in the "L" shaped portion of the building and a vehicular entrance with new overhead door will be installed on the south side thereof, as well as on the south side of the building at the westerly portion thereof; that two pedestrian exits and one window will be maintained at the rear of the building opening to the landscaped area to the rear; that the three existing curb cuts on Grant avenue will be eliminated and one new curb cut, 20 ft. wide and located within 25 ft. of Atlantic avenue is proposed; that the present curb cut on Atlantic avenue, 133 ft. wide, will be reduced to three 30 ft. curb cuts; that it is further proposed to seed and landscape the large area at the rear of the building; to construct on the Grant avenue frontage a 5 ft. 6 in. high brick wall, extending from a point 25 ft. north of Atlantic avenue to the rear lot line, except where the wall of the remaining building occurs, with a 3 ft. wide steel or wood picket gate; to construct a 5 ft. 6 in. high brick wall along the westerly lot line from the Atlantic

avenue street line to the front of the building and to construct on all other interior lot lines a 4 ft. high chain link fence to enclose the landscaped and seeded area; and

WHEREAS, the applicant contends that the building proposed to be used as a motor vehicle repair shop is permitted under certificate of occupancy No. 18018 to be used for public garage and repair shop; that no extension of building or use is proposed other than to include incidental body and fender work, welding and paint spraying in the certificate of occupancy; that the proposed alteration of the motor vehicle repair shop building will improve the appearance of the premises and will benefit the neighborhood; that the signs fronting on Grant avenue will be eliminated and no new signs will be installed on this frontage; that the existing non-conforming use of the building is not subject to regulatory conditions of the Board and may continue to exist in perpetuity; that the proposed use of the building will be subject to such regulatory conditions as the Board may deem appropriate and the duration of the use will be limited to a term of 15 years; that building No. 3 and building No. 2 will be demolished and replaced by a large seeded and landscaped area; that this area will occupy approximately 3,700 sq. ft. and will be enclosed by a 5 ft. 6 in. high brick fence wall and ornamental gate on the Grant avenue building line and by a 4 ft. high chain link fence on the interior lot lines; that building No. 4 and most of building No. 1 will be demolished; that the character of the neighborhood would not be adversely affected; and

WHEREAS, the applicant states that the present owner has held title to the property since February 20, 1946; that the assessed valuation of land is \$24,000 and of the buildings \$26,000 making a total of \$50,000; that the buildings were erected 1921, 1922 and 1923; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which gave serious and careful attention to the proposal and to the points raised by the objectors and the committee is of the opinion that the objectionable garage use is to be removed entirely and this space is to be planted; that the building now proposed to be used for repairing is to be retained, so that there will be a reduction in repairing by the omission of the spraying and there will be no entrance to Grant avenue and under these conditions the Board is of the opinion that the safety of the children and the pedestrians will be enhanced and the conditions improved by the removal of the antiquated single garages on the site; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of fifteen years, to permit the premises to be reconstructed and rearranged, substantially as proposed and as indicated on plans filed with this application, marked "Received December 8, 1954", 5 sheets, and "March 21, 1955", 2 sheets, *on condition* that all buildings and uses except the building proposed to be retained where repairing is now carried on shall be removed and the premises shall be arranged and constructed as indicated on above cited revised plans marked "Received March 21, 1955"; that along the rear lot line and the lot line to the west there shall be erected and maintained a chain link fence with a masonry base to a total height of not less than 5 ft. 6 in. and a similar fence with a 3 ft. gate for access to this landscaped space shall be erected along the street building line of Grant avenue; that the intervening space between this fence and the existing automobile repair shop shall be seeded and landscaped with suitable planting material; that the existing motor vehicle repair shop shall not be increased in height or area and shall be refaced on all sides as proposed; that the additional accessory building shall comply with the requirements of the Building Code; that there shall be no cellar in such accessory building; that the gasoline dispensing pumps shall be located not nearer than 15 ft. to the street building line of Atlantic avenue and

MINUTES

shall be of an approved low type; that the number of gasoline tanks shall be limited to twelve 550 gallon approved tanks; that the balance of the premises where not occupied by buildings and planting shall be paved with concrete or asphaltic paving; that along the westerly lot line there shall be maintained a brick wall from Atlantic avenue to the southerly end of the repair shop building, as shown, and a similar wall erected along Grant avenue from the fence heretofore required to the street line of Atlantic avenue; that such wall along Grant avenue may, however, be reduced to a height of 4 ft. 6 in. within 10 feet of the Atlantic avenue building line; that there shall be no opening of any kind for motor vehicles to Grant avenue; that access to the premises from Atlantic avenue shall be by means of three curb cuts, each not over 30 feet in width as shown, with no portion of any curb cut nearer than 5 feet to a lot line as extended; that within the building line at the intersection and also toward the westerly end, there shall be erected, as safety islands, a block of concrete not less than 12 in. in height, extending for a distance of not less than 5 feet along each lot line; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection of one post standard erected near the intersection of Grant and Atlantic avenues for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than 4 feet; that such a sign shall be substantially parallel to Grant avenue; that the repairing shall be as previously permitted, excluding heavy body work but permitting incidental body and fender work but excluding paint spraying and welding; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that there may be parking of cars as proposed within the space indicated for cars awaiting service, located so as not to interfere with the service of the station; that the accessory building shall be faced with approved materials, preferably of face brick; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

999-54-BZ

APPLICANT—Ingram S. Carner, for Charles Schroeder, owner.

SUBJECT—Application December 30, 1954 (decision of the borough superintendent), under sections 7c and 21 of the zoning resolution, to permit in a residence use district the relocation of existing structure (bar and grill and one family dwelling) now located on lot 9, presently located in a retail use district.

PREMISES AFFECTED—183-01 Horace Harding expressway and 59-49 183rd street, northeast corner, block 7067, lot 11, Fresh Meadows, Borough of Queens.

APPEARANCES—

For Applicant: Ingram S. Carner, Adele E. Schroeder and Charles Schroeder.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 26, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, D area, class 1 height district; 183rd street is in residence and business use, D area, class 1 height districts; Horace Harding boulevard is in a business use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated December 15, 1954 acting on Atl. Applic. 2730-54, reads:

"1. The relocation of a retail and residence building, from a Retail Use District to a Residence Use District because of street widening is contrary to Art. II Sec. 3 of zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 80 ft. in depth, presently vacant; that use, area and height designations have not been changed since 1916; that it is proposed to move the structure now located on lot 9 to lot 11; that lot 11 will become a corner lot after the widening of Horace Harding boulevard; and

WHEREAS, the applicant contends that these premises have become a corner parcel due to the fact that Horace Harding boulevard has been designated as an express highway and is to be widened 100 ft. on the north side and to be known as Horace Harding expressway; that this widening will necessitate the relocation of the owner's present business and home which is now located on lot 9 in block 7067 and is 100 ft. south of the subject premises; that plans were approved under Alt. 2914-48 to expand his business with a two story extension and an additional bedroom on the 2nd floor; that it is the intention of the owner to move the above described building 100 ft. north to this new location and to continue to remain in business and to reside in the area, as his life savings and effort are invested in this undertaking, which is maintained and operated by the owner and his family; that the entire area is not as yet fully developed and this type of use and structure will in no way adversely affect any adjoining neighbors but will be in full conformity with this type of business area; that it would create an undue hardship on the owner to be denied to continue in business and it is requested that this application be granted; and

WHEREAS, the applicant states that the present owner has held title to the property since May 15, 1951 and that the assessed valuation of land is \$2,400; and

WHEREAS, the terms of Section 7 subdivision c are not applicable to this application; and

WHEREAS, the Board found that the applicant has substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution and is therefore entitled to relief as to use on the ground of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21, to permit the building now existing on lot 9 to occupy a portion of lot 11, as proposed and as indicated on plans filed with this application, marked "Received December 30, 1954", 4 sheets, *on condition* that only such portion of the plot shall be occupied by the building proposed to be moved as required by the Zoning Law and subject to a new application to be filed for additional use of lot 11 for parking in connection with the restaurant; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

93-55-BZ

APPLICANT—Katz, Waisman, Blumenkranz, Stein and Weber, for Yeshiva University, owner.

SUBJECT—Application February 9, 1955 (decision of the borough superintendent), under section 19A(h) of the zoning resolution, to permit in a residence and business use district, the location of access to required loading berth nearer the intersection than is permitted.

PREMISES AFFECTED—2501-2503 Amsterdam avenue and 481-499 West 184th street, northeast corner, Block 2149, Lots 30 and 35, Borough of Manhattan.

APPEARANCES—

For Applicant: S. Fassler, S. Schutz and Joseph Blumenkranz.

MINUTES

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 26, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, West 184th street and West 185th street are in residence and business use, B area, class 1¼ height districts; Amsterdam avenue is in a business use, B area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated February 2, 1955 acting on N.B. Applic. 8-55, reads:

"1. Location of access to loading berth (required) does not conform to the requirement of Art. IV, P. 19A, h3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 137 ft. 5 in. frontage by 227 ft. 11 in. in depth, irregular, on which are located one 2-story and one 3-story brick structures which are to be demolished; that there has been no change in use, height or area designation of the plot since 1916; that it is proposed to erect a college dormitory 88 ft. 4 in. front, 206 ft. (typical floor) 76 ft. 11 in. in depth, of class 2 construction, to be used as a dormitory for Yeshiva University, New York; and

WHEREAS, the applicant contends that a portion of the existing garage building is being retained for use in conjunction with the new dormitory to be built alongside of the existing garage; that the present access and curb cut which has been in use for many years to the present garage is proposed to be used as access to the off-street loading berth of the proposed dormitory building; that only the upper part of the enclosing walls of the present garage will be demolished, but the present 1st floor slab at grade level and the sub-grade structure will be retained; that to relocate the access to the loading berth to at least 50 ft. from the intersection Amsterdam avenue on West 184th street would defeat the entire planned arrangement of the building and would also necessitate the demolition of the entire present building in order to meet the street grade due to the steep grade on West 184th street; that all of this would add considerable cost to the construction of the total building project because it would be impossible to salvage the use of the existing sub-grade portions of the building; that as the owner is a non-profit institution and has limited funds, any extra construction would constitute an avoidable hardship; that traffic on West 184th street between Amsterdam avenue and Laurel Hill terrace is limited due to the fact that West 184th street is a dead end street at Laurel Hill terrace; that the amount of trucking to and from the loading berth will be limited to the periodic delivery and pick-up of student trunks and the delivery of foodstuff for consumption on the premises; and

WHEREAS, the applicant states that the present owner has held title to the property since September 28, 1954 and that the assessed valuation of land is \$120,000; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 19A, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area district regulations of the zoning resolution and that the application be and it hereby is granted under Section 19A, subdivision h, to permit the location of a loading berth and of the width as shown on plans filed with this application, marked "Received February 9, 1955", 8 sheets, on condition that in all other respects the loading berth shall comply with all requirements therefor; and that all permits required shall be obtained

and all work completed within the requirements of Section 22A of the zoning resolution.

Adjourned: 1:15 P. M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, APRIL 26, 1955, 2 P. M.

Present: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly.

758-49-A—Vol. IV

APPLICANT—Herman E. Horwood, for Albert Ginsberg, owner.

SUBJECT—Application reopened March 1, 1955 as Vol. IV—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—191-193 Canal street, north side, 50 ft. west of Mott street, 5th and 6th floors; Block 205, Lot 32, Borough of Manhattan.

APPEARANCES—

For Applicant: Herman E. Horwood.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated January 26, 1955, on amendment to Alt. App. 2015 of 1954, reads:

"5. Proposed change of use of 5th and 6th floors from conjunctive uses of mailing, storage, and shipping of second hand clothes and offices to meeting room and factory on the 5th floor with 65 persons and factory with 32 persons on the 6th floor is not in accordance with B.A. Res. 758-49-A.

"6. Means of egress from 5th floor and 6th floor should comply with Sec. 271 L.L.

"7. Floor construction should sustain 120# L.L. 7.3.2.3. B.C. on 5th and 6th Fls.

"8. Proposed public use on 5th floor exceeds tabular height limits 4.2.1. B.C."

and

WHEREAS, the applicant states that the building is 6 stories, 69 feet in height, 50 ft. 4 in. front by 52 ft. 9 in. in depth, of Class 3 construction, erected prior to 1888, located on a lot 50 ft. 4 in. front by 75.3 ft. in depth, in an unrestricted use, B area, Class 2 height district, used and occupied since 1953 as follows: Cellar—storage, no persons; 1st floor and mezzanine—stores and offices, 6 persons; 2nd floor—meeting room, card room and offices, 65 persons; 3rd floor—assembling bead novelties, machine shop and storage, 13 persons; 4th floor—manufacturing sportswear, recreation room, office and storage, 23 persons; 5th and 6th floors—vacant; proposed to be used and occupied without change except that the 5th floor will be used as meeting room and factory, 65 persons; and the 6th floor as factory, 32 persons; the type of manufacturing to be of the needle trades; the building is provided with a one-source sprinkler system in stairhalls only; there is an approved interior fire alarm system and regular monthly fire drills are maintained; there is one interior stairs 3 ft. 2 ins; 3 ft. 8 ins., and 4 ft. in width of wood construction enclosed in fire retarded partitions equipped with fireproof self-closing doors and leading direct to street and equipped with a ladder and scuttle to roof and one fire escape on the rear extending to roof by ladder and yard by stair with

MINUTES

egress from its lower termination to adjoining yard and street; windows and door openings on the course of the fire escape are fireproof self-closing; and

WHEREAS, Certificate of Occupancy #42364 issued March 22, 1954 on Alt. App. 2038 of 1947 permits the following use and occupancy Cellar—storage; 1st floor—stores; Mezzanine—offices; 2nd floor—offices, meeting room, 65 persons; 3rd floor—assembly of bead novelties, storage and machine shop, 13 persons; 4th floor—manufacturing sportswear, recreation room, offices and storage, 23 persons; 5th and 6th floors used conjunctively for mailing, storage and shipping of second hand clothing and offices and this certificate contains the note—

“Interior fire alarm system approved by Fire Department March 15, 1954.”

“Sprinkler system approved by Fire Department March 16, 1954.”

“Portable fire fighting appliances approved by Fire Department March 9, 1954.”

and

WHEREAS, the applicant states that the building is now used on the lower four stories and cellar as permitted by the Board under Cal. No. 758-49-A; that the 5th and 6th floors are now vacant; and

WHEREAS, the applicant states that at the time Cal. No. 758-49-A Vol. 111, was before the Board was for permission to allow meeting rooms and offices on the 5th floor with occupancy of 65 persons and clothing manufacture on the 6th floor with an occupancy of 32 persons, it was proposed to install a sprinkler system on the 6th floor in addition to that already in the stairhalls; that the Board indicated that the installation of a sprinkler system on the 6th floor only would not be viewed with approval but that it might consider the modified use of the 5th and 6th floors if the building were sprinklered throughout; that as the owners were not then in a position to install a sprinkler system the appeal was withdrawn; that the tenant who occupied the 5th and 6th floors at that time has vacated and these two floors are vacant and not occupied and the owner has been unable to secure a tenant whose use would not conflict with the last issued Certificate of Occupancy; and

WHEREAS, the application now before the Board is for permission to change the use of the 5th and 6th floors as proposed such use not to exceed the allowable capacity of the floor live loads or the allowable capacity of the exits and to continue the use of the cellar to fourth floor inclusive as previously permitted by the Board with the understanding that the building will be equipped throughout from cellar to roof with an approved sprinkler system.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 2015/54, Objections 5, 6, 7 and 8, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the occupancy of the building substantially as proposed and as indicated on plans filed with this appeal, marked “Received February 1, 1955” (8 sheets), *on condition* that the building shall not be increased in height or area; that there shall be installed throughout the building including the cellar, a wet sprinkler system complying with the requirements therefor; that the occupancies shall be as proposed, and as to the 5th floor, the occupancy shall either be a meeting room or a factory, provided the exits are sufficient for the number of persons involved; that the rear fire escape shall be maintained with an exit through adjoining premises through a gate or door in the fence or rear wall; that there shall be a consent filed of the adjoining owner to permit such egress across his premises; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; as to Objection 7, that the floor load shall not be less than 75 lbs. per superficial foot and the occupancy shall not be permitted to exceed such loading.

471-54-A

APPLICANT—Cinetech Co., Inc., lessee, for 106 West End Avenue Corp., owner.

SUBJECT—Application June 11, 1954—re Appeal from orders and decisions of the fire commissioner.

PREMISES AFFECTED—106-108 West End avenue, east side, 50 ft. north of West 64th street, Block 1156, Lot 4, Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph Seiden.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinret and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, Order #3033-4 issued by the Fire Commissioner May 5, 1954, and repeated in his decision of June 10, 1954, reads:

“You are hereby directed and required to comply with the following order within 30 days:

1. Install an approved, wet automatic sprinkler system throughout the building having at least one source of water supply, arranged and equipped as per Ch. 26, Art. 16, Adm. Code (C19-161) Adm. Code.”

and

WHEREAS, Order #3136-4 issued by the Fire Commissioner May 10, 1954, and repeated in his decision of June 10, 1954, reads in part as follows:

“B Still Film Exchange Laboratory
2000 Ft. (35 M.M.) Safety Film

Before a permit for the purpose indicated above may be issued to you, the following order must be complied with. Kindly notify this department when such order has been complied with.

1. Provide an approved sprinkler system having at least one source of water supply in above mentioned premises as per chap. 19—Sec. 117.0. Subd. C. Adm. Code.”

and

WHEREAS, Order #2704-4 issued by the Fire Commissioner April 21, 1954 and repeated in his decision of June 10, 1954, reads in part as follows:

“Film Studio—Safety Film

Before a permit for the purpose indicated above may be issued to you, the following order must be complied with. Kindly notify this Department when such order has been complied with.

1. Provide approved sprinkler system having at least (1) source of water supply as per Section C19-117.0 Sub. C.”

and

WHEREAS, the applicant states the building is 5 stories, 60 feet in height, 50 ft. by 96 ft. in area, of Class 1 construction, erected about 1910 on a lot 50 ft. front by 100 ft. in depth, located in a manufacturing use district, A area, Class 2 height district; used and occupied since 1946 as follows: Cellar—machine shop and boiler room, 15 persons; 1st floor—still film laboratory, 25 persons; 2nd and 3d floors—offices, factory and supplies, 15 persons per floor; 4th and 5th floors—film studios and offices, 15 persons per floor. No change in use or occupancy is now proposed. There is an approved interior fire alarm system and regular monthly fire drills are maintained. There is one 3 ft. wide cement stairs, enclosed in hollow tile partitions, equipped with kalamein self-closing doors, leading direct to street and provided with ladder and scuttle to roof and one fire escape on rear extending to roof by stair and to yard by stair with egress to street through fire passage leading to main stairs; window and door openings on course of fire escape are fireproof, self-closing; and

WHEREAS, Certificate of Occupancy #3382 issued November 13, 1947, upon completion of work under Alt. App. 546/45 permits the following use and occupancy: Cellar—storage and boiler room; 1st floor—garage for more than 5 motor vehicles and motor vehicles repair shop, number of occupants unstated; 2nd to 4th floors, inclusive, factory each

MINUTES

floor, number of occupants unstated; 5th floor—factory and studio, number of occupants unstated; and said certificate contains the note: "The total floor space to be used for manufacturing purposes shall not exceed 75% of the total floor area of the building"; and

WHEREAS, the applicant has filed with this appeal a copy of an approved specification sheet filed with Alt. App. 1560/51 approved by the Borough Superintendent December 17, 1953, which permits the following use and occupancy: Cellar—factory and boiler room, 15 persons; 1st floor—photographic laboratory and office, 25 persons; 2nd floor—factory, offices and storage, 15 persons; 3d floor—factory, offices and storage, 15 persons; 4th floor—office and film studio, 15 persons; 5th floor—office and film studio, 15 persons; and this approved specification sheet contains the following note: "Not more than 75% of total floor area to be used for manufacturing 16 mm. safety films, (not more than 1000 ft. per floor"; and

WHEREAS, the applicant contends that to be forced to comply with the requirements of the Fire Commissioner's order would be very costly and create extreme hardship in the operation of its business which has been carried on in this same location since 1946; that it originally leased the premises in 1946 and after extensive alterations received Certificate of Occupancy #33382; that in 1951 the ground floor garage was altered for the present occupant, Slide-O-Chrome Corp., who has since conducted a photo studio and laboratory under the same conditions as of today; that the owner has installed a ladder with fire escape hatch in hall roof of the 5th floor and an approved interior fire alarm system has been installed; that both these and other requirements were made to conform with the law and are installed and operating at present, having been inspected and approved by the proper departments; that this work was done at considerable expense in belief the applicant would be following departmental requirements; that the type of safety film used and stored in building is used and sold in stores, photographic studios, hospitals and other studios using expert photography throughout the city; that most of these places do not have the physical facilities nor the expert personnel as the applicant has for handling this film; that approximately 90% of the film used in 16 mm. safety film of the non-professional type and the balance is 35 mm. safety film and is stored in an approved manner in sprinklered and vented cabinets; that to conform with the order would necessitate borrowing a large sum of money for the installation in question and it would be impossible to obtain and the applicant would be forced out of business and cause the loss of employment of about 70 employees; that in view of the fact the interior fire alarm system was installed and now operating as required by the Fire Department and the applicant has installed other requirements, including fire appliances, sprinklers in vented film cabinets, fire extinguishers, sand and water buckets, etc. it is requested this appeal be granted; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decisions of the Fire Commissioner as expressed in Order Nos. 3033-4, Objection 1 and #3136-4, Objection 1 and #2704-4, objection 1, be and they hereby are *modified* and that the appeal be and it hereby is *granted on condition* that no nitrate film shall be used on the premises; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; and that the building in all other respects shall comply with all laws, rules and regulations applicable thereto including interior fire alarm system and fire drills.

550-54-A

APPLICANT—E. Walter Jansen, for 184 Realty Corp., owner.

SUBJECT—Application June 28, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—184 5th avenue, west side, 25 ft. south of West 23rd street, Block 824, Lot 42, Borough of Manhattan.

APPEARANCES—

For Applicant: E. Walter Jansen.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners and Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated June 2, 1954, on amendment to B.N. App. 1333/54, reads:

"1. Provide two enclosed stairs from basement to street. Sec. 271 of the Labor Law."

and

WHEREAS, the applicant states the building is 8 stories, 98 feet in height, 37 ft. by 100 ft. in area at street level, 37 ft. by 85 ft. in area at typical floor level, of Class 3 construction, erected about 1883 on a lot in a business 1 use, B area, Class 2 height district; used and occupied since 1911 as follows: Cellar—cold food preparation and storage, 5 persons; 1st floor—restaurant and kitchen, 180 persons; 2nd floor—showroom and stockroom, 4 persons; 3rd floor—office and manufacturing (art work) 11 persons; 4th floor—showroom, stock and manufacturing and assembling music boxes, 4 persons; 5th floor—showroom, stock and manufacturing clothing, 5 persons; 6th floor—vacant; 7th and 8th floors—office, stock and clothing manufacturing, 4 persons per floor. No change in use or occupancy is now proposed. The building is equipped with approved standpipe and interior fire alarm systems; there is one 3 ft. 6 in. wide steel and concrete stairs, enclosed with terra cotta blocks, plastered both sides, equipped with $\frac{3}{4}$ hour fireproof, self-closing doors leading from roof bulkhead direct to street, and one exterior screened stairway at rear extending to roof by ladder with egress from lower termination at 2nd floor by passage to stairs to lobby to street; window and door openings on course of same are fire proof, self-closing; and

WHEREAS, Violation #432/54 was issued by the Borough Superintendent January 26, 1954, for not providing two legal means of egress for all tenants from all floors including cellar, as required by Section 271 of the Labor Law; and

WHEREAS, the applicant states the basis of this appeal is that it is impossible to comply with Section 271 of the Labor Law as to the cellar exits without practically rebuilding the structure; and

WHEREAS, the applicant contends that the 1st floor is occupied by a restaurant, the same type of occupancy since 1911; that such occupancy could hardly be maintained with the additional loss of space required to bring up the flight of stairs on the west wall to exit into the lobby; that the run of stairs cannot be reversed due to the run of stairs from 1st to 2nd floors directly over it; that the building complies with Section 271 of the Labor Law from 2nd to 8th floors and the first floor has two means of egress; that it is only egress from the cellar that is now in question; that the cellar has two means of egress by fireproof stairs, both exiting into the restaurant. It is proposed to provide an additional means of egress by the installation of an engineer's ladder direct to the sidewalk in front of the building on 5th avenue where the sidewalk is 22 ft. 6 in. wide; that it is also proposed to extend the present exterior screened stairway with 42 in. wide treads to roof with landing at roof so that egress can be had from top of this stairs to the primary means of egress; that the present stairs from cellar to 1st floor on the west wall contains two winders; that these winders will be eliminated; that doors to the exterior screened stairway are $\frac{3}{4}$ hr. fireproof self-closing and swing in direction of egress; and

WHEREAS, the premises was inspected by a committee of the Board, which recommended that the appeal not be granted for the reason the exits from the cellar are not sufficient and the statement made as to the use of the cellar is incorrect as the committee found there was roasting of meats and baking of bread in the cellar.

MINUTES

Resolved, that the decision of the Borough Superintendent, acting on amendment to B.N. App. 1333/54, Objection 1, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied* as to variance of Section 271 of the Labor Law.

593-54-A

APPLICANT—John J. Tricarico, for Sandra Goldfield, owner.

SUBJECT—Application July 16, 1954—filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 172 re rear yard.

PREMISES AFFECTED—144 Clermont avenue, west side, 71 ft. north of Myrtle avenue, Block 2045, Lot 92, Borough of Brooklyn.

APPEARANCES—

For Applicant: John J. Tricarico.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated July 2, 1954, on Alt. App. 486 of 1954, reads;

"1. Provide a legal rear yard as per Sec. 172."

and

WHEREAS, the applicant states the building is three stories, 30 ft. in height, 34 ft. front by 15 ft. and 8 ft. in depth, of Class 3 construction erected prior to 1900, located on a lot in a business and residence use, D area, Class 1 height district, and used and occupied: Cellar—ordinary use, 1st floor—store, one person; 2nd floor—one family; 3rd floor—one family; now proposed to be used and occupied as follows: Cellar—ordinary use; 1st floor—one family; 2nd floor—one family; 3rd floor—one family; the building is provided with one 2 ft. 6 in. wide interior wood stairs enclosed in partitions of studs plastered both sides, equipped with wood self-closing doors and leading direct to street, provided with a ladder and scuttle to roof, and one fire escape on the street front extending to roof by a ladder and to street by stair; and

WHEREAS, the applicant states that the building was originally part of the northwest corner plot and was reapportioned for the purpose of filing this appeal; that the building had a legal occupancy of store on the first floor and one family on each of the second and third floors; that due to the housing shortage the owner rented the first floor for residence use thereby converting the building into an illegal multiple dwelling; and

WHEREAS, the applicant contends that all of the living rooms have adequate light and ventilation fronting on a legal street with windows equal to one-tenth the area of each room; that inasmuch as the entire building is adequately lighted and ventilated and that the one room on the store floor will be occupied by a maximum of two persons and all of the provisions of Section 6 including the installation of a new fire escape will be complied with and in view of the fact that the building is not being increased in bulk or volume and that no building adjacent will be affected adversely and that the occupancy as a multiple dwelling will not be detrimental or adversely affected and that the rear yard cannot be possibly provided it is requested that the Board grant the owner permission to omit the rear yard on the first floor as required by Section 172 of the Multiple Dwelling Law.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 486/54, Objection No. 1, be and it hereby is *modified* under the powers vested in the Board by Section 310 of the Multiple Dwelling Law, and that the appeal be and it hereby is *granted*, to permit occupancy of the building as proposed without rear yard and as indicated on plans filed with this appeal marked "Received July 16, 1954", (3 sheets),

and "March 31, 1955", (1 sheet), *on condition* that the building shall not be increased in height or area and shall not be occupied by more than three families, as proposed; that any windows in the rear or side walls shall not be deemed legal windows and in all other respects shall comply with the Building Code and the requirements of the Multiple Dwelling Law.

897-54-A

APPLICANT—Herman J. Jessor, for Mutual Housing Association, Inc., owner.

SUBJECT—Application November 29, 1954—filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 33, subdivision 4 and section 34, subdivisions 1(b) and 1(f) of the Multiple Dwelling Law re minimum dimensions of yards or courts.

PREMISES AFFECTED—3850 Sedgwick avenue, southeast corner of Stevenson place, Block 3246, Lots 56, 60 and 66, Borough of The Bronx.

APPEARANCES—

For Applicant: Herman J. Jessor and A. E. Kazan.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, acting on N.B. 130/54, dated October 26, 1954, reads:

"A-3. Proposed change in use of the approved five doctors' offices in the cellar to rentable apartments or livingrooms will be unlawful.

The difference in level between the highest and the lowest points of the curbs adjoining the lot E1 121.23 and 114.42 respectively is only 6.81 ft. Under the specific provisions of Sec. 34-1f of the M. D. Law not less than a 10 ft. difference in level is required for sub-curb living purposes. The grade on the plot E1 126.09 optionally elected as the curb level under the privilege of the limit of 35% occupied are, as per Section 4, subdivision 33 M. D. L. and from which grade the height of the building was computed and excluding the cellar story, may not be substituted for the high point of the street curb adjoining the lot on which the right for sub-curb uses is being based."

and

WHEREAS, the applicant states that the premises consist of a lot 194.11 ft. front by 176.52 ft. in depth located in a residence use, B area, Class 1¼ height district upon which it is proposed to erect a 12 story and penthouse 107 ft. 11 in. high, Class A multiple dwelling of Class One construction, 139.4 ft. by 134.44 ft. in area, to be used and occupied as follows: subcellar—storage and boiler room; cellar—one superintendent's apartment and 5 apartments; 1st to 12th floors and penthouse—9 apartments each floor; and

WHEREAS, the applicant contends that the building will occupy less than 35 per cent of the lot area and therefore elevation 126.9 was optionally elected as the grade level from which the height of the buildings was computed pursuant to Section 4 subdivision 33 of the Multiple Dwelling Law; and

WHEREAS, the applicant states that the lowest apartment floor at elevation 119.23 is considered a cellar although the floor of the apartment is in all cases higher than the curb directly in front of them and which vary from about 117.8 to 114.31 ft. and are one foot five inches to 4 ft. 11 ins. lower than the apartment floors; and

WHEREAS, the applicant contends that Section 34, subdivision b permits the apartments in the cellar, if the ceilings of the rooms at the front part of the building are four foot six inches above the curb directly in front and

MINUTES

the ceilings of the rooms at the rear of the building are two feet above curb level directly in front; that in this case the floor of the rooms will be one foot five inches to four feet eleven inches higher than the curbs directly in front and the ceilings will be 10 ft. 5 ins. to 13 ft. 11 ins. higher than the curbs directly in front; that, however, subdivision b of Section 34 also provides that there may not be more than one apartment in the cellar if the yard is less than 60 ft. in width; that the yard in this case varies from 40 to 44 ft. 6 ins. in width and extends to the street; that the required width of this yard pursuant to Section 27 (2) (b) for corner lots is 12 ft. 3 ins. for the first 60 ft. from the street line and 24 ft. 6 ins. beyond that point; that none of the apartments in question open on this yard; that all of the apartments in question face streets; that these apartments will in all respects be equivalent to first floor apartments as they will be above the curbs at the front of them and face the street and set back sufficiently from the building line so that there will be landscaped gardens in front of them; and

WHEREAS, the applicant, therefore, requests the modification of the minimum dimensions of the yard from 60 ft. to 40 ft. under Section 310 subdivision (2) (b) so that these apartments may be legally occupied; and

WHEREAS, the use of the cellar for doctors' offices as alleged to have been approved contravenes the provisions of the Zoning Resolution.

Resolved, that the decision of the Borough Superintendent, acting on N.B. App. 130/54, Objection No. A-3, be and it hereby is *modified* under the powers vested in the Board by Section 310 of the Multiple Dwelling Law, and that the appeal be and it hereby is *granted*, to permit the occupancy of apartments as proposed, namely five apartments and one superintendent's apartment in the cellar space below the selected grade, as proposed and as indicated on plans filed with this appeal, marked "Received November 29, 1954" (6 sheets) and "December 3, 1954" (1 sheet), *on condition* that the floor level of the proposed apartments shall not be below the grade as indicated on such drawings; that the elected grade shall be maintained and in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that such space shall be used for living apartments as proposed and not for doctors offices.

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. I, on April 12, 1938, on certain conditions; and

WHEREAS, plans submitted as being in substantial compliance with the Board's resolution, were approved on October 11, 1938; and

WHEREAS, time to obtain permits and complete the work was extended from time to time and last extended on April 10, 1945; and

WHEREAS, the term of variance was extended from time to time and last extended on April 10, 1945; and

WHEREAS, revised plans submitted as being in substantial compliance with the Board's requirements were approved on November 7, 1945; and

WHEREAS, the applicant requested a further extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted April 12, 1938, and as thereafter *amended* by resolution adopted through November 7, 1945, only so far as it has reference to the term of the variance, so that as *amended* this portion of the resolution shall read:

"that the term of the variance shall be for a term of fifteen years from the date of this *amended* resolution; that all work covered by Volume I and under Volume II, as pending, shall be completed as may be permitted by the Board as to Volume II.

"that a new Certificate of Occupancy shall be obtained, superseding Certificate of Occupancy #Q34973, issued against NB App. 969/37."

706-47-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Sadie V. Owens, owner.

SUBJECT—Application for consideration—reopening as to amendment—re Application (decision of the borough superintendent), previously granted on condition, under sections 7f, 7i and 7h of the zoning resolution, permitting in a retail use district, the erection and maintenance of a gasoline service station, lubricatorium, car washing (non-automatic), motor vehicle repairs, office and automobile showroom for Nash cars (previously denied by the Board), and the parking and storage of motor vehicles on unbuilt portion of lot for a term of years.

WHEREAS, this application was granted by the Board as
Vol. II, on July 27, 1954, on certain conditions; and

WHEREAS, the resolution was amended on January 11,
1955; and

WHEREAS, the applicant requested a further amendment
of the resolution; and

WHEREAS upon inspection April 28, 1955 it was found
that this hydraulic greasing lift has already been installed
contrary to resolution adopted July 27, 1954.

Resolved, that the Board of Standards and Appeals does
hercby amend the resolution adopted on July 27, 1954, by
adding thereto:

"that in addition to the uses as hereinbefore permitted
under the resolution above cited that there may be an
exterior greasing lift of the hydraulic type as proposed
and as indicated on plans marked, Received, April 4,
1955 (one sheet) and passed on by the Borough Superin-
tendent under Alt. App. 1069 dated March 28, 1955, *on*
condition that in all other respects the requirements of
the resolution above cited shall be complied with includ-
ing a Certificate of Occupancy and for completion of
work under Section 22A of the Zoning Resolution, time
having expired on July 27, 1954."

PROPOSED AMENDMENTS TO THE RULES FOR ARC AND GAS WELDING AND OXYGEN CUTTING, COVERING THE SPECIFICATIONS FOR DESIGN, FABRICATION AND INSPECTION OF ARC AND GAS WELDED STRUCTURES AND THE QUALIFICATIONS OF WELDERS AND SUPERVISORS (CAL. NO. 1-38-SR—VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday morning, May 20, 1955, at 10 A. M. in Room 1013, Municipal Building, Manhattan, on the following Proposed amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, Covering the Specifications for Design, Fabrication and Inspection of Arc and Gas Welded Structures and the Qualifications of Welders and Supervisors.*

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS FEBRUARY 25, 1938.

EFFECTIVE MARCH 21, 1938. AMENDED MAY 17, 1940, EFFECTIVE JUNE 10, 1940; AND SEPTEMBER 17, 1954, EFFECTIVE OCTOBER 18, 1954.

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, of the Charter of the City of New York and C26-514.0 of the Administrative Code (8.6.2.2).

These Proposed Amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, as printed herein in *italics*, are as suggested by the Allied Building Metal Industries as to welding of light structural steel such as fire-escapes, railings, gratings, door-bucks, etc., which are generally shop welded.

Old matter, in brackets [], to be deleted; new matter, in *italics*, to be substituted therefor.

Rule 1. Application for Permits.

1.2 [The commencement of any structural welding work is forbidden until an application for a permit to perform such work is filed with and approved by the

Borough Superintendent. The Borough Superintendent shall be notified in writing at least 48 hours prior to the date when the structural welding work is to commence.]

Structural welding work shall be performed only by approved contractors employing certified welders.

Rule 9. Supervision and Inspection.

9.1 [Any welding to be done on a structure or any part thereof shall be performed under the supervision of a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect or licensed engineer. Such agency shall be acceptable to the Borough Superintendent.]

Any welding to be done on a structure or any part thereof, in the field, excluding bar joists, shall be performed under the supervision of a representative of the Department of Housing and Buildings, or a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect, or licensed engineer. Such agency shall be acceptable to the Borough Superintendent. Shop welding on structural steel performed by approved contractors shall be the responsibility of the approved contractor, and shall not require supervision or inspection.

Rule 11. Metal Chimneys, Tanks, Stairs and Fire-Escapes.

11.1 [Stairs and fire-escapes shall be considered as light structural steel and where shop welded, shall have attached thereto a tag or label, affixed by the standard Testing Agency, to the effect that these Rules have been complied with.]

Stairs, fire-escapes, railings, gratings, door-bucks and other miscellaneous and ornamental metal, ferrous and non-ferrous work, shall not be considered as structural steel and therefore when welded need not be inspected by a standard testing agency.

RULES

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stair hall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) Prohibition. No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages—as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) Application. Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) Time Limit. Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon the expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) Conditions. The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) Revocation. Violation of any of the conditions specified in the permit in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

Notice of Public Hearing on Proposed Amendments to
the Rules for Arc and Gas Welding and Oxygen
Cutting.

COURT DECISIONS

Matter of James & Dominick Garone vs. Board of Standards and Appeals:—On May 6, 1952, the Board denied an application under Section 7e of the Zoning Resolution to permit in a residence use district the erection and maintenance of a gasoline service station, lubritorium, car washing, motor vehicle repairs and storage of accessories, office, and to permit parking and storage of motor vehicles; Cal. No. 484-51-BZ; premises 83-12 to 83-20 South Conduit Avenue, 137-40 to 137-50—84th Street, southwest corner, and 85-09 to 85-19—149th Avenue, Ozone Park, Borough of Queens.

At Special Term, Part I, of the Supreme Court, Mr. Justice Johnson remitted the matter to the Board, in the following decision:

"Matter of Garone (Board of Standards and Appeals of City of N. Y.)—By this proceeding, petitioners seek to review a determination of the Board of Standards and Appeals, denying petitioners' application for a variance to enable them to install a gasoline service station on premises on South Conduit Avenue, Borough of Queens. The denial occurred on May 6, 1952. This motion to dismiss was argued on March 11, 1955, nearly three years later. The plot of land was, in 1952, in an undeveloped area, where, the court would feel, the owner should be entitled to any reasonable use of his property until future development determines the character of the neighborhood (People ex rel. St. Albans-Springfield Corp'n v. Connell, 257 N. Y., 73). In fact, there was no objection to this application from neighboring owners; the only objection came from the Department of Parks, and was interposed upon the theory that at some future, but undetermined day, the city would need the property as part of an overhead crossing improvement. Whether the character of the neighborhood has now altered or whether the time of acquisition of the property by the city is any nearer, the court does not know. Its conclusion is that the matter should be remitted to the Board of Standards and Appeals with instructions to grant the proposed variance for a reasonable period, and with appropriate safeguards, unless upon further hearing the board finds that there has been a change of circumstances offering additional ground for withholding its approval. Settle order on notice." (N. Y. L. J. March 16, 1955, p. 14)

An appeal to the Appellate Division, Second Department has been filed.

Matter of Laurelton Civic Ass'n, Inc., Jack Drucker, Hilda Drucker and Julius Laderburg vs. Board of Standards and Appeals:—On May 25, 1954, the Board granted a variance under Section 7f of the Zoning Resolution, for fifteen years, permitting the erection and maintenance of a gasoline service station, lubritorium, auto wash (non-automatic), sale and storage of accessories and an office and to permit the parking of cars waiting to be serviced; located in a retail use district; Cal. No. 673-49-BZ, Vol. II; premises 223-09 to 223-19 Merrick Boulevard, 133-30 to 133-38—224th Street, northwest corner, Laurelton, Borough of Queens.

Order of Certiorari was served on the Board on June 25, 1954, by attorney for petitioners, objecting property owners and a Civic Association.

At Special Term, Supreme Court, Queens County, Mr. Justice Rabin sustained the Board in the following decision:

"In re Laurelton Civic Ass'n, Inc. (Board of Standards and Appeals of City of N. Y.)—Separate motions by the respondents constituting the Board of Standards and Appeals of the City of New York and the intervenor respondent, Mallis Realty Corporation, to vacate the order of certiorari obtained pursuant to the provisions of section 668e-1.0 of the Administrative Code of the City of New York and to dismiss the petition upon which it was granted. The motion of the intervenor respondent also seeks to dismiss the petition with respect to the petitioner, the Laurelton Civic Association, Inc., upon the ground that it is not a party aggrieved by the determination under review. ¶ The respondent Board of Standards and Appeals of the City of New York granted a variance in the application of the use district regulations of the zoning resolution, pursuant to section 7 (f) thereof, permitting in a retail use district the erection and maintenance of a modern gasoline service station, lubritorium, auto washing (non-automatic), office, storage and sale of auto accessories and parking of cars waiting to be serviced, for a stated term of fifteen years. ¶ The premises which are the subject of this proceeding consist of an irregular vacant corner plot having a frontage of 117.96 feet on Merrick boulevard and a frontage of 100 feet on Two Hundred and Twenty-fourth street, Laurelton, Borough of Queens,

538-23-BZ—Vol. III

APPLICANT—Lama, Proskauer and Prober, for Tiebout Avenue Co. Inc., owner.

SUBJECT—Application December 30, 1954 (decision of the borough superintendent), under sections 7c and 21 of the zoning resolution, to permit in a residence use district the maintenance of existing storage garage for more than five motor vehicles, lubritorium, car washing, motor vehicle repairs, and to permit new openings in west wall and the installation of two new lifts within the storage garage; and to permit the addition of a gasoline service station and the parking and storage of motor vehicles on unbuilt upon portion of plot.

PREMISES AFFECTED—1709-1719 Cross Bronx expressway, north side, 84.10 ft. east of Noble avenue, Block 3895, Lots 87, 90, 92 and 94, Borough of The Bronx.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-

ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on January 25, 1955 subject to regular procedure, to consider extension of use; and

WHEREAS, a public hearing was held on this application on March 29, 1955 after due notice by publication in the Bulletin; laid over to May 3, 1955, for inspection by a committee of the Board and for decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Cross Bronx expressway and Noble avenue are in a residence use, D and E area, class 1 and class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated December 3, 1954 acting on Alt. Applic. 1026-54, reads:

"1. Proposed extension of use of an existing storage garage for more than five motor vehicles, lubritorium, car wash & minor repairs to include office & sales, gasoline service station & parking of motor vehicles in a residence use district is contrary to Art. II Sec. 3 of the Z.R. & Cal. #538-23-BZ of the Bd. of S. & A."

and

WHEREAS, the applicant states that the premises consist of a plot, 181.22 ft. frontage by 51.83 ft. in depth, irregular, on which is located a one story, class 3 constructed storage garage, having a frontage of 51 ft. and a depth of 51.83 ft., irregular, also used as lubritorium, motor vehicle repairs and car washing; that the premises are located in a residence use district; that the portion of the premises within 100 ft. of Noble avenue is in a class E district and a class ½ height district, the balance being in a class D area and a class 1 height district; that as of July 25, 1916 the premises were in a business use district and received its present use designation on April 26, 1945; that as of July 25, 1916 the premises were in a 1¼ height district and received its present height designation on April 26, 1945; that as of July 25, 1916 the premises were in a class B area district, on April 26, 1945 the premises were put in a class D area district and received its present area designation on June 3, 1947; and

WHEREAS, the applicant further states that before the widening of the Cross Bronx expressway took place, the original garage building was erected in 1919 under permit No. 196 of 1919 and certificate of occupancy No. 930-1920 was issued for gasoline sales, auto sales and dead storage; that in 1923 under a variance granted by the Board under Cal. No. 538-23-BZ and permit No. 157-1923 the use was changed to public garage and certificate of occupancy No. 116-1924 was issued for said use; that on March 18, 1952 under Cal. No. 538-23-BZ, Vol. II, the Board granted a variance to use

the building as a storage garage for more than five motor vehicles, lubritorium, car washing and minor auto repairs, for which certificate of occupancy No. 14666 was issued August 25, 1954; and

WHEREAS, the applicant states that it is proposed to maintain the existing use of storage garage for more than five motor vehicles, lubritorium, car wash, minor auto repairs and add the use of gasoline service station and parking and storage of motor vehicles on the vacant portion of the premises; that the gas station will consist of six 550 gallon gas tanks and four dispensing pumps; that it is also proposed to cut new openings in the west wall of the existing garage leading to the gas station and to install two new lifts in the existing garage; that the balance of the plot not occupied by the building will be enclosed on the north, east and westerly lot lines with a 5 ft. high woven wire fence set on a 6 in. high concrete curb, making a total of 5 ft. 6 in. in height; that the gas station will be paved with asphaltic paving or concrete; and

WHEREAS, the application contends that the existing storage garage now sells gasoline and the addition of four more outside pumps comprising the gas station will not have an adverse effect on the community; that the Cross Bronx expressway service road at this point is heavily travelled and as there are no other gas stations within the affected area, and probably for miles along the Expressway, the proposal will be in keeping at this point; that the shape of the lot, with a minimum depth of 29.73 ft. and the high assessed value makes it mandatory to develop the site as proposed so that the owner may receive an equitable return on his investment; that it would be a hardship to use the premises for residence use due to its proximity to the Expressway and its irregular shape; that the property was reduced to its present size by condemnation and it is therefore unusable for residence use; and

WHEREAS, the applicant states that the present owner has held title to lot 87 since February 18, 1920 and to lots 90, 92 and 94 since March 25, 1949; that the assessed valuation of land is \$10,100 and of the building \$3,500 making a total of \$13,600; that the building was erected 1919; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which found that the service road of the parkway is in usable condition and it is on this service road that the proposed use will be located; that the main parkway below grade is still in process; the Committee recommended that the application be granted under certain conditions;

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on March 18, 1952, by adding thereto: "that the remainder of the former garage building heretofore permitted to be retained as a garage may be reconstructed as proposed and as indicated on plans filed with this application, marked "Received December 30, 1954", 3 sheets, to install a new door and new sash as indicated; that under section 7c the premises may be occupied as a gasoline service station, substantially as proposed and as indicated thereon; that along the rear and side lot lines there shall be constructed where shown a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height, erected on a masonry base; that curb cuts shall be restricted to two, each 30 ft. in width, located where shown; that pumps shall be not nearer than 15 ft. to the street building line and shall be of a low approved type; that the number of approved gasoline storage tanks shall not exceed ten 550 gallon tanks; that the balance of the premises be paved with concrete or asphaltic pavement; that signs shall be restricted to a permanent sign attached to the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection of a post standard near the accessory building for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than 4 feet; that the arrangement of the accessory building may be as proposed and shown on plans; that under section 7i, there may be minor repairs for motor

MINUTES

vehicles maintained in such building with hand tools only for adjustments; that under section 7c there may be parking of cars so parked as not to interfere with the servicing of the station; that the sidewalks in front of the premises shall be repaired or reconstructed to the satisfaction of the borough president; that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

17-33-BZ—Vol. II

APPLICANT—Robert Gottlieb, for Margareta Harms, owner, Bernie Mulvey, lessee.

SUBJECT—Application November 23, 1954 (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a business use district the reconstruction of existing gasoline service station (previously granted by the Board), to include lubricatorium, car wash, storage and sale of accessories and office.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 11, 1955 subject to regular procedure, to consider reconstruction; and

WHEREAS, a public hearing was held on this application on March 22, 1955 after due notice by publication in the Bulletin; laid over to April 12, 1955, for inspection and decision; hearing closed; then to May 3, 1955, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Sedgwick avenue are in a business use, B area, class 1½ height district; West 169th street is in residence and business use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated November 15, 1954 acting on Alt. Applic. 887-54, reads:

"1. Proposed reconstruction of gasoline service station and change of use to gasoline service station, lubricatorium, car washing and accessory sales in a business use district is contrary to Art. 2 Sec. 4a (46) of the Z.R. and to the resolution of the Board 17-33-BZ, Vol. 19, Bul. #26."

and

WHEREAS, the applicant states that the premises consist of a plot, 143.25 ft. frontage by 38 ft. in depth, irregular, on which is located a one story gas station erected in 1933 under N.B. 421-33, for which certificate of occupancy No. 203-34 was issued; and

WHEREAS, the applicant contends that the city has widened Sedgwick avenue due to construction of adjoining Major Deegan expressway and in so doing has cut off the south portion of the building on the side; that permission is requested for the reconstruction of the existing gas station to conform to the new street line, for a term of ten years; that the character of the street has not changed since the erection of the gas station in 1933 as all the land to the north and south is still vacant, except for the adjoining gas station and the police station on lot 21; that the proposed work consists of decreasing the size of the accessory buildings and setting the pumps back to 10 ft. behind the new building line and cleaning up the mess left by widening Sedgwick avenue; that the proposed reconstruction will in no way affect the neighborhood; and

WHEREAS, the applicant states that the present owner has held title to the property since January 18, 1947; that the assessed valuation of land is \$12,000 and of the building \$4,000 making a total of \$16,000; that the building was erected in 1921; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on June 19, 1934, by adding thereto:

"that in the event of the widening of Sedgwick avenue it is necessary to reduce the size of the plot, such plot may be reduced as proposed and as indicated on plans filed with this application marked 'Received November 23, 1954', 4 sheets; that the new facade facing the widened Sedgwick avenue shall be similar to the front as indicated on plans of proposed conditions, except there shall be no entrance doors therein but there may be two windows and may be constructed of face brick or cement blocks with stucco; that the balance of the plot shall be maintained as indicated on such plans where not inconsistent with the resolution above cited; and that all permits including a certificate of occupancy shall be obtained and all work completed within six months from the date of this amended resolution."

1000-40-BZ—Vol. VI

APPLICANT—Patrick D. Concagh, for Mero Holding Corporation, owner.

SUBJECT—Application December 6, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a residence use district the rearrangement of proposed stores (previously granted by the Board) in basement, by eliminating one of the stores in order to provide the main entrance to building on Grand concourse instead of Field place, reducing the number of stores from six to five.

PREMISES AFFECTED—2337 Grand concourse and 164 Field place, southwest corner, Block 3164, Lot 19, Borough of The Bronx.

APPEARANCES—

For Applicant: P. D. Concagh.

For Opposition: S. J. Malloy

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and John J. Saunders, B'd of Education.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. VI on December 21, 1954 subject to regular procedure, to consider new proposal; and

WHEREAS, a public hearing was held on this application on May 3, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Field place are in a residence use, B area, class 1¼ height district; Grand concourse is in residence and business use, B area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated November 30, 1954 acting on amendment to Alt. Applic. 314-53, reads:

Amendment disapproved with the following additional objection:

"A-2. Amended plans herewith filed, do not agree with plans approved by the Board of Standards and Appeals on February 2, 1954 under application 1000-40-BZ Vol. V."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 90 ft. in depth, on which is

MINUTES

located a class A multiple dwelling, 100 ft. front by 81 ft. in depth, 6 stories, 61 ft. in height, of class 3 construction; that it is proposed to reduce the number of stores from six to five in order to permit the main entrance to structure from the Grand concourse; and

WHEREAS, the applicant contends that these amended plans show a new arrangement of the proposed stores in the basement by eliminating one of the stores so as to provide the main entrance to the building on Grand concourse instead of Field place, as originally intended; that the number of stores will, therefore, be reduced from six to five; that these plans also show some minor changes in layout of the stores; and

WHEREAS, the applicant states that the present owner has held title to the property since November 12, 1953; that the assessed valuation of land is \$65,000 and of the building \$95,000 making a total of \$160,000; that the building was erected in 1921; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 17, 1947, as thereafter amended by resolution adopted through February 2, 1954, by adding thereto: that in the event the owner desires to maintain the present entrance to this building from Grand concourse, and to reduce the number of stores by one, as now proposed and as indicated on plans filed with this application marked, "Received February 7, 1955" (7 sheets), such modification of the plans as previously permitted may now be allowed *on condition* that in all other respects the resolution above cited shall be complied with where not inconsistent with the revised proposal; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

585-41-BZ—Vol. II

APPLICANT—Thomas A. Fitzpatrick, for Fitzpatrick Enterprises, Inc., owner.

SUBJECT—Application reopened March 29, 1955 for consideration re extension of term of variance—re (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, permitting in a residence use district, for a term of years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—109-02 to 109-12 Rockaway Beach boulevard and 201-209 Beach 109th street, northwest corner, Block 653, Lot 12, Rockaway Beach, Borough of Queens.

APPEARANCES—

For Applicant: Thomas A. Fitzpatrick.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board, July 17, 1941, as Vol. I, on certain conditions; and

WHEREAS, the term of variance was extended June 10, 1947, as Vol. II; and

WHEREAS, the term of variance was further extended April 5, 1949 and December 5, 1950; and

WHEREAS, time to complete was extended December 5, 1950; and

WHEREAS, the term of variance was further extended on October 21, 1952; and

WHEREAS, the applicant requested reopening of this application and a further extension of the term of variance, which had expired by time limitation; and

WHEREAS, this application was reopened on March 29, 1955, and set for hearing on May 3, 1955, at 10 A. M., to

consider extension of term of variance which expired on October 21, 1954; subject to the regular procedure but waiving all requirements except a new decision of the Borough Superintendent and two publications in the Bulletin for notice; and to record the new owner as Fitzpatrick Enterprises Inc., 446 Beach 128th street, Rockaway Beach, Queens; and

WHEREAS, a public hearing was held on this application on May 3, 1955, after due notice by publication in the Bulletin; and

WHEREAS, the decision of the Borough Superintendent, dated April 4, 1955, acting on Misc. Applic. 2582-47, reads:

"1. The storage and parking of motor vehicles in a residence district is contrary to Art. II, Sec. 3 of Zoning Res. Further extension may be submitted to the Bd. of Standards and Appeals under Cal. 585-41-BZ."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 10, 1947, and as thereafter amended by resolution adopted through October 21, 1952, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * granted under Section 7, Subdivision h for a term of two years from the date of this amended resolution, to permit * * *; that other than as herein amended the resolution above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained within six months of the date of this amended resolution." (Misc. App. 2582 of 1947)

38-42-BZ—Vol. II

APPLICANT—Paul Friedman, for Anna Siciliana and Laura Siciliana, owners, Sun Oil Company, lessee.

SUBJECT—Application November 19, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a residence use district, for a term of fifteen years, the erection and maintenance of a gasoline service station, lubritorium, auto wash (non-automatic), storage and sale of accessories and office (previously denied under section 7f by the Board, when in business use district).

PREMISES AFFECTED—444 Sound View avenue and 445 Underhill avenue, northeast corner, Block 3498, Lot 51, Borough of The Bronx.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: Samuel A. Feuchtwanger.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 11, 1955 subject to regular procedure, to consider revised proposal, previously denied; and

WHEREAS, a public hearing was held on this application on March 22, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, at request of objector, applicant concurring; then to April 26, 1955, for inspection and decision without further argument; hearing closed; then to May 3, 1955, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Sound View avenue and Underhill avenue are in a residence use, E-1 area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated November 8, 1954 acting on N.B. Applic. 1037-54, reads:

"1. In a residence district the proposed gasoline service station, auto-washing (non-automatic), lubrication,

MINUTES

office and accessory sales is contrary to Section 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 178 ft. frontage by 94.89 ft. in depth, presently vacant, but used continuously since prior to April 26, 1945 for storage of four trucks and empty beer barrels without certificate of occupancy; that the property referred to is presently zoned as a residence use district, a class $\frac{1}{2}$ district and an E-1 area district; that as of July 25, 1916 the property was zoned as an unrestricted use district, a $1\frac{1}{2}$ times height district and an A area district; that on June 10, 1932 the property was rezoned to a business use district and on April 26, 1945 the property was rezoned to a residence use district, class 1 height district and a D area district; that on September 23, 1954 the present height and area district designations became effective; that no petition is pending before the city planning commission to change the use, height or area district designations affecting this plot; and

WHEREAS, the applicant further states that it is proposed to construct and maintain for a term of 15 years a parkway type gasoline service station, non-automatic auto wash, lubrication, office and accessory sales, with curb cuts on Sound View avenue only, subject to such additional conditions and safeguards as the Board may deem appropriate; and

WHEREAS, the applicant contends that the plot is irregular and almost triangular in shape so as to be unadaptable for development for any building or buildings other than as proposed; that the character of the development of the immediate neighborhood is not exclusively residential; that out of 48 lots in the area of notification, 18 lots are vacant, 14 lots are devoted to conforming uses in a residence use district (13 dwellings and one club) and 16 lots are devoted to non-conforming uses in a residence use district; that the premises has its largest frontage (178 ft.) on Sound View avenue, which is the main traffic artery in the area and this fact makes the property especially unsuitable for residential development and particularly adaptable for the proposed use; that the actual use of the premises since prior to April 26, 1945 was the storage of trucks and empty beer barrels, without a certificate of occupancy; that these premises cannot be used or developed for any use other than the proposed use so as to yield a reasonable return on the investment; that efforts to interest prospective purchasers or lessees for store use have been unsuccessful as the retail stores now in the neighborhood are sufficient for public requirements; that the almost triangular shape of the premises makes it necessary to locate any building at the north end of the plot; that the area district regulations limit the area of any building to 4,482 sq. ft. and requires that the building be set back 15 ft. from the street line on which it faces and 10 ft. from the other street line; that the very factors which make the plot unadaptable for any other development make it particularly adaptable for the proposed use; that as a gas station the building would naturally be located at the north end of the plot; that the area of the two bay building would be approximately 1,260 sq. ft. and its natural placement would comply with the setback requirements from both streets; that there is an economic demand for use of the subject premises for a gas station and the owners have concluded a 15 year lease with a major gas company, conditional upon a grant of this application; that a grant would not adversely affect the neighborhood and adjoining property owners will be adequately protected; that the proposed building will be a parkway type structure, constructed of face brick with a peaked roof, wood siding and ornamental cupola; that there will be no window or door openings on the northerly and easterly sides of the building, except to toilets, that there will be two parkway type pumps constructed on a concrete island set back 15 ft. from Sound View avenue; that the balance of the plot will be concrete or bituminous paved, and signs will be limited, as shown on plans; that the location of the building at the northerly end of the plot will leave the plot un-built upon, at and near the confluence of Sound View and Underhill avenues, thereby contributing to the public safety by providing clear traffic visibility at the corner; that the

proposed use of the subject premises will afford more light and ventilation to nearby properties than if a conforming building were to be erected; that the limitation of the term of the gas station would serve as a protection to the neighborhood so that in the event the character of the neighborhood should change the proposed gas station may be terminated; and

WHEREAS, the applicant states that the present owner has held title to the property since March 20, 1942 and that the assessed valuation of land is \$8,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of 15 years to permit the premises to be occupied as a gasoline service station as proposed and as indicated on plans filed with this application marked, "Received, November 19, 1954" (5 sheets) *on condition* that the premises shall be levelled substantially to the grade of Sound View Avenue and Leland Avenue and shall be constructed and arranged substantially as indicated on such plans above cited; that the accessory building shall have no cellar under the building; that the accessory building shall be arranged substantially as shown and shall be faced with face brick of the design as indicated and with the building of a design as indicated; that along the lot line to the north there shall be erected a masonry wall not less than three feet in height with a steel picket fence two feet six inches in height a total height of five feet six inches; that suitable terminal posts shall be erected at each building line; that a planting area shall be maintained with suitable planting, as shown, protected with a concrete curb not less than six inches in width and six inches in height above grade; that a similar fence shall be erected along the street building line of Underhill Avenue, as shown, with similar planting in the area west of such fence and at the intersection, where shown; that the pumps shall be of a low approved type, erected not less than fifteen feet from the street building line of Sound View Avenue; that the balance of the premises shall be paved with concrete or asphaltic pavement; that curb cuts shall be restricted to two curb cuts to Sound View Avenue each thirty feet in width, located substantially where shown; that signs shall be restricted to a permanent sign attached to the facade of the accessory building, and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection near the intersection of a post standard for the supporting of a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than four feet; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

604-46-BZ—Vol. II

APPLICANT—Jacob Lubroth and Son, for Lawrence J. McSherry, owner, Murray Cohen, doing business as Ur-dangs, lessee.

SUBJECT—Application October 22, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a business use, C area district, the proposed one story extension using more than the area permitted (previously granted an extension by the Board using more than area permitted).

PREMISES AFFECTED—56-34 to 56-38 Myrtle avenue, south side, 155 ft. east of Cornelia street, Block 3560, Lot 26, Ridgewood, Borough of Queens.

MINUTES

APPEARANCES—

For Applicant: Jacob Lubroth and Murray Cohen.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on November 23, 1954 subject to regular procedure, to consider extension of building and use; and

WHEREAS, a public hearing was held on this application on April 12, 1955 after due notice by publication in the Bulletin; laid over to May 3, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Myrtle avenue are in a business use, C area, class 1 height district; Cornelia street is in residence and business use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated September 21, 1954 acting on Alt. Applic. 1906-54, reads:

"1. Proposed extension exceeds the maximum area permitted by Sec. 13-b of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 60 ft. frontage by 122 ft. in depth, irregular, consisting of three buildings, namely, 56-34, 56-36 and 56-38 Myrtle avenue; that buildings 56-36 and 56-38 were permitted to be combined and extended under Cal. No. 604-46-BZ; that it is proposed to extend building 56-34 and be combined with above mentioned two buildings and to build a 20 ft. mezzanine at the rear of the new extension to be combined with existing mezzanine; that the 1st floor will be used as a retail sales store of women's apparel and the mezzanine as offices in conjunction with the store; that the upper two floors in building 56-34 will be vacated and will not be used; that the stairs from 1st to 2nd floor will be entirely removed and stairwell built in solid; and

WHEREAS, the applicant contends that the lessee finds it a great hardship to conduct his business in the limited area in which he is operating at present; that all buildings in this entire block, except on lots 25, 2 and 3, occupy the full lot area and therefore adjacent property owners will not be affected by the erection of this additional extension; that an additional exit will be provided to Myrtle avenue, which makes it a much more desired exit facility than is now provided at the rear of the present extension through a ladder to the roof of the extension; and

WHEREAS, the applicant states that the present owner has held title to the property since February 16, 1929; that the assessed valuation of land is \$58,250 and of the buildings \$43,250 making a total of \$101,500; that the buildings were erected in 1914; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

RESOLVED, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21, to permit the extension of the building located at 56-36 Myrtle avenue, substantially as proposed and as indicated on plans filed with this application, marked "Received June 7, 1955", 6 sheets, *on condition* that this building shall be used in conjunction with the two adjoining buildings to the east, 56-36 and 56-38, for the store use as proposed; that building 56-34 shall be left vacant above the first story as proposed; that building

56-36 may be continued for storage and rest room on the 2nd floor and storage above and at 56-38 the building may be used for storage on the 2nd floor and one family on the 3rd floor; and that in all other respects the buildings and occupancies shall comply with all laws, rules and regulations relating to construction, use and occupancy other than as modified by the Board this day under Cal. 913-54-A; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

913-54-A

APPLICANT—Jacob Lubroth and Son, for Lawrence J. McSherry, owner (Murray Cohen, d/b/a Urdangs, lessee).

SUBJECT—Application October 22, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—56-34 to 56-38 Myrtle avenue, south side, 155 ft. east of Cornelia street, Block 3560, Lot 26, Ridgewood, Borough of Queens.

APPEARANCES—

For Applicant: Jacob Lubroth and Murray Cohen.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF THE BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, acting on Alt. App. 1906/54, dated September 21, 1954, reads:

"2. Live loads must comply with requirements of Sec. 7.3.2.3 B.C. for stock and restroom 75 and 90, respectively.

3. Provide two means of egress as per Sec. 6.1.2.2.3 B.C.

4. Stairs must be provided with two hour fire resistive enclosure. 6.4.1.8.1 B.C."

and

WHEREAS, the applicant states that 56-34 Myrtle avenue is 2 stories, 35 feet in height with a one-story extension 12 ft. in height; the building is 20 ft. by 30 ft. in area at street level, 20 ft. by 55 ft. in area above, of Class 3 construction, erected in 1914 on a lot in a business use, C area, Class 1 height district; used and occupied since erection: Cellar—ordinary use; 1st floor—store (vacant); 2nd floor—1 family (now vacant); 3d floor—1 family (now vacant); proposed to be used and occupied—cellar—same; 1st floor retail store, 6 persons; 2nd and 3d floors to remain vacant; that 56-36 Myrtle avenue is 3 stories in height with a one-story extension; the building is 20 ft. by 120 ft. average in area, of Class 3 construction, erected in 1914 and used and occupied since 1950: Cellar—boilerroom and storage; 1st floor—store in conjunction with 56-38; 12 persons; 2nd floor—stockroom; 3d floor—employees rest room; no change in use or occupancy is now proposed; and

WHEREAS, the applicant states that 56-38 Myrtle avenue is 3 stories in height with a one-story extension 12 ft. in height; that the building is 20 ft. front by 120 ft. average in depth at street level and 20 ft. front by 55 ft. in depth at typical floor level, of Class 3 construction, erected in 1914, used and occupied since 1950: Cellar—boilerroom and storage; 1st floor—store, in conjunction with 56-36, 12 persons; 2nd floor—stockroom; 3d floor—1 family dwelling; proposed to be used and occupied—Cellar—same; 1st floor—same; 2nd floor—same; 3d floor—vacant; applicant states that 56-34 has one existing interior stair, enclosed in studs, metal lath and plaster, equipped with wood doors which will be made self-closing; that this stairs is to be removed from cellar to 2nd floor; this building is provided with ladder and scuttle to roof; that 56-36 has one interior 2 ft. 8 in. wide wood stairs, enclosed in studs, metal lath and plaster, equipped with wood doors which will be made self-closing; this stair-hall does not lead direct to street but is provided with

MINUTES

ladder and scuttle to roof; that 56-38 Myrtle avenue has one interior 2 ft. 8 in. wide wood stairs, enclosed with partitions of studs, metal lath and plaster, enclosed with wood doors which will be made self-closing; this stair leads direct to street and is provided with ladder and scuttle to roof; that 56-34 and 56-38 Myrtle avenue each have a fire escape at rear; and

WHEREAS, Certificate of Occupancy #Q64539 issued June 23, 1950 to premises 56-38 Myrtle Avenue, (encompasses lots 27 and 28) describes the combined buildings as 3 stories, 20 feet in height, of nonfireproof construction and classifies them as residence and commercial and permits the building to be used and occupied upon completion of Alt. App. 1662/46 as follows: cellar—boilerroom and storage; 1st floor—store and balcony, 12 persons; 2nd floor—stockroom, 1 person, 75 lb. liveload; 3rd floor—1 family dwelling and restroom, 40 lb. liveload, all in accordance with resolution adopted by the Board under Cal. 178-47-A and 604-46-BZ; and

WHEREAS, the applicant states that this appeal except for an additional building applies to buildings submitted to the Board under Cal. 178-47-A; and

WHEREAS, the applicant contends that Objections 2, 3 and 4 issued by the Borough Superintendent are the same as Objections 2, 3 and 4 issued in the previous appeal under Cal. 178-47-A which items have already been heard, modified by the Board and complied with; and

WHEREAS, the applicant contends that the plan examiner was not justified in repeating these objections; and

WHEREAS, the Board on March 4, 1947, under Cal. 178-47-A granted an appeal from Objections 2, 3 and 4 issued by the Borough Superintendent on February 26, 1947, on Alt. App. 1562/46, relating to premises 56-36 and 56-38 Myrtle avenue, on condition that the resolution adopted by the Board under Cal. 604-46-BZ be complied with; that the liveload on the 2nd floor be not less than 75 lbs.; that the 2nd floor be used only for the storage of light merchandise; that the liveload on the 3rd floor of 56-36 be not less than 40 lbs. and such floor used only for employees' restrooms; that the building be not increased in height or area; that the existing stair from roof to cellar be maintained and enclosed with partitions of not less than 1 hour test; that a sprinkler system be installed within the stairways, attached to the street water supply, provided with not less than 1½ in. feed line and to be of a type permitted for a converted dwelling; that the horizontal opening on the 2nd floor be protected with fire doors required for party walls; that a fire escape be erected on the rear of the building existing to the first story roof; that the rear of 56-36 have a stationary ladder installed reaching from roof to grade, permitting exit through adjoining lot 26 under the same ownership and through the building on such lot by means of a door openable at all times during working hours, providing exit to Myrtle avenue; that an exit door be maintained at the rear of the extension of 56-36 Myrtle avenue to the portion at the rear shown left unbuilt upon with free access to the adjoining building on lot 26; that in addition to stairs in the cellar, there be an opening in the cellar party wall, protected with fire door; that trap doors be placed in front of each building and in the sidewalk and maintained; that portable fire-fighting appliances be maintained as the Fire Commissioner directs; and

WHEREAS, on March 28, 1950, the Board amended such resolution to permit the omission of the sprinkler system previously required, provided a fire escape is erected at the rear of both buildings, 56-36 and 56-38 Myrtle avenue, leading to the one-story extension roof of #56-36, with a permanent ladder attached to the rear wall leading to grade with exit to adjoining building under same ownership on lot 26 and through such building to Myrtle avenue; and

WHEREAS, the premises were inspected by a committee of the Board.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 1906/54, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, as to Objection 2, on condition that the liveloads of the upper

floors shall not be less than as proposed; that signs for such loads shall be posted and at no time shall the floors be loaded beyond such capacities; as to Objection 3, that the means of exit shall be maintained as proposed and as indicated on plans filed with this appeal, marked "Received February 24, 1955", 4 sheets; and to Objection 4, that the existing stairs to the upper stories may be continued, provided same are protected by fire-resistive partitions, as indicated on such plans; and that in all other respects the buildings and occupancies shall comply with all laws, rules and regulations applicable thereto, other than as permitted by the Board by resolution adopted this day under Cal. 604-46-BZ, Vol. II.

124-54-BZ

APPLICANT—E. J. Cappello, for Thomas Harper, owner.
SUBJECT—Application February 19, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a residence use, E-1 area district, the erection of an extension at front and also in rear of existing funeral home and one family residence, nearer the street line than is permitted and without the required side yards.

PREMISES AFFECTED—15-35 149th street, east side, 75 ft. south of 15th road, Block 4663, Lot 4, Whitestone, Borough of Queens.

APPEARANCES—

For Applicant: E. J. Cappello.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and John J. Saunders, B'd of Education.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 12, 1955 after due notice by publication in the Bulletin; laid over to May 3, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 149th street and 15th road are in a residence use, E-1 area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated February 4, 1954, acting on Alt. Applic. 117-54 and superseded by Alt. Applic. 117-54 dated February 9, 1955, reads:

"2. The use of & extension of a Funeral home in a Res. use Dist. is contrary to Art. 2 Sec. 3 of Zone Res.

3. The front yard is contrary to Art. 4 Sec. 15A(c) of Zone Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 ft. frontage by 100 ft. in depth, on which is located a building 18 ft. front by 34 ft. in depth, two stories in height, of class 3 and class 4 construction, used as a funeral home and one family dwelling, with one car garage; that it is proposed to add an extension at front of existing structure and also at the rear, both one story in height; and

WHEREAS, the applicant requests a variance to extend existing building by adding a new funeral chapel room, which will encroach to cover the required 15 ft. front yard and 5 ft. side yard in the E-1 area; and

WHEREAS, the applicant contends that the present structure has been in continued use as a funeral home since 1934; that in order to alleviate the difficulties of working under the restrictions of a single funeral chapel, it is vital that additional space be created for a second chapel; that with such new space permitted, proper and adequate service can be assured to continue the servicing of the needs of the

MINUTES

community and surrounding area; that without increasing the total allowable coverages of the property, a small extension to the original chapel is also shown on the plans of proposed work; and

WHEREAS, the applicant states that the present owner has held title to the property since June 12, 1933; that the assessed valuation of land is \$1,500 and of the building \$5,500 making a total of \$7,000; that the building was erected in 1923; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21, to permit the extension of the building for the existing use as a funeral parlor and undertaking establishment on the first floor as indicated on plans filed with this application, marked "Received February 19, 1954", 9 sheets, on condition that the building shall not be further increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto and to the second floor residence use other than as modified this day by resolution adopted by the Board under Cal. 185-54-A; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

185-54-A

APPLICANT—E. J. Cappello, for Thomas Harper, owner.
SUBJECT—Application March 5, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—15-35 149th street, east side, 75 ft. south of 15th road, Block 4663, Lot 4, Whitestone, Borough of Queens.

APPEARANCES—

For Applicant: E. J. Cappello.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinfert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated February 4, 1954, on Alt. App. 117/54 reads:

"1. The use of a frame building for a funeral home is contrary to sec. 4.1.3.5(a) of B.C."

and

WHEREAS, the applicant states the building is 2 stories, 22 feet in height, 18 ft. by 34 ft. in area, Class 3 construction, erected in 1923 on a lot 25 ft. front by 100 ft. in depth in a residence use, E-1 area, Class 1 height district; used and occupied since 1934: cellar—lavatory, embalming room and heating; 1st floor—funeral chapel, 50 persons; 2nd floor—dwelling, 1 family, 2 persons; proposed to be increased to 21 ft. front by 66 ft. in depth, in Class 4 construction and used and occupied as follows: cellar—lavatory, embalming room, office, heating and storage; 1st floor—funeral chapel rooms, 90 persons; 2nd floor—dwelling, 1 family; the building is provided with one 3 ft. wide interior wood stairs, enclosed in partitions of lath and plaster, equipped with wood doors which are not self-closing; stairhall leads direct to street and to roof; it is proposed to install one fire escape on the rear at the 2nd floor with egress to yard by stair and with egress therefrom through side yard to street; and

WHEREAS, the applicant states a variance is requested to extend the existing building by adding a new funeral chapel room; and

WHEREAS, the applicant contends the present structure has been in continuous use as a funeral home since 1934; that due to pressing increased service, the need for alleviating the difficulties of working with only a single funeral chapel room, it is vital that additional space be created for a second funeral chapel room so as to properly and adequately service the whole community and surrounding area; and

WHEREAS, the applicant contends without increasing the total allowable coverage of the property, a small extension to the original chapel is also shown on plans of proposed work; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 117/54, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the requirements of the resolution adopted this day under Cal. 124-54-BZ shall be complied with in all respects.

392-54-BZ

APPLICANT—Frederick A. Ketcher, for Chelsea Realty Corp., owner.

SUBJECT—Application May 18, 1954 (decision of the borough superintendent), under sections 7c, 7i and 7h of the zoning resolution, to permit in a business use district the reconstruction and extension of metal accessory building on existing gasoline service station, and the reconstruction and replacement of two car metal garage, to include gasoline service station, lubritorium, motor vehicle repairs, car washing, office and two car garage, and to permit the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—2415 Webster avenue, northwest corner of East 187th street, Block 3025, Lot 26, Borough of The Bronx.

APPEARANCES—

For Applicant: Frederick A. Ketcher.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and John J. Saunders, Bd. of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinfert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 29, 1955 after due notice by publication in the Bulletin; laid over to May 3, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Webster avenue are in a business use, B area, class 1½ height district; East 187th street is in residence and business use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated May 14, 1954 acting on Alt. Applic. 1029-53, reads:

"1. Proposed gasoline service station, auto washing, lubrication, office, accessory sales and minor repairs with hand tools only, located in a Residence Use District, is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 65 ft. 6 in. frontage by 93 ft. 3 in. in depth; that the premises is at present located in a business use district and at the time the existing structure was erected it was located in a business district; that there has been no change in height, area and use districts since 1916; that certificate of occupancy No. 11594 of 1952 was issued for use of premises as a gasoline service station, office, lubrication, accessories, storage and two-car garage; that it is proposed to permit the reconstruction of and extension to the one story office building, and the reconstruction of the two car

MINUTES

garage; that the premises will continue to be used as a gasoline service station, office, lubrication, accessories, storage and two car garage with the further uses of sales room and car washing, minor motor vehicle repairs with hand tools only, and to permit the parking and storage of more than five motor vehicles as long as the premises are legally used as a gas station; and

WHEREAS, the applicant contends that the existing building is outmoded, completely inadequate and a neighborhood eyesore; that the three open grease pits are most unsightly and unsatisfactory in bad weather; that the small size of the station, which limits its sales volume, would not warrant the expense of a masonry building as any major investment could never be amortized; that the station will be constructed of a steel frame, steel roof trusses and finished with white cement board; that the new building has been designed to provide modern rest rooms, to permit lubrication and washing of cars indoors, to provide for filling in and eliminating the grease pits and permit the installation of safety lifts and other new equipment inside of the building; that the three grease pits will be replaced by two modern safety lifts; that the entire plot will be properly graded and black topped and the dilapidated two car garages will be replaced with one of new construction; that the proposed arrangement will be more compact and attractive and will contribute considerably towards improving the general character of the station and the neighborhood; that a variation is also requested so as to permit minor motor vehicle repairs with hand tools only, such as are ordinarily performed at all gas stations, and for the storage and parking of more than five motor vehicles; that the two playgrounds in the vicinity were opened many years after this station was in operation; and

WHEREAS, the applicant states that the present owner has held title to the property since January 25, 1946; that the assessed valuation of land is \$22,500 and of the building \$5,500 making a total of \$28,000; that the building was erected in 1922; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended the application be granted under certain conditions to permit the reconstruction and rearrangement of the lawfully existing gasoline service station; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions c, i and h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the existing gasoline service station to be reconstructed and rearranged substantially as indicated on plans filed with this application, marked "Received May 18, 1954", 5 sheets, *on condition* that all buildings and uses not proposed to be continued shall be removed and the premises leveled substantially to the grade of Webster avenue and East 187th street and rearranged, as indicated on plans above cited; that there shall be no cellar under the accessory building; that the accessory building shall be faced with face brick on the front and south side and in all respects shall comply with all laws applicable thereto; that pumps shall be erected not nearer than 15 feet to the street building line, except that where pumps are existing they may remain in their present location; that the balance of the premises shall be paved with concrete or asphaltic paving; that along the rear lot line where walls of accessory building and adjoining buildings do not occur there shall be erected such retaining walls as may be necessary, to a height of not less than 5 ft. 6 in. and along the building line of East 187th street there shall be a masonry wall running for a distance of approximately 60 feet from the rear; that the existing curb cuts consisting of one 32 ft. in width on Webster avenue and one 22 ft. in width to East 187th street may be retained if license therefor has been issued but no other curb cuts shall be constructed; that the sidewalks and curbing surrounding the premises shall be reconstructed or repaired to the satisfaction of the borough president; that signs shall

be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection of a post standard within the intersection for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale, and permitting such sign to extend beyond the building line for a distance of not over 4 feet; that at this point there shall be a block of concrete not less than 12 in. in height extending for a distance of at least five feet along each building line; that under section 7i there may be minor repairing with hand tools only, maintained solely within the accessory building; that under section 7c there may be parking of cars awaiting service, provided such cars are located so as not to interfere with the service of the station; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

444-54-BZ

APPLICANT—Levy and Nevins, for Fred D. Robinson, owner, Herman Jacoby, lessee.

SUBJECT—Application June 3, 1954 (decision of the borough superintendent), under sections 7e and 21 of the zoning resolution, to permit in a residence use district the maintenance of existing hand laundry in basement.

PREMISES AFFECTED—517 Manhattan avenue, west side, 84 ft. north of West 121st street, Block 1948, Lot 17, Borough of Manhattan.

APPEARANCES—

For Applicant: Saul Nevins and Jacob S. Liroff.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly	4
Negative	0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 3, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Manhattan avenue and West 121st street are in a residence use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated May 4, 1954 acting on amendment to Alt. Applic. 1464-53, reads:

"A2. Repeat Laundry in a residence district is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 16 ft. frontage by 90 ft. in depth, on which is located a building 16 ft. front by 58 ft. in depth, 3 stories, 38 ft. in height, of class 3 construction, occupied as a residence and hand laundry; that it is proposed to permit the existing use to be continued; and

WHEREAS, the applicant contends that for many years prior to May 1953 the tenant conducted a hand laundry at 340 West 123rd street and moved to the subject premises in May of 1953 thinking that the leased space was properly zoned for said use because the space in question had previously been used and occupied by a grocery store; that actually there are many other stores on Manhattan avenue between 122nd street and 117th street and this fact plus the existence of other commercial enterprises within the affected area resulted in the tenant's failure to check the zoning restrictions; that the tenant invested his entire life savings in equipping the premises for use as a hand laundry and in making the necessary alterations and installations of equipment and it was not until a routine inspection was made by

MINUTES

the department of housing and buildings in conjunction with a previous application of the tenant for a transfer of license did the violation of the zoning laws come to the attention of the tenant; that the department of health had previously and under date of June 7, 1953 approved the said premises and recommended the issuance of a license but unfortunately the department of housing and buildings could not do so in the light of the zoning resolution; that an investigation of the history of the premises shows its continual use for commercial purposes since 1926 and although there is reason to believe that such existed prior to 1916, no specific evidence is available which is sufficient to prove the legality of such a non-conforming use; and

WHEREAS, the applicant states that a recheck of the records of the department of housing and buildings with respect to the subject premises indicates that a violation affecting said building No. 36-1949, is still on the record; that notice of this violation was unknown to the present owner since the same was previously addressed to Cooperative Enterprises, Inc.; that the violation in question concerns a grocery store which is no longer located on the premises and therefore neither the landlord nor the tenant were familiar with this violation; that in any event, this violation is additional evidence of a previous non-conforming use; and

WHEREAS, the applicant further states that the proprietor or his assistant sorts the soiled laundry in accordance with the type of processing required; that flat work consisting of items such as shirts, towels, pillow cases are placed in the baskets of commercial steam laundries specializing in that type of work; that this laundry is not washed, ironed or otherwise processed at the premises; that only a few small pieces requiring specialized hand care are washed on the premises; that this washing is done in a sink now located in the store and only a very small percentage of incoming laundry is so washed in the store; that there is no washing machine on the premises and no other machinery with which to process this laundry, with the exception of a mangle consisting of one roll; that this machine is only slightly larger than the mangles commonly used in domestic households; that in addition there are two ironing tables on the premises at one of which those items of family wear which require touching up by hand are ironed by the use of an electric hand iron; that the entire personnel employed in the store consists of Mr. Jacoby, a part time assistant and one full time ironer; and

WHEREAS, the applicant states that the present owner has held title to the property since April 15, 1948; that the assessed valuation of land is \$4,000 and of the building \$5,500 making a total of \$9,500; that the building was erected prior to 1916; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of five years, to permit the occupancy as a hand laundry, as proposed and as indicated on plans filed with this application, marked "Received June 3, 1954", 4 sheets, *on condition* that the space so occupied shall be confined to the basement of the building; that all other occupancy of the building shall comply with all laws, rules and regulations applicable thereto; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; and that all permits, including a certificate of occupancy, shall be obtained and all work completed within six months from the date of this resolution.

515-54-BZ

APPLICANT—Irving Kirshenblit, for Nola Realty Corp., owner.

SUBJECT—Application June 21, 1954 (decision of the borough superintendent), under section 7h of the zoning resolution, to permit in a residence use district the parking and storage of motor vehicles.

PREMISES AFFECTED—798-812 Schenck avenue, west side, 185 ft. south of Linden boulevard, Block 4354, Lots 16, 17 and 20, Borough of Brooklyn.

APPEARANCES—

For Applicant: Irving Kirshenblit and Harold Schwartz.
For Opposition: C. J. Cammarata, N. Y. C. Housing Authority.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleiner and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 12, 1955 after due notice by publication in the Bulletin; laid over to May 3, 1955, for inspection and decision; information to be submitted by the Housing Authority in the meantime; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Linden boulevard are in a residence use, D area, class 1 height district; Schenck avenue is in residence and local retail use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated June 14, 1954 acting on Alt. Applic. 2829-54, reads:

"1. Proposed parking & storage of motor vehicles, within a residential use district, is contrary to Art. 2 Sect. 3 of the zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 160 ft. frontage by 100 ft. in depth; that there are no buildings on the lot, except two wood sheds one of which is used as a garage and the other as a storage place for junk; that part of the property is below the curb level with a lot of rocks and rubbish strewn all over the place which is an eyesore to tenants living across the street in a modern housing project; that it is proposed to demolish the wood sheds, remove the rocks and rubbish, fill in and level out the entire ground and cover same with gravel or cinders, and compact same throughout; that it is also proposed to install proper bumpers and occupy the premises as a parking lot for motor vehicles, for monthly tenants only; and

WHEREAS, the applicant contends that since the erection of the housing project there has been a great congestion of cars parked on both sides of all streets adjoining the project and in the middle of the project; that the project consists of several 6-story and 14-story buildings, without provision for storing or parking of cars; that there are no garages available in the neighborhood; that on Stanley avenue, half a block from the subject premises, which runs through the middle of the project, cars are parking at 90 degrees and as a result, delivery trucks servicing the tenants of the project are compelled to stop in the middle of the street while making deliveries; that by providing off-street parking, some of the congestion will be relieved; and

WHEREAS, the applicant states that the present owner has held title to the property since November 1, 1953 and that the assessed valuation of land is \$4,800; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years, to permit the plot to be occupied substantially as

MINUTES

proposed for the parking and storage of motor vehicles, as shown on plans filed with this application, marked "Received February 24, 1955", 2 sheets, *on condition* that all buildings and uses now on the plot shall be removed and the premises graded for its full size substantially to the grade of Schenck avenue and surfaced with steam cinders or clean gravel, treated with a binder and properly rolled; that there shall be erected on all lot lines a woven wire fence of the chain link type, not less than 5 ft. 6 in. in width with no openings therein except an opening to Schenck avenue where shown; that such opening shall be fitted with gates so that the parking lot may be closed when not in operation; that opposite such opening may be a curb cut 13 ft. in width; that signs shall be restricted to one 25 sq. ft. in area, attached to the fence at the entrance, not extending beyond the building line and not illuminated, advertising only the parking use, the rates charged and such other information as may be required by the Commissioner of Licenses; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; and that all permits, including a certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

648-54-BZ

APPLICANT—Raphael and Conlon, for Rayjon Corp., owner, Seabreeze Restaurant, lessee.

SUBJECT—Application August 17, 1954 (decision of the borough superintendent), under sections 7c, 7e and 7h of the zoning resolution, to permit the extension of restaurant use and the parking of patrons' cars in restricted retail use district to extend into the residence use portion of plot.

PREMISES AFFECTED—No. 2 City Island avenue, southeast corner of Belden street, Block 5637, Lot 1, Borough of the Bronx.

APPEARANCES—

For Applicant: Thomas J. Zurno and Raymond Cepallaro.
For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 29, 1955 after due notice by publication in the Bulletin; laid over to May 3, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Belden street are in residence and restricted retail use, C area, class 1 height districts: City Island avenue is in a restricted retail use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated August 12, 1954 acting on Alt. Applic. 589-54, reads:

"1. Proposed extension of restaurant use and parking of patrons' cars from a restricted retail use district into a residence use district is contrary to Sect. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 283.62 ft. frontage by 236.58 ft. in depth, irregular; that the southerly end of City Island avenue is a dead end street running into Long Island Sound; that there is now located on the southwesterly corner of the subject lot a restaurant and it is the only business located on the lot; that the business located on this particular lot sells food to customers and patrons primarily in cafeteria style, which the patrons, at their option, may eat on any of the 15 benches located on the southerly side of the lot facing Long Island sound; that in order to get to the restaurant the patrons bring their cars off City Island avenue into the said lot and park the same as nearly adjacent to the restaurant

as there is room; that the parking of these cars is done on the 100 ft. immediately east of City Island avenue; and

WHEREAS, the applicant contends that the problem of limiting patrons' parking to the 100 ft. classified as restricted retail is a difficult one, where a single lot is divided into two zones, one which permits parking and the other which prohibits it; that the property in question on City Island avenue faces a vacant lot, either end of which contains stands of a similar nature to the one which is the subject of this application; that the frontage of the subject lot is greater on City Island avenue than it is on any of the three other sides; that the second greatest frontage is that which is on Long Island sound and the parking of cars would certainly not be detrimental in this direction; that the frontage on Belden street, which is the northerly end of the lot, faces a restaurant known as the Lobster Box, two 2-story dwellings and a summer bungalow bordering on Long Island sound; that a variance for the parking of cars to service the stand located on the lot in question will be a change that will be hardly perceptible in view of the fact that the lot at the present time is used in part for the parking of cars; that the certificate of occupancy only permits the restaurant to be occupied by 30 persons so that on a crowded night patrons and customers eat in their cars or on the benches; that the change of use will be beneficial to all owners in the neighborhood since it will take all the cars which patronize the subject restaurant off City Island avenue; and

WHEREAS, the applicant states that the present owner has held title to the property since August 27, 1953; that the assessed valuation of land is \$66,500 and of the building \$13,500 making a total of \$80,000; that the building was erected in 1903; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee gave careful consideration to the objections raised and noted that the use for which the parking is accessory is permitted within 100 feet along City Island avenue and that in view of the need of restaurant parking which otherwise would be on the street, the committee recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7c, to permit the premises proposed to be used for the parking of patrons' cars, without charge substantially as proposed and as indicated on plans filed with this application, marked "Received August 17, 1954", 6 sheets, "February 16, 1955", 2 sheets, *on condition* that such parking shall be only for use in connection with the existing restaurant on the premises; that curb cuts shall be restricted to City Island avenue only and in addition to the existing curb cut shown, there may be a curb cut toward Belden street; that along Belden street and along the lot line to the east there shall be erected a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height; that a similar fence shall be erected along City Island avenue and along the street from the intersection for the distance shown; that the plot shall be leveled and graded with clean gravel or steam cinders and treated with a binder and properly rolled; that signs shall be restricted to a permanent sign attached to the fence at the entrance, advertising only the parking use, and such other information as may be required by the Commissioner of Licenses; that such sign shall not extend beyond the building line and shall not exceed 15 square feet in area; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that a booth for the attendant may be constructed and located where shown, provided such booth is not more than 100 sq. ft. in area and one story in height; and that all permits required, including a certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

MINUTES

799-54-BZ

APPLICANT—O'Dwyer and Bernstein, for Gertrude Vanderveer Brecken, owner.

SUBJECT—Application October 21, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a residence use district the erection and maintenance of a gasoline service station, auto washing, lubritorium, motor vehicle repairs, storage and sale of accessories and office, for a term of fifteen years.

PREMISES AFFECTED—267-10 Union turnpike, south side, from 267th to 268th streets, 77-31 to 77-33 267th street and 77-38 to 77-46 268th street and 267-01 to 267-19 78th avenue, Block 8670, Lot 62, Bellerose, Borough of Queens.

APPEARANCES—

For Applicant: Howard W. Meyer.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 12, 1955 after due notice by publication in the Bulletin; laid over to May 3, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Union turnpike, 267th street, 268th street and 78th avenue are in a residence use, G-1 area, Class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated September 24, 1954 acting on N.B. Applic. 3270-54, reads:

"1. Proposed gasoline service station, auto washing, lubrication, office, accessory sales and minor repairs with hand tools only, located in a Residence Use District, is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 ft. and 211.62 ft. frontage by 53.66 ft. and 122.82 ft. in depth, irregular, presently vacant; that it is proposed to develop this site with a parkway type of gasoline service station; that the proposed building will be colonial in character with a peaked roof and face brick exterior on all sides and will be located near the center of the plot, well away from all property lines; that although the property fronts on four streets, it is proposed to provide a 5 ft. 6 in. high face brick fence wall, matching the brickwork of the building, along the entire frontage of 267th street and confine the pumps and curb cuts entirely to Union turnpike; that adequate shrubbery and planting protected by concrete curbs will be provided along all of these fence walls; that the pump will be of the low type and will be set 15 ft. back of the building line; and

WHEREAS, the applicant contends that Union turnpike is a very heavily traveled traffic artery and there is need for a gas station in this area; that the nearest gas station to the west of the site along Union turnpike is at Little Neck parkway, over half a mile away; that the nearest gas station to the east of the site along Union turnpike is at the Nassau county line, approximately a quarter of a mile away; that since the proposed site covers an entire block, there are streets separating the proposed gas station from all adjoining residential developments and the proposed fencing without any openings on the side or rear streets constitutes maximum protection for the surrounding residential area; that the property has been held by the present owner or members of her family since 1906, almost 50 years, during which time taxes have been accruing and paid, with no yield of any income; that the property is not useful or practical for residences; that its irregularity in shape and its insufficient depth render the erection of more than one house practically im-

possible and the approach to the building hazardous because of the traffic on four abutting highways; that the use of the property for store purposes is equally impractical and uneconomical because of its proximity to Nassau county, where there is no sales tax, and to one of the largest existing shopping centers in Queens, which is less than half a mile away; and

WHEREAS, the applicant states that the zoning of that portion of the site within 100 ft. of Union turnpike was changed from business to residence on December 10, 1945; that the area zoning of the entire property was changed from D to G-1 on January 27, 1949; that in view of the need for a gas station in this area, it is felt that this parkway type of development is a necessary adjunct to the neighborhood and will not adversely affect surrounding property; and

WHEREAS, the applicant states that the owner has held title to the property since May 28, 1937 and that the assessed valuation of land is \$6,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board was of the opinion that the premises could be used for a conforming use; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant under Section 7, subdivision e of the Zoning Resolution.

Resolved, that the decision of the borough superintendent acting on N.B. App. 3270-54 be and it hereby is affirmed and that the application be and it hereby is denied.

881-54-BZ

APPLICANT—Ira Hanig, for Bon Ami Holding Corp., owner.

SUBJECT—Application November 19, 1954—re (decision of the borough superintendent) under sections 7e, 7f, 7i and 7A of the zoning resolution, to permit in the business use district portion of a plot located in a residence and business use district for a term of fifteen years the erection and maintenance of a gasoline service station, auto laundry, lubritorium, motor vehicle repairs, storage and sale of accessories and office, with an entrance (curb cut) nearer the residence use district than is permitted, and to permit the parking of cars waiting to be serviced.

PREMISES AFFECTED—218-10 Northern boulevard, south side, from Springfield boulevard to 218th street, 45-02 to 45-12 Springfield boulevard and 45-01 to 45-09 218th street, Block 7338, Lot 10, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: J. V. McKee and G. Lazerus.

For Opposition: R. Harold Paltrow, Ralph J. Pecoraro, Rosalind Leonard, Gussie Kapcinski, Elma Zsigalov, Mrs. C. Krause, Ellie Hofherr, Mary Miceli, Alex Humphries, Hazel Brainard, Vartkiss Tertzakian and Celia Grabler.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 15, 1955 after due notice by publication in the Bulletin; laid over to April 26, 1955, for inspection and decision; hearing previously closed; then to May 3, 1955, for applicant to file revised plans; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in residence and business use, D area, class 1 height districts; 218th street is in residence and business use, D and E area, class 1 height districts; Springfield boulevard is in residence and business use, D, E and F-1 area, class 1/2 height districts; Northern boulevard

MINUTES

is in a business use, D area, class $\frac{1}{2}$ height district; and

WHEREAS, the decision of the borough superintendent, dated October 26, 1954 acting on N.B. Applic. 3260-54, reads:

"1. Proposed gasoline service station, auto washing, lubrication, office, accessory sales, minor repairs with hand tools only and parking of cars awaiting service located partly in a business use district and partly in a residence use district is contrary to Art. II Sec. 3 and (4a) (29) and (46) of the Zoning Resolution.

2. Exit from or entrance to any business located within 75'-0" of a residence use district is contrary to 7A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 ft. frontage by 101.24 ft. in depth, irregular, on which is located a temporary frame store, to be demolished; that the plot is zoned entirely for business with the exception of a narrow triangular gore at the southerly boundary of the property, having a width at its widest point of approximately $1\frac{1}{4}$ ft.; that it is proposed to construct the gas station entirely within the business district and will be located, including all gas pumps, on the half of the plot adjacent to Springfield boulevard; that the use designation of the premises has remained unchanged since 1916 and is designated for business purposes, except for the narrow gore, which is designated for residential purposes; that the height and area designation has remained unchanged, with the exception of the narrow gore; as to this gore, the area designation was changed from D to F and the height designation from 1 to $\frac{1}{2}$ on December 19, 1938 and the area designation of the gore was again changed from F to E-1 on February 7, 1949; and

WHEREAS, the applicant contends that existing conditions indicate that the granting of this application would not adversely affect the area; that both Northern boulevard and Springfield boulevard are principal traffic arteries carrying a heavy volume of through traffic; that the opposite side of Northern boulevard, which is also zoned for business, is vacant (subject to application for a zoning variance under Cal. 887-54-BZ) and the property directly opposite the property in question on 218th street is vacant; that there are already several non-conforming uses on Northern boulevard immediately to the east; that there is a gas station on the northern side of Northern boulevard between 219th and 220th streets and another gas station on the northeasterly corner of 220th street and Northern boulevard; that there are two frame garages on the northerly side of Northern boulevard west of 220th street and a large parking area on the southwesterly corner of Northern boulevard and 220th street, which is used by the store building located at that site; that the existing service stations on Northern boulevard are located east of Springfield boulevard and on the northerly side of Northern boulevard; that the proposed site is therefore ideally suited for the erection of a gas station; that in addition, the site would not be suitable for the development of one family houses due to the high cost of land fronting on Northern boulevard and because the amount of traffic on the boulevard is not conducive to residential purposes; that it would be inadequate for a shopping center because there are already adequate shopping facilities in the neighborhood; and

WHEREAS, the applicant further contends that the proposed structure will be erected and maintained under such conditions as will safeguard the character of the area; that the gas station will face on Northern boulevard and there will be erected a steel picket fence 3 ft. 6 in. in height, making a total fence and wall of 5 ft. 6 in. in height along the entire southerly side of the building and portions of the 218th street frontage and the Springfield boulevard frontage, thereby shielding the residential properties to the rear from the service station; that inside the steel picket fence and wall will be a planting area which will be thickly planted with shrubbery to form an adequate background for the proposed gas station and to give additional protection to the residential area to the rear; that the proposed gas station will be of modern design with procelain enamel front; that the bays will be enclosed with steel and glass overhead doors; that the plans call for three sets of pumps and ten 550 gallon gas tanks which will be

buried beneath the ground; that the pumps will be of the parkway type; that the proposed use will provide an open and attractive area and will thus insure to the owners of adjacent properties permanent light and air which such properties would not derive from a large conforming structure; that the limitation of the term of use to 15 years will serve as a protection to the future of the neighborhood in the event its present character should change; and

WHEREAS, the applicant states that the present owner has held title to the property since February 28, 1950; that the assessed valuation of land is \$15,600 and of the building \$1,000 making a total of \$16,600; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board at the same time as an application across Northern Boulevard, Cal. No. 887-54-BZ and revised plans have been furnished which, in the opinion of the Board, give ample protection to the residential occupancy on the streets to the south; the committee recommended that the revised application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case, based on revised plans, in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of ten years to permit the premises to be occupied as a gasoline service station and accessory uses, substantially as proposed and as indicated on plans filed with this application marked, "Received, November 19, 1954" (5 sheets), and as amended by revised plans marked, "Received, April 29, 1955" (2 sheets), *on condition* that the proposed gasoline service station use shall be solely within the business use district and shall be arranged and constructed substantially as indicated on plans above cited including such revised plans above referred to marked, "Received, April 29, 1955" (2 sheets); that approximately five feet northerly of the southerly lot line there shall be erected a masonry wall of face brick not less than five feet six inches in height, and properly coped, extending from Springfield Boulevard to 218th Street, except where the wall of the proposed accessory building will occur; that on the five foot strip there shall be maintained a landscaped bank retained by curbing not less than one foot in height at the building lot line; that such landscaping shall be of suitable planting to retain the bank and for the protection of the adjoining owners; that along the street building line of Springfield Boulevard and 218th Street similar walls shall be maintained for a distance of approximately 45 feet; that curb cuts shall be restricted to three curb cuts to Northern Boulevard, which may be located substantially as shown and each not over thirty feet in width, and one curb cut to Springfield Boulevard within the first 25 feet from the intersection; that within the intersections of Springfield Boulevard and Northern Boulevard and Northern Boulevard and 218th Street there shall be erected a block of concrete not less than 12 inches in height and extending for a distance of not less than five feet along either street building line; that pumps shall be located where shown, with no pump nearer than fifteen feet to the street building line of Northern Boulevard, and shall be of a low approved type; that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that along the wall five feet in width from the rear lot line and along the side lot lines, where shown, there shall be planting area with suitable planting protected with a concrete curb; that the accessory building shall comply with the requirements of the Building Code; that there shall be no cellar under the accessory building; that the accessory building shall be faced with face brick on all sides and shall be substantially arranged as indicated on such revised plans above referred to marked, "Received, April 29, 1955"; that there shall be no windows in the rear wall; that signs shall be restricted to one sign attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary

MINUTES

signs, but permitting the erection of one post standard within the building where shown, for supporting a sign which may be illuminated, advertising the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than four feet; that sidewalks and curbing around the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that the balance of the plot shall be paved with concrete or asphaltic pavement; that under Section 7i there may be repairing with hand tools only for adjustments maintained solely within the accessory building; that under Section 7A the curb cut above referred to may be permitted; that under section 7h for a similar term there may be parking of cars awaiting service; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that all permits shall be obtained and all work completed and a Certificate of Occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

883-54-BZ

APPLICANT—Ingram S. Carner, for Shell Oil Co., owner.

SUBJECT—Application November 23, 1954 (decision of the borough superintendent), under section 7A of the zoning resolution, to permit in an unrestricted use district the installation of a curb cut nearer the residence use district than is permitted.

PREMISES AFFECTED—939-941 Atlantic avenue and 504-516 Grand avenue, northwest corner, Block 2018, Lots 46, 49, 51, 52 and 53, Borough of Brooklyn.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 3, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Atlantic avenue are in a unrestricted use, B area, class 1½ height district; Grand avenue is in residence and unrestricted use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated November 4, 1954 acting on B.N. Applic. 1399-54, reads:

"1. Proposed curb cut less than 75'0" from residence use district is contrary to Art. 7A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 105 ft. frontage by 119 ft. in depth, irregular, on which is located a gasoline service station for which certificate of occupancy No. 140409-54 has been filed; that as of July 25, 1916 the portion of the property within 100 ft. of Atlantic avenue was zoned unrestricted and the remainder was in a residence district; that on March 31, 1937 the residence portion was rezoned as an unrestricted district; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; that it is proposed to install an additional curb cut along Grand avenue frontage; and

WHEREAS, the applicant contends that the unrestricted zone line is 138 ft. north along a perpendicular line from Atlantic avenue, although the total block length is 260 ft. from Atlantic avenue to Lefferts place; that when the

premises were purchased in 1953, there existed a curb cut along Grand avenue and it was intended to retain this curb cut when the existing dilapidated structures were removed from the plot and the entire station rebuilt; that under N.B. 388-53 plans were approved by the department of housing and buildings for the erection of a modern gas station, but as the amended zoning resolution now requires curb cuts to be a minimum of 75 ft. from a residence zone, this existing curb cut on Grand avenue had to be closed up before issuance of the certificate of occupancy; that in view of the fact that this property is entirely in an unrestricted use district and abuts an unrestricted use district (not the residence use district), and that this curb cut will in no way adversely affect the neighborhood but will be in harmony with the general purpose and intent of the zoning resolution, it is requested that this proposed additional curb cut along Grand avenue be permitted; and

WHEREAS, the applicant states that the present owner has held title to the property since April 24, 1953; that the assessed valuation of land is \$50,000 and of the building \$15,000 making a total of \$65,000; that the building was erected in 1953; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7A, to permit an additional curb cut on Grand avenue, as proposed and as indicated on plans filed with this application, marked "Received November 23, 1954", 3 sheets, on condition that such curb cut shall not exceed the 30 ft. in width as shown and shall be not nearer to the side lot line than the dimension indicated; that the sidewalk and curbing around the premises shall be repaired or restored to the satisfaction of the borough president; and that all permits required shall be obtained and all work completed within six months from the date of this resolution.

887-54-BZ

APPLICANT—Lama, Proskauer and Prober, for Ben Gambeski and Herbert F. Saul, owners.

SUBJECT—Application November 23, 1954 (decision of the borough superintendent), under sections 7f and 7i of the zoning resolution, to permit in the business use district portion of a plot located in a residence and business use district, for a term of fifteen years, the erection and maintenance of a gasoline service station, auto showroom and service building, lubritorium, motor vehicle repairs, car washing, brake testing, wheel alignment, painting and spraying, welding, storage and sale of accessories and office, and to permit on the unbuilt upon portion of plot the sale and display of new and used cars and the parking and storage of motor vehicles.

PREMISES AFFECTED—218-01 to 218-19 Northern boulevard, north side, from 218th to 219th streets, 43-31 to 43-39 218th street and 43-32 to 43-40 219th street, Block 6321, Lot 21 (formerly lots 21 and 25), Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama and R. S. Hardy.

For Opposition: R. Harold Paltrow, Gussie Kapcinski, Mary Miceli, Hazel Brainard, Rosalind Leonard, Mrs. C. Kranse, Ellie Hofherr, Ralph S. Pecoraro, Vartkiss Tertzakian, Alec Humphries, Celia Grabler and Elma Zsigalov.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

MINUTES

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 8, 1955 after due notice by publication in the Bulletin; laid over to March 15, 1955, at the request of applicant; then laid over to April 26, 1955, for inspection and decision without further argument; hearing closed; then to May 3, 1955, for applicant to file revised plans; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 218th street and 219th street are in residence and business use, D and F area, class ½ and class 1 height districts; Northern boulevard is in a business use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated November 12, 1954 acting on N.B. Applic. 3388-54 reads:

"1. Use of premises partly in a business use district and partly in a residence use district as boiler room and storage of auto parts, gasoline service station, lubricatorium, car washing, storage, auto showroom, servicing dept., brake testing and wheel alignment, incidental painting and spraying, welding, parts dept., office, sales and display of new and used cars, parking and storage of motor vehicles is contrary to Art. II Sec. 3, Sec. 4(a) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 ft. frontage by 100.70 ft. in depth, irregular, presently vacant; that the use district maps show that the part of the premises within 100 ft. of Northern boulevard is in a business use district, a class D area district and class 1 height district; that the balance are in a residence use district, class F area district and class ½ height district; that it is proposed to erect a modern automobile showroom with an auto servicing department and a gas station; that the building will be one story in height, of class 3 construction having a frontage of 165 ft. and an irregular depth of 75 ft. and contain the conjunctive uses of lubricatorium, minor auto repairs, car washing, brake testing, wheel alignment, incidental painting and spraying, welding, office and sales and parts department; that the gas station will consist of ten 550 gallon gas tanks and four dispensing pumps; that a portion of the plot will be used for sales and display of new and used cars and parking and storage of motor vehicles; that the entire automobile showroom and gas station will be confined to the business portion of the plot only; and

WHEREAS, the applicant contends that the building as contemplated will be highly modern in design and an asset to the community; that Northern boulevard is a heavily trafficked auto lane and together with the non-conforming uses within the affected area, the proposed gasoline station will be within keeping at this point; that the non-conforming uses within the affected area are as follows: block 6322, lot 29—garage and gas station, lot 24, garage; block 6323, lot 27—gas station; that the adjoining dwelling to the north will be protected by the omission of all windows along the northerly lot line wall and the erection of a 5 ft. 6 in. high brick wall from the accessory building to the 219th street building line; that the building as shown setting back from the Northern boulevard building line will provide more visibility to passing motorists than if it were erected on the Northern boulevard building line; that the land is high in assessed value and the proposal is the type of building that would give the owners an equitable return on the investment; and

WHEREAS, the applicant states that the present owners have held title to lot 21 since February 16, 1950 and to lot 25 since April 12, 1954, and that the assessed valuation of land is \$25,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board simultaneously with the application before the Board for a gasoline service station across the street, Cal. No. 881-54-BZ, and the committee recommended that the application should be granted on condition, designed to protect the area; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years to permit the premises to be constructed and maintained primarily as an automobile showroom with supplementary servicing, including gasoline dispensing service, substantially as proposed and as indicated on plans filed with this application marked, "Received, November 23, 1954" (3 sheets), and as amended by revised plans marked, "Received, April 28, 1955" (2 sheets), *on condition* that the plot shall be levelled substantially to the grade of the abutting streets and shall be constructed and arranged substantially as indicated on such revised plans; that there shall be no cellar under the accessory building; that in all other respects the accessory building shall in all other respects comply with the requirements of the Building Code and shall be faced with face brick on the front and ends; that the dispensing pumps shall be erected in the location where proposed and not less than fifteen feet from the street building line; that such pumps shall be of a low approved type; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that the balance of the premises shall be paved with concrete or asphaltic pavement; that curb cuts shall be restricted to three curb cuts to Northern Boulevard of the general location and width as shown on such revised plans, and one curb cut to 218th Street and one to 219th Street within the first 25 feet from the street building line of Northern Boulevard, as shown; that within the intersection of both streets there shall be a block of concrete extending for a distance of not less than five feet along either street building line and not less than twelve inches in height; that signs shall be restricted to a permanent sign attached to the facade of the accessory building, and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection within the building line of a post standard, toward the easterly end, for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than four feet; that the sidewalk and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that there shall be no windows opening on the lot line to the north; that along the lot line to the east there shall be a masonry wall extending for a distance of approximately seventy-five feet of a similar height to that herein required for the rear wall which shall be erected from the accessory building to the street building line of 219th street; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i there may be repairing, solely within the accessory building for furnishing the usual servicing to the cars dealt in by the automobile agency; that the toilet rooms shall be arranged so as to be separated as to doorways; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 1137-40-SA—Vol. II

Subject: Application reopened for amendment to consider new type of oil burners.

The Silent Glow Oil Burner Corp., owner, of Hartford, Conn., filed June 8, 1954 an application with the Board of Standards and Appeals for consideration as to reopening as Vol. II a new type of oil burner for test and report known as the Coronation Oil Burner, Model CRN. The application was reopened as Vol. II July 13, 1954 for test and report.

Purpose

An oil burner for domestic heating.

Description

The appliance consists of a metal panel supported on adjustable legs on which is mounted a pump pulley, a nozzle, a pump belt, air intake, fan belt, Sirocco type fan and a Westinghouse or equal motor. A combustion chamber with the following sizes in inches.

GPH	Angle	Width	Length	C	H
.75	80"	8.5"	10"	6"	13"
1.00	80	10	10	6	13
1.25	80	11	11	6	13

C=Distance from combustion chamber floor to center line of burner, H=Distance from combustion chamber floor to top of chamber. The motor is a Westinghouse or equal, there is a Webster of equal transformer.

Inspection and Test

The burner is an assembly of approved parts suitable for use with each other for the service intended as approved and the burner is provided with suitable safeguards to prevent abnormal discharge of oil. The burner as assembled was tested for defects and proper functioning throughout its operating range and was found to function properly as designed with no flare backs or unusual carbon deposits with the oil cut off the controls functioned in 50 seconds with a stack temperature of 450° the CO₂ content of the flue gases in 8¼%.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Coronation Oil Burner, Model CRN for use in New York City when constructed and installed in accordance with this report and the provisions of C26-178.0.b Administrative Building Code and the Oil Burner Rules of the Board of Standards and Appeals and C19-57 Administrative Code provided each burner bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 1137-40-SA—Vol. II."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of December 17, 1940 in accordance with the above report.

Re: Cal. 790-42-SM Vol. II

Subject: Amendment to resolution as to similar product in Canadian factory.

United States Gypsum Company requested by letter dated January 7, 1955 that the resolution adopted March 23, 1943 and amended February 27, 1951 under Cal. No. 790-42-SM be amended so as to include the same material as manufactured in Canadian factory. The application was reopened by a vote of the Board on February 8, 1955.

Purpose

The material is a plaster board.

Description

The material is the same material as manufactured by the US Gypsum Company in their domestic plants and will be sold under the US Gypsum Company brand names. The method of manufacture, manufacturing standards, procedure and materials are the same as those used by US Gypsum Company in their domestic plants. The Canadian plant is a wholly owned subsidiary of the US Gypsum Company and is known as the Canadian Gypsum Company.

The material meets the same Federal Specification SS-P-431a as the material approved March 23, 1943 and February 27, 1951 under Cal. No. 790-42-SM.

Recommendation

The Committee on Test recommends that the resolution adopted March 23, 1943 and amended February 27, 1951 under Cal. No. 790-42-SM be amended so as to include the same sizes, thickness and edges of Rocklath and Insulating Rocklath as manufactured by the wholly owned subsidiary of the US Gypsum Company known as the Canadian Gypsum Company on condition that the requirements of the resolution adopted March 23, 1943 and amended February 27, 1951 under Cal. No. 790-42-SM Vol. I be complied with.

The Committee further recommends that as this is an emergency request due to the inability of the domestic plants to supply the demand at this time that this recommendation for the inclusion of the material from the Canadian Gypsum Company be of a temporary nature but shall not exceed one year.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby amend the resolutions of March 23, 1943 and February 27, 1951 in accordance with the above report.

388-48-SM—Vol. II

APPLICANT—The Bolta Company, owner.

SUBJECT—Applicant reopened January 18, 1955—as to approval—reBoltaflex Vinyl Sheeting; previously withdrawn.

APPEARANCES—

For Applicant: David Achsen.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 388-48-SM—Vol. II

Subject: Boltaflex, a flameproof vinyl sheeting, approval of.

Bolta Company, St. Lawrence, Massachusetts, filed April 12, 1948 an application with the Board of Standards and Appeals for approval of the material known as Boltaflex, under the provisions of the Flameproofing Rules of the Board. The Board took no action on this material as tests showed an objectionable feature. The application was withdrawn by the applicant and reopened by the applicant January 18, 1955 under Cal. No. 388-48-SM—Vol. II.

Purpose

The material is a flameproof fabric to be used in folding door construction.

Description

The material is a .015 gauge polyvinyl chloride calendered sheeting laminated to a 1.85 flameproofed 1.85 cotton drill.

Inspection and Test

Samples of the material were flame tested in accordance with the requirements of the Flameproofing Rules of the Board in the presence of Asst. Engr. J. A. Darts, Committee on Test, D. Achsen representing the applicant and W. H. Master-son of the Laboratory. There was no flashing, flaming or glow of the material during the test.

The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test is of the opinion that the material Boltaflex possesses inherent flameproofing properties and therefore recommends approval of the material.

The Committee further recommends that this material may be used in the construction of folding doors on condition that the doors shall not be used in location wherein an opening protective assembly is required.

Tests of each specific installation or any retests thereof shall be conducted by the Fire Commissioner or in a laboratory approved by him, in accordance with the requirements of the Flameproofing Rules of the Board.

The Committee further recommends that the wrappers or cartons in which this material is marketed shall be stamped, marked or tagged as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 388-48-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

93-54-SA

APPLICANT—Haughton Elevator Co., owner.

SUBJECT—Application January 15, 1954—Haughton Type L Interlock, approval of.

APPEARANCES—

For Applicant: John H. Anderson.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 93-54-SA

Subject: Haughton Type L Interlock, approval of.

The Haughton Elevator Company of Toledo, Ohio, owner-manufacturer filed January 15, 1954 an application with the Board of Standards and Appeals for approval of the Haughton Type L, Interlock under the provisions of C26-912.0 Administrative Building Code.

Purpose

An electromechanical hoistway door interlock for horizontally-sliding doors.

Description

The interlock consists of a switch mechanism operated by a link connected to a broken-arm type of manual door operator. Release of the switch is controlled by a retiring cam carried by the elevator car. The assembly comprises a conventional type broken-arm door operated to the inner arm of which is hinged an adjustable-length connecting rod. This rod is, in turn, hinged to the lower end of a bar sliding vertically in guides in the switch housing. The housing is mounted vertically on the door frame above the door closer mounting bracket.

Operation—Assume that the doors are closed and the car has been brought to rest at the landing. The first event is the de-energizing of the retiring cam mechanism. The cam drops down into contact with the roller on the roller arm and rotates the shaft. Then swings an arm forcing open the contacts. The contacts are open and, therefore, the car control circuit is open before the end of the arm has moved beyond the upper corner of the notch in the bar. As soon as the arm rotates far enough to disengage the sliding bar the door can be opened manually by means of the broken-arm linkage in the usual manner. As the linkage moves, the connecting rod above mentioned moves the sliding bar upward and under the end of the rotating arm.

When the hoistway door is closed the sliding bar is pulled down again by the door operator. Then when the retiring cam mechanism is again energized, the rotating arm is forced to return by the compression spring. The lower end of the arm overlaps the notch in the sliding bar approximately 3/16 in. before the contacts are closed and therefore the mechanism complies with the definition of a true interlock.

The outer case is a cast-brass housing having base of 1/4 inch thick and sides at least 1/8 inch thick. The sides are thickened at the corners to receive the cover-attachment screws. Guides are machined in lugs cast integrally with the bottom to receive the sliding bar. Transverse lugs near the upper end receive the rotating roller arm shaft. The upper end of the enclosure is formed by a flat steel plate 1/8 inch thick having a conduit opening. This plate is held on by four screws. The housing cover is a piece of #16 USS gauge steel forming the front and bottom of the enclosure. It is attached to the housing by four screws. The housing is approximately 11 inches long on the base, 3 inches wide and 2 1/4 inches high. The enclosed portion is 7 3/4 inches long. The contact arm is a cast iron part drilled to receive the shaft and provided with a set screw.

MINUTES

Inspection and Test

The device is intended for installation so as to form a hoistway unit system preventing operation of the elevator unless all hoistway doors are closed and locked in accordance with the definition of an interlock. All parts of the device are made of materials suitable for the purpose intended, and are so constructed and assembled as to insure correct functioning under service conditions. The contacts are opened positively and the functioning of the interlock to prevent car movement is not solely dependent upon springs or gravity or on the closing of any electric circuit. The parts are made and assembled with a degree of uniformity and a grade of workmanship practicable in well-equipped shops making similar devices.

The device was subjected to the required tests and completed, The Endurance Test, Test Without Lubricant, Misalignment Test, Current-Interrupting Test and the Insulation Test run in accordance with the procedure outlined in Section C26-1179.0 of the Administrative Building Code.

Recommendation

On the basis of the foregoing data the Committee on Test recommends the approval under Section C26-191.0 of the Administrative Building Code of the Haughton Type L Interlock as having met the requirements of Sub. article 9, Group 1 of the Article of the Administrative Building Code for use in New York City when installed in accordance with the provision of the Administrative Building Code. The committee further recommends that all appliances manufactured under the approval by the Board, shall be marked labeled or stamped: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 93-54-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

480-54-SA

APPLICANT—Ohio Beverage Dispensers Inc., owner.
SUBJECT—Application May 27, 1954—Porto-Fill Unit (beverage dispenser), approval of.

APPEARANCES—

For Applicant: Wayne C. Smith.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 480-54-SA

Subject: Porto-Fill Unit (beverage dispenser) approval of.

Ohio Beverage Dispensers Inc., Wooster, Ohio filed May 27, 1954, an application with the Board of Standards and Appeals for approval of the appliance known as Porto-Fill Unit (beverage dispenser) under the provisions of the Submerged Inlet Rules of the Board and C19-96.0 Administrative Code.

Purpose

The appliance mixes cooled carbonated water with a syrup to furnish a carbonated beverage.

Description

The appliance consists of a carbonator, syrup tank, pumps, CO₂ tank, ice chest and all required piping, valves and fittings. The carbonator used in this appliance was approved by the

Board under Cal. No. 356-52-SA February 17, 1953.

There is no compressor or refrigeration unit used in this equipment as ice furnishes the cooling media.

In operation the water from the water line is pumped through $\frac{3}{8}$ inch copper tubing coils into the carbonator (these coils are submerged in a cold water bath for the cooling purpose). The carbonated water is then piped to a mixing faucet on the side of the cabinet. The syrup is drawn from stainless steel containers through stainless steel tubing or pipe (submerged in an ice bath) to the mixing faucet where it is mixed, in correct proportions, with the cooled carbonated water.

Inspection and Test

The appliance was inspected by Asst. Engr. J. A. Darts Committee on Test and was found to operate as designed.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test recommends the approval of the Porto Fill Unit, beverage dispenser, for use in New York City, under the provisions of C19-96.0 Administrative Code and the instructions of the Fire Commissioner to inspectors amended May 29, 1946 provided the electrical installation complies with the requirements of the Department of Water Supply, Gas and Electricity, and that each unit installed bears a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 480-54-SA" and provide further that each unit be serviced at least once a year and a record card of inspections be attached to each unit showing such dates of inspections and the names of the inspectors and further that each Porto-Fill Unit beverage dispenser be equipped with an approved vacuum breaker installed in compliance with the Submerged Inlet Rules of the Board.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

498-54-SA

APPLICANT—Fulton Boiler Works, Inc., owner.
SUBJECT—Application June 10, 1954—Fulton Gas-fired Boiler Unit (to process steam and heating), approval of.

APPEARANCES—

For Applicant: Robert William Knox.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 498-54-SA

Subject: Fulton Gas-fired Boiler Unit, approval of.

The Fulton Boiler Works of Oswego, New York, owner-manufacturer filed June 10, 1954 an application with the Board of Standards and Appeals for approval of the Fulton Gas-fired Boiler Unit under the provisions of C26, Article 12, Administrative Building Code.

Purpose

The Fulton gas-fired boiler is a package type boiler unit, the burner being an integral part of the boiler. The boiler is used for process steam and heating.

MINUTES

Description

The boiler is a vertical tubeless boiler and is manufactured in accordance with the ASTM Code for power boilers and miniature boilers. All manufacturing of the pressure vessel is done in the shop of the Fulton Boiler Works. The boiler is a cornish type consisting of an outershell with a furnace in the center having a water wall around the furnace. The burner is placed on top of the furnace and the combustion takes place in the furnace with the flow of gases downward toward the bottom of the furnace. The boiler is supported by angle iron legs which are protected against the heat of the gases by forms of fire brick.

Below the legs is a steel base which holds the insulation and refractory base which forms the bottom of the combustion chamber. On the outside shell of the boiler there are welded fins to form a passage for the secondary gas. On the outside of these fins there is a cast refractory form which serves as the insulation of the boiler. On the outside of this, there is a steel jacket to serve as a jacket for the boiler proper. All piping on the boiler is extra heavy. All boiler trim meets the requirements of the ASME Code. The Fulton Gas-fired burner is a pressure type burner, air is delivered into the furnace by a fan driven by an electric motor. Gas is delivered through two solenoid valves. A pilot valve first opens allowing the gas to enter the furnace through a nozzle. This gas is ignited by two igniter electrodes which are fed by an electric transformer. After the pilot flame is established the main gas solenoid valve opens. In the event the gas does not ignite, the burner will shut off closing the pilot valve. If the flame disappears, the pilot and main valve will close. The burner circuit is controlled by a Minneapolis-Honeywell R890.B Protecto-relay. A steam pressure control cuts off the burner when the steam pressure in the boiler reaches a predetermined pressure. A steam safety valve provides protection in the event of excessive pressure in the boiler. A low water safety switch wired into the burner circuit provides protection if the water in the boiler recedes to an unsafe level, shutting down the burner.

Inspection and Test

A Fulton Gas-fired Boiler Unit was inspected and tested at 5253 Broadway, Manhattan and found to operate as designed. Present at the test were Chief Engr. L. V. Huber of the Committee on Test and Lewis Palm representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Fulton Gas-fired Boiler Unit for use in New York City with natural, manufactured or mixed gases when installed and operated in accordance with the report and the requirements of ASME Code and of Article 12 of the Administrative Building Code provided each unit bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. 498-54-SA." All ports and orifices shall be of a type as approved by the A.G.A. for the type of gas used.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

559-54-SA

APPLICANT—Liquidometer Corp., owner.

SUBJECT—Application June 24, 1954—Liquidometer Remote and Direct Reading Float Type Gauges and

Liquidometer Hydrostatic Type Gauges, (for liquid level or volume of storage tanks), approval of.

APPEARANCES—

For Applicant: E. F. Newkirk.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 559-54-SA

Subject: Liquidometer Remote and Direct Reading Float Type Gauges and Liquidometer Hydrostatic Type Gauges (for liquid level or volume of storage tanks), approval of.

The Liquidometer Corp., of Long Island City, New York owner filed June 24, 1954 an application with the Board of Standards and Appeals for approval of the Liquidometer Remote and Direct Reading Float Type Gauges and Liquidometer Hydrostatic Type Gauges (for liquid level or volume of storage tanks) under the provisions of C19-590, C19-57.0 and the Oil Burner Rules of the Board of Standards and Appeals.

Purpose

These are gauges designed to determine the liquid level or volume of liquids in storage tanks.

Description

These devices are float type remote reading liquid level gauges, the dial and assembly of which has been modified to incorporate a mercury tube switch mechanism that may be used to control high and low level signaling devices or motor driven pumping equipment. The mercury tube switch mechanism is linked to a bellows assembly so that any movement of the bellows at the indicating end resulting from a rise or fall of the float in the storage tank is simultaneously transmitted to both the dial indicator and the switch assembly. The switch mechanism may incorporate a single mercury tube arranged for either high or low level control of a signaling device or may embody two mercury tubes for high and low level signalling.

These liquid level gauges (liquidometer) have been approved by the Underwriters Laboratories Misc. Hazard No. 1324, Application No. 42N95B.

Inspection and Test

These gauges were inspected and tested at the plant of the applicant 41-03 36th street, Long Island City and found to operate as designed. Present at the inspection and test were Chief Engr. L. V. Huber of the Committee on Test and E. F. Newkirk representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Liquidometer Remote and Direct Reading Float Type Gauges on the Liquidometer Hydrostatic Type Gauge for use in New York City for measuring liquid in storage tanks when installed and operated in accordance with this report provided each gauge have a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 559-54-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

MINUTES

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

903-54-SM

APPLICANT—Liquid Plastics Corporation, owner.
SUBJECT—Application November 22, 1954—Plastispray (interior wall and ceiling covering—veneer), approval of APPEARANCES—

For Applicant: Gug G. Rothenstein.
ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 903-54-SM

Subject: Plastispray (interior wall and ceiling covering—veneer), approval of.

Liquid Plastics Corp., Long Island City, New York, filed November 22, 1954 an application with the Board of Standards and Appeals for approval of the material known as Plastispray (interior wall and ceiling covering) under the provisions of C26-191.0 and C26-667.0.7.B Administrative Building Code.

Purpose

The material is a sprayed on vinyl plastic acting as an interior veneer.

Description

The material is a sprayed vinyl that acts as a veneer. The vinyl has the following composition.

Vinyl Chloride—vinyl acetate copolymers	20-25%
Plasticizers	8-15%
Pigments	0-10%
Antimony Oxide (fire retardant)	1/2- 1%
Solvents	60-65%

All percentages by weight.

The vinyl is applied by spraying and may be applied in thickness ranging from 0.01 to 0.04 inches and therefore may be considered in the same category as a sprayed application of paint.

Inspection and Test

Samples of the material that had been applied and then stripped from plate glass were inspected by Asst. Engr. J. A. Darts, Committee on Test. The samples were all found to be less than 1/20 of an inch in thickness and the material melts or fuses when subjected to flame. The material does not support combustion.

The applicant has submitted a statement from Bakelite Company which states that the vinyl is the same as approved by the Board under Cal. No. 624-47-SM.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends the approval of the material Plastispray for voluntary use in New York City, as a sprayed interior veneer, under the provisions of C26-667.0.7.B Administrative Building Code on condition that the material shall be applied to an incombustible backing and the thickness of the Plastispray shall not exceed 1/20 of an inch; that the application of the material shall be under the supervision of the owner-manufacturer and that all containers in which the material is marketed shall be

stamped, tagged or labeled: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 903-54-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

960-54-SA

APPLICANT—Linde Air Products Co., Division of Union Carbide and Carbon Corp., owner.

SUBJECT—Application December 8, 1954—Linde Driox Oxygen, Nitrogen and Argon Systems, and cold Converter Storage Units, Models M-50, M-90, M-100 and M-310, approval of.

APPEARANCES—

For Applicant: R. M. Neary and L. G. Matthews.
ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 960-54-SA

Subject: Linde Driox Oxygen, Nitrogen and Argon Systems, Models M-50, M-90, M-100, M-310 and Cold Converter Storage Units, approval of.

Linde Air Products Co., Division of Union Carbide and Carbon Corp., New York filed December 8, 1954 an application with the Board of Standards and Appeals for removal of the Linde Driox Oxygen, Nitrogen and Argon Systems, Models M-50, M-90, M-100, M-310 and Cold Converter Storage Units under the provisions of C19-91.0.c Administrative Code.

Purpose

The appliance is used for the storage of liquid oxygen, nitrogen and argon above psi pressure.

Description

The materials; oxygen; nitrogen and argon are obtained by low temperature separation of the gases in the atmosphere and in this system are produced, stored and transported as liquids.

Liquid oxygen is a clear transparent liquid, weighing approximately 71 lbs. per cu. ft. when stored at atmospheric pressure, the temperature of the liquid is minus 297°F. One cubic foot of liquid oxygen, when evaporated will produce 862 cubic feet of gaseous oxygen at atmospheric pressure and temperature.

Liquid nitrogen is a clear transparent colorless liquid weighing approximately 50 lbs. per cu. ft. when stored at atmospheric pressure, the temperature of the liquid is minus 320°F. One cubic foot of liquid nitrogen when evaporated will produce 696 cubic feet of gas at atmospheric pressure and temperature.

Liquid argon is a clear transparent, colorless liquid weighing approximately 87 lbs. per cubic foot when stored at atmospheric pressure, the temperature of the liquid is minus 302°F. One cubic foot of liquid argon when evaporated, will produce 847 cubic feet of gas at atmospheric pressure and temperature.

In the system: the liquid oxygen, nitrogen or argon is pumped directly from a truck to a liquid storage vessel on

MINUTES

the premises and is maintained as a liquid, in the vessel (cold convertor) until required for use at which time, the liquid is converted to a gas and is supplied to a pipe line.

The cold convertor is a liquid container of welded construction and is fabricated of metal suitable for low temperature service. The construction details are as follows:

<i>Liquid Container</i>	M-50	M-90	M-100	M-310
Capacity	434 gals.	780 gals.	868 gals.	2700 gals.
Material	Silicon Bronze	Stainless	Stainless	Stainless
Inside Diameter	60"	47½"	76½"	108"
Thickness (shell) ...	.750"	.250"	.279"	.437"
Length	Sphere	116¼"	Sphere	Sphere

Pressure	385 psi	144 psi	218 psi	220 psi
Hydrostatic Test				
Pressure	800 psi	216 psi	327½ psi	330 psi
Charging Pressure psi	100-165 psi	80-90 psi	100-150 psi	100-150 psi
<i>Outer Casing</i>				
Material	Steel	Steel	Steel	Steel
Inside Diameter	82"	59¾"	102"	130"
Thickness	.187"	.312"	.187"	.250"
Length	Sphere	130½"	Sphere	Sphere
A.S.M.E. Design				
Pressure	15 psi	15 psi	15 psi	15 psi
Test Pressure	30 psi	22½ psi	22½ psi	22½ psi

The liquid contained is surrounded by an incombustible insulating material and this insulation material and the liquid container is surrounded by the outer casing, as herein described. A vacuum is maintained between the container and the outer casing and each vessel is built in accordance with the ASME Code for Unfired Pressure Vessels.

All connections from the inner liquid container are brought outside the outer casing and into a control cabinet. This cabinet contains the valves, liquid level gauge, pressure gauges, pressure regulators and safety devices. The primary safety device on the liquid container is a safety valve set to relieve to atmosphere at or below the design pressure of the container and the outlet of the safety valve is provided with a frangible disc which relieves at a pressure a few pounds less than that of the safety valve setting. In addition, the liquid container itself is provided with a frangible disc, located on a different line than the safety valve. The outer shell is also provided with a safety device set to relieve positive internal pressure at not to exceed five psi.

Operation—Liquid oxygen, nitrogen or argon is pumped into the filling connection on the unit from a liquid supply truck. The vessel is filled until the liquid level reaches a calibrated trycock line, following which pumping is stopped and valves are closed. Substantially constant pressure is always maintained inside the liquid container. This is accomplished by withdrawing, as required, a small amount of liquid, which is in turn vaporized. The resulting gas is then returned to the liquid container through an automatic pressure regulating valve.

As an industrial customer uses the oxygen, nitrogen or argon, liquid flows from the storage container to the main vaporizing unit where it is converted to gas at substantially atmospheric temperature and the resulting customer's pipeline. Heat to the vaporizing unit is supplied by steam, hot water or atmospheric air. The choice of heating medium depends upon the product, demand rate and type of heating services available. The system functions automatically to supply the product at any required flow rate up to the design limit of the equipment.

The Models M-50, M-90 and M-100 Cold Converters are sometimes used for bulk storage of oxygen at hospitals. Such installations include a reserve supply of oxygen in ICC cylinders and an auxiliary control manifold as shown in

Figs. 2 and 3. This is in compliance with the National Fire Protection Association Pamphlet No. 565 "Standard for Nonflammable Medical Gas Systems."

When operating in hospital service, the liquid containers of Cold Converter Storage Unit Models M-50 and M-100 are maintained at approximately 100 psi. Liquid is withdrawn into an atmospheric type vaporizer from the regulating valve which reduces the pressure to an intermediate stage of about 80 psi. Gaseous oxygen then flows through the secondary pressure regulating valve which reduces the oxygen to pipeline pressure not to exceed 50 psi. The reserve oxygen supply, at 1600-2200 psi in ICC cylinders, is connected to the intermediate stage piping through the auxiliary bank pressure regulating valve, which is set at about 60 psi. A pressure actuated electrical switch located in the intermediate stage piping is set to actuate suitable signals located in the hospital building when the pressure drops to 70 psi. Thus, if the main supply of oxygen becomes exhausted or is inadequate, a signal is sounded when the intermediate supply pressure drops to 70 psi and the reserve supply of oxygen cuts in at 60 psi. With this system the hospital pipeline pressure is always maintained at 50 psi.

The operation in hospital service of Cold Converter Model M-90 is similar to that of Models M-50 and M-100 except that Model M-90 operates at about 80 psi liquid container pressure instead of the 100 psi container pressure mentioned for Models M-50 and M-100. Since the 80 psi container pressure of the Model M-90 is equivalent to the 80 psi intermediate pressure of the Models M-50 and M-100, described above, the regulating valve required to reduce the pressure from 100 to 80 psi on Models M-50 and M-100 is not needed on the Model M-90.

Inspection and Test

An installation was inspected by Asst. Engr. J. A. Darts, Committee on Test, G. Sklenarik of the Fire Department and representatives of the applicant at the New Rochelle Hospital on February 2, 1955. The complete operation was observed from loading the sphere to drawing off the oxygen. The equipment functioned as designed.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Linde Driox Oxygen, Nitrogen and Argon Systems, Models M-50, M-90, M-100, M-310 and Cold Converter Storage Units for use in New York City under the provisions of C19-91.0 Administrative Code.

The Committee further recommends that when this system is installed at an industrial establishment or at a hospital the following conditions shall be complied with. That the equipment be located in a position where the immediate area is free from combustible materials, such as gasoline, oil, etc. That no smoking, open flame or storage of any combustible material shall be allowed in that area. That the area be fenced or otherwise enclosed to preclude entrance to unauthorized persons and that such areas are to be posted. That all piping from the system and the piping within the building shall be as required by the Fire Department. That the installation be serviced, maintained and inspected by the applicant and shall be under the supervision of a person holding a certificate of fitness.

The Committee further recommends that each appliance bear a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 960-54-SA."

REPORT OF COMMITTEE ON TEST

Re: Cal. 50-55-SA

Subject: Electric Pipe Line Inc., Electrical Pipe Line Equipment (fuel oil preheater), approval of.

Electric Pipe Line Inc., of Jersey City, New Jersey, owner filed January 14, 1955 an application with the Board of Standards and Appeals for approval of the Electric Pipe Line Inc., Electrical Pipe Line Equipment (fuel oil preheater) under the provisions of the Oil Burner Rules of the Board of Standards and Appeals.

Purpose

Electrical preheating equipment for fuel oil.

Description

This is a method of electrical resistance heating of pipes containing viscous fluid (fuel oil) #6 or Bunker C fuel oil. The device consists of a transformer energizes control panel thermostat and sealing plug, suction stub, and heater element for oil tank. Low density electric heaters with integral thermostats, insulated couplings and insulated flanges. The operation of the system is to maintain a standby temperature of 120°F in all oil lines when the oil burners are not operating. During operation of oil burners the system will raise the oil temperature from 120°F to the burning temperature required by the oil burner manufacturer. The system eliminates the use of below-the-water-line heaters or steam heaters for preheating the oil, thereby eliminating the danger of fuel oil leaking into the boiler. It also makes possible the operation of a heating plant from a cold start without any auxiliary equipment for preheating Bunker C oil to a flow temperature.

Inspection and Test

This device was inspected and tested at the Demarest School, Hoboken, New Jersey and found to operate as designed. Present at the test were Chief Engr. L. V. Huber of the Committee on Test and D. Blackmore representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Electrical Pipe Line Equipment (fuel oil preheater) for use in New York City when installed and operated in accordance with this report and the provisions of C26, Article 12 of the Administrative Building Code and the Oil Burner Rules of the Board on condition that each installation bear a label or tag reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 50-55-SA."

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, Order No. 19707-LC issued by the Fire Commissioner, April 18, 1949, and repeated in a decision of the Fire Commissioner, dated April 8, 1952 reads in part as follows:

"You are hereby notified that an inspection of the above premises used to store and use Paints, shows the following must be done before the permit requested by you can be issued:

"3. Provide that the gas fired drying ovens shall be of a type as approved by the Board of Standards and Appeals, Rule 4.3.1. Spray Rules. *Note*:—If evidence is submitted that this oven is or has been approved the following must also be complied with: (A) Provide an auxiliary manually operated gas shut-off valve at the gas fired drying ovens located not nearer than 25' from such ovens so as to control the gas supply in the event of an emergency. Rule 4.3.1. Spray Rules."

and

WHEREAS, Order No. 40692 issued by the Fire Commissioner, April 24, 1952 reads:

and

"Re—Storage of Paints & Spraying

"Before a permit for the purpose indicated above may be issued to you, the following order must be complied with. Kindly notify this department when such order has been complied with.

"1. Provide that gas fired drying ovens shall not be located nearer than 25' from spraying or dipping spaces unless such oven is approved for use in explosive rule 4. 3. 1. of the B. S. & A. spray rules.

"2. Provide that all dip tanks shall be provided with hinged metal covers held open by fusible link; such covers to be equipped with an opening to permit automatic flooding of the tank with fire extinguishing media of a type and so located as the Fire Commissioner shall direct. Rule 4.1. Spray Rules.

Note:—These orders are in addition to Order No. 19707-LC."

and

WHEREAS, the decision of the Borough Superintendent dated July 13, 1954 on BN App. 99 of 1954, reads:

"1. Gas fired drying ovens to be located not nearer than 25 feet from spraying and dipping spaces as per rule 4.3.1 of the B. S & A. spray rules.

"2. Gas fired drying ovens shall be of a type approved by the B. S. & A. As per Rule 4.3.1. of the B. S. & A. Spray Rules."

and

WHEREAS, the applicant states the building is one story, 28 ft. and 2½ stories 46 ft. 6 in. in height, 75.4 ft. front by 353.9 ft. in depth at street level, 75.4 ft. by 157.9 ft. in depth at second floor level of Class 1 and Class 3 construction, erected prior to 1913 and located on a lot 830 ft. by 863 ft. by 1220 ft. irregular in area, in an unrestricted use B area, Class one height district, and used and occupied since prior to 1913 as follows: 1st floor: manufacturing steel products, 50 persons; 2nd floor: manufacturing steel products; 15 persons; 3rd floor: Attic, storage of crates and boxes, 2 persons; that the building is provided with interior one 3 ft. 8 in. wide steel stairs masonry enclosed equipped with fire-proof self-closing doors leading direct to street but not to roof, no certificate of occupancy has been issued for the present use and occupancy; and

WHEREAS, the applicant states that this appeal is filed to secure modifications of the Paint Spraying Rules of the Board so as to permit the maintenance of two existing paint drying ovens which have not been approved by the Board, and to obtain a modification to permit the omission of covers of dip tanks and to obtain a variation as to the proximity of ovens to spray booths and dip tanks; and

WHEREAS, the applicant states that the premises in question is a large industrial plant owned and occupied by General Steel Products Corporation for the fabrication and manufacture of metal cabinets; and

WHEREAS, the applicant contends that as to the question of the approval of the drying ovens that there are two paint drying ovens in use neither of which bears a label indicating that it has been approved by the Board, that the smaller of these two ovens marked, Oven No. 2 on plans filed with this appeal was used by the present owners in their former plant at 19-19 24th Avenue, Astoria; that this oven was purchased from the Gehrich Company in 1941 and bears their brand label, that the Gehrich Company is now a division of the W. S. Rockwell Company of Fairfield, Conn.; that this oven had been in use at the prior location for many years under Fire Department permit and is of the type that the manufacturer calls a direct gas fired oven in which the products of combustion circulate through the material being processed; that this oven (No. 2) is a metal combustion chamber and plenum chamber on the roof of the oven; that each plenum chamber has a fresh air supply opening to admit clean combustion air; that after the air is heated a circulating fan sends the air through ducts at side and top of the oven; that there is a continuous opening in the bottom of these ducts to admit this heated air into the interior of the oven; after the heated air circulates among the material being dried a portion of the heated air is exhausted through the roof of the oven to the outer air above the roof of the building by means of an opening in the roof of the oven equipped with an exhaust fan and duct; that there is an additional opening in the roof of the oven leading into the plenum chamber so that some of the heated air is recirculated to the combustion chamber where it is mixed with the fresh air previously described; that in addition there are metal hoods at both ends of the oven above the doors to pick up any warm air that escapes from the oven while the doors are open; that these hoods exhaust to the outer air above the roof; that although this oven bears no approval from the Board the manufacturer states that an application is now pending before the Board under Cal. 878-50-SA for such approval; that this appeal is to permit the use of this individual oven at this location and is not to be construed as a general approval; and

WHEREAS, the applicant states that the other oven (marked No. 1 on plans) was constructed by the owners on the premises and is essentially the same type as oven No. 2 except that oven No. 1 has two metal combustion chambers on the roof of the oven and the duct work from the combustion chamber runs along the interior of both sides of the oven with horizontal supply ducts at floor level leading to the sides of the oven; that there is a continuous opening slot into the oven from these supply ducts; that there are two openings in the roof connected to exhaust fans

MINUTES

to exhaust a portion of the heated air to the outer atmosphere; that this oven also has hood over the openings at both ends and that there are also openings in the roof for recirculation of a portion of the heated air; and

WHEREAS, the applicant contends that the warm air circulating system and exhaust system of both of these ovens have been designed in strict accordance with the requirements of the National Board of Fire Underwriters to provide 12,000 cubic feet of fresh air for each gallon of solvent used in the paint applied to the material being dried; that the exhaust blowers are proportioned in relation to the size of the circulating fans so that it is impossible for any hazardous concentration of vapors to reach the combustion chamber using a factor of safety of five (5) so that no recirculated air can reach the combustion chamber with more than one-fifth the amount of inflammable vapor that would create an inflammable atmosphere; that interlocking devices are provided so that fans automatically operate whenever the burners are in operation; that there is also a separate switch for the fans so that they can be operated independently; that automatic solenoid valves cut off the gas supply when ignition fails or gas pressure drops below the minimum; that air flow switches automatically stop the motors and burners and shut off the pilot when air is not flowing through the exhaust ducts; that automatic shutoff valves operate when gas supply fails or the flame is extinguished; there is also a manually operated remote gas shutoff valve more than 25 feet from the oven; there is also a system of electrical controls for starting the burner by an electric spark to ignite the gas pilot (with a signal light indicating when the pilot has been ignited) before the main gas supply is turned on; that these controls and devices include all the safety precautions required by the Board's rules as well as additional devices and safety features which have been voluntarily provided; and

WHEREAS, the applicant contends as to Item 2 of Fire Department Order No. 40692, requiring covers on dip tanks that it is not practical to install these covers since an overhead conveyor system is used for the dipping of metal products in these tanks; that fire extinguishing equipment has been provided in excess of that required by law; that a complete CO₂ extinguishing system has been installed consisting of fixed piping around the rim of each dip tank with five or six nozzles in each tank protected by a fiber disc to prevent contamination by paint; that there is also a system of overhead piping with nozzles over the drain board; that all of this fire extinguishing equipment is connected to a battery of 24 50-lb. CO₂ cylinders located in a wire enclosure separated from the dipping space by a brick wall and fireproof doors; that there are also four 15-lb. CO₂ hand extinguishers in the immediate vicinity of the dip tanks;

WHEREAS, the applicant contends as to Item 1 of the Fire Commissioner's No. 40692, and Objection 1 issued by the Borough Superintendent as to the proximity of ovens to spray booths and dip tanks that the distance from the drying ovens to the nearest portion of the dip tanks and spray booths is approximately 18 feet; that the physical arrangement of the plant and location of production lines is such that it is impractical to shift any of the equipment as there are overhead monorail systems throughout the plant which would interfere with relocating the equipment; that it is impossible to shift the dip tanks since they are below floor level in concrete pits; that, however, only one of the four dip tanks is located less than 25 feet from an oven; that this particular tank is not normally used in daily operation but is a standby tank used for zinc chromate which is used infrequently to comply with special government specifications; that all of the dip tanks in regular use are more than 25 feet from the oven; that the three spray booths face a conveyor aisle six feet wide containing monorail conveyors to and from spray booths; that with material in the center of this aisle there is only the minimum walking and working space free; that these three booths cannot be moved as a unit because the main production line in this

area is located in the space behind booths No. 1 and No. 2; that this main production line contains two overhead conveyors used to convey material to and from other portions of the plant; and

WHEREAS, the applicant further contends that there is an approved buried storage system for the storage of solvents and thinners; that there is an exterior masonry building used for the storage of paint; that all other items of the Fire Commissioner's Orders have been complied with in all respects; that the area containing the spraying equipment is in the center of a large plot well away from any adjoining property with open yard around the building to permit easy access and it is therefore requested that this appeal should be granted; and

WHEREAS, the premises and equipment involved in this appeal were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the Fire Commissioner acting on Order No. 19707-LC, and the decision of the Borough Superintendent acting on BN App. 99 of 1954 be and it hereby is *modified* under the powers vested in the Board and that the appeal be and it hereby is *granted*, to permit the continuance of the two ovens as proposed and described, and as indicated on plans filed with this appeal marked, "Received, March 4, 1955" (7 sheets) *on condition* that the ovens shall be maintained to the satisfaction of the Fire Commissioner; that the spraying booths shall not be nearer the ovens than as shown on such plans and in the event of any rearrangement the requirements as to distance shall be complied with; and as to dip tanks *on condition* that the automatic CO₂ fire extinguishing system shall be maintained for all dip tanks to the satisfaction of the Fire Commissioner.

193-54-A

APPLICANT—Simon B. Zelnik, for 14 West 17th Street Corp., owner.

SUBJECT—Application reopened February 1, 1955 to consider new proposal—re Appeal from a decision of the borough superintendent, previously withdrawn.

PREMISES AFFECTED—14-16 West 17th Street, south side, 250 ft west of 5th avenue, Block 818, Lot 59, Borough of Manhattan.

APPEARANCES—

For Applicant: Simon B. Zelnik and Maurice Knapp.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Keating and Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, an amendment was filed October 11, 1954, to Alt. App. 210/54 requesting acceptance of a new exterior screened stairway complying with Sections 271 and 268 of the Labor Law for a secondary means of egress from the 2nd to 12th floors and requesting acceptance of the termination of the exterior screened stairway on the roof of adjoining building to the south; and

WHEREAS, this amendment was disapproved by the Borough Superintendent October 21, 1954, with the following decision:

"1. Termination of exterior screened stairway fails to comply with Sec. 271 c. Labor Law.

2. Cellar exits fail to comply with Sec. 271 Labor Law."

and

WHEREAS, the applicant states the basis of this appeal now is the termination of the new exterior screened stairway which it is proposed to install at rear of premises as described in a letter submitted to the Board July 21, 1954, at which time the construction of the buildings to the south had not been completed; and

MINUTES

WHEREAS, the applicant states the buildings to the south have now been completed; and

WHEREAS, the applicant contends that the termination of the exterior screened stairway as proposed would be far superior to any complicated system of passage through the premises which would be devised and it is therefore requested that the Board reconsider this appeal, re-examine the premises and act favorably on this appeal; and

WHEREAS, the applicant has filed revised plans marked "Received January 11, 1955," showing egress from the termination of the proposed exterior screened stairway; and

WHEREAS, the premises was inspected by a committee of the Board; the Committee was not in favor of the method proposed of providing exit for the proposed exterior stair through and across neighboring premises as proposed and is of the opinion that a direct means through the building to street should be proposed for consideration.

Resolved, that the decision of the Borough Superintendent, acting on amendment to Alt. App. 210/54, Objections 1 and 2, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

203-54-A

APPLICANT—Elias K. Herzog, for Bert-Su-Realty Corp., owner.

SUBJECT—Application March 8, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—143-149 West 19th street, north side, 252 ft. east of 7th avenue, Block 795, Lot 14, Borough of Manhattan.

APPEARANCES—

For Applicant: Elias K. Herzog.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated February 9, 1954, on amendment to Alt. App. 1447/53, reads:

"1. Proposed arrangement of egress from cellar unsatisfactory, not sufficiently remote, Section 271 Labor Law.

2. Fire escapes are unacceptable as second means of egress for buildings over 5 stories high—section 271 Labor Law."

and

WHEREAS, the applicant states the building is 7 stories, 90 feet in height, 77 ft. 11 in. front by 92 ft. $\frac{3}{4}$ in. in depth at street level, 77 ft. 11 in. by 80 ft. in area at typical floor level, of Class 3 construction, erected in 1896 in an unrestricted use, B area, Class 2 height district; used and occupied since 1896: Cellar—boiler room and storage, 1 person; 1st floor—asbestos manufacturing (shipping dept.), 4 persons; 2nd floor—asbestos factory, 4 persons; 3rd floor—asbestos factory and storage, 0 persons; 4th floor—asbestos factory, 8 persons; 5th floor—toy factory, 51 persons; 6th floor—manufacturing paper novelties, 29 persons; 7th floor—manufacturing foam rubber products, 7 persons. No change in use or occupancy is now proposed. The building is provided with an approved standpipe system, an approved two-source sprinkler system throughout and an approved interior fire alarm system and regular monthly fire drills are maintained. There is one 3 ft. 8 in. wide interior wood stairs, enclosed in fire-retarded partitions consisting of metal on $\frac{1}{2}$ in. plaster boards, equipped with fireproof, self-closing doors and leading from roof bulkhead direct to street and two fire escapes on the rear extending to roof by stair and to yard by stair and one substandard fire escape on the front; and

WHEREAS, the applicant states the building is provided with a fire-retarded enclosed stairs leading directly to street with fire escapes in the rear connecting through a fire passage to the street; that these fire escapes are provided with 5 ft. high railings and comply otherwise with the requirements of the Labor Law for fire escapes erected after 1913; that in addition there is a substandard fire escape on the front which is proposed to be removed; and

WHEREAS, the applicant states it is proposed to extend the fire escape balconies in the rear of adjoining premises to east, #139-141 West 19th street and to provide fireproof, self-closing exit doors from each floor from 2nd to 7th leading thereto, which fire escapes are provided with 5 ft. high railings and lead through a fireproof passage and through the entrance hall of premises #139-141 West 19th street to the street; that it is also proposed to replace the windows leading to these fire escapes from the adjoining property, #139-141 West 19th street, with fireproof, self-closing doors; that the stairs in this building and that adjoining at #139-141 are joined by an opening on each floor protected on each side of the common wall by a fireproof door provided with fusible links; that the cellar is used only for storage; that both buildings are connected at the cellar by a 3 ft. opening, providing egress from each building through two legal stairs leading to the street; that while these two exists are not remote from each other, no point is over 100 feet from an exit and there are no persons continuously employed in the cellar; and

WHEREAS, the applicant contends that to be required to comply strictly with the Labor Law would be a hardship not warranted by the conditions; that the building is fully sprinklered throughout and the maximum occupants on any floor is 38 which is less than the capacity of the primary means of egress; and

WHEREAS, the applicant states that the sawdust which was the subject of an appeal to the Board under Cal. No. 652-22-A has been removed and the only sawdust on premises is that resulting from manufacture of furniture frames and is being exhausted through a container above the roof; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of Section 271 the Labor Law, as cited in a decision of the Borough Superintendent, acting on amendment to Alt. 1447-53, Objections No. 1 and 2 and that the appeal be and it hereby is *granted*, to permit the fire escape, as proposed, to be permitted as an additional means of exit and as now proposed and as indicated on plans filed with this appeal marked, "Received, March 1, 1955" (8 sheets), *on condition* that the building shall not be increased in height or area and in all other respects the building shall comply with all laws, rules and regulations applicable thereto; that the standpipe, the two-source sprinkler system and the interior fire alarm system and regular monthly fire drills shall be maintained in accordance with the requirements therefor; and that insofar as the requirements as to the adjoining building under Cal. No. 204-54-A are concerned the requirements of the resolution adopted this day under that calendar number shall be complied with.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated February 9, 1954, acting on Alt. App. 1496/53, reads:

"1. Proposed arrangement of egress from cellar unsatisfactory, not sufficiently remote, Section 271 Labor Law.

2. Fire escapes are unacceptable as second means of egress for buildings over 5 stories high—Section 271 Labor Law."

and
WHEREAS, the applicant states the building is 8 stories, 110 feet 1 in. in height, 42 ft. 4 in. by 92 ft. $\frac{3}{4}$ in. in depth at street level, 42 ft. 4 in. front by 50 ft. in depth at typical floor level, of fireproof construction, erected in 1906 in an unrestricted use, B area, Class 2 height district; used since 1906: Cellar—boiler room, storage and elevator machinery, 1 person; 1st floor—paper box factory, 21 persons; 2nd floor—asbestos factory and offices, 30 persons; 3rd floor—jewelry manufacturing, 2 persons; 4th floor—neckware manufacturing, 4 persons; 5th floor—glass manufacturing, 8 persons; 6th floor—manufacturing living room furniture frames, 5 persons; 7th floor—advertising, 7 persons; 8th floor—toy factory, 38 persons. No change in use or occupancy is now proposed. The building is provided with an approved standpipe system, approved two-source sprinkler system throughout, approved interior fire alarm system and regular monthly fire drills are maintained. There is one 3 ft. 8 in. wide interior iron stairs, fireproof enclosed, equipped with fireproof, self-closing doors leading from roof bulkhead direct to street and one fire escape on rear extending to roof by stair and to yard by stair with egress to street through fire passage; window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, the applicant states the building is provided with a fireproof stairs leading to street and a fire escape on the rear connecting through a fireproof passage to the street; that the fire escape is provided with 5 ft. high railings and otherwise complies with the requirements of the Labor Law for fire escapes erected after 1913; that it is proposed to extend the fire escape balconies to the adjoining premises at 143-149 West 19th street and replace the present windows leading to fire escape with fireproof, self-closing doors as well as install fireproof, self-closing doors at each street floor of adjoining premises leading to the same fire escape balconies; that both buildings are under the same ownership and the stairs of both are joined on each floor and the opening is protected on each side of the common wall by a fireproof door equipped with flexible links; that the cellar is used only for storage; that both buildings are connected in the cellar by a 3 ft. opening providing exit to two legal stairs which lead to the street; that while these two exits are not remote, no point is over 100 feet from an exit and there are no persons continuously employed in the cellar; and

WHEREAS, the applicant contends that to be required to comply fully with the Labor Law would constitute a hardship unwarranted by the conditions; that the total area of the building on the 3rd to 8th floors is only about 2,000 sq. ft. and on the lower stories about 3,600 sq. ft.; that the building is fireproof, sprinklered throughout and the maximum number of occupants on any floor is 51, which is less than the capacity of the primary means of egress; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions in connection with the adjoining building, which is occupied subject to Cal. No. 203-54-A.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 1946/53, Objections No. 1 and 2 and that

the appeal be and it hereby is *granted*, to permit the exits as proposed, including the fire escapes as shown on plans filed with this appeal and with appeal No. 203-54-A marked, "Received, March 1, 1955" (8 sheets), *on condition* that the building shall not be increased in height or area; that the two-source sprinkler system, standpipe system and fire alarm system shall be maintained in accordance with the requirements therefor, and all other requirements as proposed shall be maintained.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated May 3, 1954, on Alt. App. 4942 of 1940, reads:

"1. Changing Residence use to Public use is contrary to Section 2.1.3.5. & 4-2-1 Bldg. Code."

and

WHEREAS, the applicant states the building is 2 stories, 20 ft. in height, 25 ft. front by 50 ft. in depth, of Class 4 construction, erected prior to 1929, located on a lot 25 ft. front by 100 ft. in depth in a residence use, D area, Class 1 height district, and used and occupied since 1932 as follows: Cellar, boiler and ordinary storage, no persons; 1st floor: clubroom, 60 persons; 2nd floor: dwelling, 2 families; no change in use or occupancy is now proposed; the building is provided with one 3 ft. wide wood stairs leading direct to street and provided with a ladder and scuttle to roof; and

WHEREAS, Violation #346 was issued January 24, 1950, for occupying the first floor as a club without a certificate of occupancy; and

WHEREAS, the owner was convicted and fined in Municipal Term, Magistrates Court, March 5, 1954, on charge of violating the Multiple Dwelling Law; and

WHEREAS, the applicant states that the legal occupancy of record is a Class A Multiple Dwelling as follows: Cellar: ordinary household storage and heating plant; 1st floor: store and one apartment; 2nd floor: two apartments; that the cellar walls are of masonry; the upper walls are of frame; cellar floor is concrete; cellar ceiling is of wood; 1st floor ceiling is of plaster on wood lath; that there is an interior stair from the public hall to cellar and an outside concrete stairs at front and rear of building leading to grade; that there are two doors from the first floor to the public hall; that egress from the street to yard is through a public hall at the first floor and through cellar; that egress to roof is by a scuttle and a stationary iron ladder in second floor public hall; that the occupancy of the club rooms originated in 1932 and has continued to date without a new certificate of occupancy; that in 1940, alteration application was approved for removal of the store front with a view of having the club continue under residential classification; that the actual work was completed but the question of occupancy remained unsettled and as a result Violation No. 346 of 1950 was issued; that in 1949 an amendment was filed to establish the club use specifically and denied as being contrary to Section 2.1.3.5 and Section 4-2-1 of the Administrative Code; that on March 5, 1954, and October 8, 1954, the owner was prosecuted for failure to comply with Violation #346 of 1950, and found

MINUTES

guilty; that there is an error in the Magistrate Court's records in that there was no prosecution under the Multiple Dwelling Law; and

WHEREAS, the applicant contends that the area used for club use is less than 600 sq. ft. and is confined to the front room on the first floor only; that the remaining space on the first floor is for accessory use such as office, kitchen, closet and toilet; that the Multiple Dwelling use and the business use have been given up; that the proposed occupancy is more desirable than the non-conforming but legal use which were prevalent prior to commercial and multiple dwelling occupancy; that the club use of such limited area is parallel to a residential classification and that the maintenance of the proposed club use will not be incongruous or detrimental to the neighborhood; that the building was acquired by the club mainly for use of its members; that the club is a social, non-profit organization comprised mainly of elderly people of limited means who live in the neighborhood and its activities are limited to its members use for relaxation and occasional meetings; that the club has no financial resources which would permit them to relocate elsewhere; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 4942/40, dated May 3, 1954, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the occupancy of the first floor of the building as a private club, as proposed and as indicated on plans filed with this appeal, marked "Received May 17, 1954" (1 sheet), *on condition* that the means of exit as indicated shall be maintained with outwardly swinging doors; that the building shall not be increased in height or area; that the second floor may be continued in residential use as here shown and proposed and not for any other use; and that this variance shall continue only so long as the conditions herein stated are continued; and that a certificate of occupancy shall be obtained.

296-54-A

APPLICANT—McDowell Sprinkler Corp., for Waldorf Astoria Hotel Corp., owner.

SUBJECT—Application reopened April 19, 1955 to consider amendment as to sprinkler system—re Appeal from a decision of the borough superintendent, previously granted on condition.

PREMISES AFFECTED—301-309 Park avenue, 538-556 Lexington avenue, 81-121 East 49th street and 80-120 East 50th street, Block 1304, Lot 1, Borough of Manhattan.

APPEARANCES—

For Applicant: F. J. Dent.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, on application of McDowell Sprinkler Corp. for Waldorf-Astoria Hotel Corp., owner, this appeal was reopened April 19, 1955; and

WHEREAS, the applicant states that it is now proposed to sprinkler the entire 18th floor with the exception of the Starlight roof, the dining rooms and the Canadian Club area with a two-source automatic sprinkler system; and

WHEREAS, the applicant contends that the proposed installation would give better protection to life and at the same time would not disfigure the area; and

WHEREAS, the applicant states that the exits from the club and the dining rooms will be protected by a water curtain each side of the wall; that in lieu of the 100 sprinkler heads mentioned in the prior resolution adopted by the Board it is proposed to install approximately 160 of the new type spray

sprinklers; that these sprinkler heads will be supplied from two automatic sources consisting of a ten thousand gallon house tank on the 32nd floor and the 20,000 gallon house tank on the 23rd floor; and

WHEREAS, the applicant contends that the 10,000 gallon gravity tank will be far superior to a pressure tank installed under the requirements of the Code which would call for a 6,000 gallon pressure tank with an air pressure of 75 lbs. per sq. in. containing 4,000 gallons of water; that the 75 lb. starting pressure in this pressure tank would be reduced progressively to 15 lbs. as the 4,000 gallons of water was discharged; that the gravity tank connection proposed would give approximately 65 lbs. initial pressure and maintain this pressure until empty and would provide an available supply of 10,000 gallons which is two and one-half times the Code requirement for pressure tank; that the secondary supply consisting of gravity tank on the 23rd floor will contain 20,000 gallons instead of the 8,000 gallons required by the Code and will be elevated to approximately 60 ft. above the sprinklers instead of 20 ft. as required by the Code; that this is equivalent to two and one-half times the required capacity and three times the elevation; that since the Code and the resolution adopted by the Board require only a one-source system and since it is proposed to install a two-source system each source having approximately two and one-half times the amount of water required by the Code it is requested that the Board waive the requirement for a siamese Fire Department Connection; and

WHEREAS, the applicant contends that since the danger of fire in the dining rooms is very slight and as there are ample exits therefrom and as these exits will be protected by the proposed sprinkler system with its superlative water supply and as all service areas and corridors will be completely protected it is felt that there will be ample protection to life on this floor and that this protection will be better than would be afforded by the system provided for in the prior resolution of the Board; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 6, 1954 by adding thereto: that in the event the owner desires to rearrange the sprinkler installation as now proposed and as shown on plans marked, "Received, March 23, 1955" by omitting sprinklers in some of the rooms and installing sprinklers of approved spray type, and a water supply as described, that such arrangement may be permitted in lieu of the resolution previously approved by the Board *on condition* that such work shall comply with the requirements therefor and as indicated and proposed; that there need be no siamese Fire Department connection provided *on condition* that a pump is connected with the tank as proposed.

479-54-A

APPLICANT—Philip Lochman and Co., owner.

SUBJECT—Application June 11, 1954—re Appeal from a decision of the fire commissioner re Packaging of inflammable mixtures known as "Collodion Emulsion, Red Flo Sensitizer, Blue Flo Sensitizer and Black Flo Sensitizer" in one quart glass containers (containers not in conformity with Administrative Code requirements).

APPEARANCES—

For Applicant: Edward B. Pleninger.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Fire Commissioner dated May 12, 1954, reads in part as follows:

"Please be advised that samples of your products known as Collodion Emulsion, Red Flo Sensitizer, Blue Flo Sensitizer and Black Flo Sensitizer all showed flash-

MINUTES

points under 100° F. They are therefor classified as inflammable mixtures.

"Section C-19-59.0-c of the Administrative Code states that such mixtures shall be put up in glass bottles of a capacity not exceeding four ounces each. Your application for a Certificate of Approval lists your containers as quart bottles, therefore, same is disapproved."

and
WHEREAS, the applicant states that its collodion emulsion consists of four percent solution of collodion, one and one-half ounce of bromide of silver and the balance of ether, alcohol and water, and that their Blue Flo Sensitizer, Black Flo Sensitizer and Red Flo Sensitizer are made up of distilled water, glycerine, alcohol, dye and a small quantity of silver; that the collodion emulsion has a flashpoint below 20° F., and the sensitizers have a flashpoint of 52° F; and

WHEREAS, the applicant contends that these photographic materials, since they contain silver bromide, cannot be packaged in metal containers; that the materials in question are used only in small quantities and by most photo engravers in New York City; and

WHEREAS, the applicant states that the products will be packaged in Boston Round type 32 oz. glass containers manufactured by Owens-Illinois Glass Company, each container to be equipped with a standard 48 mm screw type cap manufactured of 85-90 lb. tinplate and provided with an oil paper liner to prevent leakage; and that each of these glass containers will be enclosed within a metal container constructed of .012 cold rolled steel with double seams.

Resolved, that the decision of the Fire Commissioner, dated May 12, 1954, be and it hereby is *modified* under the powers vested in the Board, and that the appeal be and it hereby is *granted* to permit the product to be packaged in glass containers of the Boston Round type, 32 oz. capacity, as approved by the Board and as manufactured by the Owens-Illinois Glass Company, and with 48 mm. screw type cap manufactured of tin plate as proposed and with an oil paper lining to prevent leakage; that such container shall be enclosed within a metal container constructed of .012 cold rolled steel with double seams *on condition* that the labeling shall comply with the requirements of the Fire Commissioner.

575-54-A

APPLICANT—Stanley H. Klein, for Anna Burns, owner.
SUBJECT—Application July 9, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—139-84 86th avenue, south side, 100 ft. west of 143rd street, Block 9707, Lot 47, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Anna Burns and Gladys Hauff.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated June 22, 1954, on N.B. App. 310 of 1954, reads:

"1. Indicate method of sewerage disposal in compliance with Sec. 26-1221.1 of the Administrative Code."

and
WHEREAS, the applicant states the premises consist of a lot 40 ft. by 100 ft. in area, upon which there exists a one and one-half story dwelling at the front and an open accessory parking area at the rear; it is proposed to erect a one story class 3 garage 11 ft. 4 in. front by 21 ft. in depth for use as an accessory one car garage at the rear of the lot in the space now used for open accessory parking; and

WHEREAS, the applicant states that Section C26-1221.1 of the Administrative Building Code permits a garage to be erected not more than 18 inches below the street upon which

it fronts unless there is a combination or storm sewer; that the floor of the proposed garage will be approximately five feet below established legal curb grade; that the rear grade of the property is 91.78 and 92.90 ft. which is approximately 7½ ft. below the legal established curb grade at the front of the premises; that this grade at the rear is the same grade as the adjoining property on the west side; that the property on the east side consists of two plots, the plot facing 86th Avenue, which is approximately 3 ft. 6 in. above the premises in question at the rear, and the other plot facing 143rd street is approximately level with the rear of the premises in question; that at the rear line of the premises in question there is a retaining wall and a drop of approximately 6 ft. to the property at the rear which is at elevation 85.80; and

WHEREAS, the applicant contends that because of this difficult natural grade it would cause extreme difficulty and hardship upon the owner to be required to raise the entire rear yard to a joint 18 in. below legal grade in order to comply with the Building Code; that the adjoining premises on the west have garages which are both at the existing grades below curb; and it is therefore requested that the Board grant relief from objection 1 issued by the Borough Superintendent so as to permit the erection of the garage as proposed at the rear of the property at the existing grade of the plot as indicated on plans filed with this appeal; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the Borough Superintendent, acting on N. B. App. 310/54, Objection No. One be and it hereby is *modified* under the powers vested in the Board and that the appeal be and it hereby is *granted*, to permit the erection of an accessory garage in the location as shown and as proposed *on condition* that in all other respects the garage building shall comply with all laws, rules and regulations applicable thereto; and to permit, but not require, the construction of a dry well as proposed *on condition* that such dry well shall be not nearer than twenty-five feet to the rear masonry retaining wall.

659-54-A

APPLICANT—J. M. Berlinger, for Chanipete Realty Corp., owner.

SUBJECT—Application September 2, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—118-52 Montauk street, west side, 451.70 ft. north of 120th avenue, Block 12452, Lot 69, St. Albans, Borough of Queens.

APPEARANCES—

For Applicant: I. L. Freeman and J. M. Berlinger.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated August 4, 1954, on Alt. App. 2782 of 1953, reads:

"1. No frame construction permitted within the fire limits. 4.1.2.B.E.

"2. No frame coal pockets permitted C 26-254.0 (table)."

and

WHEREAS, the applicant states that the building in question is one story 40.0 ft. in height, 8 ft. front by 20.5 ft. in depth of class 6 construction, erected prior to 1925, located on a lot 263.19 ft. front by 30 ft. in depth, in an unrestricted use, B area, Class ½ height district and used and occupied prior to 1925 as a coal pocket; and

WHEREAS, Violation No. 4411 was issued October 7, 1953, for occupying the premises as a coal pocket without a certificate of occupancy; and

MINUTES

WHEREAS, the applicant states that the wood frame coal storage structure was erected prior to 1916 when it was permitted to erect it of wood; that the records of the Department of Housing and Buildings in the Borough of Queens indicated approval and completion; that at the time of its erection it was located outside of the fire limits; that up to the year 1925 the structure was used for storing building materials, sand and gravel; that in 1925 coal replaced the building materials and four new concrete structures were erected on the premises to augment the existing wood frame storage structure; and

WHEREAS, the applicant, therefore, requests that the Board permit the continuance of the use of the structure for storing coal, the same use to which it had been put for the past 29 years, especially in view of the fact that a recent inspection by the Department of Housing and Buildings found the building structurally sound and satisfactory; and

WHEREAS, an examination of the records of the Department of Housing and Buildings indicates that App. No. 14853 was filed October 21, 1922 to erect a one story frame shed to be used for the storage of cement and having an area of 30 by 40 ft. and Application was filed under No. 14854 of October 21, 1922 to erect a one story frame lumber storage shed 12 ft. in height, 60 ft. by 30 ft. in area; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions; and

WHEREAS, the committee assumes that the only frame structure involved is the wooden coal hopper.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 2782/53, Objections No. 1 and 2 be and it hereby is *modified* under the powers vested in the Board and that the appeal be and it hereby is *granted*, to permit the continuance of the existing wooden hopper as proposed and as indicated on plans filed with this appeal marked, "Received, September 2, 1954" (one sheet) *on condition* that the hopper shall be maintained in a safe structural condition to the satisfaction of the Borough Superintendent; that it shall not be extended in height or area; and in the event it is removed and a new hopper is constructed, such hopper shall comply with the requirements therefor.

813-54-A

APPLICANT—Henry G. Harris, for Anna Sheinkin, owner.
SUBJECT—Application October 28, 1954—filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 27 (2a) re minimum dimensions of rear yard.

PREMISES AFFECTED—616 East 17th street, west side, 182 ft. north of Foster avenue, Block 5237, Lot 22, Borough of Brooklyn.

APPEARANCES—

For Applicant: Henry G. Harris.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated October 19, 1954 on Alt. App. 2081 of 54 reads:

"12. Provide a legal rear yard of 13'0" in depth as per section 27 sub div 2a"

and

WHEREAS, the applicant states the building is three stories, 36 ft. in height, 32 ft. by 60 ft. in area of Class 3 construction, erected 1905 located on a lot 40 ft. front by 100 ft. in depth, in a residence use, C area, Class one height district, and used and occupied since 1907 as follows: Cellar—boiler room; 1st floor—dwelling, two families; 2nd floor—dwelling, two families; 3rd floor—dwelling, two families; the building is supposed to be increased in area 32 ft. front by 80 ft. in depth of class 3 construction and used and occupied as follows: Cellar

—boiler room; 1st floor—3 families; 2nd floor—2 families; 3rd floor—2 families; the building is provided with one 3 ft. wide interior wood stairs enclosed in partitions of fire retarded wood studs equipped with fireproof self-closing doors and leading from roof bulkhead direct to street and one fire escape extending to roof by ladder and to yard by ladder with egress to street through court; and

WHEREAS, the applicant requests permission to omit full compliance with the requirements of Section 27, 2a of the Multiple Dwelling Law so as to permit a ten ft. deep rear yard since the open spaces are adequate; and

WHEREAS, the applicant contends that yard of the rear adjoining property is 10 ft. deep; that there will be a distance of 20 ft. from the proposed building to the rear wall of the building adjoining in the rear and that the existing building rear wall of the building in question will be 40 ft. distant from the wall of the adjoining premises to the rear at the second and third story level; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 2081/54, Objection No. 12 be and it hereby is *modified* under the powers vested in the Board by Section 310 of the Multiple Dwelling Law, and that the appeal be and it hereby is *granted*, *on condition* that the proposed rear yard shall be not less than the ten feet in depth as proposed and as indicated on plans filed with this appeal marked, "Received, October 28, 1954" (3 sheets) and "April 11, 1955" (one sheet) *on condition* that the excess open space in the existing front and side yards shall be maintained and also granted only so long as the space unbuilt upon in the rear of the adjoining lot, on which there is a five story building, is maintained without construction thereon; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

951-54-A

APPLICANT—Spencer L. Eddy, for Esso Standard Oil Co., owner.

SUBJECT—Application December 14, 1954—Appeal from a decision of the fire commissioner.

PREMISES AFFECTED—295-325 Green street, north side, 200.16 ft. east of Provost street, to Whale Creek Canal, Block 2515, Lot 34, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the Fire Commissioner dated December 6, 1954 (Folder No. W800301), reads as follows:

"In reference to your letter of December 1, 1954, concerning the paint spray installation in the motor vehicle repair shop at this location, please be advised that this department is without power to grant your request for substitution of a fireproof vault with mechanical exhaust system in lieu of a ventilated double walled metal storage cabinet for the storage of between 100-200 gallons paint materials.

"Rule 6.1.2 of the Spray Rules of the Board of Standards and Appeals requires a double walled metal cabinet, ventilated top and bottom to the outer air for the storage of 100-200 gallons paint materials; and Rules 6.1.3 and 4.2.1 of the Spray Rules require either an inside storage vault equipped with louvred window, or an outside storage building with a plain glass skylight for ventilation.

The Fire Department has no power to modify the Spray Rules of the Board of Standards and Appeals and

MINUTES

consequently must deny your request.

"You have the right of appeal however to the Board of Standards and Appeals, themselves, and it is suggested that such appeal be made if the substitution outlined in your letter is desired."

and

WHEREAS, the applicant states the premises consist of a lot 503.88 ft. front by 125.0 ft. irreg. in depth, upon which there exists a one story 32 ft. average in height Class 3 constructed building 470 ft. front irreg. by 125.0 ft. irreg. in depth, located in an unrestricted use, B area, Class 2 height district, and used and occupied since 1954 as a motor vehicle repair shop for company equipment and as a warehouse and preventative maintenance shop for petroleum products, automobile accessories, oil burner parts and as a spray booth and paint locker for the storage of 200 gallons of paint material for which no Certificate of Occupancy has been issued; and

WHEREAS, the applicant contends that Rule 6.1.2 of the Spray Rules requires a double walled metal cabinet ventilated top and bottom to the outer air for the storage of 100-200 gallons of paint materials; that Rule 6.1.3 and 4.2.1 of the Spray Rules require either an inside storage vault equipped with louvred windows or an outside storage building with plain glass skylight ventilation, in the event storage of paint exceeds 200 gallons; and

WHEREAS, the applicant states that the existing paint locker or vault is 8 ft. by 8 ft. in area, 9 ft. in height constructed of 8 in. approved type solid concrete blocks with a cement floor and 2 in. gypsum heavy duty concrete plank roof equipped with self-closing fire proof door and a single half-inch sprinkler head and explosion proof lighting fixture; that this vault is ventilated direct to the outer air by a nine inch by eight inch 18 gauge metal duct running through the roof, equipped with an exhaust fan provided with an explosion proof motor; that the exhaust fan has a rating of 360 cubic feet per minute and is actuated upon the opening of the door to the paint vault; that the paint vault is located on the interior of the building near the paint spray booth; that the necessity of the proximity to the spray booth and the lack of space prohibits the locating of the locker along the street front with an outside louvred window; that the spray booth is equipped to handle only one truck at a time and there is no need for storage of more than 200 gallons of paint material; and

WHEREAS, the applicant states that the motor vehicle repair shop and warehouse building in question including the paint spray vault have been substantially completed under permits issued by the Department of Marine and Aviation; and

WHEREAS, the applicant contends that the repair shop and paint vault will be used only by the owners company for maintenance of company equipment and no outside work will be done on the premises; that the paint spray booth is of a type approved by the Board under Cal. No. 385-45-SA and is equipped with a sprinkler system and the entire repair shop and warehouse is provided with a direct telegraphic fire alarm communication to headquarters as well as numerous chemical fire-fighting appliances.

Resolved, that the decision of the Fire Commissioner, dated December 6, 1954, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit not over 200 gallons of paint material to be stored within the premises, *on condition* that a room for such storage is constructed, maintained and ventilated to the air as proposed and shown on plans filed with this appeal, marked "Received December 14, 1954" (2 sheets); that such fire-fighting equipment shall be installed as the Fire Commissioner shall direct in addition to the sprinkler heads proposed to be maintained within the paint storage room; that the fire alarm with direct connection to Fire Headquarters shall be maintained; that all uses requiring a permit from the Fire Commissioner shall be obtained; that the spray booth in the adjoining warehouse as approved by the Board under Cal. No. 385-45-SA may be permitted if complying with the Spray Rules of the Board; that such mechanical portable fire-fighting appliances shall

be maintained to the satisfaction of the Fire Commissioner; and that a certificate of occupancy shall be obtained.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated December 8, 1954, on Alt. App. 3523/54, reads:

"1. Proposed change of occupancy of 4th, 5th and 6th floors to factory use in a class #6 structure over 4 story in height and since the lower floors were converted to factory use under Cal. #562-38-S the extension of this use throughout the balance of the bldg. to be referred back to the Board for their consideration.

2. Exits from all floors to comply with sect. 270 of Labor Law."

and

WHEREAS, the applicant states the building is 6 stories, 75 feet in height, 81 ft. 8 in. front by 100 ft. 2 in. in depth at street level; 66 ft. 2 in. front by 100 ft. 2 in. in depth at typical floor level, of Class 6 construction, erected in 1915 on a lot 640 ft. irregular in front by 200 ft. 4 in. in depth, in an unrestricted use, A area, Class 2 height district; used and occupied since December 1938 as follows: Cellar—factory and storage, 0 persons; 1st floor—factory and offices, 17 persons; 2nd, 3rd and 4th floors—factory and offices, 30, 45 and 18 persons per floor, respectively; 5th and 6th floors—storage, 2 persons per floor; now proposed to be used and occupied as follows: Cellar—factory and storage, 10 persons; 1st to 6th floors, inclusive, factory and offices, 30 persons on each floor except the 4th which will have 45 persons. The building is provided with a two-source sprinkler system throughout, one 3 ft. 3 in. wide interior steel stairs, brick enclosed, equipped with fireproof, self-closing doors leading direct to street and to roof bulkhead and one fire escape located at the southeast corner of the 4th, 5th and 6th floors, extending to roof by stair and to fireproof roof with egress therefrom by enclosed fireproof stair direct to street; window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, Certificate of Occupancy #90506 issued December 16, 1938, on Alt. App. 9812/38, describes as fireproof and nonfireproof construction and permits the following use and occupancy: Cellar, 1st, 2nd and 3rd floors—factory, 50 persons each floor; 4th, 5th and 6th floors—warehouse, 1 person each floor; liveload 120 lbs. throughout; and

WHEREAS, Violation #1678/54 was issued for changing the occupancy in that the building as a factory contrary to Certificate of Occupancy #90506 which designates occupancy of cellar to 3rd floors as factory and 4th, 5th and 6th floors as warehouse; and

WHEREAS, the applicant states this appeal is for a modification of the Labor Law to permit extension of factory use to the 1th, 5th and 6th floors and to accept the two existing exits from these upper floors; that the building was erected under N. B. 4349/15; that the two lower tiers are of Class 1 construction and the upper tiers of Class 6 construction; that under Cal. No. 562-38-S the Board modified the Labor Law to permit the cellar, 1st, 2nd and 3rd floors to be used as factory and the 4th, 5th and 6th floors to remain for storage use; that this work was completed and Certificate

MINUTES

of Occupancy #90506 issued; that it is now proposed to use the three upper floors for factory purpose; that the type of slow burning heavy timber construction affords more protection from fire than ordinary nonfireproof construction; that in addition the building is equipped with a voluntary wet automatic sprinkler system throughout connected to fire headquarters through a central station; that the existing exits from cellar, 1st, 2nd and 3rd floors will remain unchanged and will be the same as accepted by the Board when these floors were converted to factory use, except that an outside grade exit has been provided from the 1st floor in lieu of the horizontal exit in the fire wall; that there are two exits from each of the 4th, 5th and 6th floors; that the primary exit consists of a fireproof enclosed stairway, the secondary exit consists of a door from 4th floor to roof of adjoining 3-story fireproof building known as #67-73 19th street under the same ownership and control; that there is also a 3 ft. 4 in. wide exterior steel stairs from 5th and 6th floors of the building in question down to the same fireproof roof of 67-73 19th street and a 3 ft. 8 in. wide fireproof stairway from that roof to the street; that all windows and doors along the course of exterior steel stairs are fireproof; that the type of factory occupancies are not hazardous; and

WHEREAS, the applicant contends that in view of the type of construction and the sprinkler throughout the building, it is requested that the Labor Law be modified to permit the factory use on the upper floors with the exits as herein proposed; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on amendment to Alt. 3523/54, Objection No. 1 and that the appeal be and it hereby is *granted*, to permit the use of the upper floors for factory purposes above the third floor, *on condition* that the exits shall be maintained as proposed and as indicated on plans filed with this appeal marked, "Received, December 21, 1954" (15 sheets) and as to Objection No. 2 to make a variance in the Labor Law as to requirements of Section 270 *on condition* that the exits shall be maintained as hereinbefore permitted; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that the floor loads as proposed shall be posted; that the voluntary sprinkler system throughout the building shall be connected to Fire Headquarters through an approved central station and shall be maintained to the satisfaction of the Fire Commissioner; that fire drills shall be maintained if the Fire Commissioner shall require; and that in the floors above the third no occupancy shall be permitted which has a product requiring a permit from the Fire Commissioner as an inflammable material.

321-52-A—Vol. II

APPLICANT—Gabriel Nathan, for Hebrew Institute of Long Island Inc., owner.

SUBJECT—Application for consideration—reopening as Vol. II to consider extension of use—re Appeal from a decision of the borough superintendent; previously granted on condition.

PREMISES AFFECTED—1708-20-34-42 Seagirt avenue, north side, block front between Beach 17th and 19th streets, Block 133, Lot 1, Far Rockaway, Borough of Queens.

APPEARANCES—

For Applicant: Gabriel Nathan.

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on June 17, 1941, on certain conditions; and

WHEREAS, the term of variance was extended from time to time and last extended on May 9, 1950; and

WHEREAS, the applicant requested a further extension of the term of variance and time to complete.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 15, 1945, as thereafter *amended* by resolutions adopted through May 9,

MINUTES

1950, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * granted under Section 7, Subdivision h for a term of five years from the date of this *amended* resolution, to permit * * *; that other than as herein *amended* the resolution above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained and all work completed within three months from the date of this *amended* resolution." (Letter decision March 7, 1941.)

30-48-BZ—Vol. II

APPLICANT—Adolph Friedel, owner.

SUBJECT—Application for consideration—reopening as to amendment—re Application (decision of the borough superintendent), previously granted on condition, under sections 7c, 7i, 7A and 7h of the zoning resolution, permitting in a residence and business use district, the reconstruction and extension of existing gasoline service station to include boiler room, lubritorium, auto laundry, motor vehicle repair shop, sale of accessories and office and also the parking and storage of more than five motor vehicles with curbs cuts more than the permitted distance from the intersection.

PREMISES AFFECTED—1701-1725 Bedford avenue and 109-131 Sullivan place, northeast corner, Block 1304, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Adolph Friedel.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and set for hearing June 1, 1955, at 10 A.M., subject to the regular procedure, to permit two publications in the Bulletin.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

(Remaining Minutes of the Meeting of May 10, 1955 will be printed in the Bulletin of May 17, 1955.)

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on April 12, 1955, as they appeared in Bulletin No. 16, Vol. 40, are hereby corrected to read as follows:

10-54-BZ

APPLICANT—Lama, Proskauer and Prober, for St. Roch's R.C. Church, owner.

SUBJECT—Application for consideration—reopening as to amendment—re Application (decision of the borough superintendent), previously granted on condition, under sections 7f and 7i of the zoning resolution, permitting in a business use district, for a term of twenty years, the erection and maintenance of a class I structure to be used as a garage for more than five motor vehicles, lubrication, wheel alignment, brake testing, car washing, accessory sales, loading and unloading berth and office; and permitting the erection and maintenance of a gasoline service station, lubritorium, motor vehicle repair shop and permitting the parking and storage of motor vehicles on unbuilt upon portion of the plot.

PREMISES AFFECTED—801-807 4th avenue and 168-196 28th street, southeast corner, Block 665, Lots 6 and 19, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on June 29, 1954, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 29, 1954, by adding thereto:

"that as passed on by the Borough Superintendent on March 17, 1954, the lot numbers may be as follows:

Lot No. 6 for the proposed gasoline service station;

Lot No. 19 for the proposed garage;

that the assignment of two lot numbers for the proposed construction of gasoline service station and garage shall not in any way change the requirements of the resolution adopted by the Board June 29, 1954, except that separate permits may be issued thereunder for such lots, *as shown on revised plans marked 'Received February 17, 1955' (1) sheet'* (N.B. 1334/53).

*Correction—Reference to certain plans, inserted at the end of the resolution as indicated in italics.

COURT DECISION

(Continued from page 721)

City of New York. They are located in a retail use district, a class one-half height district and a D area district. Merrick boulevard is heavily trafficked and in the neighborhood of the site the character of the development is such that there is no economic demand for the immediate development of the subject premises for the purposes permitted under the present zoning resolution. After due notice and a complete hearing with an opportunity for those appearing in opposition to interpose any and all objections, an inspection of the site and the neighborhood was held by a committee of the board which thereupon unanimously granted the variance under review with certain conditions and safeguards as to adequately preserve the surrounding properties in such a manner as not to be detrimental to public health, safety and general welfare. It does not appear from the entire record that in so acting the respondent board abused its discretion, or acted in bad faith or that its action was unreasonable, arbitrary, discriminatory or illegal. Under these circumstances, it would be an abuse of discretion for this court to substitute its judgment for that exercised by the respondent board, consisting as it does "of men with special qualifications of training and experience" (People ex rel. Fordham M. R. Church v. Walsh, 244 N. Y., 280 287). ¶ Among the grounds urged in the petition for a reversal of the determination under review is the claim that the respondent board acted without authority and in direct contravention of section 21-A of the Zoning Resolution. That, however, is not borne out by the return which shows that the respondent board exercised its discretion solely pursuant to section 7(f) of the Zoning Resolution and that "inasmuch as the subject premises are in a retail use district, the provisions of sections 21-A and 21-F of the Zoning Resolution do not apply." It should be remembered that sections 7 and 21 of the Zoning Resolution are two independent provisions conferring distinct and separate powers upon the board. As was stated in Matter of Reed v. Board of Standards and Appeals (255 N. Y., 126, 134-135): "When the application is made under section 21, it must be shown that 'there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of the provisions of this resolution' which justify a variance in a specific case, but the mere fact that the property may be put to a more profitable use is not enough to justify the board in granting the variance. * * * When the application is made under section 7 and the appropriate subdivision thereof the field of inquiry is restricted. It is not necessary to allege or prove the facts required when the application is made under section 21 nor for the Board to make a decision thereon. The Board must in each case act on some reasonable basis in harmony with the general purpose of the resolution. Nothing more is required." ¶ The petitioners having failed to show that the respondent board abused its discretion in granting the variance under section 7(f), its determination must be sustained. Accordingly, the respective motions by the respondent board and the intervenor respondent to vacate the order of certiorari and to dismiss the petition are granted and the determination under review confirmed, without costs. This disposition makes it unnecessary to pass upon the second branch of the respondent intervenor's motion, i.e., that the petitioner the Laurelton Civic Association, Inc., is not a party aggrieved. There is no question that the three remaining petitioners are parties aggrieved. ¶ Submit one order." (N. Y. L. J., April 1, 1955, page 12)

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE RULES FOR ARC AND GAS WELDING AND OXYGEN CUTTING, COVERING THE SPECIFICATIONS FOR DESIGN, FABRICATION AND INSPECTION OF ARC AND GAS WELDED STRUCTURES AND THE QUALIFI- CATIONS OF WELDERS AND SUPERVISORS (CAL. NO. 1-38-SR—VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday morning, May 20, 1955*, at 10 A. M. in Room 1013, Municipal Building, Manhattan, on the following Proposed amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, Covering the Specifications for Design, Fabrication and Inspection of Arc and Gas Welded Structures and the Qualifications of Welders and Supervisors.

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS FEBRUARY 25, 1938.

EFFECTIVE MARCH 21, 1938. AMENDED MAY 17, 1940, EFFECTIVE JUNE 10, 1940; AND SEPTEMBER 17, 1954, EFFECTIVE OCTOBER 18, 1954.

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, of the Charter of the City of New York and C26-514.0 of the Administrative Code (8.6.2.2).

These Proposed Amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, as printed herein in *italics*, are as suggested by the Allied Building Metal Industries as to welding of light structural steel such as fire-escapes, railings, gratings, door-bucks, etc., which are generally shop welded.

Old matter, in brackets [], to be deleted; new matter, in *italics*, to be substituted therefor.

Rule 1. Application for Permits.

- 1.2 [The commencement of any structural welding work is forbidden until an application for a permit to perform such work is filed with and approved by the

Borough Superintendent. The Borough Superintendent shall be notified in writing at least 48 hours prior to the date when the structural welding work is to commence.]

Structural welding work shall be performed only by approved contractors employing certified welders.

Rule 9. Supervision and Inspection.

- 9.1 [Any welding to be done on a structure or any part thereof shall be performed under the supervision of a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect or licensed engineer. Such agency shall be acceptable to the Borough Superintendent.]

Any welding to be done on a structure or any part thereof, in the field, excluding bar joists, shall be performed under the supervision of a representative of the Department of Housing and Buildings, or a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect, or licensed engineer. Such agency shall be acceptable to the Borough Superintendent. Shop welding on structural steel performed by approved contractors shall be the responsibility of the approved contractor, and shall not require supervision or inspection.

Rule 11. Metal Chimneys, Tanks, Stairs and Fire-Escapes.

- 11.1 [Stairs and fire-escapes shall be considered as light structural steel and where shop welded, shall have attached thereto a tag or label, affixed by the standard Testing Agency, to the effect that these Rules have been complied with.]

Stairs, fire-escapes, railings, gratings, door-bucks and other miscellaneous and ornamental metal, ferrous and non-ferrous work, shall not be considered as structural steel and therefore when welded need not be inspected by a standard testing agency.

PUBLIC HEARINGS

Tuesdays at 10 a.m. to 2 p.m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building,
Manhattan.

THE LIBRARY OF THE

JUN 2 1955

HOURS OF CONSULTATION

10 A. M. to 1 P. M.

UNIVERSITY OF ILLINOIS

Any person desiring to consult the chairman or the
engineers, pertaining to the work of the board, will be
seen only between the hours of ten in the morning and
one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection
with which court proceedings are pending or in progress,
unless exception is granted by the chairman, nor accepted
which is not filed within thirty days from the date of the
action of the Administrative Official.

Any communication purporting to be an appeal or appli-
cation shall be regarded as a mere notice of intention to seek
relief until it is filed on the form required by the rules of
this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his appeal
or application.

At the time of filing an appeal or application, the appel-
lant or applicant shall forward a signed notice of appeal
addressed to the administrative official either borough super-
intendent of buildings or fire commissioner and file with
this board a duplicate of said notice.

Appellant and applicants are advised that their plans must
indicate the points of the compass so as to establish the true
location and position of the property, the subject of the
appeal or application.

Appeals and applications will be simplified and disposition
of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman*.

(Remaining Minutes of the Meeting of May 10, 1955
will be printed in the Bulletin of May 24, 1955.)
Notice of Public Hearing on Proposed Amendments to
the Rules for Arc and Gas Welding and Oxygen
Cutting.

CALENDAR

DOCKET

New Cases filed up to May 10, 1955

Cal. No. Dept. Premises Affected

346-55-BZ—H.B.B.—249-251 4th avenue, east side, 20 ft. north of Carroll street, Block 958, Lot 2, Borough of Brooklyn, Amendment to Alt. 4351-53—re opening between adjacent buildings, etc.

Approved appliances and materials are printed in the Supplement to the Bulletin of June 24, 1947, Vol. 32, No. 25A.

MAY 17, 1955, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing Tuesday morning May 17, 1955, at 10 o'clock in Room 1013, Municipal Building, Manhattan on the following matters:

660-54-BZ

APPLICANT—Carl H. Salminen, for Brantlin J. Mecklenburg, owner (Herman Glicker, lessee).

SUBJECT—Application August 25, 1954—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district the erection and maintenance of a gasoline service station, lubritorium,

motor vehicle repairs and office, with business entrances (curb cuts) and signs; and to permit the parking of motor vehicles.

PREMISES AFFECTED—45-04 Bowne street and 142-16 45th avenue, southwest corner, Block 5202, Lot 7, Flushing, Borough of Queens.

Laid over from February 15, 1955, to March 22, 1955, for inspection and decision; hearing closed; then to April 12, 1955, applicant to file revised plans, and for further consideration; then to April 26, 1955, applicant to file new decision of the Borough Superintendent as to enlarged plot; then to May 17, 1955, for applicant to file letter with the owner of Block 5202, Lot 54, within the hundred feet of the enlarged plot and to permit two publications in the Bulletin; and for decision.

581-54-BZ

APPLICANT—Joseph Cohen, for Jack and Ruth Feldman, owners.

SUBJECT—Application July 12, 1954—re (decision of the borough superintendent) under sections 7a and 21 of the zoning resolution, to permit in a residence use, E1 area district the existing occupancy as three family dwelling, formerly a two family dwelling, without the required side yard and nearer to the street line than is permitted.

PREMISES AFFECTED—1925 Hering avenue, west side, 243.76 ft. north of Rhineland avenue, Block 4275, Lot 29, Borough of The Bronx.

Laid over from March 8, 1955, to March 29, 1955, for inspection and decision; hearing closed; then to April 12, 1955, for applicant to file plans with the borough superintendent and obtain a complete examination and a new decision and to file an administrative appeal with the Board if necessary; premises have been inspected by a committee of the Board; then to April 26, 1955, for further consideration as to new objection filed at this hearing and revised plans filed at this hearing and for report from the Department of Housing and Buildings on letter written to that department; then to May 17, 1955, applicant to be notified.

249-33-BZ—Vol. III

APPLICANT—Patrick D. Concagh, for 1318 Fifth Avenue Corporation, owner (Lawrence Blau, lessee).

SUBJECT—Application reopened September 28, 1954 as Vol. III—re (decision of the borough superintendent) under sections 7f, 7i and 7h of the zoning resolution, to permit in a retail use district for a term of fifteen years the erection and maintenance of a gasoline service station, lubritorium, car wash (non automatic), motor vehicle repairs, storage and sale of accessories, and office, and to permit the parking and storage of motor vehicles waiting to be serviced.

PREMISES AFFECTED—1310-1312 5th avenue and 1 West 110th street, northwest corner, Block 1594, Lot 36, Borough of Manhattan.

Laid over from December 7, 1954, to January 18, 1955, for inspection and decision; hearing closed; then laid over pending court decision on similar case, as to entrance to park; date to be set; hearing previously closed; then set for May 3, 1955; then to May 17, 1955, for the correction of plans and determination as to application of Section 21A.

585-52-BZ—Vol. II

APPLICANT—Harry A. Yarish, for Joseph I. Lubin and Joseph Eisner, owners (Carl Speigel, lessee).

SUBJECT—Application reopened June 2, 1953 as Vol. II—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a restricted retail use district the parking and storage of motor vehicles, for a term of two years.

PREMISES AFFECTED—339-341 East 45th street, north side, 100 ft. west of 1st avenue, Block 1338, Lots 21 and 22 Borough of Manhattan.

Laid over from May 3, 1955, to May 17, 1955, for applicant to file a letter from the proposed operator who now is stated to operate the parking lot opposite on the south side of the street.

CALENDAR

41-55-BZ

JOSEPH J. DOYLE, *Chief Clerk.*

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on March 1, 1955, as they appeared in Bulletin No. 10, Vol. 40, are hereby corrected to read as follows:

CORRECTED REPORT OF COMMITTEE ON TEST

Re: Cal. 781-49-SA

Subject: Amendment to resolution as to additional size of gas fired drying tumbler.

Ace Cabinet Corp., New Bedford, Mass., requested by letter dated January 30, 1953, that the resolution adopted February 15, 1950 under Cal. No. 781-49-SA be amended so as to include an additional model. The application was reopened by a vote of the Board February 17, 1953.

Purpose

The appliance, a gas heated commercial drying tumbler is to be used for the drying of clothes by forcing hot air through the tumbling clothes.

Description

The requested model is similar to the model approved by the Board February 15, 1950 under Cal. No. 781-49-SA differing only in so far as the depth of the basket, and a change in design of the lint trap. The new model has a basket of either 18", 24" or 30" deep instead of the 18" depth of the approved model and the lint trap is of the pull out type instead of the fixed type. The cabinet has been changed to the extent of having a glass door and chrome trim.

There has been no changes in the heating equipment or safety controls.

Inspection and Test

The requested model was inspected by Asst. Engr. J. A. Darts, Committee on Test and the changes noted as herein described.

Recommendation

On the basis of the inspection and the data filed by the applicant the Committee recommends that the resolution adopted February 15, 1950 under Cal. No. 781-49-SA be amended so as to include the Models D-21, D-28 and D-35 as herein described on condition that the requirements of the resolution adopted February 15, 1950 under Cal. No. 781-49-SA be complied with.

* Correction: *Description*—add, of either 18", 24" or 30".
Recommendation—add Model Nos. D-21, D-28 and D-35.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on February 23, 1955, as they appeared in Bulletin No. 9, Vol. 40, are hereby corrected to read as follows:

CORRECTED REPORT OF COMMITTEE ON TEST

Re: Cal. 371-53-SM—Vol. II

Subject: Amendment to resolution as to Acousti-Line "Heavy-Duty Metal Suspension Ceiling".

W. L. Gates for the Celotex Corporation requested by filing an application dated July 23, 1954, that the resolution adopted September 22, 1953 under Cal. No. 371-53-SM be amended so as to include the Heavy-Duty Metal Suspension Ceiling. The application was reopened under Cal. No. 371-53-SM—Vol. II, by a vote of the Board on September 14, 1954.

Purpose

The system is a suspended incombustible ceiling.

Description

The system consists of hangers and channels spaced and installed in accordance with the requirements of C-26-461.0 Administrative Building Code. At right angles to the channels and spaced 54 inches on centers, steel panels, 6¾ inches wide by 1¾ inches high by 108 inches, of 24 gauge, are clipped to the channels by means of 12 gauge steel wire clips, the clips going over the channel and hooking into the panel. The acoustical tile 12 inches by 24 inches is then set in pairs, end to end between panels, so that the outer 12 inch edge of each pair of tiles is supported by the lower flange of the steel panel. A metal tee spline 47½ inches long is then placed in the kerfs of the 24 inch sides of the tile between the steel panels. The lower flange of the steel panel is so designed as to support the ends of 48 inches long recessed light troffers.

Inspection and Test

A sample ceiling was inspected and tested at Elizabeth, New Jersey in the presence of Asst. Engr. J. A. Darts, Committee on Test and V. Jacobson and W. L. Gates representing the applicant. The system was loaded so that on the pan itself carried a load of 88 lbs., to simulate a light troffer, four feet long, weighing approximately 10 to 12 lbs. per foot of length of troffer; at this load there was a deflection of 0.08 inches.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends that the resolution adopted September 22, 1953 under Cal. No. 371-53-SM—Vol. I, be amended so as to include the Acousti-Line Heavy Duty Metal Suspension System, when constructed and installed as herein described, on condition that the requirements of the resolution adopted September 22, 1953 under Cal. No. 371-53-SM—Vol. I be complied with.

The Committee further recommends that recessed light troffers weight between 10 and 12 lbs. per foot may be supported on the panel.

* Corrections: Subject—Add word Acousti-Line. *Recommendation*—4th line—Add word Acousti-Line.

REGULAR MEETING

TUESDAY MORNING, MAY 10, 1955, 10 A. M.

Present: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly.

The minutes of the regular meetings of the Board held on Tuesday morning and afternoon, April 26, 1955, were approved as printed in the Bulletin of May 3, 1955, Vol. 40, No. 18.

MINUTES

911-26-BZ—Vol. II

APPLICANT—Henry C. Brockman, for Gulf Oil Corporation, owner.

SUBJECT—Application reopened January 18, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7c, 7i and 7A of the zoning resolution, to permit in the residence and business use district, the extension in area and use of existing gasoline service station, to include lubricatorium, auto laundry (non automatic), motor vehicle repairs; and to permit the parking of cars waiting to be serviced, with a business entrance (curb cut) nearer the residence use than is permitted.

PREMISES AFFECTED—3550 Boston road, southeast corner of Kingsland avenue, Block 4728, Lots 70 and 76, Borough of The Bronx.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: Arnold Granereo and Anna Mastropaolo.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 1, 1955, at 10 A. M. for inspection and decision; hearing closed.

115-33-BZ—Vol. II

APPLICANT—Paul Friedman, for Julia McCarthy, owner (Esso Standard Oil Company, lessee).

SUBJECT—Application reopened January 11, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7e, 7f and 7i of the zoning resolution to permit in a residence and retail use district, for a term of fifteen years, the erection and maintenance of a gasoline service station, lubricatorium, auto laundry (non-automatic), motor vehicle repairs and office, and the parking of cars awaiting service.

PREMISES AFFECTED—222-15 Merrick boulevard, northwest corner of 223rd street, Block 12961, Lot 10 (tentative), Laurelton, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman and Joseph Lynch.

For Opposition: Edward Sharf, Gerald J. Tucker, Charles F. Safarik, Frieda Lieblein, Matilda T. Safarik, R. L. Williams, Rabbi Joseph Levinson and John Suesmond.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 1, 1955, at 10 A. M. for inspection and decision; hearing closed.

184-37-BZ—Vol. II

APPLICANT—A. H. Salkowitz, for Cedarcroft Associates, Inc., owner.

SUBJECT—Application reopened March 29, 1955 as Vol. II—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the use of portion of the cellar as an architect's office (originally intended as a doctor's office).

PREMISES AFFECTED—170-10 Cedarcroft road, southeast corner of Homelawn street, Block 9844, Lot 5, Jamaica Estates, Borough of Queens.

APPEARANCES—

For Applicant: A. H. Salkowitz, Alvin C. Berger and Carl Heim Berger.

For Opposition: Dr. Max Goldberg, Tillie M. Kahn, V. S. de Marchi, Marie Giorbano, M. Avila, A. Jodaro, Marie de Marchi, Helen M. Raia, Mrs. Henrietta Haack and Leon Brofsky.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 1, 1955, at 10 A. M. for inspection and decision; hearing closed.

461-37-BZ—Vol. IV

APPLICANT—Sylvan Bien, for 260 Madison Avenue Corporation, owner.

SUBJECT—Application reopened July 20, 1954 as Vol. IV—re (decision of borough superintendent) under sections

7e and 7h of the zoning resolution, to permit in a residence and restricted retail use district, the use of unbuilt upon plot for right of way and for the parking and storage of motor vehicles.

PREMISES AFFECTED—22B East 39th street, south side, 98 ft. east of Madison avenue, and 23 East 38th street, north side, 98 ft. east of Madison avenue, Block 868, Lot 53, Borough of Manhattan.

APPEARANCES—

For Applicant: J. G. Stone and Morris Brody.

For Opposition: Arthur H. Goldberg.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 1, 1955, at 10 A. M. for inspection and decision; hearing closed.

511-40-BZ—Vol. II

APPLICANT—Charles M. Spindler, for Howard McDonough, owner.

SUBJECT—Application reopened January 11, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubricatorium, auto laundry (non automatic), motor vehicle repairs, storage and sale of accessories and office, for a term of fifteen years.

PREMISES AFFECTED—367-377 Kings highway and 1750-1760 West 3rd street, northwest corner, Block 6653, Lots 27, 31 and 32, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph C. Haus.

For Opposition: Abram Shlefstein and Leonard Horn.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 17, 1955, at 10 A. M. at request of an objectant, applicant concurring.

539-43-BZ—Vol. II

APPLICANT—Patrick D. Concagh, for Irving London, owner.

SUBJECT—Application reopened September 21, 1954 as Vol. II—re (decision of the borough superintendent) under sections 7e and 19A(j) of the zoning resolution, to permit in a residence use district, the proposed change in occupancy from garage for more than five motor vehicles, to storage of junk and factory (wire working shop with power tools), and without the required loading berth and without the required height and width of entrance.

PREMISES AFFECTED—600 East 242nd street and 4748-4756 Bronx boulevard, southeast corner, Block 5103, Lots 37 and 42, Borough of The Bronx.

APPEARANCES—

For Applicant: P. D. Concagh and Irving London.

For Opposition: Joseph C. Buerkle, Theresa Clausen, Pauline Decker, Elizabeth We'has, Ann Crea, Mary Garvey, Florence Cantwell, Catherine V. Garvey and Philip Berman.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 24, 1955, at 10 A. M. for statement from applicant as to proposed tenancy; hearing closed.

736-51-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Bellnord Associates, Inc., owner.

SUBJECT—Application reopened March 15, 1955 by order of the Court—re (decision of the borough superintendent) previously denied under section 7e of the zoning resolution, to permit in the local retail use district, the erection and maintenance of a gasoline service station, lubricatorium, car wash, motor vehicle repairs, showroom for new and used

MINUTES

cars, parts department and office and to permit the parking and storage of cars, for a term of fifteen years (previously denied under sections 7e and 7A).

PREMISES AFFECTED—147-10 Northern boulevard and 37-01 to 37-09 147th street, southeast corner, Block 5016, Lot 18, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: J. H. Hoffnagle.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 17, 1955, at 10 A. M. for consideration; hearing closed.

424-52-BZ

APPLICANT—Schatz Systems, Inc., lessee, for Samuel Danzig, owner.

SUBJECT—Application reopened April 12, 1955 for consideration as to extension of term of variance—re (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a residence use district, the parking and storage of motor vehicles, for a term of years.

PREMISES AFFECTED—43-45 West 67th street, north side, 100 ft. east of Columbus avenue, Block 1120, Lot 5, Borough of Manhattan.

APPEARANCES—

For Applicant: Mervin Danzig.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 17, 1955, at 10 A. M. for applicant to file new decision of borough superintendent and for decision by the Board.

367-53-BZ

APPLICANT—Reginald S. Hardy, for Constance Counes, owner.

SUBJECT—Application May 13, 1953—re (decision of the borough superintendent) under sections 7e and 7f of the zoning resolution, to permit in a residence and retail use district the erection and maintenance of a gasoline service station, lubritorium, auto laundry (non automatic), storage and sale of accessories and office, for a term of fifteen years.

PREMISES AFFECTED—3632-3640 Eastchester road and 1167-1175 East 222nd street, northeast corner, Block 4901, Lot 17, Borough of The Bronx.

APPEARANCES—

For Applicant: R. S. Hardy.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to October 18, 1955, at 10 A. M. for inspection and decision; hearing closed.

672-54-BZ

APPLICANT—Michael A. Cardo, for Estate of John Cepollaro, owner, Rose Cepollaro, Executrix.

SUBJECT—Application September 13, 1954—(decision of the borough superintendent) under section 7h of the zoning resolution, to permit the extension of existing legal parking and storage of motor vehicles in restricted retail use district, to extend into the residence use district portion of plot.

PREMISES AFFECTED—26-34 City Island avenue, northeast corner of Belden street, Block 5637, Lots 61, 72, 75 and 139, Borough of The Bronx.

APPEARANCES—

For Applicant: Michael A. Cardo.

For Opposition: Austin Graham.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 17, 1955, at 10 A. M. for applicant to file revised plans showing additional fences along easterly lot line and Rochelle street, and for decision; hearing previously closed.

864-54-BZ

APPLICANT—Max Horn, for Harry Wolsky, owner.

SUBJECT—Application November 16, 1954—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the erection and maintenance of a business building (warehouse), with an entrance nearer the residence use district than is permitted.

PREMISES AFFECTED—178-15 Eveleth road, north side, 109.87 ft. north of Merrick boulevard, Block 12490, Lot 39, Springfield Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Max Horn and Harry Wolsky.

For Opposition: Joseph Schmidt and J. C. Ulk.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 1, 1955, at 10 A. M. for inspection and decision; hearing closed.

900-54-BZ

APPLICANT—John F. Fitzsimons, for Arthur Miller, owner.

SUBJECT—Application November 30, 1954—re (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, E1 area district, the erection and maintenance of a one family dwelling without the required set back.

PREMISES AFFECTED—145-08 Hook Creek boulevard, west side, 50.09 ft. south of 257th street, Block 13603, Lot 31, Rosedale, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons and Arthur Miller.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 1, 1955, at 10 A. M. for inspection and decision; hearing closed.

901-54-BZ

APPLICANT—John F. Fitzsimons, for Sylvia Ackerman, et al., owners.

SUBJECT—Application November 30, 1954—re (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use G1 area district, the erection and maintenance of twelve (12) one family dwellings without the required set back.

PREMISES AFFECTED—133-40 to 135-14 Hook Creek boulevard, southwest corners of 133rd drive and 133rd road; west side of Hook Creek boulevard 61.95 ft. south of 133rd road; 72.31 ft. south of 133rd drive; 41.32 ft. north of 134th avenue; 181.89 ft. south of 134th avenue; 40.42 ft. north of 135th road and 40.42 ft. south of 134th avenue; 20.21 ft. south of 135th avenue; 101 ft., 141.42 ft. and 181.84 ft. north of 135th avenue; Block 13210, Lots 1 and 4; Block 13211, Lots 1, 7 and 8; Block 13217, Lots 33, 43, 45 and 47; Block 13227, Lots 12 and 17, Rosedale, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons and Arthur Miller.

For Opposition: Frank Carrion, Thomas F. Hickey, Joseph A. Kelly, Alice R. Kelly and Antoinette Carrion.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to June 1, 1955, at 10 A. M. for inspection and decision; hearing closed.

MINUTES

973-54-BZ

APPLICANT—Albert E. Deer for Esso Standard Oil Co. owner.

SUBJECT—Application December 27, 1954—(decision of the borough superintendent) under sections 7c and 7i of the zoning resolution, to permit in a residence and retail use district, the reconstruction of existing gasoline service station to include, motor vehicle repairs, lubritorium, car washing and office, and to permit the parking of motor vehicles awaiting service.

PREMISES AFFECTED—140-06 Farmers boulevard, southwest corner of 140th avenue, Block 12592, Lot 37, Springfield Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: Edward Sullivan.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

617-31-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Socony Vacuum Oil Co. Inc., Rose Razzetti, Adele M. Razzetti and Josephine M. Razzetti, owners.

SUBJECT—Application November 16, 1954 (decision of the borough superintendent), under sections 7c and 7i of the zoning resolution, to permit in a residence and business use district, the reconstruction and extension of existing gasoline service station (previously granted by the Board), and the demolition of existing accessory building and the construction of a new accessory building to be used as a lubritorium, car wash, motor vehicle repairs, storage and sale of accessories, and office; and to permit the installation of a pit for the lubrication of trucks and the addition of six 550 gallon storage tanks and the reconstruction of curb cuts and to permit the parking and storage of motor vehicles on open area of plot.

PREMISES AFFECTED—1294-1310 Sedgwick avenue, east side, 143.35 ft. south of West 169th street, Block 2530. Lots 28, 32 and 40, Borough of The Bronx.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 11, 1955 subject to regular procedure, to consider new proposal; and

WHEREAS, a public hearing was held on this application on May 10, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Sedgwick avenue are in residence and business use, B area, class 1¼ and class 1½ height districts; West 169th street is in a residence use, B area, class 1¼ and class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated October 22, 1954 acting on N.B. Applic. 824-54, reads:

"1. In a business and residence district the proposed reconstruction and extension of the existing gasoline service station, lubritorium, car washing, minor auto repairs, utility room, store, parking and storage of motor vehicles is contrary to Art. II Sec. #3 & Sec. #4 of the Zoning Resolution & to Resolution of the Bd. of S. & A. Cal No. 617-31-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 244.18 ft. frontage by 100 ft. in depth, irregular, on which is located a gas station having legal metes and bounds of 164.48 ft. on the former building line of Sedgwick avenue, 73.82 ft. on the northerly lot, irregular along the easterly and southerly lot lines, consisting of four 550 gallon buried gas tanks, four dispensing pumps, a one story building of class 3 construction having a frontage of 28 ft. and a depth of 26 ft., and being used for lubritorium, car washing and minor auto repairs, and store; that adjoining the building to the north there is an open grease pit; that the entire plot is concrete paved and there are three 30 ft. curb cuts along Sedgwick avenue; that the open area is being used for parking and storage of motor vehicles; that the existing gas station was erected under permit No. 498-1936 under Cal. No. 617-31-BZ, and for which certificate of occupancy No. 90 was issued for a gas station on March 10, 1938; and

WHEREAS, the applicant states that the premises are in class B area district; that part of the premises within 100 ft. of Sedgwick avenue is in a business use district and a class 1½ height district and that part of the premises beyond 100 ft. of Sedgwick avenue is in a residence use district and a 1¼ height district; and

WHEREAS, the applicant states that it is proposed to maintain the present uses of gas station, car wash, minor auto repairs, lubritorium, store and parking and storage of motor vehicles, demolish the existing structure and erect a new, modern accessory building containing the conjunctive uses of lubritorium, car wash, minor auto repairs, utility room and store, having a frontage of 55 ft. and a depth of 27 ft. 8 in., one story in height, of class 3 construction; that it is also proposed to install one open truck pit, relocate the gas pumps and add six new 550 gallon gas tanks, making a total of 10, install four 30 ft. curb cuts along Sedgwick avenue, extend the gas station to a final plot size of 244.18 ft. along the new building line of Sedgwick avenue, 49.53 ft. along the northerly lot line and irregular along the southerly lot line and along West 169th street; that the open area will be used for parking and storage of motor vehicles; and

WHEREAS, the applicant contends that inasmuch as the present gas station is a legal use, the widening of Sedgwick avenue has reduced the depth of the station, so that the extension to the south is required for normal operation of this station; that the gas station has been in constant use since 1938 and has therefore shown the need for this service and its extension will allow the owners to render a more efficient service to the public; that Sedgwick avenue is a main auto lane and as such the present gas station and its extension are entirely within keeping at this point; that the removal of the existing building and its replacement with a new and modern building will improve the appearance of the entire neighborhood; and

WHEREAS, the applicant states that ½ interest in lots 28 and 40 has been held by Adele M. Razzetti and Josephine M. Razzetti since June 12, 1916 and the other half by Rose Razzetti since May 18, 1950; that the assessed valuation of land is \$18,500 and of the building \$4,000 making a total of \$22,500; that the building was erected in 1938; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on May 17, 1932, as thereafter amended by resolutions adopted through November 9, 1937, by adding thereto:

"that in the event due to the proposed widening of Sedgwick avenue, the owner desires to rearrange the existing gasoline service station and to extend the area to the south, substantially as proposed and as indicated on plans filed with this application, marked "Received November 16, 1954," 6 sheets, such extension of area and reconstruction of the building for the uses proposed may be permitted, provided the proposed accessory building complies with the requirements of the Building Code therefor; that there shall be no cellar in such building;

MINUTES

that the building shall be faced with face brick; that a truck lift may be installed where shown; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and with the resolutions above cited where not inconsistent with this resolution; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that the existing pumps may remain, provided they are not less than 10 feet from the street building line; that the arrangement of the toilet facilities shall be changed so as to separate the doors thereto; that under Section 7i, minor auto repairing may be permitted with hand tools only, within the accessory building; that parking of cars may be permitted, but so parked as not to interfere with the servicing facilities; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution."

170-37-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Hermine Corlis, owner, Socony Vacuum Oil Co. Inc., lessee.

SUBJECT—Application February 11, 1955 (decision of the borough superintendent), under sections 7f and 7i of the zoning resolution, to permit in a retail use district, for a term of fifteen years, the maintenance and reconstruction of existing gasoline service station, store, lubritorium, car wash, motor vehicle repairs, and to permit the parking of cars waiting to be serviced (previously granted by the Board for a term of years—expires April 10, 1955).

PREMISES AFFECTED—79-05 Little Neck parkway and 253-02 to 253-08 Union turnpike, southeast corner, Block 8690, Lot 63, Floral Park, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinfert and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on March 1, 1955 subject to regular procedure, to consider alteration, additional tanks and other items; and

WHEREAS, a public hearing was held on this application on May 10, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Little Neck parkway are in a retail use, D area, class 1 height district; Union turnpike is in residence and retail use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated February 10, 1955 acting on Alt. Applic. 2270-54, reads:

"1. The extension of an existing gasoline service station, office, heater room, & lubritorium in a retail use district, to include car washing, minor auto repairs & parking of cars awaiting service, is contrary to Art. 2 Sec. 4A of Zone Res. & is contrary to B. of S. & A. Res. Cal. 170/37/BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 99.37 ft. frontage by 61.98 ft. in depth, irregular; that as of July 15, 1916 the premises were in a business use district and received its present use designation on July 28, 1946; that the premises are presently developed with a gasoline service station consisting of four 550 gallon gas tanks, four dispensing pumps and an accessory building one story in height, of class 3 construction, having a frontage of 47 ft. 2½ in. and a depth of 28 ft. 3 in., irregular, and is being used for lubritorium, car washing, minor auto repairs, store

and heater room; that the open area is being used for parking of cars awaiting service; that the gas station was established under permit No. 969 of 1937 and under Cal. No. 170-37-BZ; that certificate of occupancy No. Q-34973 was issued June 6, 1949 for gas station, office, heater room and lubritorium, and expires April 10, 1955; and

WHEREAS, the applicant states that it is proposed to maintain the existing uses of gas station, store, heater room, lubritorium, car wash, minor auto repairs and parking of cars awaiting service; that it is also proposed to replace the existing parkway type pumps with new approved low type gasoline pumps 15 ft. from the building, install four additional 550 gallon gas tanks, making a total of eight 550 gallon gas tanks, enlarge the two existing curb cuts on Union turnpike to 30 ft. each, rebuild the curb on Little Neck parkway so as to have one 20 ft. cut and one 22 ft. cut, remove the planted area at the intersection of the building lines and erect a 12 in. high concrete island 5 ft. along each building line, at the intersection of Union turnpike and Little Neck parkway, reduce the planting along the southerly building line to a minimum of 5 ft.; and

WHEREAS, the applicant contends that this gas station has been in continuous operation since the issuance of the certificate of occupancy; that Little Neck parkway and Union turnpike are heavily trafficked auto lanes and as such the rehabilitation of the station will be entirely within keeping at this point; that the remaining 5 ft. planted area along the southerly lot line will still act as a buffer for adjoining residences; and

WHEREAS, the applicant states that the present owner has held title to the property since June 4, 1935; that the assessed valuation of land is \$36,000 and of the building \$11,000 making a total of \$47,000; that the building was erected in 1946; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on April 12, 1938, as thereafter amended by resolutions adopted through November 7, 1945, by adding thereto:

"that in the event the owner desires to reduce the amount of planting heretofore required and to arrange the curb cuts now in conformity with the prior resolution so as to provide two curb cuts to Little Neck Parkway, each not over 20 feet in width and two cuts to Union Turnpike, each 30 feet in width and to remove the pumps and change their location so as to be not nearer than 15 feet to a street building line, all as proposed and indicated on plans filed with this application marked 'Received February 11, 1955', 7 sheets, such changes may be permitted, on condition that in all other respects the resolutions above cited shall be complied with; that the proposed pumps shall be of an approved low type; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that the term of this variance may be for ten years from the date of this amended resolution, under section 7f; and that all permits required shall be obtained, including a new certificate of occupancy and all work completed within six (6) months from the date of this amended resolution."

Negative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on April 3, 1951 subject to regular procedure and restored to calendar; and

WHEREAS, a public hearing was held on this application on April 19, 1955 after due notice by publication in the Bulletin; laid over to May 10, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, East 80th street and East End avenue are in a residence use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated October 6, 1954 acting on amendment to Alt. Applic. 193-48, reads:

"1. Changing from one non-conforming use (testing laboratory) to another non-conforming use (factory) in a Residence use District is not permitted. Art. II para. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 123 ft. frontage by 102 ft. 2 in. in depth, on which is located a building partly 3-story and cellar and partly a two-story cellar situated on the southwest corner of East End avenue and East 80th street, fronting 102 ft. 2 in. on East End avenue and 123 ft. on East 80th street; that the two story building is known as No. 10-12 East End avenue and was always and is now classified as a factory building of non-fireproof construction; that the three story part of the building is known as No. 536-40 East 80th street and is of fireproof construction; that this building is located in a B area district, residence use district and a 1½ height district; that the height and area district designations have not changed since July 25, 1916; that prior to July 25, 1916 this building was located in an unclassified district; that after July 25, 1916 up to January 26, 1928 this building was still located in an unclassified use district; that on January 26, 1928 this district was designated as residence; and

WHEREAS, the applicant further states that the entire building, when erected in 1888 was designed as a light and power plant with 14 boilers and a smoke stack of 6 ft. 6 in. by 10 ft. inside dimensions, together with a coal bunker for 500 tons of coal; that there were a number of dynamos on the 2nd floor driven by steam and generating electricity for light and power, which was sold to a great number of consumers throughout the neighborhood; that this building, when approved, was classified as a factory building and used as such until 1904; that from 1904 until 1935 the entire building was used as an electric testing laboratory, where remodeling and refitting of motors and other electrical equipment was done and was always classified as a factory; that from 1935 to 1942 the building was mostly vacant; that from 1943 until 1945 the building was used as a storage warehouse for plumbing fixtures and for fitting and cutting of piping and repairing of plumbing fixtures, with more than 12 men employed in manufacturing and under the jurisdiction of the fire department; that in 1945 the entire building was leased for manufacturing purposes and was under the jurisdiction of the fire department; that the entire building is vacant at the present time and does not contain any machinery of any kind; and

WHEREAS, the applicant states that it is proposed to install a new fireproof stairway in building No. 10-12 East End avenue and to install fireproof partitions and self-closing doors around the stairway in building No. 536-40 East 80th street in order to comply with the rules and regulations of

the labor laws and the department of housing and buildings in regard to a factory for light manufacturing; and

WHEREAS, the applicant contends that the owner is willing to spend a considerable amount of money to comply with all rules and regulations; that due to the fact that the two story factory building known as No. 10-12 East End avenue is classified as a factory and is connected with the three story factory building known as 536-40 East 80th street and which has been used as a factory since it was erected, a variation is requested to permit the continuation of the present use of the building as a factory; and

WHEREAS, the applicant states that the present owner has held title to the property since April 20, 1942; that the assessed valuation of land is \$152,000 and of the building \$8,000 making a total of \$160,000; that the building was erected in 1888; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board finds that the building should not be continued or remodeled at great expense to a factory; that its present assessed value indicates that the building has outlived its usefulness and should be replaced with a conforming building in keeping with the adjacent buildings along East End avenue; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision e of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 193-48, Objection No. 1 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

212-52-BZ

APPLICANT—Reginald S. Hardy, for U. K. Realty Corp., owner.

SUBJECT—Application reopened March 29, 1955 for consideration as to extension of time to complete—re (decision of the borough superintendent), previously granted on condition, under section 21 of the zoning resolution, permitting in a business use, C area district, the erection and maintenance of a building (stores) using more than the area permitted, (premises now in a residence use district).

PREMISES AFFECTED—800-816 Empire boulevard, south side, 354 ft. east of Troy avenue, Block 1427, Lot 20. Borough of Brooklyn.

APPEARANCES—

For Applicant: R. S. Hardy.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Time extended to complete work.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on November 12, 1952 this application was granted by the Board on certain conditions, under section 21 of the zoning resolution, as to area, to permit in a business use, C area district the erection and maintenance of a commercial store building; and

WHEREAS, on December 15, 1953 the application was reopened and time to complete was extended; and

WHEREAS, the applicant requested reopening of this application and extension of time to obtain permits and complete the work, which had expired by time limitation; and

WHEREAS, this application was reopened on March 29, 1955, and set for hearing on May 3, 1955 at 10 A. M., subject to regular procedure waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin, to consider extension of time to complete in view of the time permitted to complete as stated in resolution adopted November 12, 1952 as amended by resolution adopted December 15, 1953 having expired on November 12, 1954 and to consider affirmation of the resolution adopted November 12, 1952, in view of the change in zoning; and

MINUTES

WHEREAS, a public hearing was held on this application on May 3, 1955 after due notice by publication in the Bulletin; laid over to May 10, 1955, for applicant to obtain and file a decision of the borough superintendent; and

WHEREAS, the decision of the borough superintendent, dated May 6, 1955 acting on N.B. Applic. 19-52, reads:

"1. Proposed construction of one story class 3 structure located on a lot within a C area district to occupy entire area of lot violates Art. IV Sec. 13b Bldg. Zone Resolution.

2. Proposed use of structure located within a lot in a residence use district for "stores" violates Art. II Sec. 3 Bldg. Zone Resolution."

and

WHEREAS, the applicant contends that since the action of the Board under this calendar number, this property has been rezoned so that it is now located within a residence use district.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on November 12, 1952 only so far as it has reference to the time within which to obtain permits and complete the work, so that as amended this portion of the resolution shall read:

"that all permits shall be obtained and all work completed with the requirements of Section 22A of the Zoning Resolution from the date of this amended resolution, N. B. 19-52, as disapproved by the borough superintendent under date of May 6, 1955, reaffirming the decision of the Board as to use of the premises now in a residence zone and formerly in a business zone; under the conditions as stated in the resolution adopted November 12, 1952."

623-53-BZ—Vol. II

APPLICANT—Max Horn, for James J. Wolfson, Sidney M. Siegel and David Koss, owners.

SUBJECT—Application September 15, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit, for a term of twenty years, in a residence use district, the erection and maintenance of a business structure (stores) and to permit the parking of patrons' and employees' motor vehicles on unbuilt upon portion of plot (previously withdrawn re, permit the erection and maintenance of a gasoline service station).

PREMISES AFFECTED—60-01 to 60-31 Beach Channel drive and 305-321 Beach 60th street, southwest corner; 60-02 to 60-30 Arverne boulevard, Block 385, Lot 42, Arverne, Borough of Queens.

APPEARANCES—

For Applicant: Max Horn.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on September 28, 1954 subject to regular procedure, to consider a new proposal; and

WHEREAS, a public hearing was held on this application on April 19, 1955 after due notice by publication in the Bulletin; laid over to May 10, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Beach Channel drive, Beach 60th street and Arverne boulevard are in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated September 13, 1954 acting on N.B. Applic. 2866-54, reads:

"1. The construction of stores and parking for patrons & personnel in a Res. use Dist., is contrary to Art. 2 Sec. 3 of Zone Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 316.54 ft., 293.31 ft. and 173.36 ft., triangular in shape, presently vacant; that the property is in a residence use, D area, having been changed on September 12, 1949 from business D; that it is proposed to build a group of 9 stores including a super market, with parking area, which will serve the shopping needs of a growing residential area, to the east and west, including proposed apartment houses in block 380; that the owners of the block under appeal also own block 384 between Beach Channel drive and Arverne boulevard and it is intended to build an apartment house on this plot in the near future; and

WHEREAS, the applicant contends that there is no shopping center on the entire length of Beach Channel drive, from about 115th street in Rockaway park to Mott avenue in Far Rockaway, except for a few isolated stores around Beach 68th street; that the proposed store block, with a frontage of 316 ft., would be a modern, complete local retail shopping center, modern in design with stone piers, enamel metal or marble faced cinder concrete front, and parking facilities for patrons is to be provided; and

WHEREAS, the applicant states that the present owner has held title to the property since January 21, 1953 and that the assessed valuation of land is \$8,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7e for a term of twenty years to permit the premises to be developed with a business structure substantially as proposed and as indicated on plans filed with this application marked, "Received, September 15, 1954" (4 sheets), and to permit in connection with such structure the use of the portion of the premises where proposed along Arverne Boulevard and Beach 60th Street, as shown on such plans, for parking solely for the employees and patrons of the proposed store building; that in all other respects the store building shall comply with all laws, rules and regulations applicable when located in a local retail district; that the parking space shall be levelled substantially to the grade of Beach 60th Street and shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that there shall be erected on the building lines of Arverne Boulevard and the now proposed building line of Beach 60th Street a woven wire fence of the chain link type not less than five feet six inches in height including a masonry base, with no openings therein except two for entrance and exit to Beach 60th Street, as shown; that such openings shall be fitted with gates of a similar construction to the fence; that opposite such openings there may be two curb cuts located approximately where shown to Beach 60th Street, no more than twelve feet in width each; that such gates shall remain locked except when the premises are open for business; that signs shall be restricted to a permanent sign attached to the fence at the entrance advertising the limited parking use, such sign shall not exceed fifteen square feet in area and shall not be illuminated and shall not extend beyond the building line; that all other signs shall comply with the requirements for signs on premises located in a local retail district but shall not include any pylon or other sign on or above the roof; that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

APPLICANT—Leonard F. Rothkrug, for 29 Morrell Street Realty Corp., owner.

MINUTES

SUBJECT—Application May 14, 1954 (decision of the borough superintendent), under section 19A(j) of the zoning resolution, to permit in an unrestricted use district a loading berth with an entrance less than the required height.

PREMISES AFFECTED—25-29 (29-31 displayed) Morrell street, west side, 51 ft. 9 in. south of Cook street, Block 3121, Lot 23, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 19, 1955 after due notice by publication in the Bulletin; laid over to May 10, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Morrell street and Cook street are in unrestricted use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated April 29, 1954 acting on Alt. Applic. 619-54, reads:

"3. Provisions required for off street loading & unloading as per Sect. 19A of the zoning resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 75 ft. in depth, on which is located a building covering entire lot, five stories, 57 ft. in height, of class 3 construction; that this building was erected in 1910, originally used for baths on the 1st and 2nd floors and manufacturing lofts on the 3rd, 4th and 5th floors, converted to a public bath and dwellings in 1939 and to its present factory use in 1952; that temporary certificate of occupancy No. 127957, expiring October 8, 1958 was issued in 1950 providing for occupancy as follows: Cellar—storage and boiler room; 1st floor—baths; second floor—baths and restaurant; 3rd and 4th floors—baths; 5th floor—baths and 1 family—note—persons accommodated are either male or female—no overnight occupancy on 4th and 5th floor (Baths); that the Board of Estimate granted approval for existing outside stairway for a period of 10 years, expiring October 8, 1958, revocable at any time by resolution of the Board of Estimate; that Cal. No. 343-47-A, granted by the Board on July 22, 1947 was an appeal from the decision of the borough superintendent to omit the enclosure of the existing outside stairway; that the building is presently occupied on all floors for the storage and manufacturing of electrical parts; and

WHEREAS, the applicant contends that the building has been extensively altered to provide for the changed occupancy; that provision has been made for off street loading and unloading in accordance with the structural limitations of the building and in accordance with business needs; that the building was altered at about the time section 19-A became effective and the owner was not aware of the new requirements of the zoning resolution; that the off-street loading provisions have nevertheless been satisfactory since the manufacture of electrical parts does not necessitate the use of big trailer trucks; that the height of the off-street loading berth and of the entrance is 11 ft. 2 in., and in order to provide any additional height it would require a costly structural change to the 2nd floor; that the depth of the loading berth is determined by the existing interior stairs and the existing outside stairway; and

WHEREAS, the applicant states that the present owner has held title to the property since December 2, 1952; that the assessed valuation of land is \$4,400 and of the building \$40,600 making a total of \$45,000; that the building was erected in 1910; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 19A, subdivision j of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area district regulations of the zoning resolution and that the application be and it hereby is granted under Section 19A subdivision j to permit the loading berth as proposed and as indicated on plans filed with this application marked, "Received, May 14, 1954" (one sheet, area plan) and "March 10, 1955" (12 sheets) on condition that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified this day under Cal. No. 401-54-A and the terms of resolution adopted under Cal. No. 373-47-A, insofar as applicable to the existing exterior stair; that there shall be a partition erected across the loading space so that the stairs and elevator will exit direct to street; that all permits shall be obtained, including a new certificate of occupancy and all work completed within six months of the date of this resolution.

401-54-A

APPLICANT—Leonard P. Rothkrug, for 29 Morrell Street Realty Corp., owner.

SUBJECT—Application May 14, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—25-29 (29-31 displayed) Morrell street, west side, 51 ft. 9 in. south of Cook street, Block 3121, Lot 23, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated April 29, 1954, on Alt. App. 619/54, reads:

"1. Proposed factory in a Class 3 constructed bldg. 5 stories in height is contrary to Sect. 270 of the Labor Law.

2. The means of egress from all floors to comply fully with Sect. 270 of the Labor Law."

and

WHEREAS, the applicant states the building is 5 stories, 57 feet in height, 50 by 70 feet in area, of Class 3 construction, erected in 1910 on a lot 50 feet front by 75 feet in depth, in an unrestricted use, B area, Class 1½ height district; used and occupied since 1952: cellar—storage and boiler room; 1st floor—manufacturing electric parts and storage, 8 persons; 2nd floor—manufacturing electric parts and office, 7 persons; 3d, 4th and 5th floors—manufacturing electric parts and storage, 6 persons on the 3d, 13 on the 4th and 11 on the 5th floors; that no change in use or occupancy is now proposed; that the building is provided with one interior 3 ft. wide steel stairs, fireproof enclosed, equipped with fireproof, self-closing doors extending from roof bulkhead direct to street and one fire escape at front extending to street by stair; window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, the applicant states that the building was erected in 1910 for baths on the 1st and 2nd floors and manufacturing lofts on the 3d, 4th and 5th floors and converted to a public bath in dwellings in 1939 and converted to its present factory use in 1952; that in 1950 temporary certificate of occupancy No. 127957 was issued to expire October 8, 1958,

MINUTES

permitting the following use and occupancy: cellar—storage and boiler room; 1st floor—baths, 72 persons; 2nd floor—baths and restaurant, 91 persons; 3d and 4th floors—baths, 77 persons per floor; 5th floor—baths and 1 family, 41 persons; that the Board of Estimate on October 8, 1948, granted approval for the existing outside stairway for a period of ten years; that the Board of Standards and Appeals under Cal. 343-47-A on July 22, 1947, permitted the omission of the enclosure on existing outside stairway; that the building was substantially altered and modernized prior to the present factory occupancy; that there are two means of exit to the street and from cellar and all floors, one consisting of a 3 ft. wide interior stair and the other an exterior stair permitted by the Board to remain unenclosed under Cal. 343-47-A; that there is one tenant occupying the entire building; that all doors to the stair enclosure and along the course of the fire escape are 1½ hour firetest, fireproof, self-closing and windows on the course of the fire escape and throughout the building have been replaced with new steel windows; and

WHEREAS, the applicant contends that the single tenant occupying the entire building is less hazardous than the prior use and occupancy for which the certificate of occupancy was issued and in view of these facts it is requested the Board grant a variation of the requirements of the Labor Law and permit the continuance of the existing use in the building; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 619-54, Objection No. 1 and 2 and that the appeal be and it hereby is *granted, on condition* that the building shall not be increased in height or area beyond the five stories as proposed: that the means of egress from all floors may be as proposed and as indicated on plans filed with the application for a zoning variance under Cal. No. 400-54-BZ, and in accordance with the resolution adopted thereunder on this day; that such fire fighting equipment shall be installed as the Fire Commissioner shall find necessary; that the exterior stairway to the street, formerly permitted when the building was occupied as a public bath, may continue only during the term for which such stairway was permitted by the Bureau of Franchises of the Board of Estimate in connection with public bath occupancy or until terminated on or prior to October 8, 1958 and; that a new certificate of occupancy shall be obtained.

791-54-BZ

APPLICANT—David Kraus, for Lawmark Realty Co. Inc., owner.

SUBJECT—Application October 13, 1954 (decision of the borough superintendent), under sections 7e and 21 of the zoning resolution, to permit in a residence use district the change in occupancy of four story structure, from private office, dwelling for one family, maid's rooms and kitchen, to professional offices on 1st, 2nd and 3rd floors, with apartment on 4th floor, and to permit the existing one story structure on rear of lot to remain as a storage room for office records, without the required rear yard.

PREMISES AFFECTED—119 East 36th street, north side, 144.2 ft. west of Lexington avenue, Block 892, Lot 11, Borough of Manhattan.

APPEARANCES—

For Applicant: David Kraus, John P. Fox and Julius Hallheimer.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinfert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 12, 1955 after due notice by publication in the Bulletin; laid over to May 10, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, East 36th street and Lexington avenue are in a residence use, B area, class 1½ height district; and

WHEREAS, the decisions of the borough superintendent, dated September 15, 1954 acting on N.B. Applic. 51-54 and Alt. Applic. 1012-54, read:

"6. Proposal to erect a structure, arranged to be used for commercial use, in a residence use district, is contrary to Art. II Sect. 3 of the Zon. Resol.

7. In accordance with Sect. 17 of Art. IV of the Zon. Resol. a rear yard must start at the curb level.

"3. Proposal to occupy subject premises, located in a residence use district, as professional offices is contrary to Art. II Sect. 3 of the Zon. Resol."

and

WHEREAS, the applicant states that the premises consist of a plot, 16.2 ft. frontage by 98.9 ft. in depth on which is located a four story and cellar building at the front, having a width of 16.2 ft., a depth of 60 ft. and a height of 45 ft.; that at the rear portion of the site is a one story structure recently erected having a width of 15.7 ft., a depth of 11 ft. 4 in. and a height of 7 ft. 2 in.; that a search of the records at the department of housing and buildings revealed nothing as to the age of the front building; that this building has been approved for office, maids' rooms and residence; that a copy of the certificate of occupancy for the front building is submitted with this application; that it is proposed to change the occupancy for the front building to professional offices, residence and caretaker's apartment and to obtain acceptance of the recently erected structure at the rear of the property; and

WHEREAS, the applicant further states that the present owner, who recently acquired the premises, proposes to use the same for the occupancy of four attorneys, one of whom uses the 4th floor as his residence; that all the offices in the building are used in a highly selective professional capacity which handles a chosen and high type of clientele; that for some 9 years prior to their occupancy and the acquisition of the building by the present owner, it was used and occupied as law offices to the extent of 2 to 3½ of the four floors above the basement; that the building at all times met with the approval of other persons in this area and the Title Guaranty & Trust Company, by its policy of title insurance, insured that the structure might be continued for use as a residence or for professional offices notwithstanding an old restrictive covenant (similar to the zoning ordinance), on the theory that continued prior occupancy and change in the character of the neighborhood could be no longer considered effective; that the Murray Hill association, an organization consisting of property owners in this neighborhood and keenly interested in maintaining the standard of the neighborhood, both prior to the acquisition of the premises and since has unqualifiedly approved the occupancy; that it was only after ascertaining that this association approved the occupancy, that the premises for some 9 years immediately prior had been used for law offices, that the title company would insure against the covenant, that no violations were on file and that any number of buildings in the area were being used for not only professional use but for commercial purposes, that the premises were acquired; that now after the present owner has spent many thousands of dollars in repairs, redecorating, refinishing and rehabilitating the entire building, both on the interior and exterior and making it probably the most presentable building on the street, that the occupancy is challenged; that the entire front of the building has had all stone work repaired and has been refinished with great care to preserve its residential character; that no portion of the premises will be used at any time for a profession not recognized as such by the Board of

MINUTES

Regents; that there are various commercial uses throughout the entire neighborhood of a much less desirable type than the one proposed; that many changes have taken place in this area in the past number of years and particularly this street which now is the principal artery for heavy east bound vehicular traffic leading directly to the Queens midtown tunnel; that the former certificate of occupancy permitted limited professional use, but modern legal practitioners cannot properly function in space the equivalent of a single room; and

WHEREAS, the applicant contends as to objection No. 6, the structure in question at the rear of the premises consists of a class 3 building having masonry enclosure walls and a wood beam roof; that the entire area of the structure is 185 sq. ft. having a total height of 7 ft. 2 in. from the finished floor to the top of the roof beams; that it will have an exceptionally limited use for the purpose only of storing small items of office files and equipment including varied items from the residence portions of the building; that no rubbish will be allowed to accumulate and no person will be employed in this structure; that many properties adjoining have sheds of varied types used for varied purposes, all of which are old; and

WHEREAS, the applicant contends as to objection 7, that the storage shed which is located on the rear lot line and for a partial distance on both side lot lines is partially below curb grade; that the roof of this structure is below the fence of the property at the rear, 8 in. above the garden wall separating the adjacent property on the east and 3 in. above the garden wall separating the adjacent property on the west; that as a result of its location and very limited height it has no adverse effect on light and ventilation of adjacent properties; that this shed cannot be seen from the yard level of adjacent properties; that the building at the front of this property still has a yard of ample depth so that the light and ventilation of rooms and spaces in the building is not affected; and

WHEREAS, the applicant states that the present owner has held title to the property since February 1, 1954; that the assessed valuation of land is \$24,000 and of the building \$8,000 making a total of \$32,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7 e for a term of five years to permit the building to be occupied as proposed and as indicated on plans filed with this application marked, "Received, October 13, 1954" (8 sheets) *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto other than as modified this day under Cal. No. 792-54-A and to permit continuance for a similar term of the existing storage building in the rear, as proposed; that the occupancy of the front building shall be solely for the professional and residential purposes as proposed, and for none other; and that all permits shall be obtained, including a new certificate of occupancy and all work completed within six months of the date of this resolution.

792-54-A

For Applicant: David Kraus, John P. Fox and Julius Hallheimer.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated September 15, 1954 on Alt. Applic. 1012-54, reads:

"1. Provide a two (2) hour stair enclosure, with all doors therein F.P.S.C., leading from the street to the roof, with a bulkhead on the roof—winders not permitted. 6.4.1.8.1. & 6.4.1.11.B.C.

2. Proposal to use of cellar for living quarters is contrary to 5.1.1. B.C.

8. The two (2") thick roof beams are not acceptable—a minimum of 3" is required. 7.1.4. B. C."

and

WHEREAS, violation No. 1322 of 1954 was issued March 2, 1954 charging violation of section C26-174.0 of the administrative code in that a one story structure approximately 12 ft. by 16 ft. has been erected on the rear of the lot without filing plans and obtaining a permit therefor, and violation 4079 of 1954 was issued by the borough superintendent June 29, 1954 charging a violation of section C26-185.0 of the administrative code in that contrary to law and the records of the department of housing and buildings the building has been converted from a residence to a business use without the approval and a certificate of occupancy therefor; and

WHEREAS, the applicant states that the building is 4 stories, 45 ft. in height, 16.2 ft. by 60 ft. in area, of class 3 construction, date of erection unknown, located on a lot 16.2 ft. front by 98.9 ft. in depth, in a residence use, B area, class 1½ height district and used and occupied since 1945: cellar—boiler room, kitchen and maid's room, 3 persons; 1st floor—office—number of occupants not stated; 2nd floor—residence—number of families not stated; 3rd floor—residence—number of families not stated; 4th floor—residence, two persons; and

WHEREAS, the applicant states that the lot is now proposed to be occupied by a four story building, 45 ft. in height, 16.2 ft. by 60 ft. in area, located at the front of the lot, and a one story building 7 ft. 2 in. in height, 15.7 ft. by 11 ft. 4 in. in area at the rear of the lot, and that the entire premises is now proposed to be used and occupied as follows: cellar—boiler room, caretaker's apartment, 3 persons; basement—storage shed, no persons; 1st floor—professional office, waiting room, 3 persons; 2nd floor—professional offices, 2 persons; 3rd floor—professional offices, 2 persons; 4th floor—residence, 2 persons; and

WHEREAS, the applicant states that the building is provided with one 3 ft. wide unenclosed stairs which does not lead direct to street; that there is a scuttle and ladder provided to roof; and

WHEREAS, prosecution on a charge of violation of section 643A-9.0 of the administrative code and section C26-174.0 of the administrative code was adjourned in municipal term, magistrate's court on September 22, 1954 to October 20, 1954; and

WHEREAS, certificate of occupancy No. 31920 issued June 25, 1946 permits the following use and occupancy of a four story and basement, 40 ft. high non-fireproof building, classified as a residence, completed June 24, 1946 under Alt. Applic. No. 1706-45 as follows: basement—maid's rooms, boiler room and kitchen; 1st floor—private office; 2nd, 3rd and 4th floors—combined dwelling for one family; and

WHEREAS, the applicant contends as to objection 1 issued by the borough superintendent that the present stair is in excellent condition having a number of winders, except on the uprun from the 1st floor where the stairs starts in a straight run; that the stairs leads to the 4th floor and has access to roof by means of a metal covered scuttle and stationary iron ladder; that termination of the stair on the 1st floor occurs in a public foyer not more than 13 ft. from the door leading to the vestibule, from which access to the street is direct; that the area of the building is limited and the occupancy is likewise limited and traffic on the stair is

MINUTES

of the absolute minimum; that the 4th floor contains a 4-room apartment occupied by not more than 2 persons; that the usable portion of the 3rd floor consists of 2 offices having a total area of approximately 465 sq. ft. with an occupancy of one person in each office; that the usable area of the 2nd floor consists of two executive offices having an approximate area of 560 sq. ft. to be occupied by one person in each office; that the entire 1st floor consists of an executive office in the rear having a total area of 293 sq. ft. to be occupied by one person; that the front portion of the 1st floor consists of a reception foyer and waiting room having an area of 130 sq. ft. which will probably be occupied by two stenographers or other assistants and thus the entire occupancy of the 1st floor will not exceed three; that it is proposed to have a caretaker's apartment in the cellar with an occupancy of 3 persons; that the occupancy of the entire building will not exceed 12 persons; that the interior width of the building is less than 15 ft. and it would be practically impossible to provide a separate stair hall in the building and still maintain a separate hall or passage from front to rear of each floor; that to remove the winders on the stair would so increase the length of the run as to seriously infringe on the usable area of the front and rear offices; that the present stair wells could not be re-used for a new stair as they vary in size and location and any attempt to create new stairways and install a stairway to the roof would lead to such a prohibitively expensive operation due to required reframing and structural work, that it would be difficult to justify the expenditure on the basis of the remaining usable area in the building; that the present stairs are in excellent condition; that all present winders are of ample width at the center to allow for safe walking conditions; that to be required to provide a two hour stair enclosure would be practically impossible due to expensive and complicated framing of fireproofed steel and other incombustible materials, which due to the varied number of steps between each floor would create stairhall partitions in different locations on each floor; that the extensive reframing for new stairs would require vacating the building for a long period of time resulting in shutting down of all professional operations with appreciable loss to the lawyers concerned; and

WHEREAS, the applicant contends that the owner has agreed to provide an approved type sprinkler system for all present stairs and public halls and is therefore requesting that the Board allow the present stairs to remain with the addition of a sprinkler system, as a denial of this item would force the present occupants to discontinue use of the premises; and

WHEREAS, the applicant contends as to objection 2 issued by the borough superintendent that the cellar rooms and spaces are existing and have been previously approved for living purposes as maids' rooms and kitchen; that it is proposed to provide in this area the same number of rooms for use as a caretaker's apartment; that rooms used for living purposes in the cellar are adequately lighted and vented by windows in the rear wall facing the yard at the rear; that egress from the cellar will be by means of an interior stair leading up to the lobby on the 1st floor, a door leading to the rear yard and an outside at front of the building leading to the sidewalk; and

WHEREAS, the applicant contends as to objection 8, that the 2 in. thick roof beams cover an area of approximately 150 sq. ft. between exterior masonry walls and are in good condition and adequate for the live load of approximately 50 lbs. per sq. ft. after deduction of dead load, and will more than safely sustain the usual snow load; that because this structure is of very minor type having a very limited area and use and because of its location and due to the fact that it will have no human occupancy, it is doubtful that anything may occur which would become a fire hazard to this or adjacent properties; that all roof beams have been secured and anchored to masonry walls in an approved manner; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions in view of the limited use proposed.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 1012-54, Objection No. 1, 2 and 8 be and it hereby is *modified* and that the appeal be and it hereby is *granted*, on condition that the requirements of the resolution adopted this day under Cal. No. 791-54-BZ shall be complied with and that a sprinkler system in the stair hall throughout shall be installed, similarly as permitted in a converted multiple dwelling.

908-54-BZ

APPLICANT—Robert Gottlieb, for Vincenzo Paladino and Dorothy Brezcia, owners.

SUBJECT—Application December 1, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in the business use district portion of plot, the parking of motor vehicles, to be used as a reservoir for cars waiting to be washed or serviced, on existing gasoline service station, lubritorium, auto laundry, motor vehicle repairs and office, located in unrestricted use district portion of plot.

PREMISES AFFECTED—606-616 Nereid avenue, south side, from Bronx boulevard to Carpenter avenue and 4386 Bronx boulevard, Block 5036, Lots 29 and 33, Borough of The Bronx.

APPEARANCES—

For Applicant: Robert Gottlieb.

For Opposition: Fred W. Eggert Jr., Agnes Lanzke and Walter Lanzke.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 26, 1955 after due notice by publication in the Bulletin; laid over to May 10, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Nereid avenue are in business and unrestricted use, C area, class 1 height districts; Bronx boulevard is in an unrestricted use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated November 19, 1954 acting on Alt. Applic. 983-54, reads:

"1. Proposed extension of gasoline service station, lubritorium, office, accessory sales, auto laundry, motor vehicle repair shop & parking & storage for more than five motor vehicles into a business use district is contrary to Art. 11 Sect. 4 of Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 170.01 ft. frontage by 100.01 ft. in depth, on which is located in the unrestricted portion of the plot, a gas station and motor vehicle repair shop built in 1931 under N.B. 89-31 with certificate of occupancy No. 402-31 calling for a gas service station; that certificate of occupancy No. 9259-51 was obtained for parking and storage of more than 5 vehicles for the 70 by 100 ft. corner of Carpenter avenue; that on October 31, 1952 plans were filed and approved for an auto laundry as accessory to the existing gas station under N.B. 1242-52; that this 18 ft. by 64 ft. building has been erected and is entirely within the unrestricted portion; that a certificate of occupancy application is pending for this building; that it is proposed to permit the 70 ft. by 100 ft. portion in the business district to be used in conjunction with the gas station and auto laundry, mainly as a reservoir for cars waiting to be washed and serviced; that the gas station and laundry are in the unrestricted portion of the lot; and

WHEREAS, the applicant contends that there are two very large factories on the two west corners of Nereid avenue and many of the employees like to leave their cars for wash-

MINUTES

ing and servicing at the station; that as the lot is in a business district and can be legally used for parking, there would be no detrimental effect on any of the adjoining property; that there is a fence all along Carpenter avenue frontage and no curb cuts or access from that street is contemplated; that the use of the lot in conjunction with the existing gas station would help keep cars off the street and would make for a more efficient process of washing and drying of cars; that the cars now exit through the gas station and this would be maintained; and

WHEREAS, the applicant states the present owner has held title to the property since November 1, 1951; that the assessed valuation of land is \$44,500 and of the building \$25,000 making a total of \$69,500; that the building was erected in 1931 and extended in 1953; and

WHEREAS, the premises, as used, and surrounding area were inspected by a committee of the Board; and with the assurance of the applicant in a letter dated April 27th that it will be used only as proposed and will not be used for any outdoor repair or storage of non-operable automobiles, the committee sees no reason why the granting of this should have any effect on the area as far as any further variance of any additional adjoining lots are concerned and the committee recommends that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit a portion of the plot, including lot 33, substantially as proposed and as indicated on plans filed with this application marked, "Received, December 2, 1954" (3 Sheets) *on condition* that the plot shall be used only as proposed as a reservoir for cars awaiting entrance to the automatic laundry on Lot 29; that the plot shall be levelled substantially to the grade of Nereid Avenue; that the plot shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that there shall be erected on the lot lines to the north, east and south a woven wire fence of the chain link type not less than five feet six inches in height with no openings therein except one, where shown, to Nereid Avenue which shall be fitted with gates which shall be kept closed when the premises are not open for business; that such gate shall be of a construction similar to the fence; that opposite such gate there may be a curb cut not over 15 feet in width; that any retaining wall required shall be constructed at the expense of this owner; and that all permits shall be obtained and all work completed within six months from the date of this resolution.

909-54-BZ

APPLICANT—Robert Gottlieb, for Davlor Realty Corp., owner.

SUBJECT—Application December 1, 1954 (decision of the borough superintendent), under section 7i of the zoning resolution, to permit in a retail and business use district, the extension of existing accessory building used for motor vehicle repairs, to be used as extended, for motor vehicle repairs.

PREMISES AFFECTED—1440-1446 Westchester avenue and 1164 Close avenue, southeast corner, Block 3736, Lots 34 and 38, Borough of the Bronx.

APPEARANCES—

For Applicant: Robert Gottlieb.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 19, 1955 after due notice by publication in the Bulletin; laid over to May 10, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Close avenue and Westchester avenue are in retail and business use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated November 17, 1954 acting on Alt. Applic. 982-54, reads:

"1. In a Retail and Business use districts the proposed extension of a motor vehicle repair shop is contrary to Sections 4 and 4-A of the Zone Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 100.75 ft. frontage by 175 ft. in depth, irregular, presently improved with two attached class 3 masonry buildings erected in 1932, for which certificate of occupancy N.B. 549-32 was issued; that the building was altered and extended in 1947 under Alt. 390-47 for which certificate of occupancy No. 5172-49 was issued for office, auto laundry, grease pits, gasoline service station and motor vehicle repair shop; that in 1952 an additional certificate of occupancy No. 101518-52 was obtained for the parking and storage of more than 5 motor vehicles; that the property is located partly in a retail district (corner 100 ft. by 100 ft.) and the south portion 74 ft. by 100 ft. in a business district; that before April 6, 1945 the entire property was in an unrestricted district; that it is proposed to enlarge the present motor vehicle repair shop on Close avenue from an area of about 20 ft. by 48 ft., to about 40 ft. by 64 ft.; that no other work is contemplated; and

WHEREAS, the applicant contends that the west side of Close avenue is in an unrestricted district and is improved with a gasoline station in block 3735, lot 5 and three large garages, lots 30, 32 and 21; that the east side of Close avenue is vacant except for the adjoining lot No. 32 which has recently been improved with a one story motor vehicle repair shop as granted by the Board under Cal. No. 445-53-BZ; that the proposed increase in the motor vehicle repair shop would in no way affect the adjoining property but would allow the tenant to do his repair work inside instead of on the open ground around the building; and

WHEREAS, the applicant states that the present owner has held title to lot 34 since July 8, 1948 and to lot 38 since September 8, 1949; that the assessed valuation of land is \$39,000 and of the building \$7,000 making a total of \$46,000; that the building was erected in 1932; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7i to permit an extension to the existing accessory building, to be occupied as a repair shop substantially as proposed and as indicated on plans filed with this application marked, "Received, December 1, 1954" (4 sheets) *on condition* that such building shall comply with all requirements therefor; that there shall be no additional curb cuts to Close Avenue; that such fire fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained, including a new certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

APPLICANT—Lama, Proskauer and Prober, for Breemle Realty Corp., owner.

MINUTES

SUBJECT—Application November 30, 1954 (decision of the borough superintendent), under sections 7f, 7A and 7i of the zoning resolution, to permit in a retail use district, for a term of 20 years, the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repairs, storage and sale of accessories and office, and the parking and storage of motor vehicles, and to permit the existing fruit and vegetable wholesale business to be maintained, with a business entrance nearer the residence use district than is permitted.

PREMISES AFFECTED—163-01 to 163-19 (163-05 official) Horace Harding boulevard, north side, from 163rd to 164th streets, 59-45 to 59-53 163rd street and 59-46 to 59-54 164th street, Block 6741, Lot 1, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: Nathan Weinstein.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioners Kleinert and Keating and

Deputy Chief Connolly 3

Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 12, 1955 after due notice by publication in the Bulletin; laid over to May 3, 1955, for inspection and decision; hearing closed; then to May 10, 1955, for further inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Horace Harding boulevard are in a retail use, D area, class 1 height district; 163rd street and 164th street are in residence and retail use, D area, class I height districts; and

WHEREAS, the decision of the borough superintendent, dated November 9, 1954 acting on N.B. Applic. 3959-54, reads:

"1. The use of the premises as a fruit & vegetable wholesaler, split room, refrigerator rooms, office, locker room, loading and unloading, gasoline service station, office and sales, storage, lubritorium, minor auto repairs, car washing, parking & storage of motor vehicles in a Retail Use District is contrary to Art. II Sec. 4-A of Zoning Resolution.

2. A proposed business entrance within 75' of a Residence District is contrary to Sec. 7A of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 195 ft. frontage by 100 ft. in depth; that the use district maps show that the premises are in a retail use, D area, class 1 height district; that as of July 25, 1916 the premises were in a business use district and received its present use designation on September 18, 1947; that the premises are presently developed with three 2-story buildings and two 1-story extensions occupied as follows: building No. 1, two stories in height, of class 4 construction, having a frontage of 19 ft. and a depth of 61 ft. and being presently used as follows: cellar, ordinary; 1st floor—bar and grill; 2nd floor—one family dwelling; that this building was erected under N.B. No. 21061 of 1926 and certificate of occupancy No. Q-31243 was issued for the following use: cellar—ordinary; 1st floor—storage; 2nd floor—one family dwelling; that under Alt. Applic. No. 975 of 1947 the use of the 1st floor was changed to bar and grill for which no certificate has been issued; that building No. 2 is two stories in height, of class 4 construction, having a frontage of 19 ft. 1 in. and a depth of 61 ft., being used as follows: cellar—ordinary; 1st floor—store; 2nd floor—one family dwelling; that this building was erected under N.B. Applic. No. 21062 of 1926 and certificate of occupancy No. 31244 was issued for the above uses; that building No. 3 is two stories in height, of class 4 construction, having a frontage of 19 ft. 1 in. and a depth of 61 ft., being used as follows:

cellar—storage; 1st floor—vegetable store; 2nd floor—one family dwelling; that there is no record in the department of housing and buildings; that under Alt. Applic. 199 of 1953 building No. 3 was altered and permission granted to erect extension No. 4, a one story high open shed of class 4 construction, having a frontage of 16 ft. and a depth of 47 ft. 8 in., and extension No. 5, one story high of class 3 construction, having a depth of 17 ft. 8 in. and a width of 48 ft. 8 in. for uses as follows: cellar—storage; 1st floor—vegetable store, open shed for loading and unloading area, parking and storage of trucks in open area used in conjunction with the vegetable business; 2nd floor—one family dwelling; that no certificate of occupancy was issued; and

WHEREAS, the applicant states that it is proposed to erect a modern gasoline service station together with a fruit and vegetable wholesale business; that the proposed building will be one story in height, of class 3 construction, having a frontage of 157 ft. and a depth of 90 ft., irregular, and a 10 ft. by 10 ft. cellar; that this building will be used for fruit and vegetable wholesaling, split room, refrigerator rooms, office, locker rooms office and sales, lubritorium, minor auto repairs and car washing; that the open area will be used for gas station, loading and unloading and parking and storage of motor vehicles; that it is also proposed to install ten 550 gallon gas tanks and eight dispensing pumps; and

WHEREAS, the applicant contends that the building and uses as contemplated are permissible uses in a retail use district, except for the gas station; that the proposed building will be modern in design and will be an asset to this sparsely developed business area; that Horace Harding boulevard and 164th street are main auto lanes leading across Queens and as such the proposal will be entirely within keeping at this intersection; that the proposed 10 ft. landscaped area at the northerly lot line will provide additional permanent light and ventilation for the adjoining dwelling in block 6741, lots 11 and 55; that the proposed location of the gas station accessory building will open up the view at this intersection and help the flow of traffic; that there are no other gas stations within the affected area and the proposal will provide a much needed service to the neighborhood; that the cemetery across 164th street is a deterrent to the use of the site for conforming use; that the development of Horace Harding boulevard as an expressway leading across Queens has created the need for a gas station; that the curb cuts as proposed are required for efficient operation of the gas station due to the mall in the center of 164th street and these proposed curb cuts will no more affect 164th street than the many curb cuts for all the dwellings on 164th street; and

WHEREAS, the applicant states that the present owner has held title to the property since January 8, 1948; that the assessed valuation of land is \$24,050 and of the building \$21,300 making a total of \$45,350; that the building was erected in 1926; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, Horace Harding boulevard is about to be widened with express lanes and service roads; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f and Section 7A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Sections 7f, 7i and 7A to permit the erection of the buildings as proposed and the uses on the premises as proposed and as indicated on plans filed with this application marked, "Received, November 30, 1954" (4 sheets) *on condition* that complete working drawings shall be submitted to the Board for further consideration and imposition of conditions before plans are filed with the borough superintendent; that such plans shall be filed with the Board within two months from the date of this resolution; that after approval of such working plans all permits shall be obtained and work completed within the requirements of Section 22A of the Zoning Resolution.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and John J. Sanders, B'd of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 19, 1955 after due notice by publication in the Bulletin; laid over to May 10, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 164th street and 65th avenue are in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated December 17, 1954 acting on N.B. Applic. 4114-54, reads:

"1. Proposed erection of a business structure in a residence zone is contrary to Art. II Sec. 3 of Zoning Res.

2. Area occupancy of structure on plot in a D district is contrary to Art. IV Sec. 14 of Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 95.46 ft. frontage by 35 ft. in depth, irregular, presently vacant; that the use district maps show that the premises are located in a residence use, D area, class 1 height district; that as of July 25, 1916 the premises were in a business use district and received its present use designation on September 18, 1947; that it is proposed to secure a variance for a period of 20 years in order to erect a modern store building; that the contemplated building will be one story high, of class 3 construction, having a frontage of 95.46 ft. and a depth of 30 ft.; that the building will occupy an area of 2,833 sq. ft. and as the permissible coverage is 2,314 sq. ft., the proposal will exceed the allowable coverage by 519 sq. ft.; and

WHEREAS, the applicant contends that as the lot is a corner lot and does not require a rear yard, the block will receive better block ventilation and the only affected premises, lot 55, will receive greater benefits from the permanent 5 ft. court to be maintained, than if open area of the required size would be maintained at the front of the site in question; that within the affected area there are many dwellings whose immediate shopping needs are served by two stores in block 6905, lot 37 and block 6761, lot 52; that these stores are also non-conforming uses in a residence zone; that the present stores are inadequate for the needs of the community; and

WHEREAS, the applicant states that the present owner has held title to the property since November 4, 1950 and that the assessed valuation of land is \$1,600; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution, as to use, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore

entitled to relief, as to area, on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulation of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of twenty years to permit the commercial building to be constructed on the plot substantially as proposed and as indicated on plans filed with this application marked, "Received, December 29, 1954" (3 sheets) and as amended by revised plans marked, "Received, April 27, 1955" (3 sheets); and under Section 21 to make a variance as to the area covered to permit the coverage as proposed and as shown on such plans; that the building shall not be increased in height or area beyond the height and area proposed; and that in all other respects shall comply with all laws, rules and regulations applicable thereto; that the sidewalk and curbing around the building shall be constructed or repaired to the satisfaction of the Borough Superintendent; that signs shall comply with the requirements for a similar building when located in a local retail district; and that there shall be no roof signs; that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

Present: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly.

403-53-A

APPLICANT—Joseph W. Landes, for Salvo Realty Co., Inc., owner.

SUBJECT—Application reopened January 18, 1955 for consideration as to additional objection—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—152-156 Wooster street, east side, 90 ft. south of West Houston street, Block 514, Lot 10, Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph W. Landes and H. G. Sandin.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board on July 28, 1953, on certain conditions; and

WHEREAS, the applicant requested a reopening and amendment of the resolution; and

WHEREAS, the appeal was reopened by the Board, on January 18, 1955, subject to regular procedure; and

WHEREAS, the decision of the Borough Superintendent dated April 10, 1953 on Alt. Applic. 361/53 reads:

"4. Provide two means of egress from cellar as required under section 271 of the Labor Law."

and

WHEREAS, the applicant contends that there is no permanent occupant in the cellar area; that the building is equipped throughout with a sprinkler system; that the building is completely wire lathed and plastered; that the building is equipped with an interior fire alarm system and

MINUTES

monthly fire drills are maintained; that there is a stairway from each section of the cellar to the grade floor with existing exits from the cellar to the rear court grade; that all exits are indicated by exit signs and lights.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 28, 1953, by adding thereto:

"that the Board does hereby *make a variation* in the requirements of the Labor Law, as cited in the decision of the Borough Superintendent dated April 10, 1953, acting on Alt. Applic. 361/53, Objection 4, and that the appeal be and it hereby is *granted on condition* that the exits as proposed and shown on plans filed with this appeal, marked 'Received May 22, 1953', as referred to in the resolution adopted July 28, 1953, shall be maintained and that there shall be no human occupancy in the cellar."

99-54-A

APPLICANT—Fred C. Dahlem, for Michael Meyerberg, owner.

SUBJECT—Application February 11, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—214-216 East 2nd street, north side, 79 ft. east of Avenue B, Block 385, Lot 63, Borough of Manhattan.

APPEARANCES—

For Applicant: Fred C. Dahlem.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated April 9, 1954, on amendment to Alt. App. 1626 of 1952, reads:

"4—New factory building should be of fireproof construction—exceeds 4 stories. Sections 270 and 264 of the Labor Law.

"5—Means of egress should comply with Sections 270 of the Labor Law and C26-292 of B.C. and

"7—Required live load for factory use is 120#/sq."

and

WHEREAS, the applicant states the building is 2 and 6 stories, 72 ft. in height, 60 ft. by 100 ft. 11 ins. in area at street level 60 ft. by 100 ft. in area at typical floor level of class 3 construction, erected 1917, located on a lot 60 ft. by 108 ft. 11 ins. in area in a business use, B area, Class 1½ height district, and used and occupied since July 1953; Cellar—storage and banquet room, 130 persons; 1st floor—banquet room and ballroom and bar, 300 persons; 2nd floor—ballroom, 700 persons; mezzanine—ballroom, 110 persons; 3rd floor—lodge room, 120 persons; 4th floor—lodge room, 120 persons; 5th floor—lodge room, 120 persons; 6th floor—lodge room, 120 persons; and

WHEREAS, the applicant states that the prior use of the 4th, 5th, and 6th floors, was loft and manufacturing; and

WHEREAS, the applicant states that it is now proposed to use and occupy the building as follows: Cellar—storage and studio, 50 persons; 1st floor—projection room, studio and office, 50 persons; 2nd floor—office, exhibition room, studio and storeroom, 103 persons; mezzanine, studio space, 25 persons; 3rd floor plaster model and machine shop, 20 persons; 4th floor—artist studios, 20 persons; 5th floor—artist studios, 20 persons; 6th floor—artist studios and caretaker's apartment, 10 persons; the building is provided with two interior steel and plate stairs 40 inches to 44 inches in width with a non-fireproof enclosure leading direct to street and provided with a ladder and scuttle to roof; that the stair doors are open but are self-closing; that there are three fire escapes, two on the front and one at the rear; fire escapes extend to roof by ladder and street by ladder; and

egress from the lower termination of the rear fire escape is to rear yard and to adjoining lot; window and door openings on the course of the fire escape are not fireproof self-closing; the building to the north is four stories in height and to the west four stories in height; and

WHEREAS, Violation #4481 was issued July 9, 1953 for erecting a masonry wall in place of the store front and changing the occupancy from dance hall and meeting room to office and loft; and

WHEREAS, the applicant states that the building was erected under New Building Application 319 of 1907 as a catering establishment and used up to 1952 as banquet rooms, ball rooms and lodge rooms; that the exits consist of two interior stairways steel and marble treads from first to third floor, and to street, separated by a brick wall, these two stairways lead directly to second and third floor; that the third to sixth floor stairs are steel adjoining one another 42 inches wide open to each other on the 3rd, 4th, 5th, and 6th stories; that the balcony of the main ballroom has two independent stairways to main ballroom floor and an exit to second floor mezzanine level; there is an outside iron stairway at the rear of the main ballroom exiting to the parking lot in the rear of the adjoining building; one iron stairway also exits from cellar banquet room to rear yard of the adjoining building and interior stairway leads from cellar to first story; that on the front of the building there are two sub-standard fire escapes from 2nd to 6th floor with sliding drop ladders to street; that the present exit facilities are far from meeting today's standards; that it is proposed to separate the rear stairways with a fireproof partition equipped with one-hour self-closing fireproof doors double acting thus creating two separate stairways enclosed from third to sixth floors; that the occupancy will be greatly reduced; that the proposed occupancy is 298 persons as compared with the prior occupancy of 1,720 persons; and

WHEREAS, the applicant contends that the neighborhood has changed and there is no call for the use as previously permitted in this building; that the tenant is pioneering in television work consisting of making scenes and puppets for commercial advertisements for television; that the building has been cleaned up at a great expense and alteration plan No. 1621 of 1952 filed for the new use has been disapproved as the work proposed is of factory type and the building is in excess of the height limitation for factory buildings; and

WHEREAS, the applicant further states that it is proposed to sprinkler the hallways and all exit stairways throughout the entire building; that doors leading to the hallways will be changed from wood to one-hour fireproof self-closing; that the minimum width of stairway used as a primary means of egress is 3 ft. with an angle of 40 degrees; that all other stairways have 44 and 48 inches in width; and

WHEREAS, the applicant contends as to Objection 7 issued by the Borough Superintendent that the building was always used for public purposes and carried approved Public Assembly approvals for a greater number of occupants than now proposed; that the work proposed and the equipment used is not heavy and consists primarily of light scenery and props and cameras; that the work done in the shop consists of light work such as the manufacture of puppets clothes; metal elbows, fingers, heads for puppets and plastic for skin finish; that this is light delicate work by artists and highly skilled mechanics; that it can be assumed that the building was accepted at 100 pounds per square foot due to its public use; that the proposed use will not exceed 75 pounds per square foot for which the structure is adequately designed; that it would be impossible to make the building fireproof in full compliance with the requirements of the Labor Law and it is therefore requested that the Board act favorably on this appeal so as to permit the construction and use of the building as proposed under such conditions as the Board may deem necessary; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

MINUTES

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on amendment to Alt. App. 1626/52, Objections Nos. 4, 5 and 7 and that the appeal be and it hereby is *granted* as to Objections 4 and 5, *on condition* that the exits shall be maintained as proposed and as indicated on plans filed with this appeal marked "Received February 11, 1954" (4 sheets), as *amended* by plans marked "Received March 21, 1955" (5 sheets); that the building shall not be increased in height or area, and permitted only so long as the occupancy is as proposed and unchanged; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that such fire-fighting equipment shall be installed as the Fire Commissioner shall direct; and as to Objection 7, that the liveload may be permitted as 75 lbs. per superficial foot and shall be so posted and that at no time shall the loading exceed such 75 lbs.

379-54-A

APPLICANT—David Weinbert, for James J. O'Neill, owner (A. and S. Galleries, Inc., lessee).

SUBJECT—Application May 7, 1954—re Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—60-62 West 67th street, south side, 100 ft. east of Columbus avenue, Block 1119, Lot 59, Borough of Manhattan.

APPEARANCES—

For Applicant: David Weinbert and Louis Steinhardt.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioner Kleinert

and Deputy Chief Connolly 3

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, Order #1644-4 issued by the Fire Commissioner March 12, 1954, and repeated in his decision of April 20, 1954, reads:

"1. Install an approved, wet automatic sprinkler system throughout the building having at least one source water supply, arranged and equipped as per Ch. 26, Art. 16, Adm. Code & C19-161.0."

and

WHEREAS, the applicant states the building is 6 stories, 80 feet in height, 50 ft. by 98 ft. in area, Class 3 construction, erected in 1891 located in a residence use, B area, Class 1½ height district; used and occupied since erection: Cellar—boiler room and storage, 1 person; 1st floor—office and storage, 2 persons; 2nd floor—furniture repairs and storage, 2 persons; 3d to 6th floors—storage, 1 person throughout; proposed to be used and occupied: Cellar—same; 1st floor—same; 2nd to 6th floors—storage, 2 persons throughout. The building is provided with one 3 ft. wide iron stairs, brick enclosed, equipped with steel doors which are not self-closing; stairhall does not lead to roof or street; a ladder and scuttle to roof is provided; and

WHEREAS, the applicant states the building was erected under N. B. App. 906/91 as a warehouse and had been continuously used as such until April 19, 1952, when the present tenant leased the premises for the business of renting furniture and household items to various Television Studios; that all these items are stored on the various floors except on the 2nd floor where they have set aside a small area of approximately 1000 sq. ft. in a separate enclosure for the repair of any damaged furniture. It is now proposed to discontinue the repair of furniture on the 2nd story and to use the entire premises for storage. The building is equipped with a freight elevator enclosed with brick walls and rolling steel shutters and has a 3 ft. wide iron stair from cellar to 6th floors enclosed in brick walls with steel doors at each opening; there is also a ladder and scuttle from 6th floor to the roof; the ceilings of the 1st to 5th floors are covered with wire lath and plaster; every floor is equipped with a thermostatic

alarm system and there is an alarm box on each floor; the alarm system is connected to a central office; there are fire buckets, pails and a 2½ gallon fire extinguisher on each floor; that all exterior openings in rear are equipped with iron shutters; that the tank room and boiler room in the cellar are enclosed with fireproof material and fireproof self-closing doors; and

WHEREAS, the applicant contends that the conduct of the present business is no different than when the building was a warehouse; that all furniture and household items are stored neatly in their respective places and numbered for easy access and location; that the public has no access to upper floors; that selection of items is by means of a catalog and photos; and

WHEREAS, the applicant therefore requests that the order of the Fire Commissioner be modified so as to permit the tenant to conduct his business without the installation of a sprinkler system as required by the Fire Department; that there are no combustible or inflammable materials on the premises and no painting or repairing of furniture will be done in the building; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal should not be granted even though the applicant has stated he will eliminate the present furniture repairing and finishing.

Resolved, that the Order #1644-4 of the Fire Commissioner, Objection 1, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

562-54-A

APPLICANT—Charles Abrahams, for Aircraft Hardware Mfg. Co., Inc., owner.

SUBJECT—Application July 1, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—810-812 Edgewater road, east side, 101.75 ft. north of Lafayette avenue, Block 2762, Lot 309, Borough of The Bronx.

APPEARANCES—

For Applicant: Charles Abrahams.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated June 8, 1954, on amendment to Alt. App. 475/54 reads:

"4. No opening in fire wall may exceed 4'x7'-6" as per 10.8.1.

5. The passageway and enclosure of stairs from 2nd floor must be constructed of incombustible materials as per Sect. 270 of the Labor Law.

Note: The building is used in conjunction with the adjoining factory building.

6. The door leading to street (from 2nd floor) must be at least 3'-8" wide as per Sect. 270 of the Labor Law.

7. Provide 2 exits from 2nd floor as per Sect. 270 of the Labor Law.

8. All required stairways and passageways must be at least 3'-8" wide, be constructed of incombustible materials and stairways provided with hand rails.

10. A legal exit from balcony must be provided as per Sect. 270 of the Labor Law."

and

WHEREAS, the applicant states the building is 2 stories, 24 feet in height, 50.23 ft. front by 122.50 in depth at street level, 50 ft. by 25 ft. in depth at 2nd floor level, of Class 3 construction, erected in 1921 on a lot 151.98 ft. by 123.58 ft. in area, in an unrestricted use, A area, Class 1½ height district; used and occupied since 1940: 1st floor—storage, loading and unloading, 8 persons; 2nd floor—office, 2 persons; no change in use or occupancy is now proposed; and

MINUTES

WHEREAS, Certificate of Occupancy #2150 was issued November 16, 1921, permitting the building to be used as a factory and office under House No. 800 Edgewater road, upon completion of N. B. App. 210/21; and

WHEREAS, Violation #C2921 was issued May 24, 1954, to premises 1381 Lafayette avenue for enclosing steel craneway with masonry and steel framing asbestos covered walls before submitting application for approval and securing a permit; and

WHEREAS, the applicant states that a portion of the building which is 72 feet, 5 inches deep was erected under N.B. 210/21 and has a second story 50 ft. by 25 ft. in area and Certificate of Occupancy #2150 was issued for factory and office use in 1921; that the front portion of the building 50 ft. 1 in. in depth was erected without filing plans with the Department of Housing and Buildings and violation #C2921/50 was issued. It is this portion of the building now proposed to legalize under Alt. App. 475/54; and

WHEREAS, the applicant states the purpose of this appeal is to obtain a variation of Section 10.8.1(b) of the Code to permit the existing 7 ft. wide opening in the southerly enclosure wall in which is also a 3 ft. wide opening for a horizontal exit, to obtain a variance of Section 270 of the Labor Law to permit one 3 ft. wide stairway in a fire-retarded enclosure extending to street from 2nd floor and for permission to serve the small balcony with a ships ladder; and

WHEREAS, the applicant contends that the building is owner-occupied and used in conjunction with the adjoining factory to the south under the same ownership; that the 7 ft. opening in the fire wall is the only means of moving large machine tools in and out of the southerly building by way of the loading area in building in question; that such building is occupied for storage, loading and unloading and is classified as a factory only because of its conjunctive use with building to south; that the 2nd floor which is used as an office has an area of only 1100 sq. ft.; that as originally approved for factory use in 1921, the building was provided with one open iron stairway 3 ft. wide and a second exit provided to the roof of one-story extension at rear which leads to an open stairway into a court and thence into the adjoining building to the south; that it is proposed to improve the existing condition by enclosing the stairs in a fire-retarded enclosure leading to the street and providing a scuttle and iron ladder to the roof; that the small balcony at front is really a platform 8 feet wide and 24 feet long and 9 feet above floor level; that it is used for storing odds and ends of materials; that the ships ladder is proposed to stand on when placing and removing material on the platform, which takes place at infrequent intervals; that the requirement to provide a stairway with legal treads and risers would result in reducing the area of the platform so that it would have no practical value; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 475/54, Objections Nos. 5, 6 and 7 and that the appeal be and it hereby is *granted on condition* that fire doors as required by law shall be installed at all openings now existing in the fire wall between the two sections of the building, as proposed and indicated on plans filed with this appeal, marked "Received July 1, 1954" (6 sheets); and as to Objection 4, that the opening may be of the width shown, provided the requirements stated above are complied with; and *granted* as to Objection 6, *on condition* that the door may be of the width shown on such plans; as to Objection 7, that exits from the second or mezzanine floor may be permitted as shown, provided exits therefrom are as proposed and shown; as to Objection 8, that the stairways and passageways may be of the width shown; and as to Objection 10, that the exit from the balcony may be permitted as shown on such plans provided the occupancy thereof is for office work only; that the stair enclosure proposed shall be constructed and maintained; that the building shall not be

increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto.

563-54-A

APPLICANT—Charles Abrahams, for Aircraft Hardware Mfg. Co., Inc., owner.

SUBJECT—Application July 1, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1381 Lafayette avenue and 800 Edgewater road, northwest corner, Block 2762, Lot 309, Borough of The Bronx.

APPEARANCES—

For Applicant: Charles Abrahams.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated June 5, 1954, on Alt. App. 174/50, affecting 1381 Lafayette avenue, reads:

"6. No opening in fire wall may exceed 4' x 7'-6" as per Sect. 10.8.1.(b).

13. Stairways from mezzanine and from office must comply with Sect. 270 of the Labor Law as to enclosure, width and construction."

and

WHEREAS, the applicant states the building is one story and mezzanine, 20 feet in height, 101.75 ft. by 100 ft. in area, of Class 3 construction, erected in 1921 on a lot 151.98 feet front by 123.58 ft. in depth, in an unrestricted use, A area, Class 1½ height district; used and occupied since 1940: Basement—boiler room, 0 persons; 1st floor—factory, 100 persons; mezzanine—office and factory, 18 persons. No change proposed. The building is provided with one stairs from small mezzanine and three from large mezzanine, two are 3 ft. 8 in. wide and two are 3 ft. wide, three are constructed of iron and one of wood; front stairway is fireproof enclosed, equipped with one-hour fireproof self-closing doors and leads to street; and

WHEREAS, Certificate of Occupancy No. 84 issued March 8, 1938, on N.B. App. 309/21 describes the building as one story 23 ft. in height and permits the following use and occupancy—Cellar—boiler room; 1st floor—factory and storage for four automobiles (business); and

WHEREAS, the applicant states the building was erected under N.B. App. 309/21 and Certificate of Occupancy No. 2149 issued November 16, 1921 and amended Certificate of Occupancy No. 84 issued March 8, 1938; that the building is used conjunctively with adjoining building to the north which is used for storage, loading and unloading; and

WHEREAS, the applicant states the purpose of this appeal is to obtain a variance of Section 10.8.1(b) of Code to permit the existing 7 ft. wide opening in the northerly enclosure wall in which there is also a 3 ft. wide opening for horizontal exit, to obtain a variance of Section 270 of the Labor Law to permit the existing stairways at rear of large mezzanine to remain unenclosed and to obtain a variance of Section 270 of Labor Law to permit the existing exit from the small mezzanine office to remain without modification; and

WHEREAS, the applicant contends the building is occupied as a machine shop by the owner-occupant engaged in the manufacture of special hardware used in the assembly of aircraft; that a substantial percentage of same is for defense work; that the floor of building is approximately 4 feet below grade and there are no openings for loading and unloading; that the 7 ft. wide opening in northerly enclosure wall is used to move large machine tools in and out by way of the adjoining building to the north; that the existing

MINUTES

unenclosed iron stairway leading from the mezzanine floor to Edgewater road will be provided with an incombustible enclosure extending to street and having a 3-hour rating and be provided with 1-hour fireproof self-closing doors; that the 3 ft. wide wood stairway at rear leading from mezzanine floor to interior of 1st floor will be replaced with an iron stairway; that a scuttle and iron ladder will be provided in the stair enclosure of front stairway and also at the landing of the stairway located at southeast corner of the building; that it is requested the Board permit the two stairways at easterly end of mezzanine floor to remain unenclosed because enclosures for these stairways would take up much needed space on the 1st floor which is now occupied to capacity; and

WHEREAS, the applicant contends that the small mezzanine office over the boiler room, has an area of about 300 sq. ft. and is only 6 ft. 8 in. above the 1st floor, enclosed with glass and provided with an iron stairway 3 ft. wide extending to the first floor level; that there are only two persons in this area and it is requested the Board accept this existing condition; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 174/50, Objections Nos. 6 and 13, and that the appeal be and it hereby is granted on condition that the requirements of the resolution adopted by the Board this day under Cal. 562-54-A shall be complied with.

662-54-A

APPLICANT—James Whitford, Jr., for Virginia Barrel Co., owner.

SUBJECT—Application September 9, 1954—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—178 Holland avenue, west side, 1,754 ft. south of Richmond terrace, Block 1318, Lot 323, Mariners' Harbor, Borough of Richmond.

APPEARANCES—

For Applicant: William E. Roehrig.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly	3
Negative	0
Absent: Commissioner Keating	1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated August 10, 1954, on Alt. App. 324/54 reads:

"1. A metal bldg. more than 15,000 sq. ft. in area is contrary to 4.2.1 of B.C."

and

WHEREAS, the applicant states the premises consist of a lot 401.26 feet front by 300 feet in depth in an unrestricted use, A area, Class 1½ height district, on which there exists a one story building 15 ft. in height, of Class 5 construction, 340 ft. by 108 ft. irregular in area, erected in 1929 and used and occupied since 1953 for the manufacture of steel barrels and containers, 47 persons, for which no certificate of occupancy has been issued; and

WHEREAS, the applicant states the building is one story in height divided into two units, the larger unit contains 16,800 sq. ft. and the small unit 4,200 sq. ft.; that the units are separated by a block curtain wall with approved fire door assemblies; that the entire structure is protected with a sprinkler system; and

WHEREAS, the applicant contends that the building is located in a sparsely developed section outside the fire limits; that the west wall was constructed of metal and the three

other walls are of concrete blocks; that the Borough Superintendent insists that the entire structure be construed as a Class 5 building; that, however, the structure backs up on a railroad siding which leaves very little clearance at the westerly side and makes it impractical to construct the westerly wall of blocks; that the mechanical equipment in the building now in place encroaches on the space required for the installation of the block wall; that in view of the fact the other three walls are constructed of block and the entire building is sprinklered, it is requested that the Borough Superintendent's decision be modified on the ground of hardship to the owner and it is strongly recommended that the Board make a field inspection to determine the classification of the structure as it exists and what is necessary to be done to legalize the use; that the building was constructed in good faith by the owner with the understanding that the Borough Superintendent would classify it as a Class 3 constructed building; that the former architect failed to provide a legal permit for the construction but encouraged the owner to proceed with the construction shown on plans filed with this appeal; that because of some misunderstanding between the former architect and the Borough Superintendent, the owner is being penalized for the construction; that in view of the fact over 78% of the walls are of masonry construction, it is requested the building be classified as Class 3 construction rather than as a metal structure.

Resolved, that the decision of the Borough Superintendent acting on Alt. App. 324/54, Objection No. 1, be and it hereby is modified, and that the appeal be and it hereby is granted on condition to permit the continuance of the building as proposed and as shown on plans filed with this appeal marked, "Received, September 9, 1954" (4 sheets), on condition that the occupancy of the building shall otherwise comply with the requirements therefor and shall not be changed from its present occupancy as stated for manufacturing and warehousing of steel barrels and steel drums; that the building shall be protected with a wet sprinkler system meeting the requirements therefor; that, in the event the building is extended such extension including the walls of that portion to be extended shall be made to comply with the requirements of a class three building.

938-54-A

APPLICANT—Simeon Heller, for 172nd Realty Corp., owner.

SUBJECT—Application December 10, 1954—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—171-20 Station road, south side, block bounded by East 172nd street, 42nd avenue, Auburndale lane and Station road, Block 5351, Lot 1, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Simeon Heller and Dominick Angelone.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated November 24, 1954 on Alt. Applic. 1380/52, reads:

"1. Proposed fire wall openings are contrary to Sec. 10.8.1 B. C."

and

WHEREAS, the applicant states that the building is one story, 18 ft. in height, 171 ft. front by 290 ft. in depth, of class 3 construction, erected 1927, located on a lot 190 ft. front by 529 ft. in depth, in an unrestricted business and residence use, C area, class 1 height district and used and occupied since 1949 as follows: cellar—boiler room; 1st floor—loading and dis-

MINUTES

tributing station and factory, 150 persons; mezzanine—toilets and lockers—number of persons not stated; and proposed to be used and occupied as follows: cellar—boiler room; 1st floor—factory, storage of incombustible materials, loading and distributing station (manufacturing of welding rods) and offices, 170 persons; mezzanine—toilets, lockers, storage, mixing department and offices, 50 persons; and

WHEREAS, Certificate of Occupancy #Q-52802 was issued January 20, 1949 upon completion of work under Alt. Applic. 3367/48 permitting the following use and occupancy: cellar—boiler room; 1st floor—loading and distributing station and factory; mezzanine—toilets and lockers; and

WHEREAS, the applicant states that the building is provided with a one-source sprinkler system, 8 interior stairs vary in width from 3 ft. to 4 ft., of steel construction, unenclosed; and

WHEREAS, the applicant states there are 2 buildings on the premises, one an office building located wholly within the business use district portion of the plot; the other, the factory building in question, partly in a business district and partly in an unrestricted use district; that the portion of the plot located in a residence use district is used only as a landscaped area; that the factory building which is now in question was originally erected under N.B. Applic. 8952/27 as a warehouse and converted to loading and distributing station and factory use under Alt. Applic. 3367/48; that in 1952 under Alt. Applic. 1380 plans were filed for an addition to the building; that the proposed addition was to be closed off from the existing structure by a fire wall and to be of class 1 construction and consist of one story and 2 mezzanines; that the area of the building was originally 41,454 sq. ft. and the addition was 5,070 sq. ft., or approximately only 10% of the total area of the structure exclusive of mezzanines and cellar; that this new addition was 272 ft. 8 in. long by 18 ft. 10 in. in width and was erected, but prior to its completion it was found impossible to set up the equipment and machinery with the fire walls as required by the Borough Superintendent, as operations had to go back and forth through the walls at several points in such a manner as to preclude the possibility of fire doors, and it was also found that when the existing windows in the former exterior wall were bricked up to comply with fire wall requirements, light and ventilation in the area adjacent to the existing factory was cut off to an extent to make these areas difficult to work in; and

WHEREAS, the applicant states that it is now proposed that in place of the required fire doors the existing sprinkler in the non-fireproof portion of the building be extended to the new class 1 construction extension so that the entire structure will be provided with a sprinkler system; and

WHEREAS, the applicant contends that there are no combustibles used in any of the manufacturing operations in this plant; that the operation consists of coating of welding rods which is a complete non-hazardous type of manufacturing; that there are 7 exits and a total occupancy of 170 persons on the main floor and 50 persons on the mezzanines; and

WHEREAS, the applicant therefore requests that the Board permit the reopening of the former windows in the fire wall to permit ventilation and light and to permit the door openings as indicated on plans filed with this appeal to remain open without the installation of fire doors; and

WHEREAS, the building is occupied throughout by the Eutectic Corporation, manufacturing welding rods.

Resolved, that the decision of the Borough Superintendent, acting on Alt. Applic. 1380/52, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; that the existing one source wet sprinkler system now installed in the nonfireproof portion of the building shall be extended to include the Class 1 addition; that such sprinkler system shall comply with the requirements therefor; that this variance shall continue only so long as the occupancy continues as proposed and shown on plans filed with this appeal, marked "Received April 15, 1955" (6 sheets).

97-55-A

APPLICANT—Lama, Proskauer and Prober, for Ideal Clamp Manufacturing Co., owner.

SUBJECT—Application February 3, 1955—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—413-437 Liberty avenue, 187-209 Vermont street, northeast corner and 154-172 Wyona street, Block 3689, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated February 2, 1955 on Alt. Applic. 1517/53, reads:

"1. Proposed opening 8 ft. in width in fire wall having horizontal exits thru same is contrary to C26-660.0(b) of the bldg. code. (Note premises were subject to a conditional approval under 368-53-BZ)."

and

WHEREAS, the applicant states that the building is one story, 16 ft. in height, 206 ft. by 175 ft. irregular in area, of class 3 construction erected 1922, located on a lot 206 ft. front by 200 ft. irregular in depth, in a business and residence use, C area, class 1 height district, used and occupied since 1954: cellar—boiler room, no persons; 1st floor—manufacturing of light metal products, stamping, cutting, plating, assembly, packing, shipping, storage, offices, employees' lunch room and loading berth, 190 persons; and

WHEREAS, the applicant states that the buildings were altered and extended under Alt. No. 1517/53 pursuant to a variance granted by the Board under Cal. No. 368-53-BZ; that it is proposed to permit the existing 8 ft. by 8 ft. opening to remain between building No. 2 and building No. 3; that this opening is required for moving of materials by hand truck between buildings; and

WHEREAS, the applicant contends that the existing 8 ft. by 8 ft. opening will be protected with a 3-hour fireproof, self-closing door and a water curtain connected to the domestic water supply; that all other openings in this wall are used as a means of horizontal egress and are 3 ft. 8 in. wide, protected with 3-hour fireproof self-closing assemblies.

Resolved, that the decision of the Borough Superintendent, acting on Alt. Applic. 1517/53, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the door opening in the fire wall of the size as proposed and shown on plans filed with this appeal marked "Received February 3, 1955" (2 sheets), *on condition* that such approved opening protective assembly as required for such fire door shall be installed and maintained; that the water curtain proposed shall be maintained; and that in all other respects the resolution as adopted by the Board on January 12, 1954, under Cal. No. 368-53-BZ shall be complied with.

221-55-A

APPLICANT—Charles L. Koester, for Joseph Casa, owner.

SUBJECT—Application March 23, 1955—Appeal from decisions of the borough superintendent.

PREMISES AFFECTED—266-14 East Williston avenue, south side, 44.59 ft. west of 267th street and 84-20 to 84-26 267th street, southwest corner of East Williston avenue, Block 8811, Lots 22, 28 and 31, Floral Park, Borough of Queens.

APPEARANCES—

For Applicant: Charles L. Koester.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

MINUTES

ACTION OF BOARD—Appeal granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the decisions of the Borough Superintendent, dated March 23, 1955, on N.B. App. 862/55, relating to 266-14 E. Williston avenue and on N.B. App. 863/55, relating to 84-20 267th street and on N.B. App. 864/55, relating to 84-26 267th street, read:

1. Proposed erection of a frame structure inside of fire limits is contrary to 4.1.2 B.C.
2. Use of 2" thickness of beams inside of fire limits is contrary to 7.1.4 B.C."

and
WHEREAS, the applicant states that 266-14 E. Williston avenue (lot 22) is 68.30 ft. front by 71.03 ft. in depth, located in a local retail use, D area, Class 1 height district and in a residence use, G-1 area, Class 1/2 height district; that No. 84-20 267th street (lot 28) consists of a lot fronting 44.59 ft. on E. Williston avenue and 89.74 ft. on 267th street, located entirely within a local retail use, D area, Class 1 district and that 84-26 267th street consists of a lot 60 ft. front on 267th street with a depth of 67.34 ft., located partly in a local retail use, D area, Class 1 height district and partly in a residence use, G-1 area, Class 1/2 height district. It is proposed to erect on each of these lots a 1 1/2 story frame 1-family dwelling 27 ft. by 27 ft. in area, 38 ft. by 27 ft. in area and 52 ft. by 27 ft. in area respectively, surfaced on the exterior with masonry veneer on the 1st floor and gable ends, dormers and front gables covered with asbestos shingle; each building will have asphalt shingle roofs; and

WHEREAS the applicant contends there is no need for stores at this location and the only other logical project would be one or two family attached brick houses which would not be as desirable as the proposed dwellings; that the houses surrounding these plots are of similar type construction; that the cost of constructing Class 3 dwellings using dormers and gables would be beyond the means of prospective purchasers of this type of building.

Resolved, that the decisions of the Borough Superintendent, acting on N.B. Applications 862, 863 and 864 of 1955, be and they hereby are modified and that the appeal be and it hereby is granted as to Objections 1 and 2, on condition that the buildings shall comply with a building as permitted in a D area district and outside the fire limits; that the portion of such buildings on the lot partially in the G-1 area district shall comply with the requirements therefor; that the use of 2-inch thickness of beams may be permitted; that in all other respects the buildings and occupancies shall comply with all laws, rules and regulations applicable thereto, as proposed and indicated on plans filed with this appeal marked "Received March 23, 1955" (7 sheets).

476-49-A—Vol. II

APPLICANT—Ervin Palmer, for Mildred Berman, owner.
SUBJECT—Application reopened November 3, 1954 as Vol. II—re Appeal from a decision re an order of the fire commissioner.

PREMISES AFFECTED—65 Fulton street, north side, 116 ft. 3 1/2 in. west of Cliff street, Block 94, Lot 9, Borough of Manhattan.

APPEARANCES—

For Applicant: E. Palmer.
For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Laid over to May 17, 1955, at 2 P.M. at request of applicant's representative.

558-54-A

APPLICANT—William A. Lacerenza, for 212—25th Street Corp., owner (Joseph H. Meyer Brothers, lessee).

SUBJECT—Application September 1, 1954—Appeal from an order of the fire commissioner.

PREMISES AFFECTED—204-208 25th street, south side, 75 ft. east of 4th avenue, Block 655, Lot 10, Borough of Brooklyn.

APPEARANCES—

For Applicant: William A. Lacerenza and Edward P. Kampa.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Laid over to May 24, 1955, at 2 P. M., for inspection and decision; hearing closed.

1-52-A

APPLICANT—Cullen and Dykman, for The Brooklyn Savings Bank, owner (Koppers Co., Inc., lessee).

SUBJECT—Application for consideration—reopening as to extension of term of variance—re Appeal from a decision of the borough superintendent; previously granted on condition.

PREMISES AFFECTED—151 Pierrepont street, north side, 175 ft. east of Clinton street, Block 239, Lot 6, Borough of Brooklyn.

APPEARANCES—

For Applicant: William F. Richardson.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and term of variance extended

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board on May 6, 1952, on certain conditions; and

WHEREAS, the applicant requested an extension of the term of variance; and

WHEREAS, in a letter dated April 30, 1952, the Borough President advises that it is not possible at this time to determine whether the subject property will be affected by any possible additional land acquisition in connection with the widening of Fulton Street.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * granted for a term of five years from the date of this amended resolution, to permit * * *; that other than as herein amended the resolution above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained." (Alt. App. 974-51.)

277-54-A—Vol. II

APPLICANT—The Procter & Gamble Manufacturing Company, owner.

SUBJECT—Application for consideration—reopening as Vol. II to consider extension of systems—re Appeal from a decision of the fire commissioner; previously granted on condition.

PREMISES AFFECTED—Richmond terrace, south side, 650 ft. southwest of Western avenue, Block 1400, Lot 1, Mariners Harbor, Borough of Richmond.

APPEARANCES—

For Applicant: S. W. Blackett.

ACTION OF BOARD—Appeal reopened as Vol. II, subject to the regular procedure.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

MINUTES

1339-27-BZ—Vol. III

APPLICANT—Lama, Proskauer and Prober, for Harry Sweedler, owner.

SUBJECT—Application for consideration—reopening as to extension of time to complete—re Application (decision of the borough superintendent), previously granted on condition, under sections 7f and 7i of the zoning resolution, permitting in a business use district, the change in use from used car sales, auto laundry, lubritorium, paint shop and store to gasoline service station, lubritorium, auto laundry and motor vehicle repair shop with curb cuts and entrance more than permitted distance from intersection.

PREMISES AFFECTED—1607-1615 Coney Island avenue and 1101-1111 Locust avenue, northeast corner (Block 6731, Lot 65), Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. III, on February 28, 1950, on certain conditions; and

WHEREAS, the resolution was amended on September 25, 1951; and

WHEREAS, time to obtain permits and complete the work was extended from time to time and last extended on April 20, 1954; and

WHEREAS, the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on February 28, 1950 and as thereafter *amended* by resolution through April 20, 1954 only so far as it has reference to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that plans have been approved by the Department of Housing and Buildings and all permits issued and work is ready to start, that all permits required shall be obtained and all work completed within the requirements of Sections 22A of the Zoning Resolution from the date of this *amended* resolution" (N. B. 109/45).

330-29-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Frederick Prisco, owner.

SUBJECT—Application for consideration—reopening as to extension of term of variance—re Application (decision of the borough superintendent), previously granted on condition, under section 7f of the zoning resolution, permitting partly in a business and residence use district, the erection and maintenance of a gasoline service station for a temporary term.

PREMISES AFFECTED—70-58 to 70-66 Kissena boulevard and 153-08 to 153-18 Vleigh road, southwest corner, Block 6697, Lot 1, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board on December 20, 1932, on certain conditions; and

WHEREAS, the resolution was amended on May 22, 1945; and

WHEREAS, time to obtain permits and complete the work was extended from time to time and last extended on June 29, 1948; and

WHEREAS, the applicant requested an extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 22, 1945, and as thereafter *amended* by resolutions adopted through June 29, 1948 only so far as it has reference to the term of the variance, so that as *amended* this portion of the resolution shall read:

"* * * granted under Section 7, Subdivision f for a term of 15 years from the date of this *amended* resolution, to permit; that other than as herein *amended* the resolution above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained" (Alt. App. 1517/44).

89-38-BZ—Vol. III

APPLICANT—Herman Kron, for I. T. Flatto, owner.

SUBJECT—Application for consideration—reopening as to amendment to company continuance of parking area—re Application (decision of the borough superintendent), previously granted on condition, under sections 7f, 21 and 7A of the zoning resolution, permitting in the business use district, portion of a plot located in a residence and business use C area district, the extension and conversion of existing area, using more than the area permitted, to garage for more than five motor vehicles with business entrance nearer the residence use district than is permitted (previously granted by the Board, never completed).

PREMISES AFFECTED—1656-1682 Palmetto street and 714 Cypress avenue, southeast corner, Block 3449, Lot 6, Ridgewood, Borough of Queens.

APPEARANCES—

For Applicant: Herman Kron.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, time to complete work extended and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. III, on July 27, 1954, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution and extension of time to complete; and

WHEREAS, the owner's request for temporary occupancy without completing all of the work is due to the fact that the tenant of the parking lot cannot be evicted and that it is expected that the owner will be able to acquire the occupancy of this plot so that the garage can be erected within one year.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 27, 1954, by adding thereto:

"that temporarily, for a term of one year, and pending the erection of the proposed garage on the Cypress avenue side, the use of the floor portion of this arena may be used for garaging, complying with the requirements of the resolution above cited; provided that a sprinkler system shall be installed and that the walls separating the entrance from the Saint Nicholas Avenue entrance of the stadium proper shall be constructed." (Alt. 2441/53)

MINUTES

592-41-BZ

APPLICANT—Max Horn, for Agnes Anastasio, owner.
SUBJECT—Application for consideration—reopening as to extension of term of variance—re Application (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, permitting in a residence and business use district, for a term of years, the parking and storage of motor vehicles.

PREMISES AFFECTED—133-51 Beach 5th street, west side, 80 ft. south of Seagirt avenue, Block 140, part of Lot 5, Far Rockaway, Borough of Queens.

APPEARANCES—

For Applicant: M. Horn.
For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commisisoner Kleinert and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board on July 17, 1941, on certain conditions; and

WHEREAS, the term of variance was extended from time to time and last extended on June 9, 1953; and

WHEREAS, the applicant requested a further extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 17, 1941, and as thereafter *amended* by resolutions adopted through June 9, 1953, only so far as it has reference to the term of the variance, so that as *amended* this portion of the resolution shall read:

"* * * granted under Section 7, Subdivision h for a term of two years from the date of this *amended* resolution, to permit; that other than as herein *amended* the resolution above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained" (Misc. App. 472/41).

502-51-BZ—Vol. I

APPLICANT—Robert Gottlieb, for Hermany Farms, Inc., owner.

SUBJECT—Application for consideration—reopening as to extension of term of variance—re Application (decision of the borough superintendent), previously granted on condition, under section 7c of the zoning resolution, permitting in a residence use district, the alteration to existing building by enlarging the present second floor (previously granted by the Board the parking and storage of motor vehicles used in conjunction with milk bottling premises on Lot 25 for a term of three years.).

PREMISES AFFECTED—2338 Hermany avenue, south side, 341 ft. west of Zerega avenue, Block 3697, Lots 9, 21 and 25, Borough of The Bronx.

APPEARANCES—

For Applicant: Gerald Levy.
For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE RULES FOR ARC AND GAS WELDING AND OXYGEN CUTTING, COVERING THE SPECIFICATIONS FOR DESIGN, FABRICATION AND INSPECTION OF ARC AND GAS WELDED STRUCTURES AND THE QUALIFI- CATIONS OF WELDERS AND SUPERVISORS (CAL. NO. 1-38-SR—VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday morning, May 20, 1955*, at 10 A. M. in Room 1013, Municipal Building, Manhattan, on the following Proposed amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, Covering the Specifications for Design, Fabrication and Inspection of Arc and Gas Welded Structures and the Qualifications of Welders and Supervisors.

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS FEBRUARY 25, 1938.

EFFECTIVE MARCH 21, 1938. AMENDED MAY 17, 1940. EFFECTIVE JUNE 10, 1940; AND SEPTEMBER 17, 1954. EFFECTIVE OCTOBER 18, 1954.

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, of the Charter of the City of New York and C26-514.0 of the Administrative Code (8.6.2.2).

These Proposed Amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, as printed herein in *italics*, are as suggested by the Allied Building Metal Industries as to welding of light structural steel such as fire-escapes, railings, gratings, door-bucks, etc., which are generally shop welded.

Old matter, in brackets [], to be deleted; new matter, in *italics*, to be substituted therefor.

Rule 1. Application for Permits.

- 1.2 [The commencement of any structural welding work is forbidden until an application for a permit to perform such work is filed with and approved by the

Borough Superintendent. The Borough Superintendent shall be notified in writing at least 48 hours prior to the date when the structural welding work is to commence.]

Structural welding work shall be performed only by approved contractors employing certified welders.

Rule 9. Supervision and Inspection.

- 9.1 [Any welding to be done on a structure or any part thereof shall be performed under the supervision of a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect or licensed engineer. Such agency shall be acceptable to the Borough Superintendent.]

Any welding to be done on a structure or any part thereof, in the field, excluding bar joists, shall be performed under the supervision of a representative of the Department of Housing and Buildings, or a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect, or licensed engineer. Such agency shall be acceptable to the Borough Superintendent. Shop welding on structural steel performed by approved contractors shall be the responsibility of the approved contractor, and shall not require supervision or inspection.

Rule 11. Metal Chimneys, Tanks, Stairs and Fire-Escapes.

- 11.1 [Stairs and fire-escapes shall be considered as light structural steel and where shop welded, shall have attached thereto a tag or label, affixed by the standard Testing Agency, to the effect that these Rules have been complied with.]

Stairs, fire-escapes, railings, gratings, door-bucks and other miscellaneous and ornamental metal, ferrous and non-ferrous work, shall not be considered as structural steel and therefore when welded need not be inspected by a standard testing agency.

PUBLIC HEARINGS

Tuesdays at 10 a.m. to 2 p.m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building,
Borough of Manhattan.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection
with which court proceedings are pending or in progress,
unless exception is granted by the chairman, nor accepted
which is not filed within thirty days from the date of the
action of the Administrative Official.

Any communication purporting to be an appeal or appli-
cation shall be regarded as a mere notice of intention to seek
relief until it is filed on the form required by the rules of
this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his appeal
or application.

At the time of filing an appeal or application, the appel-
lant or applicant shall forward a signed notice of appeal
addressed to the administrative official either borough super-
intendent of buildings or fire commissioner and file with
this board a duplicate of said notice.

Appellant and applicants are advised that their plans must
indicate the points of the compass so as to establish the true
location and position of the property, the subject of the
appeal or application.

Appeals and applications will be simplified and disposition
of same expedited by conforming to these directions.

736-51-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Bellnord Associates, Inc., owner.

SUBJECT—Application reopened March 15, 1955 by order of the Court—re (decision of the borough superintendent) previously denied under section 7e of the zoning resolution, to permit in the local retail use district, the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repairs, showroom for new and used cars, parts department and office; and to permit the parking and storage of cars, for a term of fifteen years (previously denied under sections 7e and 7A).

PREMISES AFFECTED—147-10 Northern boulevard and 37-01 to 37-09 147th street, southeast corner, Block 5016, Lot 18, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: J. H. Hoffnagle and William Albert.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on April 15, 1952 this application (Vol. I) was denied by the Board under sections 7e and 7A of the zoning resolution, to permit in the local retail use district portion of a lot located in residence and local retail use districts, the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repairs and office, and the parking and storage of motor vehicles, with a curb cut more than permitted distance from the intersection, all for a term of fifteen years; and

WHEREAS, this application was reopened as Vol. II on May 26, 1953 subject to regular procedure, for re-hearing; and

WHEREAS, a public hearing was held on this application on May 4, 1954 after due notice by publication in the Bulletin; laid over to May 25, 1954 for decision and inspection; no further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 147th street are in residence and local retail use, C area, class 1 height districts; Northern boulevard is in a local retail use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated March 26, 1953 acting on N.B. Applic. 583-53, reads:

"1. Use of premises located partly in a residence use district and partly in a local retail use district as a gasoline service station, lubritorium, minor auto repairs, car washing, auto showroom for new and used cars, office, parts department, parking and storage is contrary to Art. II Sec. 3 & 4C of the Zoning Resol."

and
WHEREAS, the applicant states that the premises consist of a plot, 153 ft. frontage by 105.30 ft. in depth, irregular, presently vacant; that it is proposed to erect a new auto-

mobile service center consisting of an auto showroom and a gasoline service station; that the contemplated building will have a frontage of 74 ft., a depth of 53 ft., one story in height, of class 3 construction, and contain the aforementioned auto showroom and the necessary conjunctive uses to such showroom and gas station, these uses to consist of lubritorium, minor auto repairs, office and car washing; that the gas station will consist of ten 550-gallon gas tanks and six dispensing pumps; that a portion of the site will be reserved for parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the modern trend in automotive service has been to provide any service an owner may require in one place, from the purchase of his car to the maintenance and fueling of said car, and the project as proposed will be in line with these needs; that Northern boulevard is a very highly traversed auto lane and as such the project is entirely in keeping at this point; that the large residence development in the area has also created a need for the proposed showroom and gas station as such services are not available in the affected area; that there are more than sufficient stores in the area for public requirements; that although the site is partly in a residence zone the project will be confined to the local retail zone and the auto showroom is a permissible use in the local retail zone; that a planted area, 20 ft. in depth, will be maintained on the southerly lot line which will afford permanent additional light and ventilation to adjoining residence area and also act as a buffer between zones; that a 6 ft. wide planted area will be maintained along 147th street, except for a short distance in order to afford entry to the site, which will help maintain the residential aspect of 147th street; that a 15 ft. wide portion of the site at the easterly end will be reserved for a conforming use, and this, together with the permissible 30 ft. wide auto showroom will act as a buffer to the rest of the frontage on Northern boulevard to the east; that the highly modern design of the building and the contemplated treatment of the entire site with its landscaping and planting will enhance the appearance of the entire area and be in keeping with the modern trend in commercial design; and

WHEREAS, the applicant states that as of July 25, 1916 the property was in a residence district and on November 11, 1926 the portion of the property within 100 ft. of Northern boulevard was changed to a business district; that the present local retail designation became effective on September 18, 1947; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that there was no sufficient reason advanced to justify a favorable decision to reverse the prior action of denial under Volume I; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, subdivision e, of the zoning resolution; and

WHEREAS, on May 25, 1954 this application (Vol. II) was denied under section 7e; and

WHEREAS, on June 30, 1954 copy of petition and order of certiorari was served on the Board by attorney for owners; and

WHEREAS, application was reopened on March 15, 1955 by the Board by order of the court and set for hearing on April 19, 1955 at 10 A.M.; applicant to send notice to property owners in area by registered mail; and

WHEREAS, a public hearing was held on this application on April 19, 1955, laid over to May 10, 1955 for inspection and decision—hearing closed; then laid over to May 17, 1955, for further consideration—hearing closed; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Sections 7-A and 7, Subdivisions e, h and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application

MINUTES

be and it hereby is *granted* under Section 7e for a term of ten years, to permit the premises as reduced, now having a frontage of 138 feet along Northern boulevard and 136.69 feet along the rear lot line to be occupied as a gasoline service station, substantially as proposed and as indicated on plans filed with this application, marked "Received April 7, 1955", 1 sheet and "May 3, 1955", 2 sheets, as revised by plan marked "Received May 12, 1955", 1 sheet, *on condition* that the premises shall be leveled substantially to the grade of Northern boulevard and shall be constructed and arranged as indicated on such revised plan marked "Received May 12, 1955", 1 sheet, *on condition* that the accessory building shall be of the size and arrangement as indicated on such revised plan; that there shall be no cellar under such accessory building, the design of which shall be as indicated on plan marked "Received May 3, 1955"; that along the rear lot line there shall be a masonry wall for a full height of 5 ft. 6 in.; that such wall shall be returned along the 147th street side for a distance of approximately 35 feet and from there to a distance of 65 feet from the rear lot line there shall be a wall of similar construction except the top 3 feet may be of steel pickets; that there shall be suitable terminating posts erected at the end of such walls; that along the rear and side walls there shall be landscaped areas as shown and of the width shown planted with suitable planting material protected by a 6 in. by 6 in. concrete curbing; that pumps shall be of a low approved type erected not nearer than 15 feet to the street building line; that curb cuts shall be restricted to three to Northern boulevard, each not over 30 feet in width and one curb cut to 147th street within the first 25 feet of the street building line of Northern boulevard; that there shall be erected within the intersection a block of concrete extending for a distance of not less than 5 feet along either building line and not less than 12 in. in height; that a similar block shall be erected toward the east against the proposed 15 ft. passageway not included in this application from Northern boulevard to the rear for service of the adjoining stores under the same ownership; that along this line there shall be erected a woven wire fence not less than 5 ft. 6 in. in height or a masonry wall with suitable terminating post at the street building line of Northern boulevard; that the sidewalks and curbing around the premises shall be reconstructed or restored to the satisfaction of the borough president; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; that the number of gasoline storage tanks shall not exceed ten 550 gallon tanks; that under section 7h for a similar term there may be parking of cars awaiting service; that under Section 7A, the curb cut on 147th street hereinbefore permitted may be approved; that under section 7i there may be minor motor vehicle repairs maintained within the accessory building only, for adjustments with hand tools; that the face brick used on all sides of the accessory building and for the masonry wall shall harmonize; that signs shall be limited to a permanent sign attached flat to the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting a post standard within the building lines at the intersection for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over 4 ft. and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

424-52-BZ

APPLICANT—Schatz Systems, Inc., lessee, for Samuel Danzig, owner.

SUBJECT—Application reopened April 12, 1955 for consideration as to extension of term of variance—re (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a residence use district, the parking and storage of motor vehicles, for a term of years.

PREMISES AFFECTED—43-45 West 67th street, north side, 100 ft. east of Columbus avenue, Block 1120, Lot 5, Borough of Manhattan.

APPEARANCES—

For Applicant: Mervin Danzig.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinfert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on December 16, 1952 this application was granted by the Board on certain conditions, under section 7h of the zoning resolution, to permit in a residence use district, for a term of two years, the parking and storage of motor vehicles; and

WHEREAS, on February 13, 1953 copy of petition and order of certiorari was served on Board by attorney for objecting property owners; and

WHEREAS, on June 3, 1953, Supreme court, New York county, it was stipulated and agreed by and between the attorneys for the respective parties hereto that the within proceedings be and the same hereby is discontinued without costs against any of the parties hereto; and

WHEREAS, the applicant requested reopening of this application and extension of the term of variance, which had expired by time limitation on December 16, 1954; and

WHEREAS, this application was reopened on April 12, 1955 and set for hearing on May 10, 1955 at 10 A.M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on May 17, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated May 11, 1955 acting on Alt. Applic. 658-52, reads:

"Your application for an extension of temporary certificate of occupancy #40831 for above premises is hereby denied as the Board of Standards and Appeals resolution, Cal. #424-52-BZ limited the term of the variance for the parking lot to two (2) years from Dec. 16, 1952. You may refer back to the Board for an extension of the variance."

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on December 16, 1952, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * granted under Section 7, subdivision h for a term of five years from the date of this amended resolution; that other than as herein amended the resolution above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained within six months from the date of this amended resolution."

585-52-BZ—Vol. II

APPLICANT—Harry A. Yarish, for Joseph I. Lubin and Joseph Eisner, owners (Carl Speigel, lessee).

SUBJECT—Application reopened June 2, 1953 as Vol. II—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a restricted retail use district, the parking and storage of motor vehicles, for a term of two years.

PREMISES AFFECTED—339-341 East 45th street, north side, 100 ft. west of 1st avenue, Block 1338, Lots 21 and 22, Borough of Manhattan.

APPEARANCES—

For Applicant: Harry A. Yarish.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

MINUTES

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Chairman Murdock 1

Negative: Commissioners Kleinert and Keating and

Deputy Chief Connolly 3

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on June 2, 1953 subject to regular procedure, restored to calendar; and

WHEREAS, a public hearing was held on this application on May 3, 1955 after due notice by publication in the Bulletin; laid over to May 17, 1955, for applicant to file a letter from the proposed operator who now is stated to operate the parking lot opposite on the south side of the street; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and First avenue are in a restricted retail use, B area, class 1½ height district; East 45th street is in restricted retail business and manufacturing use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated May 26, 1953 acting on Alt. Applic. 923-52, reads:

"7. Parking and storage of more than five (5) motor vehicles in a Restricted Retail District not permitted as same is contrary to Paragraph 4-B(L) of the Building Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 40 ft. frontage by 100 ft. in depth, presently vacant, and is located in a restricted retail district; that this was changed on May 5, 1947 prior to which time it was an unrestricted district; that the area was unrestricted from 1916 to April 5, 1947; that it is proposed to enclose the entire plot in a woven wire fence 6 ft. high except where there are abutting brick walls of adjacent buildings; and

WHEREAS, the applicant contends that the subject area is heavily congested by auto traffic and any additional parking space would aid in easing the traffic situation particularly to people who carry on their business in this area; that the subject plot has been vacant for almost 3 years; that it seems to be undesirable for any conforming use because of its small area; that it is presently leased for parking on a 30 day basis in order to permit the owner to sell whenever the opportunity arises; that the proceeds derived from the parking lot rent would to some extent give relief to the owner in that he would be better able to meet the taxes and other expenses to carry this property; and

WHEREAS, the applicant states that the present owner has held title to the property since September 8, 1946 and that the assessed valuation of land is \$57,500; and

WHEREAS, the following resolution was offered for adoption:

The motion is to grant under Section 7h for a term of two years to permit the premises to be occupied for the parking of motor vehicles substantially as proposed and as indicated on plans filed with this application marked, "Received, November 17, 1954" (2 sheets) on condition that the premises shall be levelled substantially to the grade of East 45th Street and shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that there shall be erected on the side and rear lot lines where walls of adjoining buildings do not occur a woven wire fence of the chain link type not less than five feet six inches in height; that a similar fence with gates shall be erected on the street building line; that the gates shall be closed when the parking lot is not open for parking of cars; that opposite such gates not exceeding 15 feet in width there may be a curb cut of similar width; that the requirement of this resolution is that the operation of this lot shall be under the same auspices and by the same persons in control of the parking lot as of the parking lot opposite at Nos. 338 to 342 East 45th Street, Block 1337, lots 30, 31, 32 and 33; that signs shall be restricted to a sign attached to the fence near the entrance, not extending beyond the building line and not illuminated and not ex-

ceeding 15 square feet in area, advertising the parking use and rates, charges and such other information as may be required by the Commissioner of Licenses; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that all permits shall be obtained and all work completed within six months of the date of this resolution.

and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision h of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 923-52, Objection No. 7 be and it hereby is affirmed and that the application be and it hereby is denied.

41-55-BZ

APPLICANT—Lama, Proskauer and Prober, for 201-205 Park Row Corp., owner.

SUBJECT—Application January 14, 1955—(decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a retail use district, the maintenance of existing use of more than permitted percentage of floor area for manufacturing.

PREMISES AFFECTED—201-203 Park row, south side, 101 ft. 1 in. east of Roosevelt street, Block 117, Lot 21, Borough of Manhattan.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 3, 1955 after due notice by publication in the Bulletin; laid over to May 17, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a retail use, B area, class 2 height district; Roosevelt street and Park Row are in retail and manufacturing use, B area, class 2 height districts; and

WHEREAS, the decision of the borough superintendent, dated December 16, 1954 acting on Alt. Applic. 2082-54, reads:

"1. Proposed use of building for manufacturing in a retail district is contrary to Sec. 4A of the Z.R. since more than 5% of the total floor space of the building will be used for manufacturing."

and

WHEREAS, the applicant states that the premises consist of a plot, 49 ft. 9½ in. frontage by 126 ft. 7 in. in depth; that the use district maps show that the premises are in a retail use, B area, class 2 height district; that as of July 25, 1916 the premises were in an unrestricted use district and received the present use designation on June 30, 1952; that the premises are now developed with a two story building of class 3 construction, having a frontage of 50 ft. 6 in. on Park row, 138 ft. 5½ in. on the easterly lot line, 117 ft. 4½ in. on the westerly lot line and irregular on the southerly lot line; that the building in question was erected under Alt. Applic. 1164-23 as an extension to the adjoining 4 story building on lot No. 19 and certificate of occupancy No. 7939 was issued April 17, 1924 for the following uses in the main building and the extension: cellar—boiler room and showroom; 1st to 4th floor—showroom; that under Alt. Applic. 462-46 the 4 story building on lot No. 19 was altered and divorced from the building in question; that all the openings between the buildings were sealed up, creating two separate buildings and thereby destroying the horizontal means of

MINUTES

egress of the building in question and as a result violation No. 2113-1954 was placed on the subject premises; that the building is now occupied as follows: cellar—storage and boiler room; 1st floor—manufacturing and sample cards; 2nd floor—manufacturing of sample cards; that it is proposed to secure a variance in order to maintain the present uses; and

WHEREAS, the applicant contends that inasmuch as 50% of the affected area is still zoned unrestricted and developed with similar types of buildings to the one in question, the rezoning of these premises to a retail use district in 1952, which only permits 5% of the area of the lot to be used for manufacturing, has caused an undue hardship upon the owner; that the property is very high in assessed value and the proposal is the only feasible manner in which the owner may receive an equitable return on his investment and continue to pay city taxes; that in view of these facts and as the area will not be adversely affected, it is requested that this application be granted; and

WHEREAS, the applicant states that the present owner has held title to the premises since November 22, 1938; that the assessed valuation of land is \$35,300 and of the building \$35,000 making a total of \$70,300; that the building was erected in 1923; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which realized the application is due to portion of premises being taken for the widening of Park Row; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the continuance of the use of the building as previously occupied of a reduced size, due to the street widening of Park Row, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified this day by resolution adopted under Cal. 42-55-A; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

42-55-A

APPLICANT—Lama. Proskauer and Prober, for 201-205 Park Row Corp., owner.

SUBJECT—Application January 14, 1955—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—201-203 Park row, south side, 101 ft. 1 in. east of Roosevelt street, Block 117, Lot 21, Borough of Manhattan.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated December 16, 1954, on Alt. Applic. 2082 of 1954, reads:

"2. Two lawful means of egress are required from each floor area, including cellar, as per Sec. 270 of L.L."

and

WHEREAS, the applicant states the building is two stories, 26 ft. in height, 50 ft. 6 in. front by 138 ft. 5½ ins. irreg. in depth at street level, 50 ft. 6 in. front by 117 ft. 4¼ in. irreg. in depth at typical floor level, of Class 3 construction,

erected 1923, located on a lot 50 ft. 6 in. front by 138 ft. 5½ in. irreg in depth, in a retail use, B area class 2 height district and used and occupied since 1946: cellar—storage and boiler room, no persons; 1st floor—manufacturing sample cards, 40 persons; 2nd floor: manufacturing sample cards, 20 persons, and now proposed to be altered to two stories, 26 ft. in height, 49 ft. 9½ ins. front by 126 ft. 7 in. irreg. in depth at street floor, 49 ft. 9½ in. front by 99 ft. 11¼ ins. irreg. in depth at typical floor, of Class 3 construction on a lot 49 ft. 9½ in. front by 126 ft. 7 in. irregular in depth and to be used and occupied as follows: cellar—storage and boiler room, no persons; 1st floor—manufacturing sample cards, 40 persons; 2nd floor—manufacturing sample cards, number of occupants not stated; that the building is now provided with 3 ft. 8 in. wide steel and wood interior stairs, fireproof enclosed, equipped with fireproof self-closing doors and leading from roof bulkhead direct to street, and one fire escape on the front leading to street by counterbalanced stair; and

WHEREAS, the applicant states that under Alt. App. 1164 of 1923 the building was erected as an extension to the adjoining portion four story brick building on Lot 19 and Certificate of Occupancy 7939, issued April 17, 1924 for the following uses: cellar—boiler room and show room; 1st to 4th floor—show room; that under Alt. App. 462 of 1946, the four story building on lot 19 was altered and divorced from the building in question; that all the openings between the buildings were sealed up creating two separate buildings thereby destroying the horizontal egress for the building in question and as a result Violation No. 2113 of 1954 was issued; and

WHEREAS, the applicant contends as to objection 2 issued by the borough superintendent that it is proposed to provide one new 3 ft. 8 in. wide steel stair for the second floor enclosed in a three hour fireproof enclosure complying in all respects with Section 270 of the Labor Law and leading from the second floor to the first floor and thence direct to the street; that this stairs will also lead to the cellar and to the roof; that a second means of egress from the second floor will be provided by a counterbalanced Labor Law fire escape on the street front; that there is an existing 3 ft. 8 in. wide wood stair at the rear leading from roof to cellar enclosed in four in. fireproof blocks equipped with fireproof self closing doors which will also provide additional egress between floors; that the cellar will be used only for storage with no permanent occupancy and will be provided with one new 3 ft. 8 in. wide steel stair in a three hour fireproof enclosure complying in all respects with Section 270 of the Labor Law and leading directly to street by way of the first floor; that a second means of egress will be provided through a 3 ft. wide areaway with a stationary iron ladder leading to the sidewalk; that this area will be provided with iron trap door made easily openable from the under side; that the boiler room will also be provided with a stationary iron ladder leading directly to the street with an iron trap door made easily openable from the under side; and

WHEREAS, the applicant contends that inasmuch as the building has a small occupancy it is requested that the exits as proposed be accepted; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 2082/54, Objection No. 2, and that the appeal be and it hereby is *granted*, to permit as the required two means of exit the enclosed stair and fire escape as indicated on plans filed with the companion application Cal. No. 41-55-BZ, resolution as to which was adopted this day by the Board, *on condition* that the primary means of exit shall be maintained in accordance with the requirements therefor; that as a second means of exit a balcony at the window sill level of the second floor with counterbalanced stairway to street shall be maintained as shown on plans

MINUTES

filed with Cal. No. 41-55-BZ; that the interior stairway leading to first floor without direct exit to the street may be continued; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as permitted this day by resolution adopted in Cal. No. 41-55-BZ; that the building shall not be increased in height or area; that the number of persons per floor shall be limited to the capacity of the primary means of exit.

112-54-BZ

APPLICANT—Ferdinand Savignano, for Lydia Rifice, owner.

SUBJECT—Application February 17, 1954—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, E1 area district, the maintenance of existing steps and platform erected nearer than permitted to street line, and with the yard at a level above legal grade.

PREMISES AFFECTED—8501-8511 Narrows avenue, southeast corner of 85th street, Block 6031, Lot 8, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph Luca and Aurelio Rifice.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 17, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Narrows avenue and 85th street are in a residence use, E-1 area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated February 16, 1954 acting on N. B. Applic. 353-53 reads:

"1. Steps & platform encroach upon required 15 ft. setback from front bldg. line & violates Art. 4 Sect. 15A(c) of the zone resolutions.

2. Front yard to start at level of legal street grade."

and

WHEREAS, the applicant states that the premises consist of a plot, 60 ft. frontage by 114 ft. 2 1/8 in. depth, on which is located a structure, 2 stories in height, split level, class 4, 2-family, as approved under N. B. No. 353-53; and

WHEREAS, the applicant states that it is proposed to permit the existing steps and platform to remain, with present yard level (terrace area); and

WHEREAS, the applicant contends that during construction of the building the floor levels were taken from the highest datum point, which was at the rear of the property; that when all the floor beams were installed and the uprights and roof framing and outer shell was completed, it was realized that the number of risers necessary to provide access to the first level were more than indicated on plans; that a masonry platform and the necessary risers were installed by the builder little realizing the fact that this building was located in an E-1 zone which necessitates a 15 ft. setback of any structure with steps permitted on the setback area, provided that they do not exceed 3 ft. 6 in. from legal grade level; that the 8 ft. wide platform and steps were completely installed and the 15 ft. setback area was filled in to a height of 3 ft. from legal grade for landscaping; that all these factors were brought out at the time of filing a completion survey, which indicated that the steps were exceeding in height in a 15 ft. setback; that the plat-

form exceeds more than 5 ft. in width and the terrace exceeds the 1 ft. 6 in. maximum from legal grade permitted by the department of housing and buildings; that the structure is a corner building and sets back 15 ft. from each building line on Narrows avenue and 85th street; that the stair is on the Narrows avenue side; that on the next corner there is an existing structure which extends out beyond the limits of the building in question; that the conditions mentioned will in no way mar the appearance of the neighborhood or adjoining properties, but will be enhanced when landscaping is completed; that the steps do not create a hazardous condition as they are well set back from the line of travel of the sidewalk; that it would be a hardship to relocate the steps involved and lower the terrace area; and

WHEREAS, the applicant states this location was zoned as E up to December 2, 1952 and was changed to an E-1 zone after that date; and

WHEREAS, the applicant states that the present owner has held title to the property since January 8, 1951; that the assessed valuation of land is \$10,000 and of the building \$16,000 making a total of \$26,000; that the building was erected in 1953; and

WHEREAS, the Board found that the applicant has substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area district regulations of the zoning resolution and that the application be and it hereby is granted under Section 21 to permit the continuation of the steps from the front door as proposed and as indicated on plans filed with this application marked, "Received, February 17, 1954" (5 sheets) on condition that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits and a certificate of occupancy shall be obtained and all work completed within six months of the date of this resolution.

424-54-A

APPLICANT—Ferdinand Savignano, for Lydia Rifice, owner.

SUBJECT—Application May 20, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—8501-8511 Narrows avenue, southeast corner of 85th street, Block 6031, Lot 8, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph Luca and Aurelio Rifice.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated April 30, 1954, on N.B. App. 353/53, reads:

"1. Steps & terrace beyond bldg. line violates Sect. 2.4.1.1 of the bldg. code."

and

WHEREAS, the applicant states the building is 2 stories, 22 ft. in height, 59 ft. 9 in. front by 35 ft. 7 1/2 in. in depth, of Class 4 construction, erected in 1953, located in a residence use, E area, Class 1 height district; used and occupied since 1953 as a two-family dwelling; and

WHEREAS, the applicant states that during construction the floor levels were taken from the highest datum point which was at the rear of the property; that when all the floor beams were installed and the uprights and roof framing and outer shell completed, it was realized that the number of risers necessary to provide access to the first floor were more

MINUTES

than indicated on the approved plan; and that a masonry platform and necessary risers were installed by the builder, little realizing that the building was in an E-1 zone which requires a 15 ft. setback of any structure with steps permitted on the setback area provided they do not exceed 3 ft. 6 in. from legal grade level; that the 8 ft. wide platform and steps were completely installed and the 15 ft. setback area filled in to a height of 3 ft. from legal grade for landscaping; that all these facts were disclosed upon filing a completion survey, which indicated that the steps were exceeding in height in a 15 ft. setback; that the platform exceeded more than 5 ft. in width and the terrace exceeded the 1 ft. 6 in. maximum from legal grade permitted by the Department of Housing and Buildings; and

WHEREAS, the applicant contends that the building is a corner building and is set back 15 ft. from each building line; that the stair is on the Narrows avenue side and on the next corner at Narrows avenue and 85th street there is an existing structure which extends out beyond the limits of the building in question; that the conditions mentioned will in no way mar the appearance of the neighborhood or adjoining properties; that the appearance of the corner property will promote the appearance when the landscaping is completed; that the steps do not create a hazardous condition as they are well set back from the line of travel; that all the buildings of the block have similar existing conditions; and

WHEREAS, the applicant contends it would be a hardship to be required to relocate the steps involved and lower the terrace area, which would not give the building a graceful esthetic value and it is therefore requested that the Board permit the existing conditions to remain.

Resolved, that the decision of the borough superintendent, acting on NB App. 353/53, Objection No. 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the requirements of the resolution adopted this day under Cal. No. 112-54-BZ shall be complied with.

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated April 6, 1954, on amendment to N.B. App. 758/53 reads:

"3. The construction of steps beyond the building line is contrary to Sect. 2.4.2.1 of the Bldg. Code."

and

WHEREAS, the applicant states that the premises consist of a lot 40 ft. front by 114 ft. 2½ in. in depth, located in a residence use, E-1 area, Class 1 height district, upon which there exists a two story, 22 ft. high, Class 3 constructed building, 25 ft. by 54 ft. in area, erected in April 1953 and used and occupied since November 1953 as a two-family dwelling; and

WHEREAS, the applicant states that during construction the floor levels were taken from the highest datum point at the rear of the property and when all the floor beams were installed and the uprights and roof framing and outer shell completed, it was realized that the number of risers necessary to provide access to the first level were more than indicated on the approved plans; that the necessary risers were installed by the builder without realizing the building was in an E-1 zone which requires a 15 ft. setback with steps permitted in the setback provided they do not exceed 3 ft. 6 in. from grade level; that the steps were completely installed and the 15 ft. setback area was filled in to a height of 3 ft. from legal grade for landscaping, including the side yards; that these facts were disclosed at time of filing a completion survey which survey indicated the steps were exceeding in height in a 15 ft. setback and that the terrace exceeded the 1 ft. 6 in. maximum from legal grade permitted by the Department of Housing and Buildings; and

WHEREAS, the applicant contends that the structure is an interior building set back 15 ft. from 85th street; that the stair in question is on the 85th street side; that on the adjoining lot on 85th street is a stair which extends out beyond the setback in question; that these conditions will in no way mar the appearance of the neighborhood or the adjoining properties, but will enhance the general appearance when the landscaping is completed; that the steps beyond the building line do not create a hazardous condition as they are well set back from the line of travel; that all the buildings on the block have similar existing conditions; and

WHEREAS, the applicant contends it would constitute a hardship to be required to relocate the steps in question and lower the terrace area which would not give the building a graceful esthetic value and it is respectfully requested that the Board grant the above mentioned now existing conditions.

Resolved, that the decision of the borough superintendent, acting on NB App. 758/53, Objection No. 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, on condition that the requirements of the resolution adopted this day under Cal. No. 257-54-BZ are complied with.

647-54-BZ

APPLICANT—Kenneth W. Milnes, for Nicholas E. Vlasenko, owner.

SUBJECT—Application August 17, 1954—(decision of the borough superintendent) under section 7i of the zoning resolution, to permit in a retail use district the addition of motor vehicle repair shop to existing gasoline service station, show-room, used car lot and office.

PREMISES AFFECTED—1260 Hylan boulevard, south side, 39.26 ft. east of Quintard street, Block 3220, Lot 26, Grasmere, Borough of Richmond.

APPEARANCES—

For Applicant: Kenneth W. Milnes.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 17, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Hylan boulevard are in a retail use, D area, class 1 height district; Quintard street is in residence and retail use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated July 17, 1954 acting on Alt. Applic. 211-54, reads:

"1. Proposed change in use of sales office, storage, showroom, gasoline service station and used car lot to sales office, storage, showroom, gasoline service station, used car lot and motor vehicle repair shop on a lot located in Retail use district is contrary to Art. 2, Sec. 4-A of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 80.20 ft. frontage by 100.38 ft. in depth, irregular, on which is located a gasoline service station and used car sales lot, for which certificate of occupancy No. 6957-49 has been filed; that it is proposed to add the use of motor vehicle repairs to existing gasoline service station; and

WHEREAS, the applicant contends that primarily this application is to request permission and a variation of the zoning resolution so that the owner may carry on motor vehicle repair work, both in connection with his own cars (used car lot) and any outside work which he may desire to take in; that the owner at present has a certificate of occupancy, issued December 19, 1949, for the premises as a gasoline service station in existence since approximately 1925 and a used car lot sales since 1949; that although a legally constituted gas station, at no time has the owner ever made a strong point of selling gasoline to the motoring public, mostly retaining the one pump for his own use; that there is no request under this application to increase the gasoline station facilities or to construct any new facilities, but only to use the existing masonry buildings; that many factors contribute to the need for motor vehicle repair; that this owner, as do many used car lot owners, buy their cars from recognized agencies and due to the need for these agencies to push out new cars, of late years their tendency has been to over-allow on the trade-in value of cars, thus making it necessary for the used car lot dealer to do considerable body and engine work on them to make them attractive to the public interested in this type vehicle; that motor vehicle repairs to other than his own cars would constitute a very minor part of the business but if permitted to do his own repair work, it would constitute a great lift to the business of used cars which has greatly fallen off in the past few years, and still not create any undue nuisance to the neighborhood; that although these premises are within 200 ft. of a private school, the gas station was in existence many years prior to this school which was established in a former private residence; that insofar as is known there never has been any argument or difficulty between this owner and the school authorities; that a much greater hazard exists to the children, where directly across the street has recently been built a tremendous drive-in type restaurant, where a steady stream of cars enter and leave; that there is also an existing gas station close by on the same side of the street as the school, in block 3214, lot 18; that the restaurant is of course legally permitted in this area, and the service station either existed for many years or was by grant of the Board; that minor changes in zoning of the area has resulted since 1916,

MINUTES

being residence in 1916, business in 1924 and retail use in 1942 and has remained D area and class 1 height from 1916 to the present time; and

WHEREAS, the applicant states that the present owner has held title to the property since May 13, 1949; that the assessed valuation of land is \$1,400 and of the building \$2,600 making a total of \$4,000; that the building was erected in 1925 and 1952; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7i to permit the repairing of cars on the premises as proposed and as indicated on plans filed with this application marked, "Received, August 17, 1954" (7 sheets) *on condition* that such repairs shall be of a minor type with hand tools only and maintained within the building; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits and a new Certificate of Occupancy shall be obtained within six months from the date of this resolution.

Adjourned: 2:25 P. M

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

TUESDAY AFTERNOON, MAY 17, 1955, 2 P.M.

Present: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly.

620-51-SA

APPLICANT—York-Shipley Inc., owner.

SUBJECT—Application reopened November 10, 1953, as to amendment of resolution to additional models—re York-Heat and Yorktown Domestic and Commercial Oil Burners (gun type), Models CHB-7, CPB-7, C7PB-1, C7B7-2, C7LB-7, CSC-5, CU-5, C7-67, CE-CM, CU-67, N-1, NE-1, NM-1, N12, NE-2, N-3, N-38, NU-1, NE-3, NM-3, T-4, T-5, LC-9 and LCE-9, previously approved.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 620-51-SA

Subject: Amendment to resolution as to additional models.

York-Shipley, Inc. requested by letter dated October 22, 1953 that the resolution adopted March 4, 1952 under Cal. No. 620-51-SA be amended so as to include additional models of gun type fuel oil burner. The application was reopened by a vote of the Board November 10, 1953.

Description

The board approved, March 4, 1952 under Cal. No. 620-51-SA, the fuel oil burners known as York-Heat & Yorktown Oil Burner in various model designation. The requested models; DL-3, UDL-3A, DLA-3, DLAE-3, DLS-3, DH-3, DHA-3, DHAE-3, DHS-3, DHS-3A, DHSE-3, DUS-3,

DHA-31, DHAE-31, DLA-31, DHA-31 and DL-31 are similar to the approved models except that the requested models have a die cast aluminum housing instead of a moulded aluminum housing.

Recommendation

The Committee on Test recommends that the resolution adopted March 4, 1952 under Cal. No. 620-51-SA be amended so as to include additional models of York-Heat & Yorktown Oil Burner so that the models recommended for approval (including those models previously approved) are the York-Heat & Yorktown Oil Burner Models CHB-7; CPB-7; C7PB-1; C7PB7-2; C7LB-7; CSC-5; CU-5; CU-7; C7-67; CE-CM; CU-67; N-1, NE-1, NM-1, N-2, NE-2; N-3, N-38, NU-1, NE-3, NM-3; T-4; T-5, LC-9, LCE-9; DL-3; UDL-3A; DIA-3; DIAE-3; DLS-3, DH-3, DHA-3; DHAE-3, DHS-3; DHS-3A; DHSE-3; DUS-3, DHA-31, DHAE-31, DLA-31; DHA-31 and DL-31. The Committee further recommends that the models DHA-31, DHAE-31, DLA-31 and DL-31 may be marketed under the additional trade name of Heat-Rex, on condition that the requirements of the resolution adopted March 4, 1952 under Cal. No. 620-51-SA be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of March 4, 1952 in accordance with the above report.

297-52-SA

APPLICANT—General Electric Company, owner.

SUBJECT—Application reopened February 15, 1955, as to amendment to resolution—re General Electric Gas-fired Warm Air Furnace, Models 21LG10, 21LG20, 21LG25, 21LG30 and 21LG40, previously approved.

APPEARANCES—

For Applicant: A. K. Tower.

ACTION OF BOARD—Resolution amended, in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 297-52-SA

Subject: Amendment to resolution as to additional Model of Warm Air Furnace (Gas fired).

General Electric Company requested by letter dated January 14, 1955 that the resolution adopted July 22, 1952 under Cal. No. 297-52-SA be amended so as to include an additional model (21LG 15) of gas fired warm air furnace. The application was reopened by a vote of the Board February 15, 1955.

Purpose

The appliance is a warm air gas fired appliance for heating domestic and commercial installations.

Description

The additional model 21LG 15 is similar to the models approved July 22, 1952 under Cal. No. 297-52-SA differing only in BTU input.

Recommendation

The Committee on Test recommends that the resolution adopted July 22, 1952 under Cal. No. 297-52-SA be amended to include the additional model gas fired warm air furnace

MINUTES

so that the units recommended for approval (including those units previously approved shall be 21LG 10, 21LG 15, 21LG 20, 21LG 25, 21LG 30 and 21LG 40 Gas fired Warm Air Furnaces) on condition that the requirements of the resolution adopted July 22, 1952 under Cal. No. 297-52-SA be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of July 22, 1952 in accordance with the above report.

144-54-SM

APPLICANT—Tomkins Brothers, Agent for Taylor Clay Products, owner.

SUBJECT—Application February 25, 1954—Taylor Clay Products Face Brick (cored or solid), No. 705 Economy $3\frac{1}{2} \times 3\frac{1}{2} \times 11\frac{3}{4}$ ", approval of.

APPEARANCES—

For Applicant: L. W. Morrison.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 144-54-SM

Subject: Taylor Clay Products Face Brick, approval of.

Tomkins Brothers, Jamaica, New York for Taylor Clay Products, North Carolina filed February 25, 1954 an application with the Board of Standards and Appeals for approval of the material known as Taylor Clay Products Face Brick under the provisions of C26-307.0.b, C26-136.0 and C26-359.0 Administrative Building Code.

Purpose

The material is a structural clay unit used as a brick in masonry construction.

Description

The brick is formed of fire clay and shale. The clay and shale are first ground and blended then goes through the pug mill then to the brick machine where they are extruded, cut and faced. The formed bricks are then dried in a waste heat dryer and in a car tunnel kiln. The total time is approximately thirty-six hours.

Inspection and Test

The plant of the applicant was inspected by Asst. Engr. J. A. Darts, Committee on Test, process of manufacture and availability of raw material was investigated and sample units were identified and marked. Tests in accordance with the requirements of C26-307.0 Administrative Building Code were conducted at the Pittsburg Testing Laboratory.

Results were as follows:

1. Size $3\frac{3}{4} \times 2\frac{1}{4} \times 12$ "
Compressive Strength—9508 psi
Modulus of Rupture—841 psi
Percentage of voids—17.6%

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Taylor Clay Products Face Brick when manufactured as herein described and of a size as follows: $3\frac{3}{4} \times 2\frac{1}{4} \times 12$ " as having met the requirements of C26-359.0 Administrative Building Code for use in New York

City under the pertinent sections of the Administrative Building Code on condition that each bill of lading, bill of material or invoice shall be stamped: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 144-54-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

145-54-SM

APPLICANT—Tomkins Brothers, Agent for Taylor Clay Products Co., owner.

Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

165-54-SM

APPLICANT—Roddiss Plywood Corp., owner.
SUBJECT—Application February 24, 1954—Roddiscraft Protex Fire Door, approval of.

APPEARANCES—

For Applicant: Wm. H. Roddis, E. M. Magarian and Eugene M. Ford.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 165-54-SM

Subject: Roddiscraft Protex Fire Door, approval of.

Roddiss Plywood Corporation of Marshfield, Wisconsin, owner-manufacturer filed February 24, 1954 an application with the Board of Standards and Appeals for approval of the Roddiscraft Protex Fire Door under the provisions of C26-168.0.b and C26-610. Administrative Building Code.

Purpose

A flush type single swing one-hour fire resistive fire door constructed of wood chip core and intended for use in protection of openings in interior walls of vertical shafts and corridor or room partitions.

Description

These specifications apply to doors up to 3' in width and 7' in length. The core is of chip core construction. The chips to be used are pine and aspen. The core consists of chips, phenolic resin, vermiculite and fire proofing chemicals (diammonium phosphate). The resin, vermiculite and chemicals are to be thoroughly mixed with the wood chips. The amount of resin binder is 8% of the weight of the wood chips. The resin is powdered. The amount of the vermiculite is 15%. The mixture is placed in a pan and pressed in a hot plate press at 340° for 35 minutes. The core specific gravity is 65. The finished core thickness is $1\frac{1}{2}$ " for a $1\frac{3}{4}$ " door. The core is to be assembled in sections. These sections are to have ship lap joints and be glued together with a resorcinal type resin. The edge strips are of fire proofed lumber. The top and bottom edge strips are $\frac{1}{2}$ " wide. The stiles are $\frac{3}{4}$ " wide. These edge strips are single tongued and grooved and glued with resorcinal resin. The lumber for the edge strips is treated in the plant using the full cell method and using a 30 minute

initial vacuum and an 8 hour pressure period at 60 psi minimum. The solution used was a 40% solution with the chemical being 80% ammonium sulfate and 20% diammonium phosphate. The minimum retention is 6 lbs. per cubic foot. The lock block to be used will be asbestocore furnished by Johns-Manville Corporation. The lock block will extend $7\frac{1}{4}$ " into the core. The width along the rail will be 9" and tapered symmetrically to 8". The lock block will be located as specified up to 38" from the bottom of the door. The lock block will be glued in with resorcinal or phenol resorcinal resin.

The faces are to be ply 1-8" hardwood panels. The panels to be glued with phenol formaldehyde type resin. The center and back of the panel is fireproofed with the same treatment as the lumber with a pressure period of 2 hours. After it is assembled, the core is glue sized with phenol formaldehyde type resin. The sizing is allowed to dry, then the panels are applied after being spread with phenol formaldehyde, resorcinal or phenol resorcinal resin. The door will then be hot pressed.

Inspection and Test

A door constructed as herein described was fire tested at the Underwriters Laboratory in accordance with the requirements of C26-610.0 Administrative Building Code. The temperature transmission at the end of one half hour was 153°F which is well below the limiting rise of 650°F. The door also successfully met the hose stream requirements.

Recommendation

On the basis of the inspection and test and the data filed by the applicant the Committee on Test recommends the approval of the Roddiscraft Protex Fire Door of size 3'-0" x 7'-0" as a One Hour Opening Protective Assembly under the provisions of C26-610.0 Administrative Building Code. The Committee further recommends that each door, when hung, shall be equipped with three $4\frac{1}{2}$ " full mortise steel hinges and a single point cylindrical type lock with a latch bar extending $\frac{3}{4}$ inches beyond its face, and further that the doors be inspected and labeled in accordance with the requirements of Inspection of Opening Protective Assembly Rules of the Board.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

166-54-SM

Re: Cal. 166-54-SA

Subject: Roddiscraft Asbestocore Fire Door, approval of.
The Roddis Plywood Corporation of Marshfield, Wisconsin filed February 24, 1954 an application with the Board of

MINUTES

Standards and Appeals for approval of the Roddiscraft Asbestocore Fire Door under the provisions of C26-178.0.b and C26-610. Administrative Building Code.

Purpose

A flush type single swing one-hour fire resistive door.

Description

The doors up to 3'-6" in width and 7'-0" in length are constructed as follows:

1. The core is Underwriter labeled asbestocore material. The core is to be assembled in three equal sections. The core sections are to have single tongue and groove joints $\frac{3}{8}$ " deep x $\frac{3}{8}$ " wide. The joints will not be glued.

2. The edge strips are fireproofed lumber. The top and bottom rails are $\frac{1}{2}$ " wide. The stiles are $\frac{3}{4}$ " wide. The edge strips will have single tongue and groove joints glued with a resorcinal formaldehyde type resin.

The lumber for the edge strips is treated in the plant of the applicant using the full cell process using a 30 minute initial vacuum and a minimum 8-hour pressure period at a minimum pressure of 60 psi. The solution used is ammonium sulfate. The minimum retention is 6 lbs. per cubic foot.

3. The faces are of any specified hardwood veneer $\frac{1}{20}$ " to $\frac{1}{28}$ " thick. The crossband is $\frac{1}{10}$ " hardwood veneer. The faces and crossbands are glued with phenol formaldehyde type resin.

4. After it is assembled the core is sized with resorcinal formaldehyde resin solution diluted with alcohol to 50%. This sizing is allowed to dry and then the face panels are applied with a resorcinal formaldehyde or phenol resorcinal formaldehyde type resin adhesive. The door is then cold pressed at room temperature for a minimum of 4 hours at 175 psi pressure.

Inspection and Test

A door, constructed as herein described, was fire tested at the Underwriters Laboratory in accordance with the requirements of C26-610.0 Administrative Building Code. The temperature transmission at the end of one half hour was 212°F which is well below the limiting rise of 650°F. The door also successfully met the hose stream requirements.

Recommendation

On the basis of the inspection and test and the data filed by the applicant the Committee on Test recommends the approval of the Roddiscraft Asbestocore Fire Door in size of 3'-6" x 7'-0" as a One Hour Opening Protective Assembly under the provisions of C26-610.0 Administrative Building Code. The Committee further recommends that each door when hung, shall be equipped with three $4\frac{1}{2}$ " full mortise steel hinges and single point-lock or latches with $\frac{3}{4}$ " latch bolts and further that all doors shall be inspected and labeled in accordance with the requirements of the Inspection of Opening Protective Assembly Rules of the Board.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,

REPORT OF COMMITTEE ON TEST

Re: Cal. 538-54-SA

Subject: Economy Gas Fired Gravity Furnace Models GG-85E, GG-122E and GG-147E, approval of.

International Heater Company, Utica, New York filed May 27, 1954 an application with the Board of Standards and Appeals for approval of the appliance known as Economy Gas Fired Gravity Furnace Models GG-85E, GG-122E and GG-147E under the provisions of Article 12, Chapter 26 Administrative Building Code.

Purpose

The appliance is a gas fired furnace for heating to be used in domestic or commercial installations but not to be installed in garages or places of explosive atmosphere.

Description

The models referred to differ only as to BTU input and output.

The models GG-85E, GG-122E and GG-147E consist of the following parts: steel cabinet, steel heating element, room thermostat, monoport gas burner, automatic safety pilot, draft diverter, pilot shut-off and throttling cock, primary air shutter, manual main shut-off valve, gas pressure regulator and automatic gas valve. The safety pilot is fully automatic and prevents flow of gas to the main burner in the event the pilot is extinguished.

Inspection and Test

A model GG-85E was inspected and tested by Asst. Engr. J. A. Darts Committee on Test and W. R. Landmesser representing the applicant. The appliance operated as designed and the controls functioned as required. The furnaces have been approved by the AGA under 4-1163.501, 4-(968,0 & .1) and 4-968.301.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Economy Gas Fired Gravity Furnaces Models GG-85E, GG-122E and GG-147E for use in New York City in domestic and commercial installation when

constructed as herein described and installed in accordance with the requirements of Article 12, Chapter 26 Administrative Building Code. The Committee further recommends that the appliance shall not be installed in garages or places of explosive atmosphere, that all ports and orifices shall be of a type approved by the AGA for the type of gas used and each appliance shall bear a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 538-54-SA."

REPORT OF COMMITTEE ON TEST

Re: Cal. 539-54-SA.

Subject: Economy Gas Fired Lo-Boy Forced Air Furnace, Models GL-80, GL-80E, GL-100, GL-119, GL-120, GL-135E, GL-175E and GL-210E, approval of.

International Heater Company, Utica, New York, filed May 27, 1954 an application with the Board of Standards and Appeals for approval of the Economy Gas Fired Lo-Boy Forced Air Furnace Models GL-80, GL-80E, GL-100, GL-119, GL-120, GL-135E, GL-175E and GL-210E under the provisions of Article 12, Chapter 26, Administrative Building Code.

Purpose

The appliance is a gas fired furnace for heating to be used in domestic or commercial installation but not to be installed in garages or places of explosive atmospheres.

Description

The models are basically the same differing only as to size and BTU input and output. The component parts of the furnace are as follows: steel cabinet, automatic gas valve, gas pressure regulator, manual main shut-off valve, monoport gas burner, draft diverter, steel heating element, pilot shut-off and throttling cock, air filter, automatic safety pilot, fan and limit control, room thermostat, primary air shutter, motor and blower. The safety pilot is fully automatic and prevents flow of gas to main burner in the event the pilot is extinguished. The fan and limit control makes blower automatic as it shuts off gas burner in the event the bonnet temperature rises above a predetermined setting.

Inspection and Test

A unit was inspected and tested by Asst. Engr. J. A. Darts Committee on Test and W. H. Landmesser representing the

MINUTES

applicant. The appliance operated as designed and the controls functioned as required. The units have been approved by the American Gas Association under 4-1163.301, 4-968.501, 4-968.601, 4-41165.101, 4-1163.401 and 4-968.701.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Economy Gas Fired Lo-Boy Forced Air Furnace, Models GL-80, GL-80E, GL-100, GL-119, GL-120, GL-135E, GL-175E, and GL-210E for use in New York City in domestic and commercial installations when constructed as herein described and installed in accordance with the requirements of Article 12 Chapter 26 Administrative Building Code. The Committee further recommends that this appliance shall not be installed in garages or places of explosive atmospheres, that all ports and orifices shall be of a type approved by the AGA for the type of gas used and each appliance shall bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. REPORT OF COMMITTEE ON TEST

Re: Cal. 615-54-SA

Subject: Norge Gas Clothes Dryer, Models Ag-710, AG-715 and AG-730, Approval of.

The Norge Division of Borg-Warner Corp., owner, filed June 22, 1954, an application with the Board of Standards and Appeals for approval of the Norge Gas Clothes Dryer under the provisions of C26, Article 12 Administrative Building Code.

Purpose

A natural or manufactured gas device to dry clothes by air, heat and tumbling.

MINUTES

Description

The Norge Gas clothes dryer is an indoor clothes dryer for home use. It damp dries an average of 8 to 9 lbs. load of clothes (dry weight) ready for ironing in approximately 30 minutes; it will completely dry an average washer load of clothes in approximately 45 minutes. The wet clothes at 45 RPM gently tumbling the clothes by means of are placed into the solid smooth cylinder which revolves smooth buffers within the cylinder. The clothes are dried by air which is drawn in through a number of holes in Gas heater. The heated air is then forced by pressure the back panel and other openings and passes over the from the fan through the three ducts provided in the cylinder back into the cylinder proper and circulated through the clothes. The heated moisture laden air is then expelled through the small opening in the cylinder front where it is directed down through air duct through the limit screen and into the exhaust duct. This type of circulation allows the use of a high volume of air resulting in an overall cooler unit and increased efficiency due to less heat leakage.

The dryer cabinet assembly is constructed of heavy gauge steel coated with a protective ground coat of "Epon" resin primer and finished with white "Norgloss" baked enamel. The cabinet and panels base assembly and cylinder support panel are welded together in one sub-assembly. The top panel assembly and back panel are removable for service operations. The clothes door is secured to the front panel with two hinges fastened to the front panel. Each hinge is secured with two screws and screwed into tapping plates on the inside of the front panel. The hinges are fastened to the outer door panel by screws into weld studs welded to the inner side of the outer panel. The inner door panel is secured by 4 screws at each corner, screwed into weld studs and provided with spacers to properly space the inner panel. The door strike is retained in the same manner and is provided with slots for in and out adjustment. The door latch is a spring loaded bolt mechanism secured by two screws to the front air duct which is in turn attached to the inner side of the front panel.

The latch is released by a knob bearing against the latch release bar and the knob is held in place in the front panel by means of the knob escutcheon. The knob escutcheon is retained by two tabs pressed down against the inner side of the front panel.

Inspection and Test

The Norge Gas Clothes Dryer was inspected and tested at the salesroom of the applicant on W. 57th street and found to operate as designed. Present at the inspection and test were Chief Engr. L. V. Huber of the Committee on Test and Nelson G. Summerfield representing the applicant. The Clothes Dryer has been approved by the American Gas Association, Certificate Number 6-21.011.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test recommends the approval of the Norge Gas Clothes Dryer, Models AG-710, AG-715 and AG-730 for use in New York City when manufactured and installed in accordance with this report and the provisions of C26, Art. 12 Administrative Building Code on condition that each dryer be labeled, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 615-54-SA" and further that all ports and orifices shall be of a type as approved by the AGA for the type of gas used.

For Applicant: Manfred Neumann.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 919-54-SM

Subject: Lightoiler Environmental Conditioning System, Model CD-1033 (plastic light diffuser), approval of.

Wm. F. Blitzer for Lightoiler Inc., Jersey City, New Jersey filed November 24, 1954 an application with the Board of Standards and Appeals for approval of the Lightoiler Environmental Conditioning System, Model CD-1033 (plastic light diffuser) under the provisions of C26-461.1 Administrative Building Code.

Purpose

The ceiling is to be used as a light diffuser.

Description

The system consists of translucent plastic sheets of a trapezoidal corrugated form, supported on metal members which are themselves suspended from the ceiling, floor or roof above. The translucent plastic sheets are made from a copolymer of vinyl chloride and vinyl acetate which contains no liquid type plasticizers and is considered to be self-extinguishing.

The thickness of the material is .015". The plastic sheets are perforated to allow air to pass through the diffuser. The suspension system consists of inverted "T" runners on 3 ft. center of 2" x 2" x 1/8" extruded aluminum. These are supported from approximately 8 ft. centers. To give lateral support to these members, 1" x 1" x 1/8" steel angle members are attached to the main carrying member and act as bridging. To prevent the plastic diffusing panels from being lifted out of position by air drafts, etc. a spring metal clip is used.

Inspection and Test

The system was inspected and tested at 11 East 36th Street, New York, in the presence of Asst. Engr. J. A. Darts, Committee on Test and Wm. Blitzer representing the applicant.

Load tests were conducted on the plastic itself in a downward and upward direction on the main carrying member both upward and downward. The plastic material itself was tested in accordance with the requirements of C26-461.1 Administrative Building Code.

Results of the test were as follows:

A. Plastic downward 5 1/2 lbs. per sq. ft. without deflection of the plastic.

B. Plastic upward 12 lbs. per sq. ft. without forcing plastic from track.

C. Track downward 10 lbs. concentrated deflection of track—None.

D. Track upward 30 lbs. concentrated no deflection.

The plastic material was also tested in accordance with the requirements of ASTM 568-43 as required under C26-461.1 Administrative Building Code.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends approval of the Lightoiler Environmental Conditioning System, (Plastic Light Diffusers) for installation in New York City

MINUTES

when constructed of materials as herein described and installed in accordance with the requirements of C-26-461.1 Administrative Building Code on condition that the carrying members shall be carried on the suspension system herein described, secured to the ceiling floor or roof construction and further that Model CD-1033 (Plastic Light Diffusers) shall not be installed in sprinkled locations and all plans filed with the Department of Housing and Buildings showing the proposed use of this system shall be marked or stamped, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 919-54-SM" and that the containers or cartons in which this material is marketed shall be similarly marked. It is further recommended that the use of this ceiling in class I and II construction be limited to an area to be covered not exceeding 10,000 sq. ft. in area and only when such space is separated from the remainder of the floor area by an approved wall, fire wall, fire partitions or fireproof partitions. In class III construction the area shall be limited in accordance with the requirements of the Administrative Building Code.

THE RESOLUTION—

WHEREAS, Order #45945 LF issued by the Fire Commis-

sioner January 14, 1948 and repeated in his decision of June

15, 1949, reads:

"1. Install an approved, wet automatic sprinkler sys-

tem throughout the building having at least one source

of water supply, arranged and equipped as per Ch. 26,

Art. 16, Adm. Code. Ch. 19, 161.0 Adm. Code."

and

WHEREAS, the applicant states the building is 4 stories,

48 feet in height, 24 ft. 5 in. by 90 ft. 6 in. in area at

street level, 24 ft. 5 in. by 50 ft. in area at typical floor level,

of Class 3 construction, erected prior to 1900, in an unre-

stricted use, B area, Class 2½ height district, used and

occupied since 1923: Cellar—boiler room and furniture

storage, 0 persons; 1st floor—furniture showroom, 4 persons;

2nd, 3rd and 4th floors, furniture storage, 4 persons on

2nd floor, no occupants above; no change in use or occupancy

dealt in is office furniture, consisting mostly of wood and steel desks, chairs and filing cabinets; that all finishing in the repair room on the 2nd floor is by hand and there is never more than 20 gallons of paint or thinners on the premises at one time and these are maintained in approved type metal cabinets ventilated to the outer air; that the boiler room in the cellar is separated from the balance of the cellar by masonry walls and will be provided with a fire-retarded ceiling and fireproof self-closing door; that the cellar has a dry non-automatic sprinkler system with an outside siamese connection installed under Fire Department order in 1925; that no fire hazard exists from the furniture storage; that there are only 8 employees in the building at any time and the building is provided with one front stairs and a rear fire escape leading to roof of building in question as to rear of adjoining building at 2nd floor; that portable fire extinguishing apparatus as may be directed by the Fire Commissioner will be installed; and

WHEREAS, under Cal. 47-25-S the Board modified Order #65824 LD issued by the Fire Commissioner October 7, 1924, Item I, as to fireproof passageway from termination of rear fire escape to the street, on condition that the requirements of the Labor Law be complied with in all other respects and that the rear fire escape be carried to the roof of the extension with egress therefrom over extension of property in the rear and to roof of extension adjoining on both sides; and as to Item 2 of the order, requiring unobstructed passageway around hoistway from foot of stairway to street, on condition that telltale chains be provided on the hoistway in accordance with specifications laid down by rules of the Board and on the further condition that the occupancy shall not exceed 25 persons above the 1st story; and

WHEREAS, under Cal. 48-25-A the Board denied an appeal from Order #65825 F issued by the Fire Commissioner October 27, 1924, requiring a non-automatic sprinkler system in the cellar and reversed Order #65826 F item 1 issued by the Fire Commissioner October 27, 1924, requiring an automatic fire alarm with central office connection in the cellar, at which time the building was occupied as a store and tenant factory with 10 persons above the 1st floor; and

WHEREAS, under Cal. 330-34-A, modified item 1 of Order 17269 F issued by the Commissioner of Buildings November 2, 1934, requiring a roof tank of 3500 gallons capacity for the standpipe system, elevated so that bottom of tank would be not less than 20 feet above the roof level, so as to permit the tank on roof to remain at its existing height, on condition there would be reserved at all times at least 2,000 gallons for standpipe purposes and that the standpipe system comply in all other respects with Rule 91 of the Standpipe Fire Rules of the Board and the automatic pump and secondary pump be maintained in good working order; and

WHEREAS, the Fire Department records indicate that the owner was convicted and fined January 14, 1949, for failure to comply with Order #45945 LF, items 1 and 2 and again convicted on May 13, 1949, on the same charge as a second offender; and

WHEREAS, this appeal was withdrawn September 22, 1953, at the request of the applicant; and

WHEREAS, this appeal was reopened by a vote of the Board November 3, 1954, as Volume II, to consider a new decision of the Fire Commissioner dated September 29, 1954, reading as follows:

"In reply to your request for a new inspection and for re-consideration of the above captioned order, you are hereby notified that your request is denied, as a recent inspection indicates that the premises are still occupied for the same purpose as it was when the order was issued."

and

WHEREAS, the applicant states that Order No. 45945-LF issued by the Fire Commissioner in 1948 required the installation of a sprinkler system at which time the building was filled and crowded with furniture and with other combustible material; and

MINUTES

WHEREAS, the applicant contends that on or about September 10, 1954 he inspected the premises and found that no fire hazards existed, and requested a re-inspection and reconsideration of the order by the Fire Commissioner; that this request was denied under date of September 29, 1954 on the grounds that recent inspection indicated that the premises was still occupied for the same purpose as when the order was issued; and

WHEREAS, the applicant contends that the building has been used as a furniture store since 1923, and by the present owner since 1941 with furniture storage and small repair shop on the second story for repairing or refinishing furniture; that recently the third floor has been occupied by the owner's son for the display and sale of bolts of textiles; and

WHEREAS, the applicant states that in the second story repair shop it is proposed to install a spray room in accordance with the Spray Rules of the Board; that plans for such spray room have been filed with the Borough Superintendent under Alt. App. 1443 of 1954; that the building has one interior wood stairs, 2 ft. 10 in., 3 ft. 2 in. and 3 ft. 6 in. in width; enclosed in wood partitions, equipped with wood doors, which will be made self-closing; that the stairs lead direct to street and to a roof bulkhead; that there is a fire escape on the rear extending to the roof by stair and across the extension roof to the roof of the adjoining building at the rear; that the windows on the course of the fire escape are fireproof; that the cellar of building is provided with a non-automatic dry sprinkler system with outside siamese connections; that the boiler room is separated from the balance of the building by a masonry wall equipped with fireproof self-closing door and has a fire retarded ceiling; and

WHEREAS, the applicant states that he requests the Board to modify the order of the Fire Commissioner to require portable fire extinguishers, buckets, axes and fire-hooks, as the Fire Commissioner may require in lieu of the sprinkler system in compliance with the order; and

WHEREAS, the applicant contends that it would be a hardship to secure the funds for the installation of the sprinkler system; that since the issuance of the order the overcrowding has been eliminated; that metal furniture has replaced much of the wooden furniture previously stored on the premises; that the use of paint has been restricted to that permitted by the Code; that if any paint is stored it will be stored in approved containers; that a spray room complying with the requirements of the Paint Spray Rules of the Board will be installed; that the Fire Commissioner's decision refusing to reconsider the order does not state that the hazard of overcrowding exists, it merely states that the premises are still occupied for the same purpose as when the order was issued; that there are many furniture stores not having a sprinkler system; and

WHEREAS, the applicant contends that Section C19-161.0 of the Administrative Code upon which the order was based is somewhat vague as to the exact requirements but it does mention portable equipment; that the language "and other means of preventing and extinguishing fires" should mean to require an elaborate sprinkler system seems somewhat punitive to this applicant; and

WHEREAS, a special inspection on May 16, 1955 shows spraying being continued and although statement was made as to immediate vacation of the premises, same are still occupied for same purposes as when order was issued.

Resolved, that the decision of the Fire Commissioner dated September 29, 1954, No. 45945-LF, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

620-54-A

APPLICANT—Howard H. Snyder, for Hotel Taft Corp., owner.

SUBJECT—Application July 27, 1954 filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 67, subdivision 7(b) re doors, etc., exits.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 29, 1954, as thereafter amended by resolution adopted April 12, 1955, by adding thereto:

MINUTES

"that in the event the owner desires to change the location of the curb cuts and to omit the boiler in the garage, such curb cuts may be located as indicated on revised plan marked 'Received April 27, 1955', 1 sheet, and may be constructed of the width shown, each 20 feet in width and that the boiler-room may be omitted and the space originally proposed for same not excavated, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that four openings as windows may be permitted in the easterly wall as shown on such plan marked 'Received April 27, 1955', provided such openings are generally of usual window size and are filled with glass blocks as approved for exterior walls; and that in all other respects the resolutions above cited shall be complied with" (N.B. 1334-53).

242-54-BZ

APPLICANT—Charles M. Spindler, for CMH Realty Co., Inc., owner.

SUBJECT—Application for consideration—reopening as to amendment—re Application (decision of the borough superintendent), previously granted on condition, under sections 7c and 7i of the zoning resolution, permitting in a business use district the reconstruction of existing gasoline service station to include gasoline service station, auto washing, lubritorium, motor vehicle repairs, storage and sale of accessories and office.

PREMISES AFFECTED—21-15 Jackson avenue, 46-27 to 46-35 21st street, northeast corner and 21-02 to 21-10 46th road, Block 74, Lot 1, Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Joseph C. Haus.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on November 9, 1954, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on November 9, 1954 by adding thereto:

"that in the event the owner desires to substitute face brick on all sides of the building, such substitution may be permitted *on condition* that in all other respects the resolution above cited shall be complied with as indicated on plans filed with this request marked 'Received April 21, 1955' 1 sheet." (NB 555/54)

512-29-BZ—Vol. III

APPLICANT—Burke, Green and Groh, for Merry Twins, Inc., owner.

SUBJECT—Application for consideration—reopening as Vol. III to consider alteration and extension of uses, subject to regular procedure, re Application (decision of the borough superintendent), previously granted on condition, under section 7f of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station (previously denied by the Board under section 21), motor vehicle repair shop, auto washing, lubritorium, office and sale of accessories, for a term of years.

PREMISES AFFECTED—173-02 to 173-10 64th avenue and 61-05 to 61-13 Fresh Meadow avenue, southeast corner (Block 6902, Lots 26 and 30), Flushing, Borough of Queens.

APPEARANCES—

For Applicant: John W. McClancy, Jr.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. III, subject to the regular procedure, to consider alteration and extension.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

212-51-BZ—Vol. II

APPLICANT—Charles M. Spindler, for Max & Morris Eisenstadt, owners.

SUBJECT—Application for consideration—reopening as Vol. II as to alleged new facts—re Application (decision of the borough superintendent), previously denied, under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubritorium, auto laundry, sale and storage of accessories, motor vehicle repairs and office.

PREMISES AFFECTED—204-22 Northern boulevard, south side, 134.14 ft. east of 204th street, Block 7301, Lot 11, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Joseph C. Haus.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. II, subject to the regular procedure, based on alleged new facts.

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

Adjourned: 4:10 P. M.

JOSEPH J. DOYLE, Chief Clerk.

SPECIAL MEETING

FRIDAY MORNING, MAY 20, 1955, 10 A. M.

Present: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly.

1-38-SR—Vol. II

SUBJECT—Proposed amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, Covering the Specifications for Design, Fabrication and Inspection of Arc and Gas Welded Structures and the Qualifications of Welders and Supervisors.

APPEARANCES—

Samuel Fassler, J. Randall Creel, Paul S. Rockhold, John Dziurak and Albert Mends, Ray Corbett, Wm. R. Ross, Allen Rubin, Christian F. Wolfe and Peter J. Reidy.

For Opposition: Joseph Kalb, Board of Education.

For Administration: Alfred Rader and Thomas V. Burke and Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over without date; hearing closed; representative to file list of members of Allied Building Metal Industries Association; also any further revised wording that the Association wishes to submit; the Department of Housing and Buildings is also invited to file a statement; and Board of Education is requested to file list of contractors.

Adjourned: 11:15 A. M.

JOSEPH J. DOYLE, Chief Clerk.

MINUTES

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on May 3, 1955, as they appeared in Bulletin No. 19, Vol. 40, are hereby corrected to read as follows:

38-42-BZ—Vol. II

APPLICANT—Paul Friedman, for Anna Siciliana and Laura Siciliana, owners, Sun Oil Company, lessee.

SUBJECT—Application November 19, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a residence use district, for a term of fifteen years, the erection and maintenance of a gasoline service station, lubricatorium, auto wash (non-automatic), storage and sale of accessories and office (previously denied under section 7i by the Board, when in business use district).

PREMISES AFFECTED—444 Sound View avenue and 445 Underhill avenue, northeast corner, Block 3498, Lot 51, Borough of The Bronx.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: Samuel A. Feuchtwanger.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleiner and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 11, 1955 subject to regular procedure, to consider revised proposal, previously denied; and

WHEREAS, a public hearing was held on this application on March 22, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, at request of objector, applicant concurring; then to April 26, 1955, for inspection and decision without further argument; hearing closed; then to May 3, 1955, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Sound View avenue and Underhill avenue are in a residence use, E-1 area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated November 8, 1954 acting on N.B. Applic. 1037-54, reads:

"1. In a residence district the proposed gasoline service station, auto-washing (non-automatic), lubrication, office and accessory sales is contrary to Section 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 178 ft. frontage by 94.89 ft. in depth, presently vacant, but used continuously since prior to April 26, 1945 for storage of four trucks and empty beer barrels without certificate of occupancy; that the property referred to is presently zoned as a residence use district, a class ½ district and an E-1 area district; that as of July 25, 1916 the property was zoned as an unrestricted use district, a 1½ times height district and an A area district; that on June 10, 1932 the property was rezoned to a business use district and on April 26, 1945 the property was rezoned to a residence use district, class 1 height district and a D area district; that on September 23, 1954 the present height and area district designations became effective; that no petition is pending before the city planning commission to change the use, height or area district designations affecting this plot; and

WHEREAS, the applicant further states that it is proposed to construct and maintain for a term of 15 years a parkway type gasoline service station, non-automatic auto wash, lubrication, office and accessory sales, with curb cuts on Sound View avenue only, subject to such additional conditions and safeguards as the Board may deem appropriate; and

WHEREAS, the applicant contends that the plot is irregular and almost triangular in shape so as to be unadaptable for development for any building or buildings other than as pro-

posed; that the character of the development of the immediate neighborhood is not exclusively residential; that out of 48 lots in the area of notification, 18 lots are vacant, 14 lots are devoted to conforming uses in a residence use district (13 dwellings and one club) and 16 lots are devoted to non-conforming uses in a residence use district; that the premises has its largest frontage (178 ft.) on Sound View avenue, which is the main traffic artery in the area and this fact makes the property especially unsuitable for residential development and particularly adaptable for the proposed use; that the actual use of the premises since prior to April 26, 1945 was the storage of trucks and empty beer barrels, without a certificate of occupancy; that these premises cannot be used or developed for any use other than the proposed use so as to yield a reasonable return on the investment; that efforts to interest prospective purchasers or lessees for store use have been unsuccessful as the retail stores now in the neighborhood are sufficient for public requirements; that the almost triangular shape of the premises makes it necessary to locate any building at the north end of the plot; that the area district regulations limit the area of any building to 4,482 sq. ft. and requires that the building be set back 15 ft. from the street line on which it faces and 10 ft. from the other street line; that the very factors which make the plot unadaptable for any other development make it particularly adaptable for the proposed use; that as a gas station the building would naturally be located at the north end of the plot; that the area of the two bay building would be approximately 1,260 sq. ft. and its natural placement would comply with the setback requirements from both streets; that there is an economic demand for use of the subject premises for a gas station and the owners have concluded a 15 year lease with a major gas company, conditional upon a grant of this application; that a grant would not adversely affect the neighborhood and adjoining property owners will be adequately protected; that the proposed building will be a parkway type structure, constructed of face brick with a peaked roof, wood siding and ornamental cupola; that there will be no window or door openings on the northerly and easterly side of the building, except to toilets, that there will be two parkway type pumps constructed on a concrete island set back 15 ft. from Sound View avenue; that the balance of the plot will be concrete or bituminous paved, and signs will be limited, as shown on plans; that the location of the building at the northerly end of the plot will leave the plot un-built upon, at and near the confluence of Sound View and Underhill avenues, thereby contributing to the public safety by providing clear traffic visibility at the corner; that the proposed use of the subject premises will afford more light and ventilation to nearby properties than if a conforming building were to be erected; that the limitation of the term of the gas station would serve as a protection to the neighborhood so that in the event the character of the neighborhood should change the proposed gas station may be terminated; and

WHEREAS, the applicant states that the present owner has held title to the property since March 20, 1942 and that the assessed valuation of land is \$8,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of 15 years to permit the premises to be occupied as a gasoline service station as proposed and as indicated on plans filed with this application marked, "Received, November 19, 1954" (5 sheets) *on condition* that the premises shall be levelled substantially to the grade of Sound View Avenue and Leland Avenue and shall be constructed and arranged substantially as indicated on such plans above cited; that the accessory

MINUTES

building shall have no cellar under the building; that the accessory building shall be arranged substantially as shown and shall be faced with face brick of the design as indicated and with the building of a design as indicated; that along the lot line to the north there shall be erected a masonry wall not less than three feet in height with a steel picket fence two feet six inches in height a total height of five feet six inches; that suitable terminal posts shall be erected at each building line; that a planting area shall be maintained with suitable planting, as shown, protected with a concrete curb not less than six inches in width and six inches in height above grade; that a similar fence shall be erected along the street building line of Underhill Avenue, as shown, with similar planting in the area west of such fence and at the intersection, where shown; that the pumps shall be of a low approved type, erected not less than fifteen feet from the street building line of Sound View Avenue; that the balance of the premises shall be paved with concrete or asphaltic pavement; that curb cuts shall be restricted to two

curb cuts to Sound View Avenue each thirty feet in width, located substantially where shown; that signs shall be restricted to a permanent sign attached to the facade of the accessory building, and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection near the intersection of a post standard for the supporting of a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than four feet; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Aesolution.

* Correction—Section of the zoning resolution upon which the application was granted on certain conditions, changed from 7f to 7e.

NOTICE

Copies of the Official Directory of the City of New York for the year 1955 (The Little Green Book), containing the latest authentic information in relation to City, State and Federal Departments, Bureaus, Offices and

Courts, are now on sale at the office of the Supervisor of the City Record, Room 2213, Municipal Building, Manhattan, New York 7, N. Y. Price One Dollar. Make check or money order payable to "Supervisor of City Record".

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

PETITIONS AND CERTIORARI ORDERS SERVED ON THE BOARD OF STANDARDS AND APPEALS.

On May 24, 1955, Copy of Petition and Order of Certiorari was
served on the Board by Abraham Levine, attorney for Joseph
Cuneo, Joseph Kirsch and Gerald Kirsch, objecting property owners,
seeking a review of the Board's determination on April 26, 1955,
granting a variance under Section 7e of the Zoning Resolution to
permit in a residence use district, for a term of fifteen years, the
change in occupancy from a public garage for more than five cars;
motor vehicle repair shop; 43 one-car garages, one-family dwelling
to a gasoline service station, motor vehicle repair shop, including body
and fender work, welding and paint spraying, lubritorium, auto wash
(non automatic), storage and sale of auto accessories, office and the
parking of cars waiting to be serviced; Cal. No. 931-54-BZ; premises
3513-3527 Atlantic Avenue and 308-316 Grand Avenue, Borough of
Brooklyn.

On May 11, 1955, Copy of Petition and Order of Certiorari was
served on the Board by Leslie P. Oberleder, attorney for Sanor Realty
Corp., an objecting property owner, seeking a review of the Board's
determination on April 12, 1955, granting a variance under Section 19A,
subdivision j, of the Zoning Resolution, to permit the omission of
loading berth, in connection with the erection and maintenance of an
office building and bank, in a retail and restricted retail use district;
Cal. No. 937-54-BZ; premises 413-417 Madison Avenue and 29-31 East
48th Street, northeast corner, Borough of Manhattan.

On May 11, 1955, Copies of Affidavit and Order to Show Cause and
Petition and Order of Certiorari were served on the Board by George
J. Gross and Aaron H. Walowit, attorneys for Ralph J. Bunche, et al,
adjoining property owners, seeking a review of the Board's determina-
tion on April 26, 1955, granting a variance under Section 21 of the
Zoning Resolution, to permit in a residence use, G area district, the
erection and maintenance of a Class A Multiple Dwelling; Cal. No.
807-54-BZ; Premises 115-76 Park Lane South, northeast corner Mayfair
Road, Kew Gardens, Borough of Queens.

On May 11, 1955, copies of Affidavit and Order to Show Cause and
Petition and Order of Certiorari were served on the Board by Philip
O. Eisenberg, attorney for Jack Ryback, an objecting property owner;
also on May 17, 1955, a Copy of Certiorari Order was served on the
Board by Abraham Tell, attorney for Agnes Verdi, also an objecting
property owner; these owners were seeking a review of the Board's
determination on April 12, 1955, granting a variance under Section 21
of the Zoning Resolution, to permit in a business use, B area district,
the extension on first story of proposed structure, using more than
the area permitted; Cal. No. 957-54-BZ; Premises 524-532 Third
Avenue, 163-167 East 35th Street, northwest corner, Borough of
Manhattan.

Resolved, that the application be and it hereby is *withdrawn*.

1148-38-BZ—Vol. II

APPLICANT—Ingram S. Carner, for Neill Supply Company, Inc., owner.

SUBJECT—Application reopened May 3, 1955 for consideration as to extension of variance—re (decision of the borough superintendent) previously granted on condition under section 7e of the zoning resolution, permitting in a residence use district, the additional use of storage for pipe as well as parking and storage of more than five motor vehicles for a term of years.

PREMISES AFFECTED—47-45 to 47-63 49th street and 49-01 to 49-07 48th avenue, northeast corner, Block 2287, Lots 1, 2, 3, 5, 7 and 8 (now Lot 1), Sunnyside, Borough of Queens.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on February 21, 1939 this application (Vol. I) was granted by the Board on certain conditions, under section 21 of the zoning resolution, to permit in a residence use district, for a period of two years, the parking and storage of more than five motor vehicles of pleasure car type, affecting premises 49-01 48th avenue, northeast corner of 49th street, Block 2287, Lots 1 to 8 inclusive (now Lot 1), Long Island City, Borough of Queens; and

WHEREAS, on January 21, 1941 and January 28, 1943 the term of variance was extended for a term of two years; and

WHEREAS, on February 15, 1944 under Vol. II, application was reopened subject to regular procedure; and

WHEREAS, on May 9, 1944 the resolution was amended under Vol. II to permit the plot to be occupied for storage of pipe, for a term of two years, affecting premises 47-45 to 47-63 49th street and 49-01 to 49-07 48th avenue, northeast corner, Block 2287, Lots 1, 2, 3, 5, 7 and 8 (now Lot 1), Sunnyside, Borough of Queens; and

WHEREAS, on May 14, 1946, December 7, 1948, December 12, 1950 and December 9, 1952 the term of variance was further extended; and

WHEREAS, on May 9, 1954 this application was reopened to consider a new proposal under Vol. III; and

WHEREAS, on November 9, 1954 this application under Vol. III, was granted on condition under section 7e for a term of 20 years, for the erection and maintenance of a warehouse for pipe, plumbing and heating supplies affecting premises 47-45 to 47-63 49th street and 49-01 to 49-07 48th avenue, northeast corner, Block 2287, Lot 1, Sunnyside, Borough of Queens; and

WHEREAS, the applicant requested reopening of this application under Vol. II, and an extension of the term of variance, under Vol. II; and

WHEREAS, this application was reopened, under Vol. II, on May 3, 1955 and set for hearing on May 24, 1955 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on May 24, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated April 26, 1955 acting on amendment to N.B. 146-54, reads:

"1. The proposed use of the premises for temporary parking of motor vehicles and storage of pipe in a residence use district is contrary to Board of Standards and Appeals resolution 1148-38-BZ printed in Bulletin #46 Vol. XXXIX and is contrary to Art. II Sec. 3 of Zoning Resolution."

and

WHEREAS, the applicant states that construction of the warehouse will proceed in about one year.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted by the Board on February 21, 1939, under Cal. 1148-38-BZ, Vol. II, as to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * granted under Section 7, subdivision e for a term of one year from the date of this *amended* resolution, to permit the plot to be occupied for the storage of pipe * * *; and that other than as herein amended the resolution above cited as amended by resolutions

MINUTES

adopted through December 9, 1952, shall be complied with in all respects; and that all permits required, including a certificate of occupancy, shall be obtained and all work completed within six months from the date of this *amended* resolution."

WHEREAS, on February 15, 1944 under Vol. II, application was reopened subject to regular procedure; and

WHEREAS, on May 9, 1944 the resolution was amended under Vol. II, to permit the plot to be occupied for storage of pipe, for a term of two years, affecting premises 47-45 to 47-63 49th street and 49-01 to 49-07 48th avenue, northeast corner, Block 2287, Lots 1, 2, 3, 5, 7 and 8 (now Lot 1), Sunnyside, Borough of Queens; and

WHEREAS, on May 14, 1946, December 7, 1948, December 12, 1950 and December 9, 1952 the term of variance was extended; and

WHEREAS, on May 9, 1954 this application was reopened to consider a new proposal under Vol. III; and

WHEREAS, on November 9, 1954 this application under Vol. III, was granted on condition under section 7e for a term of 20 years, for the erection and maintenance of a warehouse for pipe, plumbing and heating supplies, affecting premises 47-45 to 47-63 49th street and 49-01 to 49-07 48th avenue, northeast corner, Block 2287, Lot 1, Sunnyside, Borough of Queens; and

WHEREAS, the applicant requested reopening of this application under Vol. III, and an extension of time in which to complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on November 9, 1954, only so far as it has reference to the time within which to obtain permits and complete the work, so that as amended this portion of the resolution shall read:

"that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution from the date of this amended resolution; and that a certificate of occupancy shall be obtained." (N.B. 146/54)

254-45-BZ—Vol. IV

APPLICANT—Ingram S. Carner, for Titus Motors, Inc., owner.

SUBJECT—Application November 29, 1954 (decision of the borough superintendent), under sections 7c, 7e and 7h of the zoning resolution, to permit in a residence and local retail use district, the sale, storage and display of new and used cars to permit the erection of a gasoline service station (previously denied by the Board) to be used in conjunction with an authorized auto dealer, and to permit the existing uses of showroom, motor vehicle repairs and storage of five cars and bulky parts storage (previously granted by the Board).

PREMISES AFFECTED—186-23 to 186-49 Merrick Boulevard and 186-01 to 186-13 Ridgedale avenue, northwest corner; 186-02 to 186-16 Pineville lane and 125-12 to 125-32 Defoe street, Block 12718, Lot 1, Springfield Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. IV on January 4, 1955 subject to regular procedure, for rehearing based on substantial new facts, which consist of consents of adjoining owners who previously objected and a rearrangement of proposed gasoline station with pumps set back 15 ft. from Merrick boulevard and landscaped areas to be maintained and also the elimination of the splay with canopy in connection with the sale of used cars; and

WHEREAS, a public hearing was held on this application on May 17, 1955 after due notice by publication in the Bulletin; laid over to May 24, 1955, for inspection and decision; hearing closed; applicant to file copy of contract and revised plans; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Ridgedale avenue and Pineville lane are in residence and local retail use, D and E-1 area, class ½ height districts; Merrick boulevard is in local retail and retail use, D area, class ½ height districts; Defoe street is in a residence use, E area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated September 21, 1954 acting on Alt. Applic. 919-53, reads:

"1. The proposed extension, in its relocated position on plot, to the existing auto showroom, minor repairs to motor vehicles & storage of bulky parts & five new & used cars, as granted by the B. S. & A. under Cal. 254/45 BZ, to include auto showroom, motor vehicle repairs, storage of bulky parts, parking & storage of more than 5 new & used motor vehicles, gasoline service sta., lubritorium, car washing & storage & sales of auto accessories, must be resubmitted to the B. S. & A. for its consideration."

and

WHEREAS, the applicant states that the premises consist of a plot, 333.11 ft. frontage by 140.14 ft. in depth, irregular; that the portion of the property within 100 ft. of Merrick boulevard is in a local retail district and a D area district and the remainder is in a residence district and an E-1 area district; that as of July 25, 1916 the portion of the property within 100 ft. of Merrick road was zoned as a business district and the remainder was in a residence district; that the present local retail designation became effective January 21, 1947; that as of July 25, 1916 the property was in a one times height district and the present height designation became effective on June 30, 1952; that on July 25, 1916 the entire property was in a D area district and on June 3, 1947 the portion more than 100 ft. from Merrick boulevard was

MINUTES

changed to its present E-1 designation; that no zoning amendment relating to this property is pending at the present time; that the property is presently improved with a one story masonry building which houses an authorized Plymouth-Dodge agency with required uses as indicated in certificate of occupancy No. Q48642 and in accordance with Cal. No. 254-45-BZ, Vols. I and II as granted by the Board; and

WHEREAS, the applicant contends that on February 2, 1954 the Board found that there was no justification for the exercise of discretion to grant a zoning variance under section 7, subdivisions c, f and h of the zoning resolution, to extend area and uses as proposed; that at this hearing very strong objections were voiced by abutting property owners to the north, who felt that this application was for, in the main, an automatic auto laundry; that the same objectors now very strongly and openly consent to the revised proposed layout which moves the accessory building a minimum of 20 ft. from the rear line and eliminates the roofed-over display shed for used cars; that in that manner, more light and air will be provided than before and this proposed building will occupy less space than any building which would be permitted under the zoning resolution; that it is now specifically requested, under section 7h that relief be afforded to the owner to place his new and used cars to the rear of his present building, which is entirely fenced in and borders on Defoe street, which is not as yet opened nor paved or improved; that in order to give further protection to the property owners, it is proposed to install a 6 ft. high brick fence above the adjacent property and now this fence is proposed to be 4 ft. from the easterly lot line; and

WHEREAS, the applicant further contends that it is recognized that automobile agencies are logical operators of gasoline service stations if they are both the neighborhood type and exist along busy thoroughfares such as this particular case, as Merrick boulevard is an extremely busy thoroughfare; that in this manner, a complete one-stop pattern is developed which provides ease and efficiency for both the customer and the agency operation; that the Board has on many occasions considered gas stations when operated with and in conjunction with authorized automobile agencies; that in this manner control is in the hands of responsible business men who will protect their property and render service commensurate with the automobile franchised reputation; that in view of the fact that the neighborhood will not be adversely affected and that the objectors are all completely satisfied with the revised layout and that there is a definite need for a gas station at this busy thoroughfare, it is requested that this application be granted; and

WHEREAS, the applicant states that the present owner has held title to the property since May 3, 1945; that the assessed valuation of land is \$35,200 and of the building \$30,000 making a total of \$65,200; that the building was erected in 1946 and 1948; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the provisions of Section 7, subdivision c are not appropriate for this application; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions e and h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of ten years, to permit a portion of the premises as proposed to be occupied as a gasoline service station, substantially as indicated on plans filed with this application, marked "Received October 19, 1954", 5 sheets, and revised plan marked "Received May 19, 1955", 1 sheet, *on condition* that the plot previously proposed shall be reduced as indicated on such revised plans; that the gasoline station shall be wholly within the retail district; that the accessory building and other uses shall be arranged as indicated on such revised plan; that there shall be no windows in the rear wall of the building; that the building shall have no cellar; that the accessory building

shall be faced with face brick at all sides; that from the accessory building to the existing wall to the east and to the building line of Pineville lane to the west, there shall be erected a masonry wall of brick, agreeing with the brick of the accessory building and not less than 5 ft. 6 in. in height; that there may be a steel picket fence between piers above the masonry wall, located as indicated on such revised drawing; that a similar wall to a total height of not less than 4 ft. shall be erected from the northerly building line along the building line of Pineville lane for a distance of approximately 50 feet; that at the intersection of Pineville lane and Merrick boulevard there shall be a block of concrete not less than 12 in. thickness extending for a distance of not less than 5 ft. along either building line; that curb cuts shall be restricted to three, each 30 ft. in width, located where shown on Merrick boulevard and one cut within the first 25 feet from the intersection along Pineville lane, as shown; that such curb cut shall be not more than 20 ft. in width; that no portion of any curb cut shall be nearer than 5 ft. to a lot line as prolonged; that the sidewalk and curbing abutting the property shall be constructed or repaired to the satisfaction of the Borough President; that the property formerly a portion of the plot now to be deeded by agreement filed with this Board to the adjoining owners to the north shall be seeded by this owner prior to deeding; that pumps shall be of a low approved type erected not nearer than 15 ft. to the street building line; that the number of gasoline storage tanks shall not exceed ten approved 550 gallon tanks; that the balance of the premises shall be paved with concrete or asphaltic paving; that all plans not referred to in this resolution shall be marked "void"; that under section 7h there may be parking of cars and display of new and used cars on the vacant portion of the present building, located so as not to interfere with the service thereof; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; and that all permits required shall be obtained, including a new certificate of occupancy and all work completed within the requirements of Section 22A of the zoning resolution.

886-48-BZ—Vol. II

APPLICANT—Norman Lederer and Leonard Joseph, for Seagirt Realty Co., owner, Arverne Auto Body and Fender Works, Inc., lessee.

SUBJECT—Application November 12, 1954 (decision of the borough superintendent), under section 7i of the zoning resolution, to permit in a business use district the continuation of existing body and fender repair shop, spraying, painting and welding (previously granted by the Board for a term of years—expired January 25, 1954).

PREMISES AFFECTED—71-10 Beach Channel drive, west side, 156.78 ft. north of Beach 72nd street and 348 Beach 72nd street, Block 537, Lot 14, Arverne, Borough of Queens.

APPEARANCES—

For Applicant: Norman Lederer and Alfred Landau.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 11, 1955 subject to regular procedure, as to extension of term; and

WHEREAS, a public hearing was held on this application on May 24, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Beach Channel drive are in a business use, D area, class 1 height district; Beach 72nd

MINUTES

street is in business and unrestricted use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated November 3, 1954 acting on Applic. 955-54, reads:

"1. The proposed use of body & fender repair shop, painting, spraying & welding in a bus. use dist. is contrary to Art. 2 Sec. 4 (29) of Zone Res."

and
WHEREAS, the applicant states that the premises consist of a plot, 39 ft. and 60 ft. frontage by 139.95 ft. in depth, irregular, on which are located two buildings, a dwelling of concrete block and frame construction and a building one story in height, of class 3 construction, erected in 1930 under N.B. 5090-30; that the dwelling was erected in 1931 under N.B. 1077-31; that it is proposed to permit the continuation of occupancy as granted by the Board and for which certificate of occupancy No. 61245 was issued for body and fender repair shop—expired January 25, 1954; and

WHEREAS, the applicant further states that on January 25, 1949 the Board granted a variance permitting the lessee to maintain their place of business on the subject premises for a term of five years; that this five year term expired in January of this year and through a misunderstanding between the lessee and the applicant, application for a renewal of the variance was not made; that the department of housing and buildings has placed a violation against the premises because of the expiration of the term of variance; that extension of the variance is requested, this request being based on the same facts submitted with the original appeal in 1949; that the conditions outlined in that appeal have not materially changed to this date; and

WHEREAS, the applicant states that the present owner has held title to the property since May 15, 1930; that the assessed valuation of land is \$7,000 and of the building \$8,000 making a total of \$15,000; that the building was erected in 1930.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on January 25, 1949, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * *granted* under Section 7i for a term of five years from the date of this amended resolution to permit * * *; that other than as herein amended the resolution above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained and all work completed within six months from the date of this amended resolution."

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 24, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 162nd street are in a business use, B area, class 1¼ height district; River avenue is in residence and business use, B area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated July 21, 1954 acting on Alt. Applic. 580-54, reads:

"A-1. Proposed conversion of the existing 32 car Multiple Dwelling accessory use garage to non-tenant transient parking and motor vehicle storage for periods

MINUTES

of less than 1 month will be contrary to Sec. 60 Subdiv. 1(b) of the Multiple Dwelling Law and Article II Sec. 4 subdiv. 15 of the Zoning Resolution. Note: The garage is located in the cellar of a 6 story cellar and subcellar non F. P. Class "A" hereafter erected Multiple Dwelling in a Business Use Zone District."

and

WHEREAS, the applicant states that the premises consist of a plot, 290 ft. 5 in. frontage by 91 ft. in depth, irregular, on which is located a class A hereafter erected multiple dwelling, six stories, cellar and sub-cellar in height; that the 1st to 6th floors inclusive contain dwellings totalling 66 apartments and the sub-cellar and cellar contain, among other uses, an accessory tenants' garage; that the sub-cellar garage is entirely below the street grades and is accessible through a vehicular ramp from East 162nd street frontage and has an approved capacity for 31 cars; that the cellar garage is at the street grade level of River avenue and is accessible through vehicular doorways at the street grade and has a capacity of 32 cars; that there is no interior vehicular accessibility between the two garage spaces on these different floor levels; that it is proposed to use the garage located in cellar for use of transient storage, the sub-cellar garage to be used for tenants; and

WHEREAS, the applicant further states that the multiple dwelling proper has been so designed that it principally faces East 162nd street and has its main entrance from that street; that the upper six stories of the dwelling have been so arranged as to be set back from the River avenue frontage primarily due to the existence of the elevated subway structure in River avenue; that this setback has been developed with a one story and sub-cellar structure used for tenants' garages and stores; that the space containing tenants' garages is of fireproof construction and is equipped with a sprinkler system and mechanical ventilation and its floor area was predicated on not more than space for one passenger motor vehicle for each family in the multiple dwelling; that certificate of occupancy No. 13515 issued January 8, 1954 is in full force and effect for the stated use and occupancy; and

WHEREAS, the applicant contends that since the erection of this building the tenants have not used more than 15 car spaces at any time although 63 such spaces have been provided for; that the 31-car capacity of the sub-cellar tenants' garage by itself is far in excess of that required by the zoning resolution and the cellar garage is entirely superfluous; that while there is no demand for tenant garaging in this building or from other multiple dwellings in this neighborhood, there is an urgent need and demand for off-street parking and garaging for non-tenants and transients; that these premises are close to the Yankee stadium which, when in use, requires all the off-street parking facilities available; that in addition the owners also control two other properties adjacent to the subject premises—a two story building at No. 900 River avenue, lot 9 in block 2484, occupied by a caterer and bowling alleys and a two story building at 871 Gerard avenue, lot 33 in block 2484, occupied by a super-market and offices; that the owner is desirous of meeting the off-street parking demand by using the unwanted garage space facing River avenue for such purposes rather than keeping it unused; that permitting such space to be used for non-tenant garaging will not impair any real estate values nor be detrimental to the character of this neighborhood; that the subject garage space faces River avenue and has its vehicular entrances exclusively from that street; that the subject multiple dwelling windows facing River avenue are set back 35 ft. from the garage and obviously cannot be affected by the use of the garage from River avenue; that the character of River avenue is such that it cannot be adversely affected by the conversion in the use of the garage space from tenant to transient garaging; and

WHEREAS, the applicant states that the present owner has held title to the property since January 23, 1949; that the assessed valuation of land is \$60,000 and of the property \$500,000 making a total of \$560,000; that the building was erected in 1952; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7e to permit the River Avenue street floor level of the existing multiple dwelling to be occupied also for the transient storage of motor vehicles, limited to the pleasure car type, as indicated on plans filed with this application marked, "Received, August 4, 1954" (6 sheets), for a term of five years, on condition that a portion of the garage, as proposed, shall be set aside for the storage of tenants of the multiple dwelling in accordance with the requirements of the Multiple Dwelling Law; that no repairing or sale of gasoline or other facilities shall be maintained in the space on the River Avenue street level hereby permitted for additional transient storage; that the spaces for the garage under the requirements of the Multiple Dwelling Law shall not be increased in area; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained, including a new certificate of occupancy and all work completed within six months from the date of this resolution.

APPLICANT—Reginald S. Hardy, for William J. Grace and Grace H. Grace, Executrix of Estate of Patrick J. Grace, owners.

SUBJECT—Application September 7, 1954 (decision of the borough superintendent), under section 7f of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, lubricatorium, auto laundry (non-automatic), storage and sale of accessories and office, for a term of fifteen years.

PREMISES AFFECTED—2471-2495 Cropsey avenue, northwest corner of 25th avenue, Block 6906, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: R. S. Hardy.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 12, 1955 after due notice by publication in the Bulletin; laid over to May 3, 1955, for inspection and decision; hearing closed; then to May 24, 1955, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a business use, D area, class 1½ height district; Cropsey avenue and 25th avenue are in residence and business use, D area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated August 17, 1954, acting on N.B. Applic. 312-54, reads:

"1. Gasoline service station, auto laundry & lubricatorium, in a business use district is contrary to Art. II sect. 4a, par. 46 of zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 205 ft. 9½ in. frontage by 104 ft. 7¼ in. in depth, irregular, presently vacant; that the use district designation was undetermined on July 25, 1916, but on March 23, 1923 the premises were placed in a business use district; that the height and area designations have not been changed since July 25, 1916; that it is proposed to erect a gasoline

MINUTES

service station, with a one story accessory building 72 ft. front by 30 ft. in depth, to be used as lubritorium, car wash and office; and

WHEREAS, the applicant further states that the property was acquired by the present owners on October 17, 1949, title being taken in the name of William J. Grace; that on December 15, 1953 record title was transferred to William J. Grace and Patrick J. Grace who had been the beneficial owners since October 17, 1949; that Patrick J. Grace died on July 11, 1954 and Grace H. Grace was appointed his executrix on August 15, 1954; and

WHEREAS, the applicant contends that Cropsey and Harway avenues are heavily travelled highways running in a generally east-west direction; that the former is 120 ft. wide and the latter 80 ft.; that because of the fact that the Shore parkway is roughly parallel to these avenues, traffic thereon is largely commercial or local in character; that 25th avenue is also a relatively heavily travelled street at this point; that there is a considerable amount of vacant property in this area, but the plots that are developed are improved with establishments of the character generally found in unrestricted or manufacturing districts; that block 6893, to the east of the subject premises, is improved with a large garage used by the omnibuses of the New York Transit Authority, and block 6894, to the south of the garage referred to above, is used as storage yard for buses; that the southeasterly corner of Cropsey avenue and Bay 37th street (block 6892, lot 7), is improved with a large public garage and gas station; that these uses preclude conforming development of the property to the east of the subject premises; that there has been so little development in this area that the future is indeed problematic and any development of nearby properties can have but little effect on the subject premises for they are and will remain isolated by the streets which bound them; that the proposed establishment will be an expensive one to erect and the cost thereof cannot be amortized over a short period and consequently a variance for a term of fifteen years is sought; and

WHEREAS, the applicant states that the present owner has held title to the property since December 15, 1953 (original title October 17, 1949), and that the assessed valuation of land is \$16,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommends that the application should be granted on condition in accordance with the revised plans which have been filed; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of ten years to permit the premises to be occupied as a gasoline service station substantially as proposed and as indicated on plans filed with this application marked, "Received, September 7, 1954" (4 sheets) as amended by revised plans marked, "Received, May 20, 1955" (2 sheets) *on condition* that the premises shall be levelled substantially to the grade of the surrounding streets and shall be arranged and constructed substantially as proposed on such revised plans marked "Received, May 20, 1955"; that the accessory building shall have no cellar below and shall be arranged as indicated on such revised plans and shall be faced on all aides with face brick conforming with the brick of the bus terminal across the street on Harway Avenue; that pumps shall be erected not nearer than fifteen feet to either street building line; that the pumps shall be of a low approved type; that a planting area shall be maintained towards Bay 38th Street, where shown, with suitable planting material and protected with a concrete curbing on all sides; that curb cuts shall be limited to three curb cuts to Cropsey Avenue each thirty feet in width and located substantially where shown, and two of similar width to Harway Avenue and one of similar width to 25th Avenue; that no portion of a curb cut shall

be nearer than five feet to a lot line as prolonged; that the sidewalks and curbing around the premises shall be repaired or reconstructed to the satisfaction of the Borough President; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that the balance of the premises shall be paved with concrete or asphaltic pavement; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all temporary signs and all roof signs but permitting the erection within the building line of Cropsey Avenue and 25th Avenue of one post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over four feet; that there may also be a similar post standard, where shown, along Harway Avenue; that at the intersection of Cropsey Avenue and 25th Avenue there shall be a block of concrete extending for a distance of not less than five feet along either building line and not less than twelve inches in height; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i there may be minor repairing within the accessory building with hand tools only for adjustments; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

672-54-BZ

APPLICANT—Michael A. Cardo, for Estate of John Cepollaro—Rose Cepollaro, Executrix, owner.

SUBJECT—Application September 13, 1954 (decision of the borough superintendent), under section 7h of the zoning resolution, to permit the extension of existing legal parking and storage of motor vehicles in restricted retail use district, to extend into the residence use district portion of plot.

PREMISES AFFECTED—26-34 City Island avenue, northeast corner of Belden street, Block 5637, Lots 61, 72, 75 and 139, Borough of The Bronx.

APPEARANCES—

For Applicant: Michael A. Cardo.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinfert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 3, 1955 after due notice by publication in the Bulletin; laid over to May 10, 1955, for inspection and decision; hearing closed; then to May 17, 1955, for applicant to file revised plans showing additional fences along easterly lot line and Rochelle street, and for decision; then to May 24, 1955, for applicant to submit revised plans substituting different type of fence, etc.; hearing previously closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Belden street are in residence and restricted retail use, C area, class 1 height districts; City Island avenue is in a restricted retail use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated August 25, 1954 acting on Alt. Applic. 742-54, reads:

"1. The proposed extension of parking area into a Residence use district is contrary to Sect. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 165.02 ft. frontage by 120 ft. depth, irregular; that the property involved consists mainly of a restaurant building which occupies practically all of lot 61 and part of lot 139

MINUTES

and is operated by the executors of the estate of John Cepollaro; that on the remainder of lot 139 there is a residence known as No. 151 Belden street, occupied by the widow; that there is also a two car garage and driveway to the residence from Belden street, on part of lot 139; that lots 72 and 75, which are vacant, but portions of which lots are located in a restricted retail district, are used for the parking of the restaurant patrons' automobiles, with a driveway leading to the parking area from City Island avenue over lot 61, and one on Rochelle street, over lot 72; that certificates of occupancy Nos. 12488-53, 14099-54 and 14144-54 are filed with this application; that it is proposed to extend the existing legal parking and storage of motor vehicles in restricted retail use district portion of plot, into the residence use district portion; and

WHEREAS, the applicant contends that this application is brought for the purpose of obtaining an extension of the patrons parking area into a residence district on parts of lots 72 and 75, for permanent use in connection with the restaurant; that lot 61 is entirely within a restricted retail district as is the greater portion of lot 72 (with only 8.32 ft. of lot extending into the residence use district) likewise the major portion of lot 139 and a great portion of the L-shaped lot 75, with only 35 ft. frontage on Rochelle street, also is within a restricted retail use district, part of which lot extends into the residential use district; that percentagewise, the greater portion of the combined area of lots 72 and 75 are now in the restricted retail use district; that all of the property on the east side of City Island avenue was originally in a business use district for a distance of 100 ft. east from City Island avenue until rezoned as restricted retail effective as of July 28, 1952; that lot 61 and part of lot 139 in block 5637 has been the site of a restaurant since 1896 when a dining room and dance hall was erected under N.B. Applic. 746-96; that records indicate that since 1896 the premises had been continuously occupied by Duryea, as a hotel, restaurant, dance hall and cabaret, known in later years as Duryea's restaurant; that on July 11, 1946, the present owner of record, now deceased, acquired title to the restaurant property on lot 61 and part of lot 139 together with lot 30 in block 5624, located on the west side of City Island avenue, opposite the restaurant; that on October 14, 1948 he acquired title to the remainder of lot 139, on which is located the residence, together with lot 75 with a 35 ft. frontage on Rochelle street, and on November 29, 1949 he acquired title to lot 72; that lots 72 and 75 combined are vacant and now in use partly for patrons' parking in connection with the restaurant; that the present owner now owns on City Island avenue, in the block between Belden and Rochelle streets, 75% of the block frontage on the east side with an assessed valuation of \$44,500 and over 50% of frontage on the west side with an assessed valuation of \$18,000 or a total of \$62,500; that the owner has expended a considerable amount of money for the many improvements made since acquisition of the property; that the restaurant is operated only from May to October and usually closes at 11 P.M. or not later than 12 P.M.; that the legal occupancy of the restaurant is 432 persons and this number is reached regularly on week-ends; that almost all of the patrons necessarily must travel by automobile because of the relatively out of the way location and justifiably expect to find convenient parking space adjacent to the restaurant; that the parking situation therefore presents a considerable problem, especially due to present inadequate parking area and also because of the fact that street parking on City Island avenue and adjacent streets is prohibited; that the reason for this appeal for variance is to permit the owner to utilize that portion of lots 72 and 75, which extends into a residence district, and thus would increase the parking facilities to the extent that it would accommodate at least 22 additional cars; that it will not adversely affect the neighborhood since the character of the immediate vicinity would still be preserved; that the area is surfaced with black top, kept clean and free from dust and glaring lights; that the type of fence installed and the shrubbery and flowers planted along the outer boundaries

enhances the appearance which blends more nearly to a residential open terrace; that cars that would be parked on this property are usually received and brought back to shelter at the driveway entrance of restaurant by an attendant employed by the owner and therefore would cause a minimum amount of noise and disturbance; that since this is not a commercial parking lot, parking of cars is limited to guests patronizing the restaurant only, and at most for a few hours while dining; that access to portion of lots in the residential use district will only be from the business use portion of the property and no additional curb cuts are necessary or desired other than those shown on drawings; that the premises were being used, among other purposes, as a dance hall and cabaret and this indeed would really constitute a nuisance or disturbance to the neighborhood if this kind of business was continued; that the present owner wishes only to conduct a first class establishment confined only to the normal activities necessary to a first class restaurant; and

WHEREAS, the applicant states that the present owner has held title to the property since July 11, 1946; that the assessed valuation of land is \$40,000 and of the buildings \$22,500 making a total of \$62,500; that the buildings were erected starting in 1896; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years, to permit the extension of the lawfully existing parking lot into the more restricted district, substantially as proposed and as indicated on plans filed with this application, marked "Received September 13, 1954" (3 sheets), and revised plans marked "Received May 19, 1955" (1 sheet), *on condition* that the area proposed for parking where bumpers, planting and fences do not occur shall be leveled substantially to the grade of the street and the present parking lot and shall be surfaced with clean gravel or steam cinders, treated with a binder and properly rolled; that planting shall be maintained along the lot lines as proposed and shown on revised plan marked "Received May 19, 1955;" that suitable bumpers shall be maintained to protect such planting and along the lot lines where indicated; that there shall be erected in addition to the 4 ft. chain link fence, a split sapling fence to a total height of not less than 5 ft. 6 in. with the finished side of the sapling toward the adjoining area; that there shall be no opening from the extension of this parking area to Rochelle street; that all cars shall go through the existing and approved driveways of the present parking lot; that no additional signs shall be erected; and that all permits required shall be obtained, including a new certificate of occupancy and all work completed within six (6) months from the date of this resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 26, 1955 after due notice by publication in the Bulletin; laid over to May 24, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Marcy avenue are in business and unrestricted use, B area, class 1 height districts; Hope street is in an unrestricted use, B area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated July 26, 1954 acting on Alt. Applic. 5525-53, reads:

"1. Diaper laundry, mangling, folding & packaging and parking, loading & unloading in a partly Business & partly Unrestricted use district is contrary to Art. II, Sect. 4, par. 51 of the zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 75 ft. frontage by 200 ft. in depth, irregular, on which are located two contiguous plots, one being 75 ft. front on Hope street by 100 ft. in depth, irregular, and the other being 29 ft. front on Grand street by 200 ft. in depth, irregular, now under the same ownership; that there is a one story building 50 ft. front on Hope street by 93 ft. 8 in. in depth, irregular, 15 ft. in height, of class 3 construction, erected 1923 under N.B. 16282-23 for which certificate of occupancy No. 23325 was issued December 19, 1923 for occupancy as a wood working plant; that the certificate of occupancy was superseded on May 11, 1925 by certificate of occupancy No. 33345 for occupancy as a factory with storage, and again superseded on March 17, 1942 by certificate of occupancy No. 104780 for occupancy as a wet wash laundry; that the present owners took title to this portion of the premises on February 27, 1946 and obtained a new certificate of occupancy No. 131021 under Alt. Applic. 1658-46 issued November 27, 1951 providing for the present occupancy as a diaper laundry and the storage of not more than 4 trucks; that fire department permit C.B. No. 9874 was issued April 23, 1951 for the storage of 4 motor vehicles; that there is also a one story theatre building 29 ft. front on Grand street by 125 ft. in depth and 21 ft. in height, erected in 1915 under N.B. Applic. 1485-15 and used and occupied in accordance with certificate of occupancy No. 1838 issued in 1928 upon special report No. 5898 for occupancy as a motion picture theatre with 495 seats, and an existing two story building of class 4 construction occupied as a dwelling for one family on the 2nd floor, erected prior to 1916 and for which no records could be found, and which is intended to be demolished; that the owners acquired title to the theatre building on February 4, 1952; and

WHEREAS, the applicant states that the district maps show the site within 100 ft. of Hope street is in an unrestricted use district and the remainder is in a business use district; that the entire site is in a Class 1½ height, B area district; these designations have not been changed since 1916 and no amendment is pending; and

WHEREAS, the applicant states that it is proposed to extend the occupancy of the Hope street building, which is a diaper laundry, entirely within the unrestricted use district into the former theater, which is 100 feet back from Grand street on which it fronts, in a business use district; that the proposed vacant portion of premises which fronts on Hope street is entirely within the unrestricted use district and will be used for the parking, loading and unloading of diaper laundry trucks; that the laundry will remain in the Hope street building and all loading and unloading will be from the Hope street frontage which is in the unrestricted use district; that the theatre building will be used principally for the assembly line type of folding and packaging of diapers

on long tables and the new 2nd floor portion of this building used as additional office space; that the main business office will remain in the Hope street building; that there will be no loading or unloading or laundry activities whatsoever through the Grand street entrance; and

WHEREAS, the applicant contends that the owners first started the operation of their business in 1946 when they acquired the Hope street building and now require additional space; that the theatre which has not been in use for almost three years is perfectly situated for the natural expansion of their business; that the theatre and land is presently assessed at \$30,000; that the proposed removal of the theater marquee and alteration of the building will improve the appearance of Grand street and since all the business operation will be from Hope street, can in no way adversely affect the business character of Grand street; and

WHEREAS, the applicant states the present owner has held title to Lots 12 and 29 since February 4, 1952 and to Lot 13 since February 27, 1946; that the assessed valuation of the land is \$16,500 and of the buildings \$42,800, making a total of \$59,300; that the buildings were erected in 1916 and 1923; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommends that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the extension of the laundry use substantially as proposed and as indicated on plans filed with this application marked, "Received, August 6, 1954" (2 sheets) and "March 30, 1955" (2 sheets) *on condition* that the building shall not be increased in height or area and in all other respects the building and use shall comply with all laws, rules and regulations applicable to the building and occupancy other than as acted on this date under Cal. No. 789-54-A; that the marquee shall be removed; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated July 26, 1954, on Alt. App. 5525/53, reads:

"2. Exits from all floors to comply with sect. 270 of the Labor Law including cellar."

and

WHEREAS, the applicant states the building is one story, 21 feet in height, 29 ft. by 125 ft. in area, of Class 3 construction, erected in 1916 on a lot 75 feet front by 200 feet irregular in depth, in an unrestricted and business use, B area, Class 1 height district, and now vacant and proposed

MINUTES

to be decreased in area at the 2nd floor to 29 feet by 107 feet and used and occupied as follows: cellar—boiler room; 1st floor—diaper mangling, folding, 20 persons; mezzanine—packaging, number of persons not stated; 2nd floor—offices and storage, 15 persons; that there are no interior stairs and no fire escapes; that there is no standpipe, no sprinkler, no interior fire alarm and monthly fire drills are not maintained; that the height of the adjoining is not stated; and

WHEREAS, the applicant also states that the premises consist of two contiguous plots, one 75 feet front on Hope street by 100 feet in depth, irregular, and the other 29 feet front on Grand street by 200 feet in depth irregular, under the same ownership; that there is a one story building 50 feet front on Hope street by 93 ft. 8 in. in depth, irregular, and 15 feet in height, of Class 3 construction, erected in 1923 under N.B. 16282/23, for which Certificate of Occupancy No. 23325 was issued as a woodworking plant; that this certificate was superseded on May 11, 1925, by Certificate of Occupancy No. 33345 for a factory with storage and again superseded on March 17, 1942 by Certificate of Occupancy No. 104780 for use as a wet wash laundry; that the present owners took title to this portion of the premises February 27, 1946 and obtained certificate of occupancy No. 131021 under Alt. App. 1658/46 on November 27, 1951, for the present use as a diaper laundry and for the storage of not more than four trucks and Fire Department Permit No. C.B. 9874 was issued April 23, 1951, for the storage of four motor vehicles; that there is also a one-story theater building 29 feet front on Grand street by 125 feet in depth and 21 feet in height, erected under N.B. App. 1485/15 and used in accordance with Certificate of Occupancy 1838 issued in 1928 on Special Report No. 5898 for use as a motion picture theatre with 495 seats and an existing two-story building of Class 4 construction used as a dwelling for one family on the 2nd floor, erected prior to 1916 for which no records could be found; that it is proposed to demolish this building; that the owners acquired title to the theatre building February 4, 1952; and

WHEREAS, the applicant states it is proposed to use the existing theatre building in conjunction with the diaper laundry building; that because of the unique design of the theatre building it is necessary to make extensive alterations to convert it to business use; that new floor beams will be added to level the first floor and an intermediate floor will be added so that the 1st floor will be 11 feet in height and the new 2nd floor 9 feet in height; that the 2nd floor will be used for storage and for private and general offices; that there will be no occupants in the storage area and 10 female and 5 male occupants in the office area; that only about one-half of the 2nd floor will be used and that portion only by a small number of occupants; that the live-load capacity of the new 2nd floor will be in conformance with the Building Code; that the only cellar is the existing boiler room and no change in its occupancy is proposed; that there is an existing mezzanine in the theatre portion which was used for bathrooms and a motion picture operating room; that this mezzanine will be replaced by the proposed 2nd floor; that two new remote 3 ft. wide iron stairs enclosed with 8 in. cinder blocks will be provided from the 1st to the proposed 2nd floor; that one of these stairs from the general office area, provided with 3 ft. by 7 ft. fireproof, self-closing door will lead directly to Grand street and have a scuttle and ladder to the roof within the stair enclosure; that the other stairs from the storage area will allow exit to Hope street; that the proposed occupancy for the 1st floor is 20 persons, so that the entire human occupancy in the theatre building will be small for the large floor area; and

WHEREAS, the premises were inspected by a committee of the Board which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the borough superintendent acting on Alt. App. 5525/53, Objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the exits, including an exit from the existing boiler room at Grand street proposed to be used, shall be as

indicated on such plans filed with the companion application, 678-54-BZ; that such stairways shall be enclosed in accordance with the requirements of the Code and the Labor Law, as indicated thereon.

823-54-BZ

APPLICANT—Dominick Salvati and Son, for The Longshoreman Checkers and Clerks Social Club, Inc., owner. SUBJECT—Application October 29, 1954 (decision of the borough superintendent), under section 7h of the zoning resolution, to permit in a residence use district the parking of motor vehicles belonging to members of club located at 343 Court street.

PREMISES AFFECTED—283-287 Union street, north side, 125 ft. west of Court street, Block 339, Lot 41, Borough of Brooklyn.

APPEARANCES—

For Applicant: Anthony M. Salvati.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition. THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 26, 1955 after due notice by publication in the Bulletin; laid over to May 24, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, C area, class 1 height district; Union street is in residence and business use, C area, class 1 height districts; Court street is in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated October 7, 1954 acting on Alt. Applic. 2587-54, reads:

"1. The proposed day parking for members of the Longshoreman Checkers & Clerks Social Club Inc., in a residence use district is contrary to Art. II Sec. 3 of Zone Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 75 ft. frontage by 100 ft. in depth, presently vacant; that it is proposed to use proposed parking lot for members of club located at 343 Court street (Longshoremen Checkers and Clerks Social Club, Inc.); and

WHEREAS, the applicant contends that as this area is located approximately 100 ft. away from Court street where the club house is located, and this being in a residence use district, there is a great congestion of street parking at the present time for those people who own one or more cars living in this residential section; that during the club hours of from 8 A.M. to approximately 7 P.M., the congestion that now exists because of these dwellings, plus the influx of club members, causes a great hardship on the residents and those members, both locally and those who travel great distances, to utilize the facilities of this club house; that this proposed parking area will be completely fenced as required by law and shall be completely supervised; that the proposed parking area will be for pleasure vehicles only and only for the use of club members, without any charge; and

WHEREAS, the applicant states that the present owner has held title to the property since February 4, 1951 and that the assessed valuation of land is \$5,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district

MINUTES

regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years, to permit the premises to be occupied for the parking of motor vehicles of the pleasure car type belonging to the members of the adjacent club at 343 Court street, *on condition* that the plot shall be leveled substantially to the grade of Union street and shall be surfaced with steam cinders, or clean gravel and treated with a binder and properly rolled; that there shall be erected on the interior lot lines where walls of adjacent buildings do not occur a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height; that a similar fence shall be erected along the street building line except for an entrance not over 12 ft. in width, which shall be fitted with gates which shall be kept normally closed when the parking lot is not in active use; that opposite such entrance there may be a curb cut of similar width; that during the term of this variance the premises shall be used for no other use; that no buildings shall be erected thereon; that the sidewalks surrounding the premises shall be constructed or repaired to the satisfaction of the Borough President; that there shall be no signs except one attached to the fence, adjacent to the entrance advertising the private use and such other information required by the Commissioner of Licenses; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that there may be a building not over 100 sq. ft. in area, not over one story in height, of frame construction and used solely as a shelter and office for the attendant; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within six months from the date of this resolution.

895-54-BZ

APPLICANT—Kitzler and Nurick, for Hilddun Corporation, owner.

SUBJECT—Application November 15, 1954 (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence and business use district the change in occupancy from storage and blending of perfumes, office and showroom, to manufacturing on first and second floors, using more than the percentage of floor area than is permitted.

PREMISES AFFECTED—157-159 Atlantic avenue, north side, 91 ft. 6 in. west of Clinton street, Block 275, Lot 5, Borough of Brooklyn.

APPEARANCES—

For Applicant: Sidney H. Kitzler and Robert Greenberg.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinfert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 26, 1955 after due notice by publication in the Bulletin; laid over to May 24, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Clinton street are in residence and business use, B area, class 1½ height districts; Atlantic avenue is in a business use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated November 4, 1954 acting on Alt. Applic. 3800-52, reads:

"1. Proposed change of use of a bldg. which projects partly within a residential district, violates Art. 2 Sect. 3 of the zone resolution.

2. Proposed factory use on floor areas that are in excess of area of lot in business use district is contrary to Art. 2 Sect. 4c of the zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 120 ft. in depth, irregular, 120 ft. deep on the west side and 80 ft. deep on the east side, and improved with a two story non-fireproof building the full size of the lot on the 1st floor; that the 2nd floor is 120 ft. deep on the west side and 65 ft. deep on the east side; that the premises are within a business use district for a depth of 100 ft. and extend into a residence district for an additional 20 ft.; that certificate of occupancy No. 113197 issued October 23, 1945 and now in force, lists the building to be occupied as follows: cellar—storage; 1st floor—340 lb. live load to be used for the blending of perfumes; 2nd floor—70 lbs. live load to be used for offices and showrooms; that it is proposed to occupy the entire 1st and 2nd floors for manufacturing purposes, with no more than 70 persons on the 2nd floor; that it is further proposed to reinforce the 2nd floor beams to provide 120 lb. live load; that the 2nd floor shall be occupied for manufacturing of wearing apparel, which type of use does not produce excessive noise or noxious fumes; that a small portion of the rear of the building, measuring 25 ft. in width by 20 ft. in depth, extends into the residence use zone; and

WHEREAS, the applicant contends that this building was erected prior to 1900 as a four story building for use as a storage warehouse; that certificate of occupancy No. 621, issued October 22, 1918 was for use as a storehouse for groceries; that in 1921 Alt. Applic. 10073 was approved to remove the upper 2 stories and use the 1st and 2nd floors for showroom, offices and a shop; that in 1935 Alt. Applic. No. 5806 was approved for use as stores on the 1st floor and offices and showrooms on the 2nd floor and certificate of occupancy No. 78093 was issued; that in 1945 a new certificate of occupancy No. 113197 was issued on Alt. Applic. No. 5806-35 to supersede certificate of occupancy No. 78093 which new certificate provided for use of the building as indicated above; that in 1953 Alt. Applic. No. 3800-52 was approved changing the use of the building to a factory and to reinforce the second tier of beams to provide for a live load of 120 lbs. on the 2nd floor; that this approval was granted subject to limiting the sq. ft. area for manufacturing purposes on the 1st and 2nd floors to 2200 sq. ft. on each floor; that the plans also provided for the installation of a one hour test stair enclosure on the 2nd floor; that none of the work indicated on this approval has been done because the owner has been unable to rent the premises due to limitations placed on space to be used for manufacturing purposes; that the existing tenant on the 1st floor blends and packages perfumes on a small portion of the floor in the westerly half of the building; that the balance of the 1st floor is now occupied or used for offices, stockrooms, etc.; that in the cellar of the westerly half of the building the 1st floor tenant uses a large table on which one man mixes and blends perfume oils and extracts by hand; that there is no other work or other occupant in the cellar; that the two existing iron stairs will be enclosed on the 2nd floor with stud partitions, fire retarded on both sides with wire lath and portland cement plaster; that the doors leading thereto will be one hour test, self-closing; that each stair enclosure will be provided with a new iron ladder leading up to a new metal covered roof scuttle; that the cellar stairs are now enclosed with 4 in. thick cinder concrete walls and a fireproof, self-closing door; that at the rear of the building there is a fire escape balcony on the 2nd floor with a gooseneck ladder extending to the roof and a sliding ladder leading down to the yard of the adjoining premises; that at the easterly side of the building near the rear, there is a fixed iron ladder leading from the roof of the one story portion of this building to the yard of the adjoining building, under the same ownership; that there is an existing exit door from the 2nd floor leading to the roof of the one story portion; that this yard is open directly to State street and is used as a service entrance for the six story multiple dwelling located therein; and

WHEREAS, the applicant states that in view of the fact that this building was erected prior to the enactment of the

MINUTES

zoning resolution, the Board is requested to approve the use of this portion of the building in conjunction with the balance of the building, which is within the business use district; that at 164-168 Atlantic avenue, there is a four story building, the upper three stories of which are used for manufacturing purposes; that on the opposite side, at 124-132 Atlantic avenue are 3 buildings, one of which extends through the block to Pacific street, which are used for manufacturing; that Atlantic avenue is within a business use district in this neighborhood and it is therefore requested that permission be granted to occupy the 1st and 2nd floors of this building for light manufacturing and that the blending of perfume oils may be continued in the small portion of the cellar, limited to no more than two occupants; that it is also requested that the existing stairs be continued in use on condition that they be enclosed with one hour test partitions and one hour test self-closing doors and that existing fire escape facilities be maintained; and

WHEREAS, the applicant states that the present owner has held title to the property since December 25, 1946; that the assessed valuation of land is \$12,200 and of the building \$27,800 making a total of \$40,000; that the building was erected prior to 1916; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit manufacturing use throughout the second floor as proposed and as indicated on plans filed with this application marked, "Received, November 15, 1954" (6 sheets) and "January 26, 1955" (3 sheets) *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified this day under Cal. No. 896-54-A to permit the existing extension into the residential district; that such fire fighting equipment shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

896-54-A

APPLICANT—Kitzler and Nurick, for Hilldun' Corp., Owner.

SUBJECT—Application November 15, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—157-159 Atlantic avenue, north side, 91 ft. 6 in. west of Clinton street, Block 275, Lot 5, Borough of Brooklyn.

APPEARANCES—

For Applicant: Sidney H. Kitzler and Robert Greenberg.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated November 4, 1954, on Alt. App. 3800/52 reads:

"3. The means of exit from cellar, 1st & 2nd floor to comply with Sect. 270 of the Labor Law as to enclosure."

and

WHEREAS, the applicant states the building is one and two stories, 29 feet in height, 50 ft. front by 80 and 120 ft. in area at street level, 50 ft. front by 65 ft. and 120 ft. in depth at typical floor level, of Class 3 construction, erected prior to 1916, located in a business and residence use B area, Class 1½ height district; proposed to be increased in depth on the 2nd floor to 80 and 120 feet and used and occu-

pied upon completion of the alteration as follows: cellar—storage and blending of perfumes, 70 persons; 1st floor—packaging and blending of perfumes, 70 persons; 2nd floor—manufacturing wearing apparel, 70 persons; that the building is provided with two interior 3 ft. 8 in. wide iron stairs, one enclosed in cinder blocks 4 in. thick and the second stairs is open; stairs lead direct to street but not to roof; and

WHEREAS, the applicant states the building covers the full area of the lot on the 1st floor and is 120 feet deep on the west side and 150 ft. deep on the east side at the 2nd floor; and

WHEREAS, the applicant states the building was erected prior to 1900 as a 4-story building for use as a storage warehouse and Certificate of Occupancy #621 issued in 1918 for storehouse for groceries; that under Alt. App. 10073/21 the two upper stories were removed and the 1st and 2nd floors were indicated for use as showroom, offices and shop; that under Alt. App. 5806/35 the building was approved for use as stores on the 1st floor and for offices and showrooms on the 2nd floor and Certificate of Occupancy #78093 issued for such use; that under Alt. App. 5806/35, Certificate of Occupancy #113197 was issued in 1945 to supersede Certificate #78093 and permitted the following use and occupancy: cellar—storage; 1st floor—340 lb. liveload, blending of perfumes; 2nd floor—75 lb. liveload—offices and showrooms; that on February 19, 1947, Certificate of Occupancy #116705 was issued to supersede Certificate of Occupancy #113197 and permitted the use of mixing essential oils in connection with the blending of perfume in the cellar, with an occupancy of one person; that under Alt. App. 3800/52, approved in 1953 for changing the use of the building to a factory and to reinforce the second tier of beams and provide a liveload of 120 lbs. on the second floor, subject to a limitation of 2200 sq. ft. per floor on each floor for manufacturing purposes; Alt. App. 3800/52 provided for the installation of a one-hour test stair enclosure on the second floor; that none of the work indicated on this alteration application has been done due to the limitations placed on the space to be used for manufacturing purposes; and

WHEREAS, the applicant states that the existing tenant on the 1st floor blends and packages perfumes on a small portion of the floor in the westerly half of the building; that the balance of the 1st floor is now used for offices, stock-rooms, etc.; that the westerly half of the cellar is used by the first floor tenant for mixing and blending perfume oils and extracts by hand with an occupancy of one person; and

WHEREAS, the applicant contends it is now proposed to use the first and second floors for light manufacturing with no more than 70 persons on the 2nd floor; that the existing exit doors leading to the street from each stairhall are 3 ft. wide; that it is requested that these doors be permitted to remain in lieu of replacing them with new 3 ft. 8 in. wide doors; that the existing exit doors leading to the street from the first floor stores are 3 ft. wide and it is also requested that they be permitted to remain; that the two existing stairs will be enclosed on the second floor with stud partitions, fire-retarded both sides with wire lath and cement plaster that the doors leading thereto will be one-hour test, self-closing; that each stair enclosure will be provided with a new iron ladder leading to a new metal covered roof scuttle; that the cellar stairs are now enclosed with 4 in. cinder concrete walls and fireproof, self-closing doors; that in the rear is a fire escape balcony on the 2nd floor with gooseneck ladder extending to the roof and a sliding ladder leading down to yard of adjoining premises; that at the easterly side of building near the rear is a fixed iron ladder leading from the roof of the one-story portion of this building to the yard of adjoining building under the same ownership; that there is an existing exit door from the second floor leading to roof of the one story portion; that the yard is open directly to State street and is used as a service entrance for the 6-story multiple dwelling located thereon; that it is proposed to reinforce the second floor beams to provide 120 lbs. liveload; and

WHEREAS, the applicant requests that the Board permit the existing stairs to be continued, on condition that they be

MINUTES

enclosed in one-hour partitions, equipped with one-hour test, self closing doors and the existing fire escape facilities be maintained; and

WHEREAS, the applicant contends that extensive alterations to the existing stairs would impose a hardship on the owner far in excess of the improvement gained and would result in practical difficulties as the building is partly occupied; and

WHEREAS, the premises were inspected by a committee of the Board which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the borough superintendent acting on Alt. App. 3800/52, Objection 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the exits from the first and second floors shall be as proposed and as shown on plans cited in the resolution adopted this day under Cal. No. 895-54-BZ; that during the time there is a limited occupancy in the cellar not exceeding one person the exits as proposed and as shown may be permitted.

972-54-BZ

APPLICANT—Murray S. Cohen, for Wolf and Kindler, owners, Fordham Drug Company, lessee.

SUBJECT—Application December 23, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a residence and retail-1 use district, the extension of existing store in a class A multiple dwelling, into residence use portion of lot.

PREMISES AFFECTED—2487 Creston avenue and 72 East 190th street, southwest corner, Block 3174, Lot 28, Borough of the Bronx.

APPEARANCES—

For Applicant: Murray S. Cohen.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on May 17, 1955 after due notice by publication in the Bulletin; laid over to May 24, 1955, for inspection and decision; hearing closed; applicant to file statement as to back fill and slab; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, East 190th street and Creston avenue are in residence and retail-1 use, B area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated December 16, 1954 acting on amendment to Alt. Applic. 930-54, reads:

"A-1. Proposed extension of present store into a Residence 'Use' district in the present 5-story and cellar non-fireproof class A New Law Tenement Multiple Dwelling is contrary to Section 3, Article II of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 133 ft. 6 in. frontage by 46 ft. 2 in. in depth, on which is located a new law tenement erected in 1913, 5 stories in height, of non-fireproof class 3 construction, except for the 1st tier which is of fireproof construction; that under present certificate of occupancy No. 6293 issued October 26, 1949 the cellar is occupied as superintendent's apartment, boiler and storage room, the 1st floor has 3 families, doctor's office and drug store, 2nd to 5th floors inclusive contain 4 families on each floor; that the area now occupied by the drug store is completely within the retail-1 zoning district; that the area on the 1st floor certified for a doctor's office is adjacent

to the present drug store, is presently vacant and has been vacant for some time; that it is proposed that the present drug store, on the interior only, be extended into the residential zone area, in the space formerly occupied by a doctor's office and now vacant; and

WHEREAS, the applicant contends that the present drug store has been located on these premises for the last six years, deals exclusively with drugs and sundries and does not have a soda fountain and luncheonette; that this store has so well been servicing the needs of the community in its particular field that it has consequently outgrown the space it occupies; that the pharmacist and owner of this store finds that because of the demands of the community for his services, that he cannot continue to properly service them in his small and confined premises without great difficulty and hardship; that by extending into this area, no families or tenants of the apartment building will be affected; that no work is proposed on the facade of the building within the residential district and thus the residential character of the existing building will continue to conform with the adjacent residential buildings; and

WHEREAS, the applicant states that the present owner has held title to the property since May 13, 1913; that the assessed valuation of land is \$28,000 and of the building \$42,000 making a total of \$70,000; that the building was erected in 1913; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit an extension of the existing business use into a portion of the first floor and cellar, substantially as proposed and as indicated on plans filed with this application, marked "Received December 23, 1954", 10 sheets and "May 19, 1955", 2 sheets, *on condition* that the portion of the cellar proposed to be used shall be filled to grade and a new reinforced concrete slab installed over the back fill to the satisfaction of the borough superintendent; that the proposed new stairs to the storeroom shall be enclosed throughout the cellar and any openings in the present storeroom to the cellar shall be closed up with approved masonry so that there shall be no means of access to the balance of the cellar from the storeroom as proposed to be used in connection with the enlarged drugstore; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

2-55-BZ

APPLICANT—Benjamin R. Leinhardt, for William Welge and Jacob Leinhardt, owners, U. S. Government, Post Office Department, lessee.

SUBJECT—Application January 4, 1955 (decision of the borough superintendent), under sections 7a, 7c and 21 of the zoning resolution, to permit in a residence use, C area district the extension of existing U. S. Post office building, without the required rear yard, to be used for loading vestibule, and loading and unloading platform.

PREMISES AFFECTED—1234 St. Johns place, south side, 160 ft. west of Troy avenue, Block 1382, Lot 31, Borough of Brooklyn.

APPEARANCES—

For Applicant: Benjamin R. Leinhardt.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

MINUTES

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on April 26, 1955 after due notice by publication in the Bulletin; laid over to May 24, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, C area, class 1 height district; St. Johns place is in residence and retail use, C area, class 1 height districts; Troy avenue is in a retail use, G area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated December 10, 1954 acting on Alt. Applic. 4208-54, reads:

"1. The proposed extension of a building for use as post office, loading vestibule, unloading platform and loading space at 1st floor level and swing room on 2d floor in a residence use district is contrary to the Zoning Res. Art. II Sect. 3.

2. Provide a rear yard of at least 10'-0" for proposed extension as required by Art. IV Sect. 17 of the Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 99 ft. 11½ in. frontage by 120 ft. 3½ in. in depth, on which is located a two story building along the westerly side of the plot, 60 ft. front by 90 ft. in depth at street level and is set back 30 ft. 3½ in. in accordance with a restrictive covenant; that the existing building is used as a post office by the United States government; that it is proposed to erect an extension on the 1st floor at the easterly portion of the lot at the rear 39 ft. 11½ in. by 35 ft., one story in height, of class 3 construction, to be used by existing U. S. Post Office, with loading space in front of proposed extension; and

WHEREAS, the applicant contends that the open area of the plot has never been utilized for any gainful purpose but was continued in ownership against the day when the increased postal business might require an extension of the existing building; that the existing building was built to the specifications of the government for the use of a post office and occupancy took place upon completion; that in connection with the existing building, there are two existing curb cuts for use of the government trucks to drive on the sidewalk where loading and unloading has been and still is being conducted; and

WHEREAS, the applicant states that from July 25, 1916 up to March 25, 1954 the affected premises and the entire block had been located within a business use district; that since March 25, 1954 the entire block, save only within 100 ft. of intersecting avenues, Troy and Albany, was rezoned to residence use, including the affected premises; that on July 15, 1941, when title to the affected premises was obtained, there was an outstanding lease with the Government, which ran to September 30, 1944; that on October 1, 1944 a new ten year lease was entered into which expired on September 30, 1954; that throughout these 13 years of ownership, the owners refrained from developing the vacant portion of the lot or from selling same, in order to have it available for future extension of the existing post office facilities, if required by the post office department; that negotiations for renewal of the lease which expired September 30, 1954 were entered into on January, 1954; that at that time the post office officials indicated that because of increased postal business the department required approximately 2,000 additional square feet of space inclusive of a loading platform, in order to effect loading and unloading off-street, and within the premises; that accordingly on February 1, 1954 the owners submitted a written proposal for a lease to the government predicated upon the required extension of the existing building with provision for off-street loading within the premises; that it was August 30, 1954 before a lease was consummated; that the ultimate contract provides for the erection of the proposed extension, the loading platform and provision for off-street loading within the premises for a term of 20 years at an annual rental of \$9,850.00; that in the meantime, on March 25, 1954,

unknown to the owners and to the government, the zoning use district was changed from business to residence use; that the owners did not discover the change in use district until November, 1954 when their architect, who was also not aware of the change in zone, first submitted plans of the proposed extension for approval; that it is proposed to extend the rear part of the street level of the existing building by adding an addition 39 ft. 11½ in. by 35 ft. in depth, together with a 15 ft. deep loading platform and a ramp leading thereto; and

WHEREAS, the applicant contends that St. Johns place is a wide, heavily travelled main arterial highway; that except for the unbuilt portion of the site involved herein, the entire block is fully developed; that at the southwest corner of St. Johns place and Troy avenue, in block 1382, lot 39, there exists a two story brick building where the street level floor was at one time devoted to store use and the upper floor to a bowling alley use; that it is now vacant and boarded up; that block 1376, lot 54 contains a large paint store; that block 1382, lot 12 contains a two story commercial brick building and store which is used for the manufacture and sale of mattresses, box springs, etc.; and

WHEREAS, the applicant further contends that the existing post office has served the needs of the affected community upwards of 37 years; that due to increased population in the area with corresponding increase of postal business, additional facilities are required for efficient service and unless these additional facilities can be obtained in the presently unimproved portion of lot 31, it will remove from the premises and the post office will be transferred to some other location where adequate facilities are available; that the erection of the proposed extension will have no adverse effect on adjoining property to the east (lot 35) for the east wall of the proposed extension and the westerly wall of the building on lot 35 will form a complete buffer between the two premises; that the rear wall of the proposed extension will be located at or near the rear lot line abutting the rear yards of the residential dwellings located on lots 54, 55, 56, 57 and 58 and will have no adverse effect; that a grant of this application will not alter the residential character of the neighborhood; and

WHEREAS, the applicant further contends that the existing post office and the unimproved portion of the plot have always formed one lot (lot 31); that for 13 years the owners have paid taxes on this unimproved portion without return therefor, since all prior leases were independent of and did not include the unimproved portion; that it was felt that it was good business to nevertheless continue ownership for it was felt that the time would come when the government would require additional space; that it is somewhat ironical that this change of zone should come to pass at the very time when the government and the owners were negotiating for the use of this unimproved portion of the lot; that at any time since the completion of the building in 1917 until March 25, 1954 this could have been done with special dispensation; that since October 1, 1954 the owners have received no rent from the government as the government contends that there has been a breach of contract on the part of the owners and that it will not pay rent until its status is clarified; that it may well be that the government would institute suit against the owners for any excess of rent that it may be required to pay for other quarters in another location for the 20 years contracted for, and it is submitted that this constitutes a hardship which the Board should consider; and

WHEREAS, the applicant requests a variance as to objection 2 issued by the borough superintendent; that a lesser rear yard than 10 ft. is required for the following reason: that it is contemplated that mail trucks will back up against the loading platform for the purpose of loading and unloading; that in order to best suit the convenience of the post office and in order to avoid unnecessary lifting of heavy mail sacks, it is required that the approach to the loading platform be gradually depressed, so that the difference between the street level and the approach level at the loading platform will be 2 ft.; that the runway approach will be approxi-

MINUTES

mately 36 ft. whereas the greater setback would reduce the runway approach to only 30 ft.; that the post office department feels that particularly during the wintertime when sleety conditions prevail, the shorter approach may be difficult for heavily loaded mail trucks; and

WHEREAS, the applicant states that the present owner has held title to the property since July 15, 1941; that the assessed valuation of land is \$21,500 and of the building \$23,500 making a total of \$45,000; that the building was erected in 1917; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution, as to use, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore entitled to relief, as to area, on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the extension of the building substantially as proposed and as indicated on plans filed with this application marked, "Received, January 4, 1955" (6 sheets) and to permit under Section 21 the reduction in depth of the rear yard as shown on such plans *on condition* that the rear yard space shall be paved and suitable fences shall be maintained along the rear lot line and side lot lines to the proposed extension; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjoined: 2:40 P. M.

JOSEPH J. DOYLE, *Chief Clerk*.

REGULAR MEETING

TUESDAY AFTERNOON, MAY 24, 1955, 2 P.M.

Present: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly.

485-39-SM—Vol. II

APPLICANT—United States Gypsum Company, Owner.
SUBJECT—Application reopened July 13, 1954, as to amendment to resolution to include additional USG Lath Rocklath Accessories—re USG Rocklath Accessories; previously approved.

APPEARANCES—

For Applicant: William W. Bainbridge.

ACTION OF BOARD—Resolution amended, in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 485-39-SM—Vol. II

Subject: Amendment to resolution to include additional USG Gypsum Lath Rocklath Accessories.

United States Gypsum Company, New York requested by letter dated June 16, 1954 that the resolution adopted June 7, 1939 and amended July 18, 1950 under Cal. No. 485-39-SM

Vol. I and II be amended so as to include additional clips. The application was reopened by a vote of the Board on July 13, 1954.

Purpose

The clips are designed to secure rocklath to studs, joists or masonry surface.

Description

The Bridjoint Acoustical Clip B-1A is similar to the B clip except that the prongs are flat so as to reduce any requirements of adhesive required.

The Trus-Lok Clips TL-1 and the Starter and Finisher Clips TL-2 and TL-3 are of sheetmetal and are used to secure $\frac{3}{8}$ " rocklath to Trusteel Studs.

Inspection and Test

Samples of the clips were clips previously approved and were found to comply with design and weight of metal.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends that the resolution adopted June 7, 1939 and amended July 18, 1950 under Cal. No. 485-39-SM Vol. I and II be amended to include the clips known as B-1A, TL-1, TL-2 and TL-3 on condition that the requirements of the resolution adopted June 7, 1939 under Cal. No. 485-39-SM Vol. I be complied with.

(Sgd.) HARRIS H. MURDOCK,

Chairman,

LESLIE V. HUBER,

Chief Engineer,

JOHN A. DARTS,

Assistant Engineer,

Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolutions of June 7, 1939 and July 18, 1950 in accordance with the above report.

709-39-SM—Vol. II

APPLICANT—National Gypsum Company, owner (Sheldon H. Cady, agent).

SUBJECT—Application reopened June 2, 1954 as Vol. II for test and report as to revised dimensions of the material—Gold Bond Gypsum Wall Plank (wallboard for new or remodeling work); previously approved re Gypsum Lath (Plaster Board), Gypsum Wallboard and Gypsum Sheathing Board, Gold Bond, Rockwell and Gypsolite Brands.

APPEARANCES—

For Applicant: Sheldon H. Cady.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 709-39-SM—Vol. II

Subject: Amendment to resolution as to revised dimension of wall plank.

Sheldon H. Cady for National Gypsum Co., Buffalo, New York requested by filing an application dated April 30, 1954, that the resolution adopted January 23, 1940 and amended through June 24, 1952 under Cal. No. 709-39-SM—Vol. I be amended so as to include Gold Bond Gypsum Wallplank in 16" width. The application was reopened by a vote of the Board June 2, 1954 under Cal. No. 709-39-SM—Vol. II.

MINUTES

Purpose

The wallboard is a gypsum plank for interior use.

Description

Gold Bond Gypsum Wall Plank is manufactured in the same manner with the same materials as Gold Bond Gypsum Wallboard as approved under Cal. No. 709-39-SM—Vol. I. The only difference being that the wall plank is 16" in width and is of only one thickness $\frac{3}{8}$ ", the length of the plank is up to 10'-0". The long edges of the plank are round and the ends are square.

The wall plank is available in two types.

1. Grainboard plank, surfaced with simulated wood grain paper.
2. Standard plank, with regular gypsum wallboard surface paper.

Recommendation

On the basis that the requested change in no way refers to the basic gypsum core material and only refer to surface finish, edge treatment and dimension, the Committee on Test recommends that the resolution adopted through June 24, 1952 under Cal. No. 709-39-SM—Vol. I be amended so as to include the material known as Gold Bond Gypsum Wall Plank on condition that the requirements of the resolution adopted January 23, 1940 under Cal No. 709-39-SM—Vol. I be complied with.

REPORT OF COMMITTEE ON TEST

Re: Cal. 500-47-SM

Subject: Amendment as to change of construction.

Acme & Dorf Metal Door Corp., requested by letter dated February 18, 1955, that the resolution adopted July 20, 1948 under Cal. No. 500-47-SM be amended so as to permit a change in the manner of attaching moulding. The application was reopened by a vote of the Board March 8, 1955.

Purpose

The material is a one and one-half hour flush door.

Description

The door approved by the Board July 20, 1948 under Cal. No. 500-47-SM had 20 gauge hollows metal moulding secured around the panel with 2½" oval head bobbed nails. The requested revision consists of the same 20 gauge hollow metal moulding that will be clipped in place in lieu of nailing and in all other respects the construction of the door remains the same.

Inspection and Test

Details of construction of the requested revision were examined and compared with the previous manner of construction by Asst. Engr. J. A. Darts, Committee on Test.

Recommendation

The Committee on Test recommends that the resolution adopted July 20, 1948 under Cal. No. 500-47-SM be amended so as to permit the 20 gauge hollow metal moulding be clipped in place, in accordance with drawing marked "Received February 21, 1955", on condition that, in all other respects the requirements of the resolution adopted July 20, 1948 under Cal. No. 500-47-SM be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

307-48-SA—Vol. II

APPLICANT—Huebsch Manufacturing Co., Division of The American Laundry Machinery Co., owner L. Frank Wright, agent.

SUBJECT—Application reopened November 3, 1954 as Vol. II for test and report as to design—Huebsch "372"

Tumbler (gas heated clothes dryer); previously approved re Huebsch Open End Drying Tumbler (gas heated clothes dryer).

APPEARANCES—

For Applicant: Frank Wright.

ACTION OF BOARD—Resolution amended, in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 307-48-SA Vol. II

Subject: Amendment to resolution to include Huebsch "37" Tumbler.

Huebsch Manufacturing Company requested by filing an application dated October 11, 1954 that the resolution adopted June 14, 1949 under Cal. No. 307-48-SA Vol. II be amended to include the Huebsch "37" Tumbler. The application was reopened November 3, 1954 under Cal. No. 307-48-SA Vol. II.

Purpose

The appliance is used to dry clothes by the application of gas heat.

Description

This appliance, a gas heated commercial drying tumbler, consists of a perforated metal cylinder 37 inches in diameter by 18 inches, 24 inches or 30 inches deep inside dimensions.

The cylinder rotates within an enclosing metal shell and is equipped with a motor driven fan located in the rear and at bottom of outer shell. A gas heating unit is placed on top of the enclosing shell, so that the fan draws air through the heater to warm it and then through the perforated cylinder and dries the material therein.

The 37" x 18" cylinder dries about 24 lbs. of material, the 37" x 24" cylinder dries about 32 lbs. of material, and the 37" x 30" cylinder dries about 40 lbs. of material. Drying time varies from approximately 15 minutes to 25 minutes per load.

The damp clothes or fabrics are placed in the perforated cylinder, the door closed, the motor switched on and the gas turned on.

The warm air circulating through the clothes dries them and is then exhausted to the outer air.

A large lint trap is provided and installed as a part of the tumbler, located at the extreme bottom. This lint trap is so constructed as to catch and hold all and any lint coming from the drying operation. A large drawer also is provided at extreme bottom of tumbler to enable operator to remove lint caught by this trap.

The dryer is also equipped with a switch interlock, which causes the motor to shut off if the door is opened. When the motor cuts off either by switch or power failure, a Basord cuts off the gas supply to the burners. This prevents the burners from operating unless the fan is drawing off heat. A thermocouple attached to the Basord shuts off the gas supply if for any reason, the pilot light for the burners is not lighted.

Inspection and Test

The new model was examined by Asst. Engr. J. A. Darts Committee on Test and the equipment was found to operate as designed.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends that the resolution adopted June 14, 1949 under Cal. No. 307-48-SA Vol. I

MINUTES

be amended to include the Huebsch "37" Tumbler on condition that the requirements of the resolution adopted June 14, 1949 under Cal. No. 307-48-SA Vol. I be complied with.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 876-50-SM

Subject: Fire Exit Lock, Models A1, A2, A3, A4, A5, A6, A1E, A2E, A3E, A4E, A5E and A6E, approval of.

Exit Lock Company, Inc., Los Angeles, filed September 25, 1950 an application with the Board of Standards and Appeals for approval of the Fire Exit Lock, Models A1, A2, A3, A4, A5, A6, A1E, A2E, A3E, A4E, A5E, A6E, B1 and B2, under the provisions of Section 272 of the Labor Law and C26-285.0 Administrative Building Code.

Purpose

A break glass operated lock for emergency opening of an exit door.

Description

The lock is a door fastening device which is installed on the inner side of a door and which may be opened by pressing a lever that breaks a glass there by actuating the releasing device.

The device, as submitted, consists of the following:

1. Housing—a bronze casting $\frac{1}{8}$ " in thickness and measuring $4\frac{1}{4}$ " wide by $8\frac{3}{8}$ " high. An open grill at the top houses a bell guard. The glass panel $1\frac{3}{4}$ " x $3\frac{1}{2}$ " x $\frac{3}{32}$ " held in cast bronze frame secured to the housing from the inside. There is an opening $1\frac{1}{8}$ " x $1\frac{1}{8}$ " in the front wall of the housing behind the glass panel.

2. Base—bronze casting $\frac{1}{8}$ " thick, having integrally cast, wedge-shaped lugs to serve as yoke guides, latch bolt guide lugs and yoke holding block lug. A hole in the latter engages a screw or pin inside the housing and serves to hold the housing in place at the left side. The other side is screwed to the latch bolt guide lugs. The yoke guide wedges are provided brass plates screwed in place.

3. Yoke—bronze casting $\frac{1}{8}$ " thick, it is in the form of an open rectangular frame having an upturned flange at the right edge to which the springs are attached and which also engage the latch bolt plate. The raised portion receives the blow when the glass is broken. The left edge of the yoke is held in the cocked position by the block after the yoke is pulled over to the right and its left side raised so as to bring

its upper and lower edges up against the guides. This cocking of the yoke stretches the springs.

4. Latch Bolt—bronze bolt $1\frac{1}{8}$ " high, $\frac{7}{8}$ " wide and $\frac{7}{8}$ " thick and has a throw of $\frac{7}{8}$ ". The plate attached to the left end of its guide rod is engaged by the yoke for emergency release and also by the cylinder for key operation.

5. Bell—3 inch bell driven by a clock type driving spring.

6. Striker and Striker Arm—the striker on the original models (A1 through A5E) was a $1\frac{1}{2}$ " inch diameter plate attached to a 1-inch striker arm. The striker on the B1 and B2 has been increased to 5 inch diameter plate attached to a 1'-0" striker arm.

7. Operation—when a blow is applied to the striker, the glass is broken and the yoke is pushed back against the base plate. This motion releases it from a holding block and permits the springs to draw it over to the left. In so doing it engages a block attached to the latch bolt rod and withdraws the latch bolt thus unlocking the door. This motion also swings bell release lever causing bell to ring.

Inspection and Test

An exit lock model A was inspected and tested at the office of the Board by Comm. E. W. Kleinert and Asst. Engr. J. A. Darts, Committee on Test and it was found that considerable static pressure approximately 100 lbs. by hand was required in order to break the glass.

The device Model A has been approved by the Underwriters Laboratory under application No. 50C1551 and by the New York State Board of Standards and Appeals under application No. 1498, Approval No. 4021.

A request was made to the New York State Board of Standards and Appeals regarding the approval of this device with particular reference to Section 272 of the Labor Law.

The interpretation of Section 272 of the Labor Law by the New York State Board of Standards and Appeals is as follows:

"A fire door is locked, bolted or fastened unless it is readily openable from the inside without the use of a key or any special knowledge or effort.

"Draw bolts, hooks, bars or power attachments require special knowledge but panic bolts or door knobs do not.

"The subject device has been considered to be in category of a panic bolt requiring no special knowledge or effort for its operation.

"The following is also an Administrative interpretation of this section of this law:

"The door used as the main entrance to the factory by the public or by the employees is required to be openable from both sides and is considered as locked unless so openable. Entrance doors, other than the main entrance door may be openable from the inside only by the use of panic bolts or door knobs.

"This device would, therefore, not be acceptable at main entrances. However, the nature of the device is such that it is not likely that it would be proposed at main entrance doors."

The applicant has also submitted a letter dated February 23, 1954 which states:

"Further, the case of the lock has been recently changed from brass to aluminum (the working parts are still brass) specifically to insure that, in case of the remote possibility of locks failing to operate in an emergency the case will give way under pressure and allow the door to open. This additional security factor makes it certain that under any and all circumstances, instant egress will be available in time of emergency."

It was due to the fact that the static pressure required to operate the lock was approximately 100 lbs. that the applicant submitted the Model B1 and B2 with the larger striker plate and arm, as herein described, and also a redesign of the glass panel, the panel now being of thinner glass and also being scored directly under the striker.

On test it was found that, due to the longer lever arm of the striker arm, the static pressure required to operate the lock was reduced from 100 lbs. to 10 lbs., in a horizontal direction.

MINUTES

Recommendation

On the basis of the inspection and test, the data filed by the applicant and the interpretation of Section 272 of the Labor Law by the New York State Board of Standards and Appeals, the Committee on Test recommends the approval of the Fire Exit Lock Model B1 and B2, having a striker and striker arm as herein described, for use in New York City (1) under the provisions of C26-285.0 Administrative Building Code and (2) in specific cases, subject to a variation by the Board in such cases, (3) under Section 272, Par. 3 of the State Labor Law provided the device bears a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 876-50-SM."

Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

595-52-SM

APPLICANT—PerALex of New Jersey, owner.
SUBJECT—Application July 31, 1952—PerALex (perlite lightweight aggregate), approval of.

APPEARANCES—

For Applicant: E. Judson Hoops.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 595-52-SM

Subject: PerALex (Perlite) Plaster Aggregate, approval of.

William A. Oltmer for PerALex of New Jersey, Inc., filed July 13, 1952, an application with the Board of Standards and Appeals for approval of the material known as PerALex (perlite) Plaster Aggregate under the provisions of C26-312.0.h, C26-463.0, C26-464.0.2 and 3 and C26-466.2 Administrative Building Code.

Purpose

PerALex (Perlite) is to be used in lieu of sand in gypsum plaster.

Description

Perlite as defined under C26-113.0 Administrative Building Code "is an acid igneous glassy rock of the composition of obsidian, expanded by heating and divided into small spherical bodies by the tension developed by its contraction on cooling."

PerALex is the trade name of the PerALex of New Jersey Inc., perlite and is found in the southwestern part of the United States.

The crude ore is crushed and screened and shipped to the companies expanders located in Paterson, N. J. The ore is again graded and dropped into the expansion chamber. The ore is then heated to approximately 2000° F., at which temperature the grains acquire an incandescent glow and expand in size. The product is then bagged in 3 or 4 cu. ft. bags and weighs about 8 lbs. per cu. ft.

Inspection and Test

The processing plants of the applicant at Paterson, N. J., and Long Island City, New York, were inspected by Asst. Engr. J. A. Darts, Committee on Test. Representative samples were identified and marked. The identified samples were tested at U. S. Testing Laboratory, in accordance with the requirements of C26-466.2 Administrative Building Code and met the requirements. The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of PerALex (perlite) Plaster Aggregate for use in New York City, under the provisions of C26-463.0 and C26-464.0.2 and 3 Administrative Building Code as having met the requirements of C26-312.0.h and C26-466.2 Administrative Building Code, on condition that each bag of PerALex (perlite) Plaster Aggregate shall be marked or labeled as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 595-52-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

78-53-SM

APPLICANT—PerALex of New Jersey, owner.
SUBJECT—Application January 27, 1953—PerALex Insulated Roof System, approval of.

APPEARANCES—

For Applicant: E. Judson Hoops.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 78-53-SM

Subject: PerALex Insulated Roof System, approval of.

PerALex of New Jersey Inc., Paterson, New Jersey filed January 27, 1953 an application with the Board of Standards and Appeals for approval of the material known as PerALex Insulated Roof System under the provisions of C26-618.0, C26-619.0 and C26-626.0 Administrative Building Code.

Purpose

The material is a poured in place roof construction.

Description

The PerALex Insulated Roof System of roof construction is a poured in place perlite concrete construction consisting of Buffalo Steel No. 214 sub purlins welded to the main purlins or joists on either 2'-0 $\frac{5}{8}$ ", 2'-8 $\frac{5}{8}$ ", or 3'-0 $\frac{5}{8}$ " centers, depending on the permanent form used and with 4 x 8-12/14 mesh reinforcement continuous throughout the slab. The perlite concrete is then poured to a depth of 2 $\frac{1}{2}$ inches.

The perlite concrete is of a design mix of 2 bags of approved hi-early cement, 3 bags of PerALex (Cal. No. 595-52-SM) (4 cu. ft. each bag) 12 oz. of Peramix (air entraining agent) and 22 gals. of water.

MINUTES

Inspection and Test

Slabs with different type of permanent forms were load tested at the applicants plant in the presence of Asst. Engr. J. A. Darts, committee on Test and E. Hoops and others representing the applicant.

All tests were conducted in accordance with the requirements of C26-626.0 Administrative Building Code.

Test I

The 214 bulb tees were welded to the main supports on 2'-0 $\frac{5}{8}$ " centers and Upson A.W. board was placed on the tees, the mesh reinforcement was placed and the perlite concrete, of a mix as herein described was poured so that the total depth of the slab was 2 $\frac{1}{2}$ " over the form board. The test sample was three bays in length so that there was a continuous span and two simple spans.

Results were as follows:

Area under test—8.3 sq. ft. per bay
Load in pounds, end or simple span—1664 lbs.
Load in pounds, center of continuous span—2561 lbs.
Load in pounds per sq. ft., end bays—
 $1664 \div 8.3 = 200$ lbs. sq. ft.
Load in pounds per sq. ft., center bay—
 $2561 \div 8.3 = 312$ lbs. sq. ft.
Safe Carrying Capacity, end bays—
 $200 \div 4 = 50$ lbs. sq. ft.
Safe Carrying Capacity, center bay—
 $312 \div 6 = 52$ lbs. sq. ft.

Test II

Similar construction as Test I except that 1 inch insulrock was used as the form board and the 214 bulb tees were spaced on 2'-8 $\frac{5}{8}$ " centers; the mesh and perlite concrete were similar to that used in Test I.

The test procedure was the same as in Test I.

Results were as follows:

Area under test—10.8 sq. ft. each bay
Load in pounds, end or simple span—2160 lbs.
Load in pounds, center or continuous span—3269 lbs.
Load in pounds per sq. ft., end spans—
 $2160 \div 10.8 = 200$ lbs. sq. ft.
Load in pounds per sq. ft., center span—
 $3269 \div 10.8 = 302$ lbs. sq. ft.
Safe Carrying Capacity, end span—
 $200 \div 4 = 50$ lbs. sq. ft.
Safe Carrying Capacity, center span—
 $302 \div 6 = 50$ lbs. sq. ft.

Test III

Similar construction as Test I except that 26 gauge galv. sheets and the 214 bulb tees were spaced on 3'-0 $\frac{5}{8}$ " centers. The mesh and perlite concrete were similar to that used in Test I.

The test procedure was the same as Test I.

Results were as follows:

Area under test—12.2 sq. ft. each bay.
Load in pounds, end or simple span—4178 lbs.
Load in pounds, center or continuous span—6249 lbs.
Load in pounds, per sq. ft. end span—
 $4178 \div 12.2 = 345$ lbs. sq. ft.
Load in pounds, per sq. ft. center span—
 $6249 \div 12.2 = 512$ lbs. sq. ft.
Safe Carrying Capacity, end span—
 $345 \div 4 = 86$ lbs. sq. ft.
Safe Carrying Capacity, center span—
 $512 \div 6 = 85$ lbs. sq. ft.

An additional test was conducted on the 214 bulb tee on span of 8'-0" to see if the rail could safely carry the live load with the required live load. The test was discontinued at a safe carrying load of 60 lbs. per sq. ft.

Test IV

The form used in this test was 24 gauge corrugated steel known as Tufcor as manufactured by Graco Steel Products Company, the mesh and perlite concrete were the same as used in tests 1, 2 and 3.

The span of the sheets between supports was 7'-0" and the width of the slab was two sheets wide or a total width of 5'-0".

The test specimen consisted of two slabs, each 7'-0" x 5'-0" and each slab was loaded at its 3rd point, the test was discontinued when the beam, acting as the support for the slab twisted and caused a shifting of the load on the test slab. The test was discontinued at this point and the load, in accordance with the requirements of C26-626 Administrative Building Code was 50 lbs. per sq. ft.

Test V

The form used in this test was 26 gauge corrugated steel known as Tufcor as manufactured by Granco Steel Products Co., the balance of the test slab test 4.

This test was discontinued when the loading was 52 lbs. per sq. ft. as defined under C26-626.0 Administrative Building Code and at this point there was no sign of failure or collapse.

Test VI

The form used in this test was 26 gauge corrugated steel known as Corruform as manufactured by Granco Steel Products Co., the mesh and perlite concrete were the same as used in previous tests. The span on this material is 4'-6". The test was discontinued when the loading was 50 lbs. per sq. ft. as defined under C26-626.0 Administrative Building Code and at this point there was no sign of failure or collapse.

Recommendation

On the basis of the inspection and test and the data filed by the applicant the Committee on Test recommends the approval of the PerAlex Insulated Roof System erected with No. 214 bulb tees having a maximum span of 8'-0" and spaced on 2'-0 $\frac{5}{8}$ ", 2'-8 $\frac{5}{8}$ ", and 3'-0 $\frac{5}{8}$ " depending on the form used in the construction as herein described under Inspection and Test for use under the provisions of C26-618.0 and C26-619.0 Administrative Building Code. The Committee further recommends that when Upson A. W. board is used as the form board in this construction the limitation as to area permitted shall be in accordance with the requirements of the Fibre Board Rules of the Board especially Rule 3 as to area and when the form board is insulrock or the steel as outlined in Test 2 and 3 herein described, the system shall be considered as an incombustible roof deck for use under the provisions of C26-618.0 and C26-619.0 Administrative Building Code.

The Committee further recommends that the allowable loads, herein described, shall be deemed to be the total live load and dead load of roofing material and in all cases of roof construction the top surface shall be covered with an approved roofing material.

The Committee further recommends that the pouring of all roof shall be under the competent supervision of a competent superintendent employed by the applicant and that all plans filed with the Department of Housing and Buildings showing the proposed use of this system shall be marked, stamped or labeled, "Approved by the Board of Standards and Appeals for use in New York City under Cal. 78-53-SM."

The Committee further recommends that when the form used is the material known as Tufcor in gauges of 22 and/or 24 gauge, the span of these sheets shall not exceed 7'-0" between supports and when the form used is the material known as Corruform in 26 gauge, the span of the sheets shall not exceed 5'-0" between supports and that all sheets shall be welded to the supports and all sheets, where they overlap the adjacent sheet shall be welded through the double thickness at the interior lap.

(Sgd.) HARRIS H. MURDOCK,

REPORT OF COMMITTEE ON TEST

Re: Cal. 81-53-SM

Subject: Coralux Roof and Ceiling Construction, approval of. Wm. A. Burr for F. E. Schundler and Company, Inc., New York filed January 20, 1953 an application with the Board of Standards and Appeals for approval of the Coralux Roof and Ceiling Construction under the provisions of C26.588.0 through C26.590.0; C26.596 through C26.603 and C2.615.0; C26.618.0 and C26.619.0 Administrative Building Code.

Purpose

The material is a three hour ceiling and roof construction.

Description

The construction consists of a perlite concrete roof supported on steel joists and steel beam with a ceiling of metal lath and perlite plaster.

The method of construction of this roof and ceiling is as follows:

Open web steel joists, 8 inches deep by 2½ inches in overall width, are supported on steel beams. The joists are spaced 2'-0" on centers and are braced with cross bridging angles, spaced 6'-0" on centers. Paper backed wire fabric is then placed across the top of the joists, with adjacent courses lapped 0'-4". This fabric is secured to the joists by means of wire clips spaced at a maximum of 1'-2" centers along the top of the joists. This fabric serves both as a form and reinforcement for the perlite concrete.

"U" shapes placed 1'-0" on centers and double tied to ¾" cu. ft. of approved perlite. The water cement ratio is 11½ gallons per sack of cement. Due to sag of the paper backed wire fabric the overall thickness between joists is 3 inches and is 2½ inches over the joists.

The ceiling side of the assembly consisted of ¾ inches high ribbed metal lath tied on the underside and perpendicular to the joists with #18 gauge wire, spaced 0'-5" on centers and a perlite gypsum plaster.

The beam was protected by means of a metal lath and plaster cage. The cage was made of ¾" channels bent into "U" shapes placed 1'-0" on centers and double tied to ¾" runner channels. Runner channels are placed 0'-3" above the bottom plane of the "U" channels and on top of the bottom chord of the joists. The ¾" diamond mesh expanded metal lath is placed on the furring channels to encase the bottom and sides of the beam with the back face of the lath spaced 0'-1" from the flange on the bottom and sides.

The plaster on both the ceiling and the beam consisted on a scratch, brown and finish coat.

The scratch coat was 2 cu. ft. of perlite to 100 lbs. of gypsum and was applied to a thickness of ¼ inch on ceiling and ⅜ inch on the beam.

The brown coat was 3 cu. ft. of perlite to 100 lbs. of gypsum and was applied to a thickness of ⅞ inch on the ceiling and ⅞ inch on the beam.

The finish coat was ⅞ inch on both ceiling and beam.

The total over-all thickness of plaster on the ceiling was ¾ inch and 1 inch on the beam.

Inspection and Test

The construction was tested in accordance with the requirements of C26.588.0 through C26.590.0 and C26.596.0 through C26.599.0 Administrative Building Code at the Underwriters Laboratory, Chicago, Ill., in the presence of Asst. Engr. J. A. Darts, Committee on Test and representatives of the applicant.

The construction was tested under a live load of 40 lbs. per sq. ft. and dead load of 55 lbs. per sq. ft. or total of 95 lbs. per sq. ft.

Results of Test:

The maximum deflection of the roof was 5.81 inches.

The roof met the requirement of a 3-hour Fire Resistive Construction as the end point was not reached at 3 hours and 4 minutes.

The beam failed at 2 hours 31 minutes due to excessive temperature rise.

The complete report Underwriters Retardant 3454-2 is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Coralux Ceiling and Roof Construction when constructed as herein described for use as a three-hour Fire Resistive Roof and Ceiling Construction on condition that the construction does not contain steel beam, girders or other steel primary members and the construction bears directly on masonry and further that the load allowed on this construction shall not exceed a total load, live and dead, of 55 lbs. per sq. ft. for use under C26.239.0 Administrative Building Code.

The committee further recommends that where steel beams, girder or other steel primary members are necessary in the roof construction, that the Fire Resistive Rating of this type of construction shall be limited to a two hour fire resistive roof construction and further that the total load, live and dead shall not exceed on this construction, 95 lbs. per sq. ft. for use under C26.240.0 Administrative Building Code.

The Committee further recommends that all plans submitted to the department of Housing and Buildings showing the proposed use of the construction shall be marked: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 81-53-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

REPORT OF COMMITTEE ON TEST

Re: Cal. 114-53-SA

Subject: Amendment to resolution as to additional trade name.

Morrison Steel Products Inc., Buffalo, New York requested by letter dated February 16, 1955 that the resolution adopted September 22, 1953 under Cal. No. 114-53-SA be amended so as to permit the Morrison Conversion Oil Burner Models PB-1-J and PB-2-J to be marketed under the additional trade name of Westinghouse Oil Burner. The application was reopened by a vote of the Board March 29, 1955.

Recommendation

The Committee on Test recommends that the resolution adopted September 22, 1953 under Cal. No. 114-53-SA be amended so as to permit the Morrison Conversion Oil Burner Models PB-1-J and PB-2-J to be marketed under the additional trade name of Westinghouse Oil Burner Models PB-1-J and PB-2-J on condition that the requirements of the resolution adopted September 22, 1953 under Cal. No. 114-53-SA be complied with.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of September 22, 1953 in accordance with the above report.

767-54-SM

APPLICANT—Concrete Pipe and Products Co., Inc., owner (Limestone Products Corp., Agent).

SUBJECT—Application September 27, 1954—Spectra-Glaze Tile Face Concrete Masonry Units, approval of.

APPEARANCES—

For Applicant: Frank G. Louthan, Jr.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 767-54-SM

Subject: Spectra-Glaze Tile Face Concrete Masonry Units, approval of.

Concrete Pipe and Products Company, Inc., Richmond, Va., filed September 27, 1954 an application with the Board of Standards and Appeals for approval of the material known as Spectra-Glaze Tile Face Concrete Masonry Units under the provisions of the Masonry Rules of the Board.

Purpose

The material is a faced masonry unit to be used in masonry construction.

Description

The units are manufactured in either of two ways: Type A or Type B.

Type A—The block, to which the face is applied is either a cinder block or a Solite block. The Solite block is manu-

factured of a design mix of 1 barrel of cement, 8 cu. ft. of sand and 25 cu. ft. of Solite expanded slate. The block is formed on a Besser machine and after forming, the blocks are high pressure cured at a pressure of 150 psi at a temperature of 345° F. for an 8-hour cycle, after curing the blocks are then stock piled.

The cinder block is made in the same manner except that the design mix is 1 part of cement to 7 parts of cinders.

The facing on Type A is applied as a sprayed facing and is approximately .005 inches in thickness.

Type B—The block used in the Type B are the same block as used in Type A but the facing is applied in a different manner.

The facing is basically a composition of polyester resin, inert color pigments and silica sand.

The materials for the facing are mixed, in predetermined quantities, in a vat, thence through a hose connection into stainless steel pans. This mix fills the pan to a depth of 1/8 inch, during the filling period the pans are vibrated in order to eliminate any air bubbles that may form during the pouring. The pans, with the facing mix, are then placed on a conveyor and blocks, either cinder or Solite, are placed in the pan so that one face, or more of the blocks is to be used as a return or bulb nose is placed in the facing mix. The block, in the pan then goes through a bake oven where the facing material is bonded by heat to the block.

Inspection and Test

The plant of the applicant at Richmond, Va., was inspected by Asst. Engr. J. A. Darts, Committee on Test, and W. Hargrave, D. Pearsall and F. Louthan representing the applicant. Process of manufacture was investigated and sample units were identified and marked. The tests were conducted at Froehling and Robertson Inc., in accordance with the requirements of the Masonry Rules of the Board.

Results were as follows:

Solite Block

- 2" x 8" x 16"
Average Compressive Strength—2193 psi
- 4" x 8" x 16"
Average Compressive Strength—2305 psi
- 6" x 8" x 16"
Average Compressive Strength—1511 psi
- 8" x 8" x 16" (Hollow)
Average Compressive Strength—1700 psi
Absorption (lbs. per cu. ft.)—12.4
- 8" x 12" x 16"
Average Compressive Strength—1062 psi
Absorption (lbs. per cu. ft.)—12.5

The units were also tested with the facing to test for compliance with the requirements of C26-88.0 Administrative Building Code. There was no melting under 900° F. or any ignition or combustion under 1200° F.

The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Spectra-Glaze Tile Face Concrete Masonry Units of sizes as herein described—Solite Units 2" x 8" x 16", 4" x 8" x 16", 6" x 8" x 16", 8" x 8" x 16", 8" x 12" x 16" and 8" x 8" x 16" header units, for use under the Masonry Rules of the Board on condition that the facing shall not be considered as a substitute for plaster, where a plaster is required on the face of the masonry unit in order to give the required fire resistive rating as required under the Masonry Rules of the Board and under the requirements of C26-631.0 through C26-638.0 Administrative Building Code and further that all bills of material, bills of lading, invoices or shipping tickets shall be marked or stamped: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 767-54-SM," and further that all units shall be marked

MINUTES

with the manufacturers mark as required by the Masonry Rules of the Board.

(Sgd.) HARRIS H. MURDOCK,

981-54-SM

APPLICANT—The DuBois Co., Inc., owner.
SUBJECT—Application December 13, 1954—Rins-O-Lator (for dishwashing machines), approval of.

APPEARANCES—

For Applicant: Paul P. Goldner.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 981-54-SM

Subject: Rinsolator—(for dishwashing machines), approval of.

The DuBois Company, Inc. filed Dec. 13, 1954 an application with the Board of Standards and Appeals for approval of the appliance known as the Rinsolator for introducing a wetting agent into the final rinse of machine dishwashers under the provision of C26-1277.6 Administrative Building Code and the Submerged Inlet Rules of the Board of Standards and Appeals.

Purpose

The purpose of the appliance is to inject a surface active agent into the final rinse of dishwashing machines.

Description

In the final rinse of dishwashing machines a product of the DuBois Company, Inc. of Cincinnati, Ohio, known as Dri-It is injected. An ejector is installed on the machine. This injector operates from the rinse line water pressure. Some of the rinse water is diverted into the injector through a double Pitot tube arrangement. This actuates a pulsating device which feeds a metered amount of the chemical into the line. An electrical connection is provided which operates two solenoid valves. These and the timing mechanism are essential for the machine's operation. As part of the unit, a water waste line is provided and some of the waste water discharges to an open drain. A vacuum breaker is installed in the rinse water line on the discharge side of the water control valve and on the water supply side of the Dri-It injection point and at least six inches above the point of injection or any level where Dri-It is stored or passes through a line. This unit has a rinse water discharge line from the injection mechanism. This must discharge to an open drain to prevent back flow of sewage or waste water into the rinse water or Dri-It.

Inspection and Test

The details of construction and the injector were inspected by Chief Engineer L. V. Huber, Committee on Test, and E. A. Bauman, Dept. of Water Supply, Gas and Electricity. The construction of the injector and the air gap were found to be in compliance with submitted details.

Recommendation

On the basis of the inspection and test and the data filed by the applicant the Committee on Test recommends the approval of the appliance known as the Rinsolator for dishwashing machines for use in New York City when constructed with an air-gap as herein described and installed in accordance with the requirements of the Submerged Inlet Rules of the Board and further each device shall bear a label permanently affixed reading:

"Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 981-54-SM."

The committee further recommends that the chemical used in the injector shall be a chemical approved by the Department of Health for the service intended.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

45-55-SA

APPLICANT—Avril Incorporated, owner.
SUBJECT—Application January 19, 1955—Avril Inc., Rinse Water Treatment Pump, Model S, approval of.

APPEARANCES—

For Applicant: E. E. Mendenhall.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 45-55-SA

Subject: Avril Inc., Rinse Water Treatment Pump, Model S, approval of.

Avril Inc., owner-manufacturer of Reading, Pennsylvania, filed January 19, 1955 an application with the Board of Standards and Appeals for approval of Avril Inc., Rinse Water Pump, Model S under the provisions of C26-1277.6 and the Submerged Inlet Rules of the Board of Standards and Appeals.

Purpose

The purpose of the appliance is to inject a surface action agent to final rinse line of commercial washing machine.

Description

The Model S Rinse Water Treatment Pump is designed to inject small amounts of wetting agents into the final rinse water used in dishwashing machines. The wetting agent thus injected caused water to drain more rapidly and thoroughly from washed dishes. Because this results in less residues being left on the dishes they will be free from the usual "hard water spots" commonly found.

The mechanism of the pump itself is as follows: A main diaphragm is pulsated at regular intervals by a motor encased in a large aluminum housing. The distance of pulsation being determined by the position of a pointer. The main diaphragm on the forward stroke moves into a cavity in the head. Check valves above and below the head are positioned so that the liquid entrapped in the head cavity can move upward only. On the back stroke of the diaphragm a partial vacuum is created in the pump head. This is immediately filled by liquid flowing upward from the reservoir located below.

MINUTES

Two types of check valves have been used. The poppet type has been found to be best suited when plastic heads are used. When stainless steel heads are used the standard Temperite Check valve Model 790-1 has found to give long uninterrupted service. This valve consists of a slotted rubber cap over a slotted stainless steel hemisphere.

Connection is made with existing equipment so that the injector pump will operate only while water is flowing through the line into which wetting agent is being injected. This is accomplished in either of two ways:

(A) When the final rinse is controlled by a solenoid valve, the motor of the pump is connected in parallel with this solenoid.

(B) When the final rinse is mechanically controlled a pressure sensitive switch is mounted in the final rinse line between the control valve and the rinse nozzles. The back water pressure developed causes the pressure sensitive switch to close contacts which start the pump motor.

The wetting agent used by this pump is injected into the rinse line at a point between the final rinse line syphon breaker and the rinse nozzles. This prevents any drop in pressure in the hot water supply line from drawing treated water back into the system.

There is an auto syphon attached to the dishwashing machine which prevents the wetting agent from being syphoned into the water line.

Inspection and Test

The details of construction and the injection were inspected by Chief Engr. L. V. Huber, Committee on Test and E. A. Bauman, Dept. of Water Supply, Gas and Electricity and E. Mendenhall representing the applicant.

Recommendation

On the basis of the inspection and the data filed by the applicant the Committee on Test recommends the approval of the appliance known as Avril Inc. Rinse Water Pump, Model S for use in New York City when constructed in accordance with the requirements of the Submerged Inlet Rules of the Board and further that each appliance shall bear a label permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 45-55-SA." The Committee further recommends that the chemical used in the injector shall be a chemical approved by the Department of Health for the service intended.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

APPLICANT—Cornelius C. Fisk, for The Messer Co., Inc., owner.

SUBJECT—Application February 7, 1955—Merco Mechanical Draft Oil Burner, Model J, approval of.

APPEARANCES—

For Applicant: Cornelius C. Fisk.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

Re: Cal. 114-55-SA

REPORT OF COMMITTEE ON TEST

Subject: Merco Oil Burner, Model J, also to be marketed as the #4 Oil Burner, Model J and the Thermax Oil Burner, Model J, approval of.

The Messer Company of 631 Central Avenue, Newark, N. J. filed February 7th, 1955 an application with the Board of Standards and Appeals for approval of the Merco Oil Burner, Model J, also to be marketed as the #4 Oil Burner, Model J and the Thermax Oil Burner, Model J under provisions of C26-178.0.b. Administrative Building Code and C19-57.0, Administrative Code and the Oil Burner Rules of the Standards and Appeals.

Purpose

A mechanical draft oil burner to be used with commercial standards fuel oil not heavier than #5.

Description

This is a high pressure mechanical draft conversion gun type oil burner. It consists of a main blower frame, blast tube, base, electric motor, electric ignition transformer, pump, nozzle feed line, nozzle, cut-off valve, pressure regulating valve, strainer, ignition wiring, ignitors and electric heater assembly. The burner starts with automatic ignition instantaneous at 70% of normal line voltage with oil at 32° F. The burner has been approved by the Underwriters Laboratories, Ref. # M P 555, Appl. #54 C 6387. The burner is an assembly of approved parts suitable for use with each other for the service intended as approved and the burner is provided with suitable safeguards to prevent abnormal discharge of oil. The burner as assembled was tested for defects and proper functioning throughout its operating range and was found to function properly as designed, with no flarebacks or undue carbon deposits. Controls operated to shut down machine in 90 seconds.

Inspection and Test

A model of the oil burner was inspected and tested at 139-24 Queens Blvd., Jamaica, N. Y. and was found to operate as designed. Present at the inspection and test were Chief Engineer Leslie V. Huber of the Committee on Test and Neil C. Fisk, representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test recommends the Approval of the Merco Oil Burner, Model J, for the use in New York City with fuel oil not heavier than #5 when installed and operated as herein described provided that each burner have a label permanently affixed reading, "Approved by the Board of Standards and Appeals, for use in New York City, under Cal. No. 114-55-SA."

The Committee further recommends that the burner be marketed as The #4 Oil Burner, Model J, and the Thermax Oil Burner, Model J, on consideration that the provisions herein required be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 185-55-SM

Subject: Matico Cork Tile Flooring, approval of.

The Mastic Tile Corporation of America, of Newburgh, New York, owner, filed March 4, 1955 an application with the Board of Standards and Appeals for approval of Matico Cork Tile Flooring under the provisions of C26-178.0.b and C26-667.7.b Administrative Building Code.

Purpose

A cork composition for floors.

Description

Matico Cork Tile is made of cork from Spain or Portugal. The cork is ground up, mixed with a binder, pressed and baked, the resultant cork slab is sliced into sheets. These sheets are sanded, both sides to make smooth and then run through a waxer and ironer. Two coats of Pyrolin wax are given. The finished tiles are $\frac{1}{8}$ ", $\frac{3}{16}$ " and $\frac{5}{16}$ " thick and meet the requirements of U. S. Bureau of Standards and the Federal Specification T431.

Inspection and Test

The material was inspected and tested at the plant of the applicant at Newburgh, New York and met the requirements of C26-667.04. Present at the test were Chief Engr. L. V. Huber of the Committee on Test, Joseph F. Aiello and others representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Matico Cork Tile Flooring for use in New York City when manufactured and installed in accordance with this report and the provisions of C26-667.0.4 provided each bundle of tile delivered shall be tagged or marked: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 185-55-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

THE RESOLUTION—

WHEREAS, this application was amended by the Board as Vol. II, on March 8, 1955, on certain conditions; and

WHEREAS, the applicant requested on amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 13, 1954, as *amended* by resolutions adopted through March 8, 1955, under Vol. II by adding thereto:

"that in order to make use of the existing old foundation wall as proposed, the increase in size of the building may be permitted, provided it is approximately 200 feet, as acted on by the Borough Superintendent under Alt. App. 5545/53, Objection 1 and as shown on revised plans marked 'Received April 18, 1955', (1 sheet), *on condition* that in all other respects the resolutions cited above shall be complied with."

526-54-A

APPLICANT—Mary Ruth, owner.

SUBJECT—Application June 17, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—253-40 148th avenue, south side, 225-49 ft. east of 253rd street, Block 13652, Lot 11, Rosedale, Borough of Queens.

APPEARANCES—

For Applicant: John H. Ruth.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3

Negative: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated May 25, 1954, acting on Alt. App. 393/55, reads:

'1. The proposed factory and attached garage for storage of 2 trucks in a res. use dist. is contrary to Art. 2, Sec. 3 of Zone Res.

2. The commercial use of a frame bldg. is contrary to Sec. 4.1.3 B.C."

and

WHEREAS, the applicant states the premises consist of a lot 40 feet front in a residence use, E-1 area, Class ½ height district, on which there exists a two-story building, 24 ft. by 24 ft. in area at street level, 15 ft. 9 in. by 24 ft. in area

at typical floor level, of Class IV construction, erected in 1937, used and occupied as follows: 1st floor—contractor's equipment; 2nd floor—dwelling, 1 family; and

WHEREAS, the applicant contends that the owner manufactured cement blocks until September 1943 on the premises in question; that he never abandoned, that he merely suspended such manufacture between September 1943 and 1948, due to war time conditions and little construction being done; that he wishes to continue his right to manufacture cement blocks; that the blocks when manufactured were approved by the Building Department under Code Letters "Qrae"; that the premises have been in use since 1937; that the owner acquired title in 1937, at which time the premises were vacant; that in the spring of 1937 the building now in use was constructed, then in an undetermined zone; that the premises have been used continuously from 1937 to present for manufacture of cement blocks and as a dwelling; and

WHEREAS, the applicant contends that at the time of acquisition of the property and for many years prior thereto these premises were in an undetermined zone, up to January 21, 1947, when it was zoned for residence use; that during the war years the manufacture of cement blocks was suspended but the lower portion of the building was used for the storage of block making and general contractor's equipment; that the owner constructed his own road leading to premises and about 14 years ago the city put cinder surface on this road; that there are no sewers, no city water and no gas installed on the premises; that on January 23, 1953, a summons was issued charging violation of the Administrative Code; that it would work a hardship on the owner if the uses were not permitted to be continued and if the Borough Superintendent fails to issue a certificate of occupancy *nunc pro tunc*; and

WHEREAS, the applicant further contends that the objections issued by the Borough Superintendent under the Administrative Building Code are applicable to buildings erected after January 1, 1938; that there was no construction on these premises subsequent thereto and therefore the provisions of the Code are not applicable; and

WHEREAS, the applicant contends the owner should be able to rely on the use of the premises and the zoning resolution as it read when the particular use was undertaken; that the owner's right to continue such use should not be interfered with, notwithstanding the fact a certificate of occupancy has not been applied for, as held by the court in the Matter of Boardwalk & Seashore Corp. v. Murdock, 175 Misc. 208, 22 N. Y. Supp. 2d 611, p. 612, as sustained by the Court of Appeals in 286 N. Y. 494; and

WHEREAS, the applicant filed a letter from the Borough Superintendent showing approval for this location and for concrete blocks marked with the code letters "Qrae"; and

WHEREAS, the owner has filed letters showing delivery of blocks; and

WHEREAS, the owner was convicted and fined in Magistrate's Court on February 24, 1953 for violating the Administrative Code; and

WHEREAS, the amendment to the Charter effective May 8, 1916 gave the Board power to approve materials superseding prior amendments to the building code which gave such power to the superintendent; and

WHEREAS, the premises were inspected by a committee of the Board, and the applicant furnished additional information which purported to show that the blocks have been made on the premises for many years and have been approved by the Borough Superintendent and the committee recommends that the appeal be granted under certain conditions; and

WHEREAS, the Board finds that, while the applicant presumably relied on approval of the block by the Department, actually the amendment to the Charter, effective May 8, 1916, transferred power to approve materials and appliances to the Board, where it has since resided.

Resolved, that the decision of the Borough Superintendent acting on Alt. App. 393/55, Objections 1 and 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* to permit continuance of the proposed manufacturing use and the use of the garage for trucks used

MINUTES

in conjunction with the factory use and to permit the continuation of the existing frame building containing the garage and living quarters above *on condition* that the building shall not be increased in height or area and in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that the blocks proposed to be manufactured on the premises shall be submitted to the Board under the terms of the Charter for test and approval where such blocks are proposed to be sold in New York City; that the relocation of the building as proposed may be permitted provided that the plot and the building are not increased in height or area, as shown on plans filed with this appeal marked, "Received, June 17, 1954" (3 sheets).

565-54-A

APPLICANT—Louis Lieberman, for Leon Siev, owner.
SUBJECT—Application July 2, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1020 Ocean Parkway, west side, 140 ft. south of Avenue J, Block 5495, Lot 904, Borough of Brooklyn.

APPEARANCES—

For Applicant: Louis Lieberman.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated June 24, 1954, on Alt. App. 2668/53 reads:

"6. The change in use of the 2nd floor of this Class 3 building from residence to public use and the 2nd floor extension are contrary to Sect. 4.2.1 of the Bldg. Code.

7. The first story walls supporting the proposed second story extension are required by Sect. 8.4.2.4 of the Bldg. Code to be 12" in thickness.

8. The use of the frame extension for public use is contrary to Sect. 4.1.2. of the Bldg. Code."

and

WHEREAS, the applicant states the building is 2 stories, 23 ft. in height, 24 ft. by 105 ft. in area at street level, 24 ft. by 40 ft. in area above, of Class 3 construction, erected in 1925 on a lot 60 ft. front by 150 ft. in depth, in a residence use, D area, Class 1 height district, used and occupied since 1952: Cellar—kitchen, heating and storage; 1st floor—nursing home, 32 persons; 2nd floor—caretaker's apartment 2 persons, for which Certificate of Occupancy #32176 was issued April 18, 1952, upon completion of work under Alt. App. 105/50, permitting the following use and occupancy: Cellar—kitchen, boiler room, mortuary and storage; 1st floor—37 beds, convalescent home; 2nd floor—caretaker's apartment; and

WHEREAS, it is now proposed to increase the building in area at 2nd floor to 24 ft. front by 105 ft. in depth in Class 3 construction and to occupy the building upon completion of alteration as follows: Cellar—kitchen, heating and storage; 1st floor—nursing home, 30 persons; 2nd floor—nursing home, 30 persons. The building is provided with two 3 ft. 8 in. wide fireproof interior stairs, extending from roof bulkhead direct to street; and

WHEREAS, the applicant states the building now consists of a two-story nonfireproof building and a one-story Class 3 extension, 24 ft. by 105 ft. in area used as a nursing home; and

WHEREAS, the applicant states it is now proposed to erect a one-story extension over the present one-story extension and use the entire structure as a nursing home; and

WHEREAS, the applicant states that upon completion of the proposed alteration the extension will have all ceilings and partitions fire-retarded with rock lath and cement plaster, all ceilings filled with mineral wool and the entire cellar

sprinklered throughout and provided with two fireproof stairs leading direct to street; and

WHEREAS, the applicant contends as to Objection 6, that the building will be two stories, less than 30 feet in height and conform with use Classification 2 of Section 4.2.1 of the Building Code; and as to Objection 7, that approval of the 8 in. masonry walls is requested as these walls are existing and the cost of increasing their thickness would be prohibitive; and as to Objection 8, that the area of frame portion of building is 180 square feet; that it is proposed to replace the present wood posts with brick; and

WHEREAS, this appeal was laid over for the applicant to file a revised proposal and plans, including better exit conditions and fire alarm system and sprinkler system, throughout; such changes have been made and are now shown on revised plans marked, "Received, May 20, 1955".

Resolved, that the decision of the Borough Superintendent acting on Alt. App. 2668/53, Objections 6, 7 and 8, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the second story extension as proposed shall be of class three construction and to permit the continuation of the first story walls for the supporting of the proposed second story extension provided the same are, as far as carrying capacity is concerned, approved as safe by the Borough Superintendent; and to permit the continuation of the existing frame extension at the front of the building *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and as shown on plans filed with this appeal marked, "Received, April 29, 1955" (6 sheets) as *amended* by revised plans marked, "Received, May 20, 1955" (2 sheets); that the premises shall be maintained in accordance with the requirements of and to the satisfaction of the Commissioner of Hospitals; that the exit conditions shall be maintained as now shown; that there shall be throughout the premises a fire alarm system complying with the requirements therefor; and that the premises shall be sprinklered throughout from cellar to roof meeting the requirements of the Code therefor.

APPEARANCES—

For Applicant: Leon Seinfeld.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated January 17, 1955 on N.B. Applic. 1875/50 at 1494-1496 East 3rd Street, reads:

"1. Proposed alteration of changing occupancy of N.B. 1875/50 approved Sept. 25, 1951 to a Multiple Dwelling is contrary to Section 9, subdiv. 9.

2. Bldg. would have to be completed and a Certificate of Occupancy issued prior to October 15, 1952 to be altered under Article 6.

3. Provide a legal yard as per Sec. 27 subdiv. 2."

and

WHEREAS, the decision of the Borough Superintendent dated January 10, 1955, on Alt. Applic. 415/48 affecting southwest corner of Avenue N and East 3rd street, reads:

"24.

M. D. Law.

MINUTES

In answer to your letter of Dec. 6/54 as to Objection 23 it will be necessary to remove the bathtub and sink in cellar and plumbing fixture in rear dining room (wash basin or sink) on 1st floor."

and

WHEREAS, the applicant states that 1494-1496 East 3rd street is 2 stories in height, 40 ft. by 35 ft. in area, of class 3 construction, erected in June 1952 and located on a lot 43 ft. by 100 ft. in area, in a residence use, C area, class 1 height district and used and occupied since erection: basement—residence and garage, 3 persons; 1st floor—2 residences, 4 persons; that no change in use or occupancy is now proposed; and

WHEREAS, the applicant states that No. 224 Avenue N is 2 stories, 20 ft. in height, 26 ft. by 55 ft. in area, of frame construction, erected in 1925 or prior thereto, located on the same lot, 43 ft. by 100 ft. in area, in a residence use, C area, class 1 height district and used and occupied since 1925 as follows: cellar—laundry and recreation, no persons; 1st floor—residence, 6 persons; 2nd floor—residence, 3 persons; that no change in use or occupancy is now proposed; and

WHEREAS, the applicant states that this is an appeal from the decision of the Borough Superintendent dated January 17, 1955 denying the owner's amendment on N.B. Applic. 1875-50, to change the occupancy schedule from a one family brick dwelling to a three family brick dwelling, and an appeal from a decision of the Borough Superintendent dated January 10, 1955 requiring the owner to remove the bathtub and sink from the cellar and a wash basin from the 1st floor in an amendment filed under Alt. Applic. 415/48 seeking approval to convert a three family dwelling to a two family dwelling pursuant to a violation heretofore served on the owner claiming that the said building being a two family dwelling was illegally converted to a three family dwelling; and

WHEREAS, the applicant contends as to the decision issued by the Borough Superintendent on N.B. Applic. 1875/50 that the building having been erected pursuant to an agreement for use by a professional man as his office and residence was not so occupied as a result of the default of the proposed tenant; that this building was completed in June 1952 and rented to three families and pursuant to section 9, subdivision 9 of the multiple dwelling law, is believed to be legally occupied as such; that there is a need for 3 and 4 room apartments, such as this building has been subdivided into; that to require the present occupants to vacate their apartment without any place to move to is contrary to the expressed provisions of section, subdivision 9 of the multiple dwelling law as recommended by the Joint Legislative Committee on Housing and Multiple Dwellings when it recommended the enactment of section 9, subdivision 9, in 1953; and

WHEREAS, the applicant further contends that the building was erected during the latter part of 1951 and the early part of 1952 and was completed and occupied in June 1952; that evidence of such occupancy can be found in the records of the department of housing and buildings from the reports of the inspectors and from the issuance of "gas cards" for the installation of the gas meters and permits for the installation of electric meters and the charges billed by the department of water supply, gas and electricity on a per family occupancy; that the records of the gas and the electric company show that gas and electricity was supplied to at least two occupants in the building from June 1952; and

WHEREAS, the applicant further contends that section 9, subdivision 9 does not require proof of erection by the issuance of a certificate of occupancy and the Borough Superintendent is not authorized to read into the law matters which are not contained in the law, and that the decision of the Borough Superintendent that a certificate of occupancy must have been issued prior to October 15, 1952 is unwarranted; and

WHEREAS, the applicant contends that the building complied in every respect with the multiple dwelling law except as to rear yards; that although the building has ample space and court yards, all the rooms ventilate on the street or on a legal size court; that the premises do not have a minimum

10 ft. rear yard required for a corner lot; that the building only has a 6 ft. rear yard and it is impossible to provide any larger yard, and the applicant therefore requests that the Borough Superintendent's decision be modified and that he be directed to approve the application and to amend the occupancy schedule to three families; and

WHEREAS, the applicant states that a summons has been issued for illegal occupancy of this building; that such summons was served January 10, 1955; that the notice of violation is dated January 13, 1955 and the violation was not served until January 14, 1955, four days after the service of the summons; that the matter is now pending in court for trial; and

WHEREAS, the applicant states as to the appeal from the decision of the Borough Superintendent dated January 10, 1955 on Alt. Applic. 415/48, that a summons had been served on the owner for illegal occupancy of the frame building by three families; that this matter proceeded to trial; that during the trial the owner offered proof that the building was occupied by 3 families in 1925; that the trial justice refused to admit this in evidence; that the owner appealed to the Appellate Division and as a result the trial court was reversed and the matter set down for retrial; that the case has not yet been re-tried; that in the meantime the owner decided to reconvert the building to a two family dwelling in order to avoid retrial; and

WHEREAS, the applicant states that this frame building is now used by the owner and her son on the 1st floor and the 2nd floor is rented to a family of 3 persons; that the space occupied by the owner consists of 7 rooms and since it is too large for the owner, furnished rooms have been rented in this apartment; that there is a wash basin in the dining room which wash basin is required by the Borough Superintendent to be removed; and

WHEREAS, the applicant contends that this wash basin is a great convenience which greatly diminishes the work of the owner in maintaining her home in a respectable condition; that the removal of the wash basin would constitute a great hardship to the owner and she therefore requests that the decision of the Borough Superintendent requiring its removal, be vacated; and

WHEREAS, the applicant states that the frame building also has a sink and bathtub with a shower over the bathtub in the cellar; and

WHEREAS, the applicant contends that the owner finds these two fixtures a great convenience for people who live with her to be able to wash up in the cellar in order not to dirty up her home when the people come from the beach and from work; that the removal of these fixtures would result in a great amount of additional work in keeping her home clean; that in view of the fact that there is no provision in law limiting the amount of wash basins or bathtubs, applicant requests that the owner be permitted to retain these conveniences; and

WHEREAS, the applicant states that both actions now pending in court pertain to the same subject matters involved in this appeal and are dependent on this appeal; and

WHEREAS, this was laid over for inspection by a committee of the Board and for decision. The hearing was closed on May 3, 1955. Inspection of the premises has been made, as occupied by the old two family dwelling and by the new building, and consideration has been given to the proposal as to the modification of the decisions of the Borough Superintendent. The committee recommends that the appeal should not be granted; and

WHEREAS, the committee finds that the rear building is not Class 1 as represented; and

WHEREAS, the Board finds that the lots on which the buildings are placed are not described as in accordance with the shape and dimensions of the lots as determined by the Board under Cal. No. 60-51-A which determination was affirmed by the Court; and

WHEREAS, the Board finds that there is no basis for permitting the older frame building as a multiple dwelling; and

WHEREAS, the Board finds there is no basis for a variance of the law to permit the rear Class III building to permit occupancy as a multiple dwelling.

MINUTES

Resolved, that the decisions of the Borough Superintendent acting on N.B. App. 1875-50, Objections 1, 2 and 3 and Alt. App. 415/48, Objection 24, be and they hereby are *affirmed* and that the appeal be and it hereby is *denied*.

181-55-A

APPLICANT—R. H. Tatlow, for Abbott Merkt Co., for B. Altman and Co., owner.

SUBJECT—Application March 9, 1955—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—48-49 35th street, northeast corner of Hunters Point avenue and 48-50 36th street, Block 237, Lot 1, 3rd floor, Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Erik P. Johnson.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated March 6, 1955 on Alt. App. 2951 of 1954 reads:

"1. All required stairs must be enclosed and continued to street in conformity with 6.4.1.11 of B.C."

and

WHEREAS, the decision of the Borough Superintendent dated April 12, 1955 on Alt. App. 2951 of 1954 reads:

"2. Stair No. 'D' must lead to roof as required by §6.4.1.11. B.C."

and

WHEREAS, the applicant states the building is two stories, 26 ft. 8½ in. in height, 472 ft. by 200 ft. in area of class 1 construction erected 1948, located on a lot 522 ft. front by 200 ft. in depth, in a business use, and unrestricted use, B area, Class one and one-half height district, used and occupied since 1948 as a warehouse with 115 persons on the first floor and 40 persons on the second floor and proposed to be increased to three stories, 40 ft. 8½ ins. in height, in Class one construction and used and occupied as a warehouse with 115 persons on the first floor, 40 persons on the second floor and 15 persons on the new third floor; the building will be provided with five interior 44 in. wide fireproof stairs from roof bulkhead to street and a two source sprinkler system throughout and regularly monthly fire drills will be maintained and approved interior fire alarm system will be maintained; and

WHEREAS, the applicant states that plans originally filed with this alteration application provided for the extension of an existing enclosed legal stairway, the extension of one existing enclosed interior convenience stairway, one horizontal exit across the roof to an existing legal enclosed stairway ten feet distant, and one horizontal exit across the roof to another existing legal enclosed stairway about ninety feet distant; that the Borough Superintendent required that distance to exits be limited to one hundred feet travel, and the plans were amended to bring the stair doors close to the new floor area by means of corridors across the present roof; that plans were approved February 16, 1955, so that the main construction work could be commenced; and

WHEREAS, under date of March 24, 1955 an amendment was filed to omit the enclosed passage from the new third floor area to the existing stairs tower "E" and to permit the travel across the open roof consisting of nine and one-half inch re-enforced concrete slab and to omit the extension of existing stair "D" up to the level of the roof over the new third floor area due to structural difficulties at the building expansion joint; and

WHEREAS, the applicant contends that the area of the third floor will be about 35,500 sq. ft. and its occupancy at

most will be 15 males; that the entire building is fireproof and sprinklered; that the roof across which the egress will be provided is protected by a 4 ft. 6 in. high re-enforced concrete parapet and is only 16 feet above the existing grade at this point; that there are no storage or other encumbrances on the roof; that the number of persons occupying the third story will be 15, and the area will have two legal stairways plus one convenience stairway, all fireproof and fireproof enclosed in addition to the exit to the roof; that the proposed passageway would be unsightly and constitute an expensive temporary structure which would have to be demolished upon the erection of further extensions in the future and would actually hinder speedy access to the roof of the building for fire-fighting purposes; and

WHEREAS, the applicant requests that in addition to omitting the 90 ft. long enclosed passageway across the existing fireproof roof, permission is also requested to omit the extension of the existing adjacent legal stairway designated as Stair "D" on plans to the level of the new roof above the partial third floor; and

WHEREAS, the applicant contends that the entire stairway from the third floor level up would have to be demolished when the third floor is extended in the future according to the proposed plans as the stairway cannot be attached to the third floor structure now under construction due to the separation by a building expansion joint; that the roof over the new partial third floor will be served by one extended legal stairway designated as Stair "A" on plans and by ladders from the existing roof to the north and south; and

WHEREAS, the applicant states that the existing stairway marked "D" will be extended to the roof over the third floor if and when the third floor is expanded to the south in the future; and

WHEREAS, this appeal was laid over for the applicant to file revised plans, which have been filed.

Resolved, that the decision of the Borough Superintendent acting on Alt. App. 2951/54, Objections 1 and 2 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that, in construction of proposed new third story the stairs shall be as indicated on plans marked, "Received, May 23, 1955" (7 sheets); that a goose-neck ladder shall be provided from the new third story roof to the roof below and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

123-47-A—Vol. III

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board as
Vol. II, on March 23, 1954, on certain conditions; and

WHEREAS, working drawings, submitted as being in sub-
stantial compliance with the Board's requirements, were
approved on June 29, 1954; and

WHEREAS, the applicant requested an amendment of the
resolution and submitted revised working drawings, for
approval by the Board, as being in substantial compliance
with the requirements of the resolution.

Resolved, that the Board of Standards and Appeals does
hereby *amend* the resolution adopted on March 23, 1954, as
to approval of working drawings by adding thereto:

"that working drawings are hereby *approved* as being
in substantial compliance with the resolution adopted by
the Board on March 23, 1954 (4 sheets) and permitting
the relocation of the accessory building with reversal of
the floor plan, relocating curb cuts on Olinville Avenue
and Gunhill Road, as revised and now shown on such
revised working drawings." (N.B. 1184/52)

APPLICANT—Carl H. Salminen, for Kinney Motors, Inc.,
owner.

SUBJECT—Application for consideration—reopening as to
extension of time to complete—re Application (decision of
the borough superintendent), previously granted on con-
dition, under sections 7c, 7h and 7i of the zoning resolution,
permitting in a residence and business use, C and D area
district, the reconstruction and extension of existing build-
ing (presently used as an auto service station, auto laundry,
body shop, paint spraying shop, brake inspection and adjust-
ment, lubrication and grease pits, auto accessories and parts,
with an office on 2nd floor), using more than the area
permitted, and proposed to be used as a show room and
a service station for new and old cars, auto laundry, body
shop, tool room, parts department and accessories, garage
for more than five motor vehicles, gasoline pump for
owner's use, unloading area, locker rooms and office on 1st
floor; with offices, new car conditioning and accessory room
on 2nd floor; and to permit the parking and storage of
cars on roof and also to permit the parking of customers'
cars and trucks on open portion of plot (previously denied,
a gasoline service station and garage for more than five
motor vehicles) and later granted the rearrangement of
existing premises and additional premises as to parking, and
motor vehicle repairs, brake testing, greasing and oxy-
acetylene torch for welding, and painting.

PREMISES AFFECTED—115-76 Park Lane south, northeast corner of Mayfair road, Block 3319, Lot 1, Kew Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Bernard Segal, Rubin Shapiro and Harold Schneider.

For Opposition: George Gross and Edward Hoffman for Park Dept.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioners Kleinert and Keating and Deputy Chief Connolly 3
Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 29, 1955 after due notice by publication in the Bulletin; laid over to April 26, 1955, for inspection by a committee of the Board and for decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, G area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated October 21, 1954, acting on N.B. Applic. 3411/54, reads:

"1M. Proposed erection of a multiple dwelling in a 'G' area, 'Residence' use district is contrary to Article II, Sec. 3(1) and Article IV, Sec. 16-B(a), Zoning Resolution."

and

WHEREAS, at the request of the Board a more complete list of objections including the above objection 1M was obtained and filed, i.e., the decision of the borough superintendent, dated April 4, 1955 acting on N.B. Applic. No. 3411-54, reads:

"1M. Proposed erection of a multiple dwelling in a 'G' area 'Residence' use district is contrary to Article II Section 3 (1) and Article IV, Sec. 16-B (a) Zoning Resolution.

(b) In a G district no portion of any building shall be erected nearer than 20 feet to the street line of the street on which it fronts.

MINUTES

(c) In a G district no portion of any building shall be erected nearer than 10 feet to either side line of the lot except that a one story building or extension used exclusively for a garage may extend to within 5 feet of one side provided that such building shall be at least 70 feet from the street line of the street.

(e) In a G district no building shall occupy at the curb level more than 30 per cent of the area of the lot exclusive of accessory garages.

(f) Except as otherwise provided in this section, no building in a G district shall be erected which does not comply with the provisions in force in an F district."

and

WHEREAS, the applicant states that the premises consist of a plot, 176.13 ft. frontage by 158.22 ft. in depth, on which is located a one family dwelling; that it is proposed to erect a multiple dwelling 176.13 ft. front by 153.22 ft. in depth, irregular, six stories, 62 ft. 1 in. in height, of class 3 construction, to include doctor's office and 68-car garage; and

WHEREAS, the applicant further states that at the time of purchase, the property was in a D use area and the corporation purchased it solely for the purpose of constructing a multiple dwelling class A apartment house; that the contract for the purchase of the property was entered into on October 27, 1953, and a letter dated the same day was received by the City Planning Commission from a representative of property owners within the area affected, requesting a change of zoning from a D area to G area; that it had no knowledge of this letter or the application requesting change of zoning; that the first knowledge of any pending change of zone was on the 18th of December, 1953 when a notice appeared in the City Record; that in the interim the corporate owner took title to the site, ignorant of any possible impending change of zoning, and paid \$70,000; that the proposed amendment was subject to a public hearing by the City Planning commission on December 23, 1953 and the rezoning matter was further considered at a meeting of the City Planning commission on January 6, 1954 at which time the chairman of the City Planning commission transmitted to the Secretary of the Board of Estimate the resolution adopting the proposed zoning change from a D to a G area district and this was approved on January 28, 1954; that the rezoning included the subject site, thus changing it from a D to a G district which permits the construction of only single family dwellings; and

WHEREAS, the applicant contends that an invasion of its proprietary rights has been sustained by the rezoning of its land from a D to a G district, particularly when an examination is made of the area which was affected by the rezoning; that there were no conditions existing at the time of such rezoning which required or justified the limitations and restrictions placed upon the subject site; that the rezoning placed restrictions on the land which made it a liability and worthless for development; and

WHEREAS, the applicant further contends that within the rezoned area are a great many buildings between 40 and 50 years old and that such buildings are in direct violation with the requirements of a G district; that the D district had been established in 1916 and most of the structures contained within this district were erected to conform with the requirements of such district and they cannot now claim that they would be prejudiced by permitting a variance in view of the fact that they have heretofore owned or built the structure under the requirements of D district; that section 14 of the area district map had only two G districts in it and these were located in Jamaica estates and the Cord-Meyer section of Forest Hills; that the balance of section 14 is predominantly D or E districts; that the construction of an apartment house at the subject site could not possibly affect private dwelling owners or any of the two family or apartment house owners within the rezoned area; that the owners of 26% of the total affected area rezoned had filed objections with the City Planning commission; that the amendment to the area district map was illegally adopted by the City Planning

commission in that the change was initiated by letter of a representative of adjoining owners on October 27, 1953; that the Report of The Charter Revision Commission clearly states that adjoining property owners may petition the City Planning Commission for a requested change only in the month of April of any given year, whereas this request was made in the month of October which is in contradiction to the provision of law controlling; that the petition of such owners is therefore defective and the City Planning commission did not have the power or authority to use the defective petition of adjoining owners to initiate its own change of zone; and

WHEREAS, the applicant states that the present owner has held title to the property since December 7, 1953; that the assessed valuation of land is \$31,000 and of the building \$11,000 making a total of \$42,000; and

WHEREAS, the zoning of the area including this lot was changed from D area district to G area district, based on a report of the City Planning Commission dated January 6, 1954, CP-10431; in the report reference is made to one objector who desired to raze an existing private dwelling and erect a six-story apartment house; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution as to Objection 1M and that the application be and it hereby is *granted* under Section 21 to permit the erection of a Class A multiple dwelling within a "G" district, formerly a "D" district, substantially as proposed and as indicated on plans filed with this application marked, "Received, October 25, 1954" (five sheets) and "December 9, 1954" (3 sheets) *on condition* that the building shall comply with the requirements of the Zoning Resolution for a "D" district as formerly zoned and shall comply with the requirements of the Multiple Dwelling Law and all other requirements applicable to the construction and occupancy thereof; that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

* Correction—To include the objection of the Borough Superintendent dated October 21, 1954, on which the application was based and which was inadvertently omitted.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on May 3, 1955, as they appeared in Bulletin No. 19, Vol. 40, are hereby corrected to read as follows:

797-51-BZ

APPLICANT—Paul Friedman, for Urban Equities, Inc., owner.

SUBJECT—Application for consideration—reopening as to extension of time to complete—re Application (decision of the borough superintendent), previously granted on condition, under sections 7c, 7h and 21 of the zoning resolution, permitting on a plot partly in a business use and partly in a residence use D area district, the erection and maintenance of a one-story business building (stores) using more than the area permitted and permitting part of the unbuilt upon portion of the plot in the business use district to be used for accessory off-street unloading; and permitting the use of the balance of the unbuilt portion of the plot, partly in the business use district and partly in the residence use district, for parking of patron's and employee's motor vehicles (no fee to be charged) for a term of five years.

MINUTES

PREMISES AFFECTED—1302-1316 Avenue Z and 2601 2617 East 13th street, southeast corner and 1320 Sheepshead Bay road (Block 7458, Lot 1), Borough of Brooklyn.

APPEARANCES—

For Applicant: Arthur Levine.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative. Chairman Murdock, Commissioners Kleiner and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on May 27, 1952, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on April 14, 1953 and April 27, 1954; and

WHEREAS, the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 27, 1952, and thereafter *amended* by resolutions adopted through April 27, 1954 only so far as it has reference to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

“that in view of the statement by the applicant that *no permits have been obtained and work has not commenced*, that all permits required shall be obtained and all work completed within the requirements of Sections 22A of the Zoning Resolution from the date of this *amended* resolution.” (N.B. App. 1934/51)

* Correction—Reference in the resolution to plans having been approved by the Department of Housing and Buildings deleted and the words “*no permits have been obtained and work has not commenced*” inserted therefor.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on April 12, 1955, as they appeared in Bulletin No. 16, Vol. 40, are hereby corrected to read as follows:

10-54-BZ

APPLICANT—Lama, Proskauer and Prober, for St. Roch's R. C. Church, owner.

SUBJECT—Application for consideration—reopening as to amendment—re Application (decision of the borough superintendent), previously granted on condition, under sections 7f and 7i of the zoning resolution, permitting in a business use district, for a term of twenty years, the erection and maintenance of a class 1 structure to be used as a garage for more than five motor vehicles, lubrication, wheel alignment, brake testing, car washing, accessory sales, loading and unloading berth and office; and permitting the erection and maintenance of a gasoline service station, lubricatorium, motor vehicle repair shop and permitting the parking and storage of motor vehicles on unbuilt upon portion of the plot.

PREMISES AFFECTED—801-807 4th avenue and 168-196 23th street, southeast corner, Block 665, Lots 6 and 19, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleiner and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on June 29, 1954, on certain conditions; and

WHEREAS, the applicant requested on amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 29, 1954, by adding thereto:

“that as passed on by the Borough Superintendent on March 17, 1955, the lot numbers may be as follows:

Lot No. 6 for the proposed gasoline service station;

Lot No. 12 for the proposed garage;

that the assignment of two lot numbers for the proposed construction of gasoline service station and garage shall not in any way change the requirements of the resolution adopted by the Board June 29, 1954, except that separate permits may be issued thereunder for such lots, *as shown* on revised plans marked “Received February 17, 1955” (1) sheet” (N.B. 1334/53).

* Correction—Date of decision of the Borough Superintendent changed from March 17, 1954 to March 17, 1955 and Lot 19 changed to Lot 12 in resolution.

PUBLIC HEARING

PROPOSED RULES COVERING DRY CLEANING ESTABLISHMENTS PURSUANT TO THE ZONING RESOLUTION OF THE CITY OF NEW YORK (CAL. 958-47-SR VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday, June 24, 1955*, at 10 A.M., in Room 1013, Municipal Building, Manhattan, on the Proposed Rules Covering Dry Cleaning Establishments, Pursuant to the Zoning Resolution of The City of New York.

These Rules are proposed to supersede those previously proposed under Calendar No. 958-47-SR, Vol. II on which a hearing was held March 12, 1954 and further hearing on March 25, 1955.

Authority

Section 666, Subd. 2 of the Charter of the City of New York and Article V, Section 21 and Article II, Section 4(a), Subd. 53 of the Zoning Resolution of the City of New York.

Application of Rules.

These rules shall be deemed to apply only to those excepted dry cleaning establishments existing or hereafter established, pursuant to Article II, Sections 4(a), Subd. 53, 4-A, 4-B and 4-C of the Zoning Resolution.

These rules shall not be deemed to modify or repeal Chapter 19 of the Administrative Code of the City of New York.

PUBLIC HEARING

Zoning Resolution.

ARTICLE I—DEFINITIONS

§1. Definitions. * * *

(cc) For the purpose of this resolution, "dry cleaning" includes cleaning textiles, fabrics, garments or other articles by the use of solvents other than water, extraction of the solvents therefrom, and drying the same. A "dry cleaning unit" is the machinery or equipment in which textiles, fabrics, garments or other articles are carried through a complete cleaning cycle. A "dry cleaning unit" may consist of one or more detached component machines.

ARTICLE II—USE DISTRICTS

§4. Business Districts. (a) In a business district no building or premises shall be used, and no building shall be erected which is arranged, intended or designed to be used, for any of the following specified trades, industries or uses:

(11) Dyeing establishments.

(53) Dry cleaning establishments, except for establishments which conform to the restrictions set forth below:

(a) Not more than two dry cleaning units shall be installed, and such units shall have an aggregate dry load capacity of not more than 60 pounds, as rated by the Board.

(b) The gross floor area of the dry cleaning establishment, including space used for dry cleaning, pressing and incidental operations, and space used for storage, service of customers and convenience of employees, shall not exceed 2,000 square feet. However, additional space may be used on a lower floor which is either a basement or a cellar, provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles.

(c) No solvent having a flash point less than 138.2 degrees Fahrenheit shall be used, except for incidental removal of spots.

To protect the public health, safety and welfare in accordance with the general purpose and intent of this resolution, to safeguard the character of the predominant types of uses located in the districts affected, and to protect the occupants of nearby residences and other premises from traffic congestion, fire, explosion, vibration, noise, heat, smoke, odors, toxic vapors and other forms of air pollution, the Board, after public notice and hearing, may adopt, and from time to time amend, rules and regulations for the operation and maintenance of dry cleaning establishments permitted under subsections (a), (b) and (c) above. Such rules and regulations may cover inter alia location of entrances to and exits from such establishments, installation of equipment and hours of operation of such establishments. Such rules and regulations may also prescribe the conditions under which such establishments may exist in buildings in which residences are located.

Any dry cleaning establishment which was in existence prior to January 1, 1953 in any use district to which the provisions of this section apply, may be continued, but no such establishment shall be enlarged or extended, nor shall the capacity of its dry cleaning units be enlarged, except in conformity with all the provisions of this section. Such existing establishments shall be subject to the aforesaid rules and regulations of the Board.

Section 4-A. Retail Districts. In a retail district the same regulations and restrictions shall apply as are provided for business districts except that no manufacturing or treatment of products shall be carried on other than such as are incidental to the conduct of a retail business conducted on the premises, or such other manufacturing as is now permitted in a business district, provided that in such other manufacturing not more than five per cent (5%) of the total floor space of the building is so used. However, any use or uses specifically authorized under the provisions of §3 (10) shall be permitted in a retail district. In addition, dry cleaning establishments conforming to the provisions of §4(a) (53) shall be permitted in a retail district,

provided such establishments are for retail purposes where services are performed directly for consumers or for transient hotels, or as an accessory use in transient hotels and department stores.

Section 4-B. Restricted Retail Districts. In a restricted retail district, the same regulations and restrictions shall apply as are provided for retail districts except, that in a restricted retail district no building or premises shall be used and no building shall be erected which is arranged, intended or designed to be used for any of the following purposes:

(j) Dry cleaning establishments, other than an establishment conforming to the provisions of §4-A, which is located in a passenger terminal, or as an accessory use in a transient hotel or a department store.

Section 4-C. Local Retail Districts. In a local retail district, the same regulations and restrictions shall apply below the level of that first story ceiling as are provided for restricted retail districts, except that no manufacturing of any kind shall be permitted; and no building shall be erected or structurally altered which is arranged, intended or designed to be used above the level of the first story ceiling for any use not permitted in a residence district. However, the provisions of this section shall not apply to projects authorized pursuant to §3 (10) of this resolution. In addition, the provisions of §4-B(j) shall not apply, and dry cleaning establishments conforming to the provisions of §4-A shall be permitted in local retail districts.

Rule 1. Definitions.

For the purpose of these Rules, the following definitions shall apply.

1.1. The term "dry cleaning establishment" shall mean any room, place or space in which dry cleaning is performed, as defined in the Zoning Resolution.

1.1.1. Dry Cleaning establishments to which these Rules shall apply shall be divided into two classes: Class A and Class B.

1.1.2. Class A dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall be non-inflammable and non-combustible when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.

1.1.3. Class B dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall have a flashpoint of not lower than 138.2 F. when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.

1.1.4. For other purposes a dry cleaning establishment shall be as defined in Chapter 19 of the Administrative Code.

1.2. For the purposes of Sections 4-A and 4-C of the Zoning Resolution the terms "retail", "retail purposes" and "retail business" shall refer only to those dry cleaning establishments which perform services on articles conveyed directly by a retail customer to such dry cleaning establishment or collected directly from and delivered to the retail customer by any vehicle or any other means of effecting the same and such dry cleaning establishment directly processes such articles for such customer.

1.3. The term "existing" shall mean those dry cleaning establishments established prior to January 1, 1953.

1.4. The term "hereafter established" shall mean those dry cleaning establishments established after January 1, 1953.

1.5. The term "inflammable liquid solvents" shall mean such as will emit an inflammable vapor at a tempera-

PUBLIC HEARING

ture below 100 degrees Fahrenheit when tested in a tagliabue open cup tester.

- 1.6. The term "spotting" or "sponging" shall mean the local application of an "inflammable liquid solvent" to remove spots of dirt, grease, paint or stains from wear-apparel, textiles, fabrics or articles of any other sort.
- 1.7. All other terms used shall be as defined in the Zoning Resolution, Administrative Code, Multiple Dwelling Law, or Labor Law, when not inconsistent with the specific terms defined herein.

Rule 2. Approvals.

- 2.1. It shall be unlawful to use any premises for any hereafter established dry cleaning establishments without filing plans of that portion of the premises to be so used with the Department of Housing and Buildings and obtain its approval. Any prior approval shall be a compliance with this rule.
- 2.2. The requirements of Rule 2.1. shall not apply to existing dry cleaning establishments.
- 2.3. No dry cleaning unit shall be installed after the effective date of these Rules unless such unit is approved by the Board of Standards and Appeals.
- 2.4. The use of any existing commercial premises, as defined in Article 4, Administrative Code, for any dry cleaning establishment shall not be deemed to be a Change of Occupancy within the meaning of Section C26-185.0 of the Administrative Code.
- 2.5. The dry load capacity of all dry cleaning units shall be rated by the Board of Standards and Appeals on the basis of 2.8 pounds per cubic foot of the volume of the washing compartment for each washing cycle.
- 2.6. No dry cleaning solvent shall be used unless such solvent has been tested and rated by the Fire Commissioner.
- 2.7. It shall be unlawful in any dry cleaning unit approved by the Board to use any solvent having a flashpoint other than that for which the dry cleaning unit has been approved by the Board.
- 2.8. No non-conforming existing dry cleaning establishment shall be enlarged or extended unless such extension or enlargement be made in a conforming manner.

Rule 3. Restrictions on Locations and Areas.

- 3.1. No hereafter established dry cleaning establishment shall have a gross floor area exceeding the aggregate of 2,000 square feet to be used for dry cleaning, pressing and incidental operations as well as space used for storage, service of customers and the convenience of employees. The square foot area limitation shall apply to the aggregate of all space so used on all floors and mezzanines of the premises involved above the cellar or basement thereof. Additional space may be used on a lower floor which is either a basement or cellar provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles, but such area may include, in conjunction with the dry cleaning establishment, unless otherwise prohibited by law, ordinary storage, boilers, washing equipment, compressors, pumps and filtration equipment.
 - 3.1.1. In calculating the gross floor area pursuant to Rule 3.1, the area restriction shall not include the area used by lawful non-dry cleaning operations of a multiple use type of service establishment where, in addition to dry cleaning, there

may be a launderette, shirt laundering, shoe repairing, and fur storage.

- 3.2. No Class B dry cleaning establishment hereafter established shall be permitted within any building, except that this Rule 3 shall not apply to those establishments created prior to the effective date of these Rules:

- 3.2.1. which is of wood frame construction;
- 3.2.2. which is classified as a public building pursuant to Section C-26-235.0 of the Administrative Building Code;
- 3.2.3. any part of which establishment is within 20 feet of any public building, as defined in Section C26-235.0 of the Administrative Code.

Rule 4. Egress.

- 4.1. The means of egress in all dry cleaning establishments shall be in conformity with the applicable provisions of the building laws and regulations governing such establishments. In addition thereto, all establishments shall conform to the following:
 - 4.1.1. A three foot (3 feet 0 inches) wide aisle providing access from the main work area to the required means of egress shall be provided. Such required aisle shall not be obstructed by any fixed obstruction in any manner whatsoever
 - 4.1.2. In all hereafter established dry cleaning establishments all required exit doorways shall be arranged to swing outwardly in the direction of the egress.

Rule 5. Fire Prevention—Class B Establishments.

All hereafter established Class B dry cleaning establishments shall comply with the following, except that this Rule 5 shall not apply to those establishments created prior to the effective date of these Rules:

- 5.1. No power or heating boiler shall be permitted in the same area or space where dry cleaning units are located, whether on the cleaning floor or floors or cellar or basement level unless either
 - (a) the boiler or boilers shall be enclosed in a 3-hour unpierced masonry enclosure and entered only from the outer air; or
 - (b) the boiler or boilers shall be enclosed in a 3-hour masonry enclosure with a one-hour fire proof self-closing door which opens into a ventilated vestibule similarly enclosed and entered by a one-hour fire proof self-closing door opening onto the interior of the premises or establishment.
- 5.1.2. The ceiling of all such boiler rooms as required in Rule 5.1 and the adjoining entrance vestibule referred to in Rule 5.1.(b) above shall be fire-retarded with one-hour fire resistive material.
- 5.2. Non-fire proof enclosing partitions and ceilings within six feet of any dry cleaning unit shall be fire-retarded with one-hour fire resistive materials and doors and with two approved automatic wet pipe sprinkler heads located over the cleaning unit which may have its source of supply from the house water system.
- 5.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a one-hour fire proof self-closing door or fire-proof window assembly.
- 5.4. Except as provided in Rule 5.1, there shall not be employed in any such dry cleaning establishment any

PUBLIC HEARING

device or apparatus employing flame or fire which is likely to produce an exposed spark except electric apparatus placed at least five feet above the floor, or approved type of "explosion proof electric motors". in such establishments all lighting shall be fitted with keyless sockets and all switches and receptacles shall be placed at least four feet above the floor. Nothing contained in this rule or Rule 5.1 shall prohibit the installation of any gas, oil or electric heating device of a type approved by the Fire Commissioner under such conditions as he shall prescribe.

Rule 6. Fire Prevention—Class A Establishments.

All hereafter established Class A dry cleaning establishments shall comply with the following, except that this Rule 6 shall not apply to those establishments created prior to the effective date of these Rules:

- 6.1. Unless otherwise specifically exempted by law, no power or heating boiler shall be permitted in the same area or space where dry cleaning units are located unless such boiler or boilers shall be enclosed in a one-hour fire proof partition and entered by a one-hour fireproof self-closing door whether from the interior of the premises or establishment or to the outer air.
- 6.2. All ceilings of all such boiler rooms as provided in Rule 6.1 shall be fire-retarded with one-hour fire resistive material.
- 6.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a fireproof self-closing door or fireproof window assembly.

Rule 7. Fire Prevention—All Dry Cleaning Establishments.

All existing or hereafter established dry cleaning establishments whether Class A or Class B shall comply with the following:

- 7.1. The provisions of Section C-19.161.0 of Chapter 19 of the Administrative Code.
- 7.2. It shall be unlawful to store any inflammable liquids or solvents in quantities aggregating more than five gallons without a permit as provided in Article 9 of Chapter 19 of the Administrative Code.
- 7.3. All inflammable liquids and solvents used for spotting and sponging shall be contained in approved individual metal containers not exceeding two-quart capacity each.
- 7.4. All sludge or residue removed from a dry cleaning unit shall be placed in a metal container not exceeding 55 gallons of capacity with a tight fitting cover and shall be removed from the premises and disposed of in a lawful manner.
- 7.5. All solvent used in the dry cleaning unit shall be either (a) received and stored in metal containers not exceeding 55 gallons each and pumped directly into a dry cleaning unit or units by means of a detachable leakproof pump and pipe system, or (b) received and stored in a tank or tanks in accordance with the rules of the Board of Standards and Appeals relating to the receiving and storing of fuel oils and pumped directly into a dry cleaning unit or units by means of a closed leakproof pipe and pump system.

Rule 8. Ventilation.

- 8.1. All hereafter established dry cleaning establishments whether Class A or Class B shall be equipped with

adequate ventilation to provide at least four complete changes of air volume an hour of such establishments during the operation of any dry cleaning units, and such ventilation as is otherwise required by law.

- 8.2. All Class A dry cleaning establishments shall have sufficient ventilation so as to prevent an excessive concentration of solvent vapors in the dry cleaning establishment. An excessive concentration of solvent vapors shall be that which exceeds the average of 200 parts of solvent vapors per one million parts of air during any working day.
- 8.3. The direct equipment exhausts or vents of all dry cleaning establishments whether Class A or Class B shall terminate to the outer air in the following manner:
 - (1) At least 7 feet above the roof, street, yard or court grade on which it opens of the premises in which said establishment shall be located, and
 - (2) the exhaust shall be under static pressure by reason of a mechanical fan, and
 - (3) The terminal of the exhaust, shall be at least five feet from any window or ventilating opening if said ventilating window or ventilating opening lies on the same plane as the exhaust terminal and when the legal ventilating windows, or other ventilating openings lie on a plane which faces in the direction of the exhaust terminal such terminal shall be at least 10 feet away from the same, and
 - (4) All direct equipment exhausts or vents shall be provided with mesh lint arrestors which shall be kept clean unless lint traps are provided on the units, and
 - (5) The requirements of subdivisions (1) and (3) of this Rule 8.3 shall not apply to those establishments created prior to the effective date of these Rules.

Rule 9. Operating Precautions.

- 9.1. A printed notice embodying these Rules shall be posted in a conspicuous place in all dry cleaning establishments.
- 9.2. The proprietor of any Class A establishment shall furnish to any person cleaning out a dry cleaning unit an approved type respirator for his use during the process of cleaning out any such unit.
- 9.3. All equipment shall be installed in such manner as to minimize noise, vibration, smoke, and odors, and other forms of nuisances to the occupants of the premises in which such cleaning establishment may be located or to the occupants of any adjacent premises.

Rule 10. Penalties.

Any violation of these Rules shall be subject to the penalties prescribed in the Zoning Resolution therefor, in addition to other penalties prescribed by law.

Rule 11. Effective Date of Rules.

The effective date of these rules will be twenty (20) days after date of publication of the rules as adopted.

Rule 12.

If any term, part or provision of any of the aforesaid Rules shall be held unconstitutional or ineffective in whole or in part, such determination shall not be deemed to invalidate the remaining terms, parts or provisions of these Rules.

RULES

RULES FOR APPROVAL AND USE OF AIR ENTRAINING PORTLAND CEMENTS

Adopted by The Board of Standards and Appeals,
March 11, 1955, Effective April 4, 1955.
Cal. No. 64-55-SR

Authority.

Pursuant to the powers vested in the Board by Section 666, Subdivision 2 of the New York City Charter, to adopt rules to carry into effect the provisions of Section C26-312.0(c)2 of the Administrative Building Code, which permits the use of cements of "other types" when approved by the Board and used in accordance with rules of the Board governing their use.

Definitions.

- 1.0 "Air Entraining Cement," shall mean Portland Cements Types IA, IIA, and IIIA, meeting the requirements of ASTM Designation C-175-53.
- 1.1 "Approved," for the purposes of these rules, shall mean approved by the Board of Standards and Appeals as "cements of other types" for use in New York City pursuant to Section C26-312.0(c)2 of the Administrative Building Code.
- 2.0 "Air Entraining Cements," when approved may be used in New York City wherever the use of Portland Cement is permitted by the Administrative Code, under the following conditions:
- 2.1 Concrete containing air-entraining cement shall have a minimum air content of 3 percent and a maximum air content of 9 percent.
- 2.2 Mixing of concrete containing air-entraining cement shall conform to the provisions of Section C26-499.0 of the Administrative Code, except that the percentage of fine to coarse aggregates by weight shall be not less than 40 percent nor more than 100 percent.
- 2.3 When plain concrete containing air-entrained cement is used pursuant to Section C26-311.0 of the Administrative Code, the maximum allowable water cement ratio shall be $7\frac{1}{2}$ U. S. gallons per sack of cement.
- 2.4 When average concrete containing air-entrained cement is used pursuant to Section C26-365.0 b-1 of the Administrative Code, the maximum allowable water cement ratio shall be $6\frac{1}{2}$ U. S. gallons per sack of cement.
- 2.5 When average concrete containing air-entraining cement is used pursuant to Section C26-365.0 b-2 of the Administrative Code, the maximum allowable water cement ratio shall be 6 U. S. gallons per sack of cement.

The following statement is explanatory only of the reasons presented to the Board for adopting the rules, but in no way is any part of this statement to be considered as contravening any part of the rules adopted.

Statement.

Since 1946 the Board has received several applications for approval of air entraining cements but has not acted on such applications as it was felt that the use of such cements should not be permitted as Portland Cements under Sec. C26-312.0(a)1 of the Administrative Code.

The Engineering Division was assigned the task of examining the question whether air entraining cements should be approved under Sec. C26-312.0(a)2 of the Administrative Code, and determining what rules were necessary to govern their use.

ASTM Designation C175-53, as adopted by the American Society for Testing Materials, 1953, have been promulgated relating to types 1A, 2A and 3A cements when manufactured with air entraining additions interground with the clinker at the mill. Such additions are required to comply with ASTM Designation C226-51T.

Committee 613 of the American Concrete Institute met at Boston in February of 1953 and adopted "Recommended Practice for Selecting Proportions for Concrete", which include recommendations for the use of air entraining cements and the use of admixtures at the point of concrete mixing.

Studies of the effect entrained air on the strength and durability of concrete have been made by the Research and Development Division of the Portland Cement Association.

Federal Specification SS-C-192a, approved and promulgated April 22, 1952, covering Portland Cement, includes Types 1, 2, 3, 4, and 5 air-entraining cements for use by all Federal Agencies and limits the use of air-entraining agents to an amount less than 1 percent.

The use of air-entraining cements in concrete will result in an increase in workability and cohesiveness, a reduction in segregation and bleeding, increased resistance to the action of sulfate waters and will produce a more homogeneous and more durable concrete.

Air-entraining agents introduce into the concrete a larger amount of air than is usually found in concrete. Unlike the air usually found in concrete, intentionally entrained air exists in minute disconnected bubbles well distributed throughout the mass. These bubbles serve as reservoirs to accommodate expansion resulting from freezing of water within the concrete.

Thus, air-entrained concrete contains a larger amount of air and requires less water than normal concrete, and since each of these factors affect the yield and cement content of the mix, generally air-entrained concrete mixes should be designed by decreasing the sand volume by an amount equal to the net change in the volume of air plus water, as compared to a normal concrete mix designed to provide the same yield and cement content.

Although entrained air increases workability and durability, it tends to reduce strength of concrete except in very lean mixes. Bond strength ratios are influenced essentially in the same manner as compressive strength when the air content of the concrete is increased.

The reduction in compressive and bond strengths with increased air content is less for air-entrained concretes made with aggregates having a maximum size of $\frac{3}{8}$ " than for air-entrained concretes made with aggregates of $1\frac{1}{2}$ " to 2" maximum sizes.

Mixing time has a significant effect on the air content of concrete made with air-entraining cement. After ten minutes mixing there is a gradual decrease in air content of the mix.

As a result of studies made by H. W. Russell, Engineer of Materials, Illinois State Highway Division, and Eivind Hognestad of the University of Illinois, it was found that bond was reduced about 10 percent on vertically cast bars when 4.5 percent air was entrained and 5 to 15 percent on horizontally cast bars when the amount of air entrained exceeded 4 percent.

Report of W. A. Gordon, published in the proceedings of the American Concrete Institute, June 1946, Vol. 42, page 605, contains test data to show that entrained air in concrete has an effect on the modulus of elasticity similar to its effect on compressive strength. Moduli of elasticity are reduced from 2 to 3 percent for each percent of air entrained.

Test results reported by H. F. Gunnerson in the June 1944 proceedings of the American Concrete Institute (Vol. 40, page 477) indicate a reduction of modulus of rupture of up to 13 percent when up to 6 percent of air is entrained.

Report of R. F. Blanks and W. A. Gordon published in the Feb. 1949 proceedings of the American Concrete Institute (Vol. 45, page 469), describes test results that show that air-entrained concrete is more resistant to the passage of moisture and segregation than non-air entrained concrete.

The adoption of Rule 2.1 is necessary as resistance to freezing and thawing is not materially improved when air contents are below 3 percent and air contents above 9 percent cause excessive strength losses without materially increasing durability.

The adoption of Rule 2.2 is necessary as the use of high percentages of fine to coarse aggregates as permitted by Section C26-499.0 of the Administrative Code could lead to excessive strength losses due to high air content in general usage without considerable reduction in water cement ratios and rigid control of consistencies.

The adoption of Rules 2., 2.4 and 2.5 is recommended based on the report of Committee 613 of the American Concrete Institute as presented by the Committee to the American Concrete Institute convention held at Boston February of 1953, as published in the October 1953 issues of the Journal of the American Concrete Institute.

RULES

RULES FOR THE TESTING AND USE OF BLENDED CEMENTS

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, AUGUST 2, 1940. EFFECTIVE, IN ACCORDANCE WITH SECTION 665, SUBDIVISION C, OF THE NEW YORK CITY CHARTER, AUGUST 26, 1940.

(584-39-SR)

Authority:

Pursuant to the Authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, Charter of the City of New York, and C26-189.0, Administrative Building Code (2.2.1.1), and C26-312.0, paragraph c, subdivision 2, Administrative Building Code (7.1.1.7.3) reading: "Nothing herein contained shall be construed to prohibit the use of cements of other types which are approved by the board and are used in accordance with rules of the board governing their use."

1.0 Scope.

1.1 The intent of these rules is to provide a basis for the use of blended cements other than Portland Cement. Subject to the restrictions in the approval of the Board as to each brand, such blended cements may be used as substitutes for Portland Cement on an equivalent weight basis where Portland Cement is permitted.

2.0 Blended Cements.

2.1 Blended cements shall include an intimately interground mixture of approved Portland Cement with natural or artificial products composed of silica and alumina, which shall be mixed with Portland Cement in limited proportions, (except as may be otherwise provided for in the Administrative Code) and which will react in the presence of water to form a hydraulic cement.

2.2 Admixtures to Portland Cement shall have a previous record of satisfactory experience.

2.3 These rules shall not be applicable to harmless materials used as coloring, waterproofing, plasticizing, and freezing preventatives when used as admixtures to Portland Cement in quantities not in excess of 1%.

3.0 Manufacture and quality of Blended Cements.

3.1 A flow sheet in duplicate showing the process of manufacture and blending shall be filed with the Board as part of any application for approval which shall include the origin and the amount of materials used and proof as to quality and uniformity.

4.0 Available supply of raw materials.

4.1 Evidence shall be filed with the Board showing the potential supply of raw material available to the manufacture.

5.0 Fineness.

5.1 The specific surface shall be not less than 1800 sq. cm. per gram, as determined by methods of test described in A.S.T.M. specifications C115-38T.

5.2 The residue shall not exceed 15% by weight on a No. 325 standard sieve.

6.0 Soundness.

6.1 A pat of neat cement of normal consistency shall be subjected to tests for soundness by the methods outlined in A.S.T.M. specifications C77-36, and when

so tested it shall show no signs of distortion, cracking, checking or disintegration when subjected to the steam test, nor shall the expansion of the pat be greater than 5mm, when molded in Le Chatelier tong and stored in a standard moist closet for 24 hours.

6.2 In addition to these requirements, the expansion of three 1" x 1" x 10" bars of neat cement of normal consistency when subjected to the Autoclave test A.S.T.M. tentative method, shall not have an expansion in excess of 0.75%.

7.0 Time of set.

7.1 Time of setting shall be determined by test described in A.S.T.M. Specification C77-36, and the mortar so tested shall not develop initial set in less than one hour and final set in more than 10 hours as tested with Vicat or Gillmore needle.

8.0 Compressive strength for normal blended cements.

8.1 The average compressive strength of five 2-inch mortar cubes composed of one part of blended cement and 2.75 parts graded Ottawa sand by weight shall be not less than the following:

Age at Test	Storage of Cubes	*Compressive Strength
7 days	1 day in moist air, 6 days in water	2200 lbs. sq. in.
28 days	1 day in moist air, 27 days in water	3500 lbs. sq. in.

*When tested in accordance with Fed. Spec. SS-C-158

8.2 Tensile Strength.

The average tensile strength in lbs. sq. in. of not less than 5 mortar briquets composed of one part cement and 3 parts of Ottawa sand, by weight, shall be equal to or greater than the following:

Age at Test	Storage of Briquets	Tensile Strength Lbs. Sq. In.
3 days	1 day in moist air, 2 days in water	175
7 days	1 day in moist air, 6 days in water	275
28 days	1 day in moist air, 27 days in water	350

The average tensile strength of the mortar at 7 and 28 days shall be higher than that at 3 and 7 days respectively.

9.0 Blended cements having other properties.

9.1 When approval of the board is requested for the use of Blended Cements having high early strength, sulfate resistance or low heat of hydration, application shall be made to the board for additional tests to develop these properties.

NOTICE

Copies of the Official Directory of the City of New York for the year 1955 (The Little Green Book), containing the latest authentic information in relation to City, State and Federal Departments, Bureaus, Offices and

Courts, are now on sale at the office of the Supervisor of the City Record, Room 2213, Municipal Building, Manhattan, New York 7, N. Y. Price One Dollar. Make check or money order payable to "Supervisor of City Record"

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

Notice of Public Hearing on Proposed Rules Covering
Dry Cleaning Establishments Pursuant to the Zoning
Resolution of The City of New York.

COURT DECISION

Matter of Long Is. Board:—On February 9, 1954, the Board granted a variance under Section 7, subdivision c. of the Zoning Resolution, to permit in a residence and business use district the erection and maintenance of a business building, with curb cut nearer to residence use district than is permitted; Cal. No. 540-53-BZ; Premises 87-11—11th Street, East Side, 166 ft. south of Jamaica Avenue Richmond Hill, Borough of Queens.

At Special Term, Part I, of the Supreme Court Mr. Justice Ritchie sustained the Board in the following decision:

"The respondents, Board of Standards and Appeals, and the intervenor-respondent, Long Island Tinsmith Supply Corporation, move for an order vacating an order of certiorari, dismissing the petition and affirming a determination of the respondent board contained in a resolution granting a variation in the application of the use district regulations of the zoning resolutions of the City of New York upon the application of the intervenor-respondent.

The petition sought to be dismissed on these motions challenges the jurisdiction of the board to grant the variation, asserts that its action was unlawful, arbitrary and capricious and that the petitioners and others opposing the application were deprived of a proper hearing.

Intervenor-respondent is the owner of a parcel of real property in the Borough of Queens. For the purpose of convenience the parcel will be considered as comprised of three plots hereinafter designated as plots 1, 2 and 3. Plot 1 faces on Jamaica Avenue, and on that plot is erected a building in which the intervenor-respondent conducts its business. Plot 2 faces on 11th Street, and in part is bounded by the westerly line of plot 1. Plot 3 faces on 11th Street and is immediately westerly of and adjoining plot 2. Plot 1 is wholly within a business use district. Plots 2 and 3 are located in a residence use district. It was for plot 2 that a variation of use was sought by intervenor-respondent, and on its application was granted a variation of use permitting the erection and use thereon of a building to be used in the conduct of its business.

Section 7, subdivision c, of the zoning resolution of the City of New York confers authority upon the Board of Standards and Appeals to vary the application of use districts in appropriate cases subject to appropriate conditions and safeguards, after public notice and hearing. Notice of the application and the date of hearing thereon were published by the board. A hearing was held on the application, and thereafter a resolution passed granting the variation of use upon conditions therein stated.

That part of section 7 of the zoning resolution embraced in subdivision c thereof, pursuant to which the variation is granted, confers upon the board authority to vary application of use district regulations so as to "permit the extension of an existing or proposed building into a more restricted district under such conditions as will safeguard the character of the more restricted district * * *."

The language of the section is clear in its intent to permit, in appropriate cases and subject to appropriate safeguards, the expansion of a business into a more restricted use area. That is precisely what was permitted by the board's resolution granting the variation. A reading of the pertinent sections of the zoning resolution and the record presented herein reveals that the procedure and action of the board were authorized, regular and within its jurisdiction.

The record does not support petitioners' contention that the board's action was arbitrary or capricious, nor were the petitioners, or other objectors deprived of a proper hearing. Objectors were present and in part represented by counsel at the hearing held on January 12, 1954. Near the conclusion thereof the following statement was made by the chairman: "We will lay this over to February 9, 1954, at 10:00 A.M. for inspection and decision without further argument." (S. M. of hearing appearing on page 89 of the return.) This statement was construed by petitioners to adjourn the hearing for all purposes, including the presentation of additional evidence, until February 9, 1954. This court finds that the wording of the chairman's statement does not sustain petitioners' construction thereof.

The petition is dismissed and the determination of the board affirmed.

(N. Y. Law Journal, May 25, 1955, p. 13.)

CALENDAR

DOCKET

New Cases filed up to May 31, 1955

Cal. No. Dept. Premises Affected

401-55-SA—Stan-O-Matic Fully Automatic Synthetic Dry Cleaning Unit, Models 30-C and 30-S, manufactured by Standard Laundry and Cleaning Machinery Co., Appliance.

402-55-SA—Standard Perc Reclaiming Tumbler, Model R-30, manufactured by Standard Laundry and Machinery Co., Appliance.

403-55-SM—Universal-Rundle Corp., one-piece Bowl, No. 4010 and Sears, Roebuck and Co., one-piece Bowl, Model 738,49440, manufactured by Universal-Rundle Corp., Material.

404-55-SM—Ruberoid Gypsum Roof Deck Mix (poured gypsum roof deck over form-board), manufactured by The Ruberoid Co., Material.

405-55-A—H.B.M.—322-326 East 23rd street, south side, 281 ft. east of 2nd avenue, Block 928, Lot 43, Borough of Manhattan, Amendment to Alt. 32-55—re egress, etc.; stair enclosure, etc.

406-55-BZ—M.&A.—225-229 Beach 3rd street, west side, 240 ft. north of Seagirt avenue and 224-230 Beach 4th street, Block 103, Lot 14, Far Rockaway, Borough of Queens, decision—re parking of cars in a residence use district.

407-55-A—F.D.—Re: Packaging, transportation, storage and sale of combustible mixture known as "Cadox BSA" in fibre containers in New York City (containers not in conformity with Administrative Code requirements), Decision.

408-55-BZ—H.B.B.—1368-1370 39th street, south side, 120 ft. west of 14th avenue, Block 5298, Lot 34, Borough of Brooklyn, N.B. 758-54—re area excessive.

409-55-BZ—H.B.Bx.—1601 Bussing avenue, west side, 6.25 ft. north of East 232nd street, Block 4857, Lot 76, Borough of The Bronx, Alt. 327-55—re conversion of occupancy from 3 car garage to 3 car motor vehicle repairs (hand tools only), etc.

410-55-BZ—H.B.Q.—152-10 Rockaway boulevard, southeast corner of Baisley boulevard, Block 12125, Lot 11, Baisley Park, Borough of Queens, N.B. 1803-55—gasoline service station, ground sign, car washing, lubritorium, office, etc.

411-55-A—H.B.M.—15-17 West 18th street, north side, 285 ft. west of 5th avenue, Block 820, Lot 29, Borough of Manhattan, B.N. 3962-54—re egress, etc.

412-55-A—F.D.—Re: Transportation of No. 2 and No. 4 Fuel Oil in Tank Truck in New York City (capacity of tank greater than permitted by Administrative Code), Decision re Order No. 119-5.

413-55-A—F.D.—499-505 Court street, southeast corner of Huntington street, Block 476, Lot 6, Borough of Brooklyn, Decision re Order No. 48743-LC.

414-55-BZ—H.B.B.—361-371 89th street, north side, 100 ft. west of 4th avenue, Block 6062, Lots 45 and 48, Borough of Brooklyn, Alt. 1453-55—re parking and storage of motor vehicles in a residence use district.

415-55-BZ—H.B.Q.—240-02 Northern boulevard, southwest corner of Alameda avenue and 46-02 to 46-12 Hanford street, Block 8167, Lot 1, Douglaston, Borough of Queens, N.B. 2499-55—re automobile showroom, service of new and used cars, parts, storage sales, wheel alignment, parking of customers' cars, car polishing, etc., paint shop, gas pump for owners' use.

416-55-BZ—H.B.B.—187-193 Hegeman avenue, northwest corner of Watkins street, Block 3628, Lot 1, Borough of Brooklyn, N.B. 405-55—re gasoline service station, lubritorium, car washing; parking of more than 5 cars, etc.; show windows.

417-55-BZ—H.B.Q.—183-02 to 183-20 (183-10 official) South Conduit avenue and 144-01 to 144-13 183rd street, southeast corner and 144-02 to 144-18 184th street, southwest corner of South Conduit avenue, Block 3326, Lot 16, Springfield Gardens, Borough of Queens, N.B. 1406-54—re gasoline service station, ground sign, lubritorium, office, restaurant, kitchen purposes, etc.; parking of more than 5 cars.

418-55-BZ—H.B.B.—1318-1324 Avenue X and 2402-2412 East 14th street, southwest corner, Block 7415, Lot 6, Borough of Brooklyn, N.B. 857-55—re gasoline service station, lubritorium, minor repairs, etc.; entrance; show windows and signs, etc.

419-55-BZ—H.B.Q.—244-04 Francis Lewis boulevard and 243-02 to 243-06 South Conduit avenue, southwest corner and 139-03 to 139-11 243rd street, Block 13599, Lot 25, Rosedale, Borough of Queens, N.B. 1453-55—re gasoline service station, lubritorium, car washing, minor repairs, etc., office; parking of cars awaiting service.

420-55-A—H.B.M.—21-23 Peck Slip, northeast corner of Water street, Block 107, Lot 42, Borough of Manhattan, B.N. 865-55—re egress; fire escape, etc.

421-55-BZ—H.B.Bx.—547 Westchester avenue and 618 Hegney place, northeast corner, Block 2359, Lots 1 and 5, Borough of The Bronx, N.B. 719-55—re gasoline service station, lubritorium, car washing, sales of accessory parts, etc.; parking and storage, etc.

422-55-A—H.B.B.—638 Lorimer street, east side, 25 ft. south of Jackson street, Block 2747, Lot 7, Borough of Brooklyn, Alt. 550-55—re class 4 construction—proposed change in occupancy in structures 3 stories 34 ft. in height from store to meeting rooms, etc.

423-55-BZ—H.B.Q.—70-11 to 70-19 Northern boulevard and 32-62 to 32-70 71st street, northwest corner, Block 1166, Lot 37, Woodside, Borough of Queens, N.B. 826-55—re gasoline service station, lubritorium, repairs (minor), painting, etc.; parking of cars to be serviced, etc.; entrances.

CALENDAR

424-55-BZ—H.B.B.—111-113 Erasmus street, north side, 84 ft. 5 in. east of Rogers avenue, Block 5105, Lot 76, Borough of Brooklyn, Alt. 1266-55—re parking and storage of motor vehicles in residence and business use district.

425-55-BZ—H.B.M.—350-358 West 42nd street, south side, 82 ft. east of 9th avenue, Block 1032, Lot 58, Borough of Manhattan, N.B. 17-55—re parking garage (open type) for more than 5 cars.

Restored to Docket

157-48-A—Vol. II—H.B.Q.—150-06 Jamaica avenue, south side, 41.42 ft. east of 150th street, Block 10092, Lot 3, Jamaica, Borough of Queens, Alt. 622-55.

178-33-SA—Vol. II—Acme Type 1200 N Single action fire alarm station, manufactured by the Acme Fire Alarm Company, Inc., Appliance.

85-36-BZ—Vol. III—H.B.B.—2235-2247 Flatbush avenue and 1832-1850 East 48th street, northeast corner, Block 847, Lots 1, 3 and 5, Borough of Brooklyn, N.B. 245-55.

463-50-BZ—Vol. II—H.B.Bx. 3221-3225 Boston road and 3250-3254 Laconia avenue, northeast corner, Block 4614, Lot 22, Borough of The Bronx, N.B. 654-55.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 18, 1955 subject to regular procedure, to consider extension of use; and

WHEREAS, a public hearing was held on this application on May 10, 1955 after due notice by publication in the Bulletin; laid over to June 1, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Kingsland avenue are in residence and business use, C and E-1 area, class 1 and class ½ height districts; Boston road is in a business use, C area, class: height district; and

WHEREAS, the decision of the borough superintendent, dated December 3, 1954 acting on N.B. Applic. 1352-54, reads:

"1. On the premises located in a business district and partly in a residence district the proposed extension of the existing gas station granted Feb. 1, 1927 on Cal. 911-26-BZ to include lot #76 and to extend the use to include gas service station, lubritorium, auto laundry (non-automatic), minor auto repair shop with hand tools only and parking of motor vehicles awaiting service in accordance with amended resolution Bd. of S. & A. Cal. #911-26-BZ Vol. #II adopted is contrary to Sect. #3 & Sect. #4 (29) (46) of the Zoning Resolution and contrary to Resolution Bd. of S. & A. Cal. 911-26-BZ.

2. The location of part of the curb cut within 75 feet of the intersection with the abutting residence district is contrary to Sect. 7A(a) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 159.77 ft. frontage by 113.10 ft. in depth, irregular, on which is located a gas station erected under N.B. Applic. 591-27 for which certificate of occupancy No. 1682 was issued August 31, 1927; that fire department permits have been obtained annually and the station has been operated continuously since 1927; that on July 25, 1916 Boston road was zoned for business use for a depth of 100 ft. with the balance of the block to Tillotson avenue zoned for residence; that there has been no change in the use since that time; that the class 1 height of 1916 was rezoned to class 1 height along Boston road for a depth of 100 ft. with the balance of the block to Tillotson avenue changed to class ½; that the C area of 1916 was changed to C along Boston road for a depth of 100 ft. with the balance zoned E-1; that the height and area changes were made August 26, 1954; that it is proposed to remove the present accessory building, the three outside grease pits, the four dispensing pumps and rearrange the existing curb cuts and driveways; that a new 2-bay accessory building finished with porcelain enamel on masonry for the two street fronts will be constructed; that the building will be used as an office and sales room, rest rooms, combination heater and storage room, lubrication, car washing and minor repairing; that heating will be by means of an approved type, warm air, ceiling suspended furnace in the store room and supplied by a buried 550 gallon fuel oil tank; that the 8 present 550 gallon gas tanks will remain and a new single pump island with two dual, low type pumps will be installed and the island will be set back 15 ft. from the lot line; that it is further proposed to erect along the southerly and easterly interior lot lines, where not occupied by walls of the adjoining building a 4 ft. 6 in. woven wire fence of the chain link type, set on a masonry base 1 ft. high, for a total height of 5 ft. 6 in., and to provide planted areas; that it is also proposed to resurface the present concrete paving with blacktop in lot 70 and pave lot 76 with new blacktop or asphalt; that present curb cuts on Boston road will be rearranged so that there will be two 30 ft. cuts including splays, and also to provide a 30 ft. curb cut on Kingsland avenue; that no cut will be within 5 ft. of any street or lot line as extended; that the cut on Kingsland avenue is not within the first 25 ft. of the intersection with Boston road; that however, the proposed 30 ft. cut with the 5 ft. setback from Boston road is not within 75 ft. of the intersection with the abutting residence district; that sidewalks and curbs will be replaced or repaired to the satisfaction of the borough president; that the small portion

MINUTES

of this property extending into the residence use district will be used solely for the lot line wall or fence and the planted area and will not be occupied by any building; and

WHEREAS, the applicant contends that on March 2, 1954, under Cal. No. 635-53-BZ, the Board granted a conditional variance permitting a motor vehicle repair shop at 3564 Boston road, block 4728, lot 79; that lot 79 adjoins the plot under appeal on the easterly side and is owned by Palmeri's service station who is the tenant of Gulf Oil corporation and operates the gas station as well as his own motor vehicle repair shop; that the west wall of the building used as the repair shop is unpierced and it is not proposed to have any openings into same; that Boston road is a main traffic artery and as such the proposed rehabilitation of the site is entirely in keeping at this point; that there are numerous non-conforming uses along Boston road in this area among which are the gas station in block 4723, lot granted by the Board under Cal. No. 570-48-BZ, the gas station in block 4724, lot 26 granted by the Board under Cal. 1-28-BZ and the gas station in block 4728, lot 42, erected prior to effective zoning in 1925; that in addition there are several repair shops and used car sales lots; that in view of the fact that the present facilities are nearly 30 years old, the need for rehabilitation is apparent and the granting of this application is requested so that competitive demands may be met; and

WHEREAS, the applicant states that the present owner has held title to the property since May 27, 1942; that the assessed valuation of land is \$33,100 and of the building \$5,000 making a total of \$38,100; that the building was erected in 1927; and

WHEREAS, the Board is familiar with this area and found inspection to be unnecessary; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f, h and A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of ten years, to permit the existing station as previously permitted by the Board under Cal. 911-26-BZ, Vol. 1 to be extended and reconstructed, substantially as proposed and indicated on plans filed with this application, marked "Received March 29, 1955", 4 sheets, *on condition* that all buildings and uses shall be removed and the premises reconstructed and arranged as indicated on such plans; that the existing and extended gasoline station shall be maintained solely within the business use district portion of the plot; that the portions of the plot to the southwest shall be fenced as hereinafter required and planted with suitable material, protected with a 6 in. concrete curbing; that the accessory building shall be of the arrangement and design proposed; that the fronts facing the streets shall be of face brick and the other elevations of common brick painted; that there shall be no cellar under the accessory building; that the heater shall be of an approved ceiling type; that in all other respects the accessory building shall comply with the requirements of the Building Code; that the pumps shall be located where shown and not nearer than 15 feet to the street building line; that such pumps shall be of a low approved type; that the number of gasoline storage tanks shall not exceed ten 550 gallon tanks; that the balance of the premises shall be paved with concrete or asphaltic pavement; that there shall be erected on the lot lines where shown a woven wire fence of the chain link type erected on a masonry base to a total height of not less than 5 ft. 6 in.; that such fence shall have suitable posts at termination points; that curb cuts shall be restricted to two to Boston road, each not over 30 feet in width, located where shown, and one curb cut to Kingsland avenue, of similar width; that the sidewalks and curbing around the premises shall be reconstructed or restored to the satisfaction of the borough superintendent; that under Section 7h for a similar term, there may be parking of cars, provided the parking does not interfere with the servicing of the station; that under section 7i for a similar term there may be minor repairing with hand tools only for adjust-

ments maintained solely within the accessory building; that under Section 7A the curb cut and entrance to the premises from Kingsland avenue may be permitted; that such portable firefighting appliances shall be maintained as the fire commissioner may direct; that at the intersection there shall be erected a block of concrete not less than 12 inches in height, extending for a distance of not less than 5 feet along each building line; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all temporary signs and roof signs, but permitting the erection of a post standard within the intersection of Boston road and Kingsland avenue for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale, which sign may extend beyond the building line for a distance of not over 4 feet; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning resolution.

418-31-BZ—Vol. III

APPLICANT—Ingram S. Carner, for Hamilton Holding Corp., owner.

SUBJECT—Application reopened May 3, 1955 for consideration as to amendment of resolution—re (decision of the borough superintendent) previously granted on condition under sections 7c and 7i of the zoning resolution, permitting in a business use district, the demolition of existing wood and metal structures and the erection of an extension to existing gasoline service station accessory building; to provide 13 one-car garages, lubritorium, car washing, motor vehicle repairs, wheel alignment, brake testing, storage and sale of accessories and office.

PREMISES AFFECTED—1036-1060 McDonald avenue and 2-18 Parkville avenue, southwest corner and 1901-1923 47th street, Block 5452, Lots 37 and 40, Borough of Brooklyn.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Opposition: None.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, on January 8, 1932 this application (Vol. I) under section 21 of the zoning resolution, was withdrawn after report of inspection was read and adopted, to permit in a business use district the erection and maintenance of a gasoline service station, affecting premises 1036-1060 Gravesend avenue, southwest corner of Parkville avenue, Block 5452, Lot 37, Borough of Brooklyn; and

WHEREAS, this application was reopened on January 23, 1934 (Vol. II); and

WHEREAS, on July 10, 1934 this application (Vol. II) was granted on condition, under section 21, to permit a gasoline selling station in a business use district, affecting premises 1036-1060 McDonald avenue (Gravesend avenue), northwest corner of 47th street, Block 5452, Lot 37, Borough of Brooklyn; and

WHEREAS, on July 9, 1935 application was reopened and time extended to complete work; and

WHEREAS, on October 1, 1935 application was reopened and resolution amended re, brand sign; and

WHEREAS, on July 10, 1936 application was reopened, resolution amended and plans approved; and

WHEREAS, on January 26, 1937 application was reopened and resolution amended; and

WHEREAS, on March 1, 1938 application was reopened and time extended to complete; and

WHEREAS, on April 1, 1952 application was reopened as Vol. III subject to regular procedure, to consider proposed extension of use and arrangement; and

MINUTES

WHEREAS, on June 24, 1952 the Board amended resolution to permit extension of the gasoline service station use with accessory store to include lots 37 and 40 and to permit construction and rearrangement of a new accessory building, affecting premises 1036-1060 McDonald avenue and 2-18 Parkville avenue, southwest corner and 1901-1923 47th street, Block 5452, Lots 37 and 40, Borough of Brooklyn; and

WHEREAS, on March 3, 1953 application was reopened and amended to permit the erection of eleven 1-car garages; and

WHEREAS, the applicant requested reopening of this application and amendment of the resolution; and

WHEREAS, this application was reopened on May 3, 1955 and set for hearing on June 1, 1955 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on June 1, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated April 12, 1955 acting on Alt. Applic. 717-55, reads:

"3. Proposed change of occupancy, in a Business Zone, from Gasoline Service Station, Lubratorium, repairs, wheel alignment, brake-testing, car washing, office, storage and sales of auto accessories, eleven (11) one car garages and retail store to 'Gasoline service station, repairs, including wheel alignment, brake testing, incidental body work and spraying, car washing, office, storage and sales of auto accessories, eleven (11) one car garages and retail store' is contrary to Article II, Para. 4a, subsections 29 & 46 of the Zoning Resolution.

(Note—Premises were subject of Bd. of Standards and Appeals variance under Cal. No. 418-31-BZ, Vol. 3)."

and

WHEREAS, the applicant requests that this application be reopened and resolution amended so as to permit the erection of a 4 in. concrete block non-bearing wall, so as to separate the permitted wheel alignment, brake testing and repairs from incidental body work and painting, which is proposed.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on July 10, 1934, as thereafter amended by resolutions adopted through March 22, 1953, by adding thereto:

"that in the event the owner desires to be permitted to erect a four inch concrete block wall where marked on plans filed with this request for amendment marked, 'Received, April 19, 1955' (one sheet), that such concrete block non-bearing wall may be permitted as passed on by the borough superintendent under Alt. App. 717/55 on condition that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the partitioned off space with entrance to McDonald Avenue, shown on such plans, may be operated by the operator of these premises or may be rented out as a concession on condition that in any event the requirements of the resolution as to construction and as to signs shall be complied with and that such fire-fighting equipment shall be maintained as the Fire Commissioner shall require; there may also be permitted such painting shop, with ventilation through the roof; and that in all other respects the requirements of the resolution above cited shall be complied with; and that all permits shall be obtained and all work completed within six months from the date of this amended resolution."

portion of the cellar as an architect's office (originally intended as a doctor's office).

PREMISES AFFECTED—170-10 Cedarcroft road, southeast corner of Homelawn street, Block 9844, Lot 5, Jamaica Estates, Borough of Queens.

APPEARANCES—

For Applicant: A. H. Salkowitz and Carl Heimberger.

For Opposition: Henrietta Haack.

ACTION OF BOARD—Application granted on condition.

THE VOTE

Affirmative: Chairman Murdock, Commissioners Kleinfert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on March 29, 1955 subject to regular procedure, to consider a new proposal; and

WHEREAS, a public hearing was held on this application on May 10, 1955 after due notice by publication in the Bulletin; laid over to June 1, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Cedarcroft road are in a residence use, E area, class 1 height district; Homelawn street is in residence and business use, E area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated March 4, 1955 acting on N. B. Applic. 269-54, reads:

"1. Proposed use of portion of cellar for architect's office, as shown on plan filed 3/4/55, does not fall within the category of permitted uses in a Residence Use District. Art. II, Sec. 3, Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 159.47 ft. frontage by 100 ft. in depth, on which is being erected a six story, cellar and sub-cellar apartment house on a corner lot facing Cedarcroft road and Homelawn street; that an office wing of approximately 3,000 sq. ft. had been added contiguous to Homelawn street on the cellar level of the structure adjacent a store building facing Hillside avenue and Homelawn street; that this office portion was originally designed to serve as doctor's offices as permitted under section 3, Art. II of the zoning resolution; that the present owner was unable to lease this office area for such uses as permitted by the applicable laws; that it is proposed to utilize former office portion intended for doctor's offices for the use of an architect's office; and

WHEREAS, the applicant states that he has negotiated a lease, subject to approval by the Board, to occupy the premises for an architect's office; that portion of the building consists of fireproof floors and roofs and is separated from the remainder of the building by fireproof walls; that the entrance to the office is separate and remote from all other exits to the multiple dwelling; and

WHEREAS, the applicant contends that the proposed occupancy would be of a similar type as those permitted under the zoning law, i.e., doctor's offices, group medical centers, etc., and would therefore not alter the character of the residential section any more than if the above uses were housed in this office; that the office portion is adjacent to retail stores facing Homelawn street and is opposite a traffic circle, bus stations and taxi stands; that the proposed office would create a proper transition between the business and residential portion of this section; that there is a garage entrance directly below the office area and the second level garage of the apartment building abuts the rear of the office; that parking facilities are therefore available for employees and clients of the office; that it is proposed to landscape the entire area from the building to the lot line with ornamental shrubs and trees and to provide a setting fitted for the specific use contemplated; that inasmuch as this portion of the building, due to its location, is unsuitable for residential purposes, it is requested that this specific use be accepted and a variance of the applicable laws be granted; and

184-37-BZ—Vol. II

APPLICANT—A. H. Salkowitz, for Cedarcroft Associates, Inc., owner.

SUBJECT—Application March 9, 1955 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a residence use district the use of

MINUTES

WHEREAS, the applicant states that the present owner has held title to the property since June 6, 1950; that the assessed valuation of land is \$65,000 and of the building \$520,000 (partial) making a total of \$585,000; that the building was erected in March 4, 1955; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which gave the proposal careful consideration as to the possible effect if any on the balance of the apartment houses and the adjoining area which is zoned for residence use and it is the opinion of the Board that the proposed use will prove satisfactory and be preferable to some other uses that may be suggested for the subject premises; and

WHEREAS, the Board does not confirm the applicant's statement that the law would permit this space stated to be a cellar, as doctor's offices; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of five years, to permit a portion of the premises, stated to be a cellar, to be occupied as an architect's office by the applicant, substantially as proposed and as indicated on plans filed with this application, marked "Received April 11, 1955", 10 sheets, *on condition* that no use shall be made of this particular portion of the premises other than as herein permitted; that there shall be no signs erected on the premises except that at the entrance on Cedarcroft road there may be a bronze or brass sign advertising the name and profession of the occupant, provided such sign does not exceed 144 square inches; that no other sign advertising this proposed use shall be erected either on the windows or exterior of the building or on the inside showing through the windows; that all windows of this office shall be fitted with draperies or venetian blinds; that in all other respects this portion of the premises shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained, including a new certificate of occupancy and all work completed within six months from the date of this resolution.

461-37-BZ—Vol. IV

APPLICANT—Sylvan Bien, for 260 Madison Avenue Corporation, owner.

SUBJECT—Application July 8, 1954 (decision of the borough superintendent), under sections 7c and 7h of the zoning resolution, to permit in a residence and restricted retail use district, the use of unbuilt upon plot for right of way and for the parking and storage of motor vehicles (previously granted by the Board—see action of 354-51-A).

PREMISES AFFECTED—22B East 39th street, south side, 98 ft. east of Madison avenue and 23 East 38th street, north side, 98 ft. east of Madison avenue, Block 868, Lot 53, Borough of Manhattan.

APPEARANCES—

For Applicant: J. J. Stone and M. Brody.

For Opposition: O. Stanton.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Commissioner Keating 1

Negative: Chairman Murdock, Commissioner Kleinert
and Deputy Chief Connolly 3

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. IV on July 20, 1954 subject to regular procedure, to consider proposal for parking on vacant portion of plot; and

WHEREAS, a public hearing was held on this application on May 10, 1955 after due notice by publication in the Bulletin; laid over to June 1, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, East 38th street and East

39th street are in residence and restricted retail use, B area, class 1½ height districts; Madison avenue is in a restricted retail use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated June 24, 1954 acting on Alt. Applic. 65-54 and superseded by amendment to Alt. Applic. 65-54 dated October 8, 1954, reads:

"1. Proposed use of area in this application located partly in a Residence Use District and partly in a Restricted Retail Use District as (a) a parking lot for more than 5 motor cars in a Restricted Retail Use District and parking for motor vehicles in a Residence Use District; (b) a Right of Way between E. 38 and E. 39 sts. is contrary to Sec. 3 and 4B Art. II Zoning Resolution.

Note the proposed use of this area is contrary to B.S. & A. Resolution Cal. No. 354-51-A—Vol. II."

and

WHEREAS, the applicant states that the premises consist of a plot, 17 ft. and 24 ft. frontage by 197 ft. 6 in. in depth, irregular, presently vacant; that it is proposed to use the unbuilt upon plot and the right of way for the parking and storage of motor vehicles; and

WHEREAS, the applicant states that this plot with a frontage of 17 ft. on East 39th street and 24 ft. on East 38th street is open from street to street; that for 2 ft. of its entire depth and parallel to Madison avenue it is in a restricted retail use district and the remainder of the plot is in a residence use district; that it will be kept as a vacant piece of land for the life of the adjoining new building between its east lot line and Madison avenue; that this plot and the land that the adjoining building was erected upon were at one time one parcel of several tax lots under single ownership involved in a variance action before the Board under Cal. No. 461-37-BZ, Vols. I, II and III, for a parking lot for more than 5 cars and later for the erection of a fireproof building on practically the entire plot extending into the residence use district; that this building was never built; that this entire plot was also involved in another appeal under Cal. No. 354-51-A, Vols. I and II where permission was granted to reapportion the plot into two separate tax lots, one for a building to be erected entirely within a restricted retail use district and the other lot to become a separate entity; that this is the tax lot as the site in this appeal; that the 1st floor of the adjoining building and the site are shown on drawing No. 2; that the adjoining building and the subject site are still in single ownership; that the adjoining building, a class 1, 27-story office and bank building with a parking garage for 75 cars in its sub-cellar, has a Madison avenue frontage of 197 ft. 6 in. and 98 ft. on both East 38th and East 39th streets and is 309 ft. in height; that it is entirely in a restricted retail use, B area, 1½ height district; that this building was erected under N.B. 177-49 on a variance under Cal. No. 354-51-A and is now occupied under certificate of occupancy No. 42518; that permission is requested to occupy this vacant land for parking lot for more than 5 cars; that the zoning boundary line divides this property under single ownership; that the tax lot line does not extend to the allowable 25 ft.—only 15 ft. and 22 ft. within the residence use district; that permission is requested that the parking garage use in the sub-cellar of the existing building have the use of this open area as an overflow space, as an extension of permitted use; that the character of the district will not be affected; that this land, as a vacant plot, may deteriorate into a catchall for all debris in the neighborhood but as a parking lot it will be well kept; that this site must be kept vacant as the northeast section of the site, 15 ft. by 98 ft. 9 in., abutting the Williams Club, 24-26 East 39th street, in block 868, lot 51, has a covenant for maintenance of light and air; that the adjoining new building has to have the remainder of the site also available for light and air; that as part of the resolution under Cals. 90-53-A and 311-53-A, the right was granted to modify the lot line windows of the adjoining building on the understanding that the site was to be maintained as a vacant piece of land; that this site is

MINUTES

completely divorced from the adjoining building and any property or structures, and therefore not a required open space or yard, and will stay in this condition as a separate entity; that as such it will be a non-income producing parcel; that the assessed value has been set at \$125,000 even though as part of the entire plot its cost was much greater; that it cannot be sold or disposed of in any way; that as a source of income, to defray part of its cost to the owner, it will be leased to the operator of the sub-cellar garage in the adjoining building as an overflow parking area and right of way for access to the East 39th street parking garage entrance by driving through the site from East 38th street, where this lessee has another sub-cellar parking garage in 13 East 38th street, block 868, lot 16; and

WHEREAS, the applicant contends that there is no school, playground, park, hospital, library or museum within 200 ft. of the site in any direction; that this site, to be occupied in a non-conforming use for a period of 10 years as a right of way and parking lot for more than 5 cars, is a method of easing a financial hardship with regard to the use of a non-productive parcel of land; that traffic from 5th or Madison desiring to enter the parking garage in 261 Madison avenue (the adjoining building) would have to travel easterly the entire block to Park avenue, then north on Park avenue for one block and then westerly for the entire block to the garage entrance; that this would mean almost $\frac{1}{4}$ mile of additional travel and waiting for several traffic light changes in an area that is quite heavily congested with car and truck traffic; that by permitting this right of way, a car would enter the site at East 38th street, drive through the site, and at East 39th street make a 180 degree turn which would bring it into the parking garage; that cars waiting admittance to the garage could wait on the right of way for traffic to ease off and then be taken into the garage; that all this is conducive to easing a bad traffic condition in a heavily congested area where parking facilities are at a premium; that the parking garage entrance is contiguous to the proposed right of way and side entrance to the building; that the certificate of occupancy notes that the garage in this building is for the exclusive use of tenants of building or their employees, customers or patrons; and

WHEREAS, the applicant states that the present owner has held title to the property since May 29, 1951 and that the assessed valuation of land is \$125,000; and

WHEREAS, no further inspection has been made of these premises in view of the Board's familiarity with the site and the vicinity from previous inspections; and

WHEREAS, the Board found that the space would be objectionable to adjoining owners not only for parking but particularly for the proposed thoroughway; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions c and h of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 65/54, Objection No. 1 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

226-41-BZ—Vol. III

APPLICANT—James E. Casale, for Anton Meister, owner.
SUBJECT—Application reopened April 12, 1955 as Vol. III

—re (decision of the borough superintendent) under sections 21 and 7e of the zoning resolution, to permit in a residence use B area district, the erection of a building to be used for dwelling, accessory practice of chiropractic and private art gallery using in excess of 65% of the area of the lot.

PREMISES AFFECTED—60-62 East 86th street, south side, 134 ft. $5\frac{1}{3}$ in. east of Madison avenue, Block 1497, Lots 48 and $48\frac{1}{2}$, Borough of Manhattan.

APPEARANCES—

For Applicant: James E. Casale, Jacob Kaplan and A. E. Gunther.

For Opposition: None.

For Administration: John J. Saunders, B'd of Education.
ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, on July 15, 1941 under Cal. No. 226-41-BZ, Vol. I, an application filed pursuant to section 7, subdivision a of the zoning resolution, to permit in a residence use district the alteration and extension of an existing business building, was withdrawn after argument; and

WHEREAS, on November 27, 1951 under Cal. No. 226-41-BZ, Vol. II, the Board granted a variation of the use and area district regulations of the zoning resolution under section 7, subdivision (e) and section 21 to permit for a term of 10 years the occupancy of a building one story in height, for use as a store, 30 ft. front by 90 ft. 2 in. in depth; and

WHEREAS, this application was reopened by a vote of the Board April 12, 1955 as Vol. III, to consider a new proposal and a new decision of the borough superintendent; and

WHEREAS, a public hearing was held on this application on June 1, 1955 after due notice by publication in the Bulletin of the Board; and

WHEREAS, the maps accompanying the zoning resolution show that the site is in a residence use, D area, class $1\frac{1}{2}$ height district; that Madison avenue is in retail and restricted retail use districts; that the balance of the area deemed affected by the Board is located in a residence use district and the entire area deemed affected by the Board is located in a B area, class $1\frac{1}{2}$ height district; and

WHEREAS, the decision of the borough superintendent dated March 10, 1955 on N. B. Applic. 16-55, reads:

"1. Proposal to erect a building in a 'Residence B' district on an interior lot and occupying more than 65% of the area of the lot at curb level is contrary to Art. IV Sect. 12 of the Zon. Resol.

2. Proposal to use the 1st floor for the practice of chiropractic as accessory to residence and the 2nd floor as a private art gallery are not permitted uses in a residence use district. Art. II Sect. 3 of Zon. Resol."

and

WHEREAS, the applicant states that the proposed building will be 3 stories, 35 ft. 4 in. in height, 30 ft. front by 90 ft. in depth at street level, 30 ft. front by 66 ft. 4 in. in depth at typical floor level, of class 3 construction, located on a lot 30 ft. front by 102 ft. 2 in. in depth, and used and occupied as a dwelling and for the accessory practice of chiropractic and for a private art gallery; and

WHEREAS, the applicant contends that on the plot there is a foundation wall for a building one story in height beginning at a point 2 ft. south of the building line and extending 90 ft. south to a point within 10 ft. 2 in. of the rear lot line; that this building was started pursuant to a variance granted by the Board under Cal. No. 226-41-BZ but was subsequently abandoned and therefore only the foundation walls and first tier beams exist; and

WHEREAS, the applicant states that the proposed new building will be occupied by the owner, who will make his residence on the 2nd and 3rd floors and will use the 1st floor as offices and treatment rooms in the practice of his profession of chiropractic; that in addition to the professional suite, a complete apartment will be installed in the rear of the building for the owner's daughter's residence; that the cellar of the building will provide an office for secretary and files in conjunction with the professional use on the 1st floor; and

WHEREAS, the applicant states that the proposed building will extend 90 ft. from the building line on the 1st and 2nd floors for the full width of the lot; that the 3rd story will extend but 66 ft. 4 in. back from the building line, which is the allowable coverage in a residence use, B area district; that the rear yard remaining will be 10 ft. 2 in. in depth; and

MINUTES

WHEREAS, the applicant contends that the building to the west is a five story store and dwelling occupying the entire lot on the ground floor; that the easterly adjacent 14-story residence building is built to a depth of 88 ft. from the building line; that neither of these two buildings will be affected by the proposed extension as they receive adequate light and air from their present surroundings; that the westerly building adjoins a school playground which is unbuilt upon and the apartment building adjoins to the east has adequate light and air by virtue of its yard and courts; that the property directly to the rear of the building in question is occupied by a public school and its light and air will not be impaired due to the fact that the school has a playground area for that purpose; and

WHEREAS, the applicant contends that although section 3 of the zoning resolution prohibits the practice of chiropractic in a residence district, he is of the opinion that this profession should not be classed as undesirable in a residence use district; that 58 East 86th street is occupied as a beauty salon on the 1st story which constitutes a non-conforming use in a residence use district; that the proposed building will enhance the surrounding property and will in no way have an appearance other than that of a fine, exclusive residence building; that the use of the 2nd floor by the owner as part of his residence will include a private exhibition room for the owner's personal art collection; that no sales will be made on the premises and the owner does not intend to commercialize his art collection, but rather to provide suitable surroundings for the display of portraits and other valuable works of art he has collected; and

WHEREAS, the applicant states that the present owner has held title to the property since February 4, 1955; that the assessed valuation of land is \$64,000 and of the building \$11,000 making a total of \$75,000.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on November 27, 1951, by adding thereto:

"that in the event the owner desires to construct a building three stories and cellar in height for the occupancy as now proposed and as indicated on plans filed with this application, marked 'Received March 22, 1955', 7 sheets, such change may be permitted provided the requirements of the resolution above stated shall not be increased as to area coverage and that the area above the first floor shall not exceed that shown on such plans; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the occupancy shall be as proposed; that signs shall be restricted to those permitted in a residence district, including a bronze sign not over 100 square inches in area at the entrance to the professional office; that suitable fences shall be maintained on the rear and side lot lines; that the rear yard shall be paved and drained; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution."

30-48-BZ—Vol. II

APPLICANT—Adolph Friedel, for Moe Friedel, owner.

SUBJECT—Application reopened May 3, 1955 for consideration as to amendment of resolution—re (decision of the borough superintendent) previously granted on condition, under sections 7c, 7i, 7A and 7h of the zoning resolution, permitting in a residence and business use district, the reconstruction and extension of existing gasoline service station to include boiler room, lubritorium, auto laundry, motor vehicle repair shop, sale of accessories and office and also the parking and storage of more than five motor vehicles and with curb cuts more than the permitted distance from the intersection.

PREMISES AFFECTED—1701-1725 Bedford avenue and 109-131 Sullivan place, northeast corner, Block 1304, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Adolph Friedel.

For Opposition: None.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application (Vol. I) under sections 7c and 7e of the zoning resolution, to permit in a residence and business use district, the proposed change of use from existing office, gasoline service station and lubritorium, to include the parking and storage of more than five motor vehicles, affecting premises 1701-1725 Bedford avenue and 109-131 Sullivan place (street), northeast corner, Block 1304, Lot 1, Borough of Brooklyn, was withdrawn without prejudice on December 7, 1948; and

WHEREAS, on September 27, 1949 the Board reopened this application as Vol. II, subject to the usual procedure, to consider a new decision of the borough superintendent; and

WHEREAS, on February 7, 1950 this application was granted on condition under section 7c to permit gasoline service station to be reconstructed and to permit the parking and storage of motor vehicles under section 7h for a term of two years within the residence use portion of the plot; and

WHEREAS, on April 11, 1950 this application was reopened and resolution amended to read—"that there shall be erected along the rear lot line to the east a substantial masonry wall—"; and

WHEREAS, on October 17, 1950 this application was reopened and resolution amended and time to complete extended; and

WHEREAS, on June 5, 1951 the Board reopened this application and amended the resolution as to curb cuts; and

WHEREAS, on February 5, 1952 and February 24, 1954 the term of variance was extended under section 7h for a term of two years; and

WHEREAS, on July 27, 1954 the Board reopened the application and amended resolution to read—"that in event the owner desires to maintain a diner on the premises as proposed, such extension of use may be permitted"; and

WHEREAS, the applicant requested reopening of this application and amendment of the resolution; and

WHEREAS, this application was reopened on May 3, 1955 and set for hearing on June 1, 1955 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on June 1, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated April 29, 1955 acting on N.B. Applic. 659-54, reads:

"2. Proposed used car sales lot, in connection with an existing gasoline service station, lubritorium, auto laundry, office, parking & storage of more than 5 cars, on a lot partly located within a residential district & partly within a business district, is contrary to Art. 2 Sect. 3 & Art. 2 Sect. 4a-46 of the zone resolution."

and

WHEREAS, the applicant states that his client desires to lease the northerly 40 ft. of the premises known as 1701 Bedford avenue, Brooklyn, for use as an open used car lot; that there will be no buildings erected in this area.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on February 7, 1950, as thereafter amended by resolution adopted through July 27, 1954 by adding thereto:

"that in the event the owner desires to occupy a portion of the space, heretofore permitted for parking, also for the sale of used cars that such space as indicated on plans filed with this request for amendment marked, 'Received, May 3, 1955' (one sheet) may be so occupied toward the northerly portion of the plot, as thereon indicated, and separated from the balance of the premises

MINUTES

by a pipe barricade as proposed and as indicated; that such space may be rented to the car sales agency now located in the building adjoining to the north; that there shall be no opening from such building to this car sales space; and that signs shall be restricted to a sign of the size as indicated on such plans; that in all other respects the requirements of the resolutions above cited shall be complied with."

344-54-BZ

APPLICANT—Ludwig P. Bono, for Lax Realty Corp., owner, Peter Taylor, lessee.

SUBJECT—Application May 4, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a residence use district the change in occupancy on second floor, from showroom to offices and studio (charm and fashion consultants).

PREMISES AFFECTED—409 Central Park west, west side, 75 ft. 8 in. south of West 101st street, Block 1836, Lot 33, Borough of Manhattan.

APPEARANCES—

For Applicant: Ludwig P. Bono and Martin Lax.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on June 1, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Central Park west and West 101st street are in a residence use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated April 22, 1954 acting on amendment to Alt. Applic. 174-50, reads:

"1. Proposal to change the use of the 2nd floor of premises, located in a Residence Use District, from one non-conforming use to another non-conforming use is contrary to Art. II Sect. 3 and Sect. 6(a) of the Zon. Resol."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 ft. 3 in. frontage by 100 ft. in depth, on which is located a building 25 ft. 3 in. front by 97 ft. in depth, 2 stories, 32 ft. in height, of class 3 construction, used as store (tailoring and dry cleaning) on 1st floor and showroom on 2nd floor and was erected in 1908 prior to zoning laws under N.B. 131-08 for use as stores; that Alt. 138 of 1923 indicates building legally used for store and showrooms; that it is proposed to use the second floor as offices and studio (charm and fashion consultants); and

WHEREAS, the applicant contends that in January 1950 the present owner rented the entire building from the previous owner with the express purpose of installing a store for tailoring and dry cleaning on 1st floor and sub-leasing the 2nd floor as a showroom; that in March 1950 plans were approved by the department of housing and buildings under Alt. 174-50 for these uses; that in connection with this alteration the front was remodeled into its present dignified treatment; that the 2nd floor remained vacant until June 1950 at which time a religious group rented this floor for use as a synagogue under an amendment to Alt. 174-50; that although work was completed and 2nd floor occupied as such for several months, it was subsequently vacated before a certificate of occupancy could be obtained, thus causing the floor to revert to showroom occupancy; that the present owner acquired title to the building on June 29, 1950 and found himself with a half occupied building with the ever present heavy overhead placing his very substantial investment in peril; that consequently the owner, in the mistaken

belief that the law permitted the transition from showroom to offices and studios, granted a lease to the present 2nd floor tenants (exclusive charm and fashion consultants engaged in editorial and promotional activities in connection with publication of a charm magazine and also charm and fashion consultants with clients); that although the owner, out of extreme necessity and good faith, violated the zoning law in permitting the change in question, he did not adversely affect the neighborhood character since the professional nature of the present offices and studios with its quiet dignity is more in keeping with the surroundings than the contrasting flamboyancy of the existing legal showroom use with its inherent heavier traffic and loading and unloading operations; that the neighborhood, containing several non-conforming uses such as multi-story public garages in lot 1, block 1835, stores in lots 11 and 21 of block 1837, stores in lots 54 and 47, block 1836, and on Central Park west in lots 29 and 31, restaurant, store and hairdressing salon, is primarily residential in character; and

WHEREAS, the applicant states that the present owner has held title to the property since June 29, 1950; that the assessed valuation of land is \$25,000 and of the building \$20,000 making a total of \$45,000; that the building was erected in 1908; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7e for a term of ten years, to permit the occupancy of the 2nd floor of the building for the use as proposed and indicated on plans filed with this application, marked "Received May 4, 1954," 4 sheets, on condition that the use as proposed shall conform to that permitted in a restricted retail district; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within six months from the date of this resolution.

415-54-BZ

APPLICANT—Charles Abrahams, for Peter Bilinski, owner.

SUBJECT—Application May 25, 1954 (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in an unrestricted use, D area district, the demolition of existing frame structures and the extension of building under construction on remaining unbuilt upon portion of plot to be joined with existing structure fronting on Liberty avenue, using more than the area permitted.

PREMISES AFFECTED—148-15 105th avenue, north side, 125.15 ft. east of 148th street and 148-12 Liberty avenue, Block 10061, Lot 12, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Charles Abrahams.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on June 1, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Liberty avenue, 105th avenue and 148th street are in an unrestricted use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 11, 1954 acting on N. B. Applic. 3956-52, reads:

MINUTES

"1. The covered area of plot is contrary to Art. 4 Sec. 14(c) of Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50.04 ft. and 25.02 ft. frontage by 211.30 ft. in depth, irregular, on which there exists a one story non-fireproof store building fronting on Liberty avenue having an area of 800 sq. ft. of no record, and two frame buildings of no record having a combined area of 2,160 sq. ft.; that N. B. Applic. 3956-52 was approved for a one story building 25 ft. by 105 ft. fronting on 105th avenue, which is now being erected; that the two frame buildings will be demolished and the one story store building fronting on Liberty avenue will be used as an office for the establishment; that it is proposed to extend the one story building now under construction to occupy the remaining area of the lot; that the total area occupied will be 6,673.5 sq. ft., of which 700 sq. ft. will be loading space, and the area occupied in excess will be 2,303 sq. ft.; and

WHEREAS, the applicant contends that the owner of the subject premises is presently engaged in the manufacture of auto truck bodies on the ground floor of 148-15 Liberty avenue, directly opposite the site; that the area of this establishment is extremely inadequate for his business and in order to acquire additional space he is now erecting the 25 ft. by 105 ft. building located on the site and fronting on 105th avenue; that the granting of a variance to extend the area of this building would make it possible for the owner to discontinue his establishment at 148-15 Liberty avenue and conduct his entire business under one roof, thereby increasing his efficiency of operation; that Liberty avenue is a very heavily trafficked street at this point and hazardous to cross; that the granting of a variance will not affect any adjoining premises as to light and air; that the proposed extension will result in improving the existing conditions; that the frame sheds will be demolished, thereby removing a fire hazard; that the unobstructed entry to the unenclosed area on Liberty avenue and to the frame shed will also be eliminated, thereby removing a condition which promotes vagrancy and juvenile delinquency; that the maintenance of existing conditions is less desirable to adjoining property owners than the erection of a building without open spaces in conformity with section 14(c) of the zoning resolution; and

WHEREAS, the applicant states that the owner has held title to the Liberty avenue frontage since February 14, 1950 and to the 105th avenue frontage since February 28, 1952; that the assessed valuation of land is \$7,200 and of the buildings \$4,800 making a total of \$12,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21, as to area, to permit the building as proposed and as shown on plans filed with this application, marked "Received May 25, 1954", 4 sheets, and "May 2, 1955", 1 sheet, to be reconstructed, replacing existing buildings and existing open spaces, *on condition* that the proposed building shall not be increased in height or area beyond what is now proposed and in all other respects shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

581-54-BZ

APPLICANT—Joseph Cohen, for Jack and Ruth Feldman, owners.

SUBJECT—Application July 12, 1954 (decision of the borough superintendent), under sections 7a and 21 of the zoning resolution, to permit in a residence use, E-1 area

district, the existing occupancy as three family dwelling, formerly a two family dwelling, without the required side yard and nearer to street line than is permitted.

PREMISES AFFECTED—1925 Hering avenue, west side, 243.76 ft. north of Rhinelander avenue, Block 4275, Lot 29, Borough of the Bronx.

APPEARANCES—

For Applicant: Joseph Cohen and H. Silverman.

For Opposition: None.

For Administration: John J. Saunders, B'd of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 8, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, for inspection and decision; hearing closed; then to April 12, 1955, for applicant to file plans with the borough superintendent and obtain a complete examination and a new decision and to file an administrative appeal with the Board if necessary; premises have been inspected by a committee of the Board; then to April 26, 1955, for further consideration as to new objection filed at this hearing and revised plans filed at this hearing and for report from the Department of Housing and Buildings on letter written to that department; then to May 17, 1955, applicant to be notified; then to June 1, 1955, for further consideration after applicant has investigated recent amendments to the Multiple Dwelling Law; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Rhinelander avenue is in a residence use, E-1 area, class 1¼ height district; Hering avenue is in residence and business use, E-1 area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated June 26, 1954 acting on Alt. Applic. 478-54 and superseded by decision dated May 24, 1955, re Alt. Applic. 478-54, reads:

"A1. Changing the occupancy of the 3 story 2 family brick dwelling to 3 family occupancy in an E-1 area district is contrary to Section 15A(a) of the Zoning Resolution.

A2. Conversion of the 2 family dwelling to 3 family occupancy in an E-1 area district is contrary to Section 15A(e) and 19(g) of the zoning Resolution in that the side yard must be at least 15 feet in width as per Departmental decision of Borough Superintendents, at a meeting held on March 5, 1954 under item #2."

and
